Subject: AL QAUIDA - OIL FIELDS - US PARALYZED

In summary, the purpose of this relatively long and heavily broadcasted communiqué is to explain the genius thinking that went in to the not so Top Secret Israeli Military

Intelligence report that in a nutshell points out that in the opinion of Israel's intelligence community, the United States of America is fully behind not only the "insurgents" in Iraq and Afghanistan but all the terrorism throughout the world given how extraordinarily easy it would be for Al Quaida to launch a series of attacks on the oil fields of the Middle East, and if not capable themselves, then to find the Petro Dollars to finance a unit of Hezbollah Special Ops, so very brilliantly mimicking Israeli Special Forces, "*sticking to their knitting*" as well as simply remaining in their own backyard beginning with Saud Arabia which Al Quaida argues is the reason for being at war with the U.S.; the DAAC House of Saud has always been fully under the control of the DeBeers-Anglo American Cartel controlled U.S. and the reason for 911 that resulted first in the DAAC U.S. invasion of Afghanistan to take control of the world's largest opium production, some 90% destined for U.S. consumers and then Iraq sitting atop high quality oil fast running out.

Begin by thinking which member of the world's intelligence community would make the decision to prevent this rather important communication reaching President George W. Bush without a single analyst willing to redact a letter let alone a word.

The intellectual honesty of a nation can be heard by how aggressively the opposition government reflect the cries of the disenfranchised.

In Great Britain it is the "*Shadow Government*" backed up by the Queen of England who most are taught to believe has no power despite the wealth of the British Monarchy continuing to prevent this not exactly powerless or apolitical succulent bureaucracy from living out the remainder of their lives in the "*poor house*."

The ability to talk and do other things like chew gum as well as scratch one's head all at the same time allows when also remembering to wave the hands all forms of distractions including making arguments such as the Royal Families throughout the world "pay for themselves" in a myriad of ways beginning with being quite the tourist attraction which brings business as well as foreign capital in to the "*local economies*".

For the 21 years shy of one week I lived in South Africa prior to immigrating to the U.S. on March 17th 1978 there was always at least one "*opposition party*" to the DeBeers-Anglo American Cartel controlled South African Apartheid Regime.

Constantly in the background there was this chatter of Anglo South African Harry Oppenheimer being a fervent supporter of both South Africa's "Opposition" to the most savage Apartheid Regime that stole power in the 1948 General Election within a month of the DAAC controlled United Nations granting Statehood to the modern State of Israel that the world's ruling elite expected to last no more than a matter of days if not hours.

The knowledge that Harry Oppenheimer and the rest of his clan were the richest family in South Africa proved rather settling to most "living well" seeking ways to ease their conscience.

Jewish South Africans in particular viewed such support by a worldly and well educated South African as rather important to their own survival that depended on also reminding themselves, "*If there was not a Black problem in South Africa there would be a Jewish problem.*"

It didn't seem to matter to any Jewish person that I knew, apart from my mother, that Harry Oppenheimer was not a "*practicing Jewish person*" nor the fact that very well traveled Harry Oppenheimer had as his American partner another non-practicing Jewish person who not only was an "*open supporter*" of the South African Apartheid Regime but American Charles Engelhard was also openly supportive of the Kennedy clan, considered by most, not only Jewish South Africans as the most "liberal" family in the United States in support of many things beginning with a bloated freeloading bureaucracy.

Listening to anyone but my own very worldly mother didn't seem to make a lot of sense.

Trying to talk sense in to the ears of my friends many openly in support of South Africa's opposition party seemed more than irresponsible given how obvious it was to me that the DAAC would easily be able to buy off all the world's opposition parties not just those in South Africa who failed to point out the "disconnect" in the political views of two of the most prominent people in South Africa.

The fact that many a South African would even today attempt to argue that the name Charles Engelhard "*never meant anything to me*" only adds weight to my contention that South Africans of all races as well as Americans of all races are the most brain dead peoples in the world.

If I were to follow one of my mother's teachings, "*Keep your friends close and your enemies even closer*" I assumed that the DAAC would be able to do the same if not better given how easy it was for them to "overnight" both create and destroy wealth.

It is going on 47 years since American Charles Engelhard arranged the meeting at the Carlyle Hotel located on the upper east end of Manhattan, New York City, between Harry Oppenheimer and President elect John F. Kennedy with anybody who was anybody "*looking in*" including all 3 Branches of the U.S. Government that included the Director of the Secret Service whose mandate is to protect both the President of the United States as well as the currency from counterfeiters.

The "deafening silence" of those speaking out the loudest against stuff like "globalization" is if nothing else sobering.

The DAAC have all day and night to plan the next day's news headlines knowing that any opposition can be instantly silenced.

Bankruptcy is not a pleasant experience unless of course you have someone such as me at your side.

When a nation is morally bankrupt however, there is little that even I who has all the facts and have survived now more than 50 years can do but wait and enjoy each passing moment as those who continue to usurp their limited authority squirm.

To sit on one's hands at this most important time in the history of the world when we can all understand why certain parts of the world are so poverty stricken is such a heinous crime that I for one would advocate that we, the people of the world, consider adding to the 10 Commandments.

Remember that not only have I broadcasted already to the world an email I received from the FBI back on January 21st 2004, "*Please clarify to whom this email is addressed to. Thank you - San Diego FBI*" but it is not only the FBI who fully appreciate how I managed rather well to maintain my silence for some 24 years following getting my "arms around" all the evidence that proves beyond a shadow of a doubt that the FBI along with the 3 Branches of the United States Government including the U.S. Supreme Court are bought and paid for by the DeBeers-Anglo American Cartel, the special interest of special interest Secret Society first envisioned by their founder Cecil Rhodes and so well described in his first will.

Not to mention my communications with the DAAC that I shared with all the world's intelligence services beginning on November 11th, 2004 in which I established very clearly that not only did I work back in 1980 for Codiam Inc. the DAAC's principal money laundering and intelligence gathering operation but I shook hands daily and often broke bread with the DAAC's principal Black Hatter Martin Rappaport who received when visiting Codiam Inc. headquartered on 47th Street the fixed pricing of "cut" and polished stones, a far cry from the DAAC's "uncut" diamonds which takes place over in England at the DAAC's Central Selling Organization which the Justice Department have maintained for the past century doesn't provide them with "jurisdiction" to prosecute the DAAC for violating our sacrosanct Anti-Trust/Anti-Price Fixing laws that enable the DAAC to be the world's very top banker and counterfeiter.

To mention little with the DAAC's diamond studded iron fist control of both Madison Avenue and Hollywood before anything is broadcast over the main stream media, of course excluding the Internet, this most plotting institution able to co-opt-corrupt anyone "worth talking about" are able to take their time in figuring out how best to make it look like each one of us has "free choice" as they back all sides to all arguments so long as the DAAC are not the focus.

It is quite the "Mind Game" this Diamond Invention written by Hollywood blockbuster author Edward Jay Epstein, of course just another "little cat" who thought he would live out his life never being questioned apart from by his DAAC bosses who have now in fact "met their match" with not only the mind game of mind games but the fact that it is me, not exactly a nobody who has for several weeks been the "lone voice" informing the world of the very easy to understand not so top secret Israeli Military Intelligence report which has grabbed the attention of each and every person, especially those NOT living the "Life of Riley".

Before I address your very easy to understand question, "*Can we leverage the awareness of Darfur to reach more sensitive people?*" let me address some of the extraordinary events that have occurred in the past 24 hours beginning with your decision to leave your wife despite writing her just 5 days ago a heartfelt email that ended, "I love you" and began just as mindful, "*You are right to feel that way. I don't know if I would feel any different than you do, if the roles were reversed*" bearing in mind that while you don't have any kids just a couple of cats and debt to divide and I assume equally although she might make the case in support of her position, "*I don't support you*" that your combined business debt is "*yours for the keeping*", you decided to break with Conventional Wisdom that says, "*If you cannot be a financial provider you are a nothing!*" even prostitutes "earn their keep", and attach yourself to working on one of many projects around the world where you are not getting paid a nickel, with no

guarantee of earning a penny but of course you know you are on the side of truth which is priceless.

Not to mention of course you also understand perfectly well given your well above average intelligence, the result of not spending a lifetime too busy keeping track of your lies from day one that creates all the short-circuits in what were at one time perfect brains, that not only can I afford to pay you but I could do it in a way that is totally untraceable, totally tax free without even having to draw on my intimate knowledge of how the Diamond Invention works where the very top dogs don't have to worry about anything financial including finding the money out of their food budget to pay a parking ticket fine for one of their many automobiles parked illegally or how about the daily distraction caused by their co-dependant, non-independent thinking children that mostly has mothers who serve as glorified maids having to constantly remember to remind themselves to remind their maids or the kids, depending on whether it is the maid's day off, to take their sandwiches before heading out to school.

Ah so busy are all those with so much time on their hands that they feel the need when telling me how boring I am while really wanting to tell me, "*I don't want to hear what you are saying*" to then every so often take the time out of their busy schedule to send me an email first asking, "[Please remove me from your email list](#)" immediately followed by letting me know that they at least think enough of themselves to know that there is very possibly "*method to my madness*" and suggest as Bela Wouters did last evening at 6:09 PM in response to my "favored slave" communiqué to Favorite Slave John Dau;

[Recommend you put everybody's name in the Bcc... instead of the To:](#)

Not to mention my reply at 8:04 this morning;

[Why?](#)

[And why do you recommend that I put everybody's name in the Blind copied section?](#)

To mention little of how many times do I have to repeat how very effective I have been in increasing the circle of those dependant upon my insight and analysis of the important events of the day by those in the *To:* as well as Carbon Copy section not knowing who is Blind Carbon Copied as well as those BCC every so often receiving a PARTIAL LIST of others Blind Carbon Copied which contributes greatly to those whose formal education has interfered with their learning going stark raving nuts.

To mention in passing [Bela](#) going to the trouble of signing her name in the font size 18.

Quite a journey you have traveled in less than a week considering that you have economic skills significantly superior to your graphic designer wife who produces advertising to sell the discombobulated American masses more junk.

So how nuts are you considering the fact that your wife is not exactly a dog, and was simply letting you know that so long as you weren't aligned with me exposing her Achilles Heel she would be all yours and of course she is intelligent enough to know that

your skill-sets are very possibly more marketable than 99.99% of the people receiving this communication in the first hour, representing a statistically valid sampling of the world's literate and of course most crooked population who also understand that you are far from nuts and can see the "writing on the wall" beginning with why it is that I and I alone have been trusted to inform the world of the not so Top Secret Israeli Intelligence Military report that says in a nutshell Americans getting more than fair share of the graft-spoils of diamond drilling bit civil oil wars are fucked.

Why not put aside my Charm School teachings as well as a better than average command of the "sly English" language let alone share so much "intimate" information while never forgetting, not even for a moment, my God-gifted precise logical reasoning that has me thinking mathematically the most precise and spiritual of the languages before then translating in to the English perhaps the most imprecise of all languages bearing in mind that those at the highest levels of the very dark DAAC pyramid have, given their untraceable currency, all the most private information on each and every person on their payroll which is rather easy to figure out by simply looking at who exactly in each of our inner circles is not speaking out against the DAAC who interfere with the light, increasing less so as time marches on and each and every person in the world literate and illiterate focuses that much more not only on my first hand intimate knowledge of the Agenda of the DAAC but on the not so Top Secret Israeli Intelligence report which to repeat ad-infinitum until such time as we have the sooner of world peace or Armageddon,

Immediately following the Beijing 2008 Olympic Games Al Quaida will launch a series of attacks on the oil fields of Qatar, Kuwait and Saudi Arabia that in the very next instant will paralyze the U.S. economy.

Not to mention my Royal Mater-Mother, Zena Gevisser would ever since I was a kid remind every so often,

"The only difference between Americans and us English is the English language."

Now let me come back to the May 5th 2006 email sent to me by Dawn, the on-off again girlfriend of Dr. John BIG BEN Stewart MD, a no longer practicing pathologist at the heavily corrupt pathology department of Sharp Memorial Hospital, San Diego, not to mention Dawn's decision to write me at 7:24 PM her illegal physical threatening email from the slimeball of slimeballs email account, JBSTE@aol.com; all their "true color" verbiage in response to my heavily broadcasted and of course both truthful and not in the least bit physically threatening communiqué titled, **Prediscovery work for criminal as well as civil complaint against The Sperm Donor aka THE IT also known as Dr. John Ben Stewart MD et al [and all].**

Fuck off Gary - this is not the sperm donor but Dawn. If you would like to confront me - be foolish enough to. I am about two feet taller than you and will chew you up and spit your stupid ass out. You have been sucking life off of everybody you latch onto you POS (piece of shit). Each day I pray Marie will get a voice from God to dump your stupid ass because she could do a lot better. What? The alimony and child support petering out you pathetic loser. John is an honorable man, has supported kids well, and you are just a lowly opportunist.

Go to your hill in the mountains and talk to the animals. Now stop violating the restraining order before we get another one.

Again, one should always read pretty much everything from the bottom up and when Dr. JBS' lawyers got wind of those words, "before we get another one" they would remind both themselves and Dr. JBS "THEY", by "lying through their teeth", illegally obtained a Temporary Restraining Order against me on the first anniversary of 911 some 3 days after he, the non-athlete of non-athletes with however quite the gun collection as well as stash of prescription and non-prescription illegal drugs, attempted to goad me out of my motor car and engage him in a fist fight, before deciding to take the "offensive" and with his 10 year old son JoNathan in hand race down to the courthouse on September 11th, 2002.

And of course you would perfectly understand when filing this baseless criminal complaint against me that resulted in a TRO being served on me that of course was lifted when we all appeared in court later on October 24th, 2002, this most disgusting poor sight pathologist stealing blind from momworkers, pensioners, widows, widowers and orphans described me in the complaint signed under penalty of perjury as quite the giant.

3. a. Defendant (name): Gary Gevisser

Sex: M F Ht: 5'11" Wt: 180 Hair color: Br Eye color: Br Race: W

b. Defendant's residence address (if known):

c. Defendant's work address:

Not to mention the only thing The IT got right was my sex whereas the rest of the physical description described exactly including the age those belonging to Dawn at the time although I daresay just when looking at her butt all that 180 pounds of fat may have since congregated.

To mention little of THE IT soon after being granted this illegal obtained TRO and immediately after the first court hearing where the entire courtroom heard his lawyer George "Money Talks" Hearst Esq. admonishing him loudly, "YOU HAVE COMMITTED PERJURY", chose very carefully on that same afternoon right after I returned from the courthouse and was on the phone with my lawyer Mr. James C. Ashworth Esq. to summon the services of both the FBI and San Diego Police Department in an effort to further intimidate me.

To mention in passing yet again in the presence of an agent Detective Jeffrey Steele handed me his business card to "call anytime" once he and the FBI agent got their "arms around" how very plotting was this flat line plotter, capable of getting both the FBI and SDPD to do his "dirty work".

Now we go to Dawn who has a history of court appearances that resulted in her losing custody of her own children, "Each day I pray Marie will get a voice from God" who so far is doing the most brilliant job in exposing both these human monsters.

And of course God working wonders then got Dawn, again using the infamous JBSTE@aol.com email address to send me the next day. Saturday, May 6th at 8:24 PM, the following email in response to my follow up heavily broadcasted communiqué titled, "**G-D DOES NOT EXIST**"

This is Dawn you bozo. You are just a pile of shit in a sand box where everyone plays. They just toss you aside to avoid picking you up and tossing you out of the box. You are now blocked again. This will have serious consequences for you, Gary. I suggest you get back on your medication. John is a wonderful, caring and kind person who loves his children very much. Children have an amazing quality when they're older to sift out the bullshit and you will be eventually sifted out. We are mature and have no need to tell the children anything because we have confidence they will come to the right conclusions about you in due time. We love the kids very much and have a very solid, happy family - not disjoined with a chaotic nutcase who gets exiled when he's supposed married. Ha ha! Have a little SBS problem when exiled? (sperm backup syndrome). I am now blocking your pathetic ass again. Toodles.

The worst of course was immediately after filing the baseless and so insidious criminal complaint against me this scum of scums, monster of a human being when confronted by his X wife responded to her outrage with,

"Become my co-dependant or face the distinct possibility that you will lose your children if you show up in court opposing me!"

Not to mention that Dawn remains a part of The IT's household despite The IT using his daughter Danielle to get out of marrying Dawn making him a 3 times married human beast-sperm donor; the most extraordinary head-trip abuse of a minor occurring when The IT who was not in the least bit supportive of Danielle becoming financially independent and getting a job at age 15, sought permission from her to marry Dawn.

Approaching Danielle during a 10 minute break at her first job, The IT methodically laid out that in the event Danielle were to "grant him permission" to marry Dawn both Danielle's as well as her younger brother's Trust Funds would be significantly adversely impacted.

No doubt to The IT's surprise, Danielle responded, "*If you love her you should marry her. I don't care about my Trust Fund!*"

That beyond belief mind fuck event took place less than 2 years ago and there has been no further mention of marriage date between The IT and his co-dependant on-off again girlfriend.

Please would all those out there aware of anything more evil share with me and the rest of the world all those details which in my humble but seasoned opinion would only make such a beast on a par with The IT who is unquestionably The Slimeball of Slimeballs, intellectual midget of intellectual midgets, the reincarnation of Hitler but without Hitler's intellect.

Yes, the more we know about each other the less likely it is that we would be able to convince the world's poor to fight it out amongst themselves just so that the filthy unconscionable rich can continue to trickle down the costs of getting richer on the back of the poor who are not stupid, just misinformed.

Now before informing you of the history lesson JoNathan learned about at his high school yesterday consider how very easy it is going to be following our Video On Demand casts for grossly underpaid American forces throughout the world to get their arms around how very out of hand is the not so little "small talk" going on in the United States Congress as the politicians-journalists-talk show hosts, all one and the same, duck the so very important not so top secret Israeli Military Intelligence report that has them as logic would dictate, looking like they are chickens running around with their heads chopped off, all the while calling our military fast getting up to speed that they fighting for a bunch of ruthless, cold hearted elitists, a bunch of chickens.

Not to mention how increasingly unnerving it is for DAAC Hollywood spokespeople like David Lettermen to have joke writers continue making fun of America only involved in foreign wars to serve America's "financial interests" as such jokes get increasingly "close to home".

JoNathan learned that, "*DeBeers are today just like they were a century ago the largest diamond company in the world.*"

Then with one of his surfing buddies who drives him to and from school every day when he is not in the void of humanity not to mention disgusting table manners of THE IT's custody, JoNathan went on to show me a photo of Cecil Rhodes from page 344 of his Modern World History book, before mentioning;

"The Anglo Boer War was between the Dutch farmers and the British because the British were coming to South Africa to get the fortune of South Africa's natural resources and the Dutch settlers-Boers-farmers also known as Afrikaners did not want the British who took over in the early 1800s from the Dutch who arrived in the mid-1600s, to have political power."

Now think of what effort it is taking to get John Dau to see the light as this so prominent leader of the *Lost of Boys of the Sudan* took no time to speak of before thinking no different to kids-"DiKs" [sic] whose Trust-Educational-Funds disappear overnight if those in command and control of the world's military were to become sensitive humans and do the right thing and the smart thing which is also the right thing and "*give peace a better chance*" first by making certain that during basic training every member of United States forces understands exactly why IT IS that that neither the history books nor the history teachers mention the so very important facts that it was America, more precisely American bankers who bankrolled both the Anglo American Boer-Farmer War that resulted in the starvation in concentration camps of some 20,000 Afrikaner old men,

women and children as well as some 10,000 South African Blacks who were fighting alongside the Boers but the American led 8 Allied invasion of China in 1900.

Not to mention that when I was growing up in South Africa my highly secretive Royal Mater-Mother who had me listen to the same problems of the world relayed in her pogrom orphaned paternal grandmother, Nechie Badash's presence and the solutions to many of these problems, would make a point of letting me know,

"The Afrikaners who came to power in 1948, the same year Israel was granted Statehood, were not so much in support of Germany during World War II as they were opposed to the British following the Boers defeat during the Anglo Boer War of 1899-1902."

To mention little of when I would respond to this utter nonsense with, "*What about Jan Smuts who was an Afrikaner and was defeated by the Nazi South African National Party in the so very rigged 1948 South African General Election?*", my very brilliant mother who knew better than to tell me what to do and how to do it but encourage me to keep questioning until such time as my common sense had her convinced I was an "*independent thinker*" and therefore safe from the nonsense talk of bought and paid for idiot teachers and professors focused on interfering in the logical thought processing space between my ears, would respond succinctly, "*Smuts had become an international statesman and simply got distracted!*"

To mention in passing, my Royal Mater is currently extraordinarily quiet, knowing however, all about the extraordinary close connection between "information runner" Nechie Badash and David Ben Gurion, both coming from the same very tiny village of Plonsk, White Russia-Poland.

There are not many if any people still alive today who at age 19 and less than 3 months married to my father whose father, Israel Issy Gevisser owned priceless properties in Haifa harbor, Israel, "*From the earliest days of 1949 she visited Israel two and three times a year writing reports for different publications*" and for good reason neither DBG nor the Mossad who began reporting directly to Ben Gurion in December 1949 had any "problem" with my "consigliore of consiglores" mother being the first "*first civilian in the captured area of the Sinai*" immediately following the June 1967 Arab-Israeli 6 Day War, "*and in later years at her own expense twinned Durban with Eilat. In 1978 she left Durban eventually making her home in Netanya and England.*"

My mother also knew that when I left South Africa destination Chicago, Illinois, USA on March 17th, 1978 armed with a most important "*Letter of Introduction*" signed by my uncle David Gevisser, the "*male heir*" of Mossad assassinated American Charles Engelhard, the co-inventor-conspirator of The Diamond Invention who was laid to rest at St. Mary's Abby Church in Morris Town, two words, New Jersey on March 2nd 1971 with the DAAC's principal stooges in the U.S. forced to attend, namely; Senator Ted "*Ich Bin Ein Berliner*" Kennedy, former President Lyndon Johnson and Vice President Humphrey, I was very well-equipped not only to take over from my not very bright uncle as the American head of the DAAC but given how very well "home schooled" I was beginning with knowing the importance of "*Loose Ships Sink Ships*", I would have more than an excellent chance of avenging the assassination of her father Alef-Albert-Al Badash-Ash.

There is every reason to believe that following the death of my awesome granddad Al my mother slipped in to one most extraordinary “state of denial” which most likely was not lost for a moment on Ben Gurion whose most trusted aides in the fall of 1972 began confiding in me after witnessing how very well I had done at Gadna, particularly on the firing range when on Ulpan stationed at Kibbutz Sde Boker in the Negev Desert where Ben Gurion had not exactly “retired”, as well as in my academic studies, but mostly in my very deliberate questioning of Israel doing business with the DAAC Nazis South African Apartheid Regime who it was obvious to me were the clear victors of World War II, and were it not for Jan Smuts, second in command to Churchill and with access to the deep infiltration by the DAAC of both British and U.S. intelligence, was able to prevent the DAAC who play all sides of every war, from exterminating not just every Jewish person in the world but each and every independent thinker.

Israeli intelligence also knew that it was no coincidence that American Charles Englehard who had so very carefully chosen my father’s first cousin David Gevisser as the executor of his estate well prior to his execution, first meeting my uncle who was an executor of ACME Timber, one of The Moshal Gevisser Group of Companies, had a hand to play in the 1969 buyout of publicly traded Moshal Gevisser which was sold for significantly less than liquidation value.

It is no secret that the DAAC when making a point about their “*Money Power*” to rarely if ever pay “fair value” for anything given how easy it is to back the opposition with their Diamond Currency that costs them essentially nothing, besides for the fact that Diamond Currency is unlimited in supply, untraceable, lightweight and never inventoried.

Not to mention the very clear message the DAAC send to all the financial “*movers and shakers*” of the world beginning with how very careful attention they should play to highly visible trading companies like The Moshal Gevisser Group of Companies where those such as my grandfather Issy Gevisser with financial control, owning the “control block” of shares ultimately have no choice but to accept the DAAC Agenda:

YOU THINK YOU ARE MAKING MONEY?

THIS IS THE DEAL. YOU CAN TAKE IT NOW OR OPEN UP A TACO STAND!

American Charles Engelhard also never attempted to hide the fact that he and his partner Harry Oppenheimer had their “eyes set” on Moshal Gevisser that was quite the “eye sore” to this mafia of mafia so used to owning everything and everyone and everyone who was anyone knowing that neither of my grandfathers could be bought.

The smartest of Commanding Officers also understand that the vast majority of the world’s population do not suffer from deficit needs as do those so very few people in the world suffering horribly from their Trust Funds created by poorly conditioned parents who of course don’t even try to hide the fact that their wealth is all ill-gotten and they and their co-dependant children are in a race against time with peace and war so very in the balance, parent-grandparent-child each using the excuse of family when it is plain simply money, pure greed because if these co-opted-corrupted child-parent-grandparents were really concerned with family would they want to raise their kid to be this corrupt because the increasingly spoiled rotten Trust Fund kids will have to be more corrupt to survive unless of course they inherit the money whose value could disappear the instant the not so top Secret Israeli Military Intelligence report materializes and in the meantime

metastasizes in the subconscious increasingly playing havoc with the conscious battling to stay "*in the moment*".

While the "*all about money*" work on their estate planning the smartest of Commanding Officers can easily, since they are the ones sending mostly economically poor kids in to harm's way, put aside their knowledge that peace is war to those who profit from war and focus on their commandos fast running out of patience and looking for truthful answers beginning with who apart from our out-of-control industrial-military-complex is funding the U.S. military's opposition in order for our out-of-control industrial-military-complex's business model to keep "penciling out"?

The smartest of Commanding Officers can perfectly understand the reluctance of John Dau and Co. who do not control the masses of non-favored slaves developing a non-violent plan of action as the one I will keep repeating to John Dau and Co. until such time as the "*cows come home*".

The smartest of Commanding Officers who command the most trust of their Special Forces commandos also fully understand that once the training is over it is all about battlefield intelligence beginning with each commando today able to figure out whether their Commanding Officer is trustworthy beginning with how well they explain the "money trail" that leaves no doubt which nation has the most out of control industrial military complex that as the world gets smaller needs to find ingenious ways to supply the opposition.

The subconscious of each and every one of us, including very senior Israeli Military Officers, does not allow out of our minds the not so Top Secret Israeli Military Intelligence report that I, and I alone, have been broadcasting for several weeks without a single member of the media including Rush Limbaugh willing to touch it with a 100 foot pole; no different to the "deafening silence" speaking volumes of Bill "*Rhodes-DeBeers Scholar*" Clinton having no choice with a Mossad gun pointed at his head to grant terrorist financier Marc "*Trading with the enemy*" Rich a Presidential Pardon at the 11th hour.

The smartest of the extraordinary smart top Israeli Military Intelligence Officers, a good number I have known since I was a young kid and who don't all wear their medals of accomplishment on their lapels, also don't have any difficulty in getting in touch with the smartest people in the world who don't forget EITHER the financial interests of those who profit from war who see peace as war OR where exactly did Hitler get the financing to purchase his diamonds used both for financing the purchases of diamonds as well as producing precision engineered tooling leading to the production of the most extraordinary Nazi Germany Military machine, which arose out of the ashes of the Weimar Republic at a time when a barrelful of Deutche Marks couldn't pay for a loaf of bread, forcing the DAAC controlled Allies to play "catch up".

The more one reads "back and forth" the extraordinary genius of this blunt and at the same time so very pinpoint "*shot across the bow*" of the United States beginning with its ending, "*in the very next instant will paralyze the U.S. economy*", so one is forced to focus on why Israeli Military intelligence would think it important to introduce *China* - fueling the world's economy and capable of delivering along with Israeli ingenuity all the basic needs of the world's impoverished beginning with those in the Middle East - in to the "*thick of things*" when labeling *Al Quaida* as the terrorist group not "smart enough" to

think how less an effort than orchestrating flying flying bombs in to the Twin Towers and the Pentagon it would have been, if the United States were really their targets to, *“launch a series of attacks on the oil fields of Qatar, Kuwait and Saudi Arabia that in the next instant will paralyze the U.S. economy”*, all the while able to take out the super advanced battleship Cole but not a single “sitting duck” oil supertanker.

How stupid does American intelligence as well as Al Quaida think all those educated under the Bell Shaped curve educational system must still be as this DAAC House of Saud backed terrorist group cannot even think of repeating over their many networks the not so Top Secret Israeli Military Intelligence report and at the same time recalling all their operatives here in the U.S. all the while using their refunds from returning all the nonsense box cutters to hire Hezbollah to, *“launch a series of attacks on the oil fields of Qatar, Kuwait and Saudi Arabia that in the next instant will paralyze the U.S. economy”*.

China has never “laid claim” to the oil fields of the Middle East although China now needing oil like never before is not in the least bit concerned about inflation given how very brilliantly the Chinese government has been so methodically spreading the wealth without their 1 billion peasants all that upset about China reinvesting a good chunk of their trade surpluses with the U.S. in totally worthless U.S. Treasury Bills, all the while perfecting China’s industrial powerhouse; certainly the masses of very polite Chinese not close to resorting to civil unrest versus what we are now experiencing in the U.S. big time.

How much more both impotent and increasingly exacerbated can our DAAC United States Congress get as this crumbling relic of the Roman Senate feels the need to censure yet another “little cat”, private DAAC citizen Limbaugh who like the rest of the politician-actors has yet to come close to telling the truth beginning with his take on the extraordinary importance of the catastrophic impact on the world’s capital and financial markets as the subconscious and conscious plays all sorts of tricks reminding us once again of the Israeli Military Intelligence report whose message which states in no uncertain terms, *“Immediately following the summer 2008 Beijing Olympic Games Al Quaida will launch a series of attacks on the oil fields of Saudi Arabia, Kuwait and Qatar that in the very next instant will paralyze the United States economy”*, will remain with us until such time as the world’s capital and financial markets collapse and we go back to both bartering and when necessary a currency system backed by non-reproducible gold.

The Peoples Republic of Communist China have never benefited from the Diamond Invention which at its core is all about the DAAC controlled Allied nations using war to destroy markets and then introducing both their industrial-military-complex backed currencies and banking and tax laws to protect the haves from the have-nots who in addition to having our big guns pointed at their heads have nothing to bargain with when returning to our rigged markets.

The Peoples Republic of Communist China is the quintessential “merit driven” economy that can be traced back all the way to the teachings of Confucius.

The Peoples Republic of Communist China for good reason set the scholastic levels wherever they go because they are fundamentally a trading nation who fully understand the importance of “free markets” that at its core requires the free flow of information between buyers and sellers.

Wars destroy the market place as both buyers and sellers, those who survive the battles, are too afraid to go to the market and before long are then dependant on big DAAC government handouts.

Does the U.S. Marshall Plan that had the United States pumping worthless-fictitious DeBeers-Dollars in to war ravaged Europe ring as much a bell as the July 1944 Bretton Woods Conference where we had our stooge British economist John Maynard Keynes preside over the 730 delegates from 44 nations who left understanding, in no uncertain terms - D-Day June 5th-6th fresh in their minds - the reach of the DAAC U.S. military should they or their successors fail to promote the DAAC Almighty U.S. Dollar increasingly less backed by gold despite the DAAC's game plan to introduce at the same time the DAAC controlled United Nations would be granting Statehood to Israel, a U.S. friendly regime aka The South African Apartheid Regime to so repressively rule over some 40 million Black South Africans who just happened to be in the "*wrong place at the wrong time*" as South Africa's rich mineral resources, especially gold, were stolen, destination the U.S. making the gold stolen from European Jewry by DAAC operative Hitler nothing short of a "*drop in the bucket*"?

It is not that most westerners getting more than their fair share of the graft-spoils of oil wars are "bored" with the subjects of History, economics and politics but the fact that when you have no conscience you have no curiosity to explore the truth beginning with how the "Haves" use wars to also cull the ever questioning "have-nots".

The Peoples Republic of Communist China who "live to learn" are NOT all in the dark about the awesome "Money Power" of the DeBeers-Anglo American Cartel and have little difficulty getting their arms around this mafia of mafia's financial interests in war which is to destroy all the markets in those countries they wish to enslave and in the process own not only the goods including minerals of the enslaved lands but everyone beginning with their DAAC tyrants who understand perfectly well that in the event the ruthless dictators do not "play ball" the DAAC have the means given their command and control of the western world's military to simply execute the west's tried and proven Regime Change policy that has the ruthless bastard tyrant's second-in-command ready to step up to the plate at a moments notice so long as the west's military bases are allowed to serve as the on the ground "muscle".

There is nothing phony about either the smiles

or the muscles

of most Chinese farmers who for several decades now have been trained by the very best of the best Israeli Special Forces Commanding Officers and you don't have to take my for it.

The Peoples Republic of Communist China do not quite have the blood on their hands beginning with those responsible for the U.S. led 8 Allied invasion of China in 1900 and the Anglo American Boer-Farmer War of 1899-1902, both atrocities financed by DAAC American bankers who first financed the DAAC, the counterfeiter of counterfeiters, the banker of bankers to the western world's central banks such as the London Exchequer and U.S. Federal Reserve established in 1913, one year prior to the very carefully orchestrated first oil war.

One does not even need to attend a single lecture at any college-university in the western world to appreciate why not a single professor in any discipline continues to fail to explain why it is that the DAAC are the special interest of special interest group who because they have now for more than a century being able to price fix their own non-inventoried currency at more than a barrel of oil, first used to corrupt both politicians and academics beginning with their opposition that affords this mafia of mafia total control, have never had to comply with our sacrosanct Anti-Trust/Anti-Monopolies/Anti-Price Fixing Laws.

The Peoples Republic of Communist China who have never laid claim to the DAAC's House of Saud

understand that in a “free market” China will be able to negotiate a “fair market price” with all the world’s oil producers.

The Peoples Republic of Communist China have not yet begun to dump their totally worthless United States Treasury Bills and focus their marketing efforts on their increasingly happy 1 billion peasants who know all about hard work and in the very next instant, when once again “free markets” are established throughout the world, will be able to afford just using their currency backed by a most productive and ready to fight military, to purchase all those goods and services destined for the U.S., a market one fifth the size of China.

Not to mention how all the peoples of the Middle East including Israel will be able to afford, with “fair market prices” being paid for oil, all of China’s and their close allies’ excess production.

Of course the United States, the British Crown’s crown colony increasingly isolated, could be allowed if we behave ourselves to join the rest of the world’s free marketers but it would mean that we would also have to provide competitive goods and services

bearing in mind that we will also have to be paying “fair market” prices for the 4 million barrels of oils we import each and every day prior to Al Quaida or any other military SIMPLY THREATENING, with superior and overwhelming forces, *“to launch a series of attacks on the oil fields of Qatar, Kuwait and Saudi Arabia that in the very next instant will paralyze the U.S. Economy.”*

Of course you noticed that China or its other trading partner allies are no longer in that not so Top Secret Israeli Military Intelligence report.

While in all likelihood the Lost Tribe of Israel simply got wiped out by the other stronger tribes of Israel, the Children of Israel are like the Chinese, rather good traders, no different to their Arab brothers and sisters.

The Chinese peoples, the Jews of the Orient, are also rather innovative in all the disciplines including knowing how to fight and win battles, willing to walk away from a battle or “tTOo” [sic] to return and fight another day.

Few, if any, of the British Crown’s colonies have a great military record in guerilla warfare, a fact of life not lost on Hezbollah Special Op commandos who did extraordinarily well in last summer’s rather brutal war with Israel who has been “wising up” while us Americans increasingly lash out at each other beginning by pointing fingers at an easy target President George W. Bush who had nothing to do with our “dog morals” that began more than a century ago.

Of course it is not only Israeli Military Intelligence fully aware that not even our “dirt poor” are willing, after fighting those not murdered in our genocides, to return to the U.S. in body bags or short a limb or “tTOo” [sic].

So rather easy to understand how folks like Senator John Kerry and his so contrived opponent Rush Limbaugh both find themselves making fun of our military personnel who while their families back home for very good reason battle to make ends meet cannot help but notice that the filthy rich Americans with no loyalty to country, are getting richer causing our military to increasingly think that much more about not what but who they are fighting for.

Hence one of my arguments why China has yet to dump all its worthless-fictitious United States Treasury Bills giving our DAAC corrupted politicians just a little more time to return our troops back to the U.S. in order to at least try and contain the civil war that is fully underway.

Again, the subconscious has each of us thinking about that most brilliant Israeli Intelligence report which once understood by the world’s Commanding Officers not just Israel’s and China’s could result in the very next instant in world peace when the U.S. would just have to pray to God that the rest of the world will be gracious in their victory and focus whatever anger they have only on our corrupt politicians-actors-journalists-academics and the such who should sooner rather than later distance themselves from the DAAC who interfere with the light, increasingly less so.

And of course I should repeat that once our military bases around the world are removed along with the pollution there is nothing to prevent market forces returning to all the

markets including the currency and commodity markets when of course the price of gold will rise.

When I last checked gold last traded at US\$727.10 a troy ounce.

It is only Americans representing some 4.2% of the world's population and the easiest distracted beginning with, "*A Diamond is Forever-A Girl's Best Friend*" who forgot the Golden Rule; "*WHOEVER HAS THE GOLD MAKES THE RULES*".

Despite the Diamond Invention which was all about a Secret Society made up of the ruling elite creating their own currency unlimited in supply, lightweight, untraceable and never inventoried to purchase when not at war when "*money becomes no object*" all the world's gold and oil bearing in mind the DAAC have for a 100 years controlled the world's drilling industry, this Secret Society were never able to accumulate sufficient stockpiles of gold or oil let alone destroy the hard working art filled culture of the Chinese who today have a military only a madman tyrant or DAAC controlled United States Congress would

think it smart to try "outwit".

The more time that passes, the more awareness is gained by soldiers on the front lines questioning authority and asking themselves why mercenaries such as Black Water, are paid better and don't have to worry about being accountable for their actions. All actions of course, under the guise of freedom, while at the same time their government profits from their loss of lives and creating civil unrest and instability.

JoNathan spraying his Knit Wit "label" on to the front windows of the cliff house.

Earlier today we witnessed the sunlight bouncing off the windshield of a fishing boat parked offshore but directly in front of the cliff house that looked like morse code reminding us of how quickly Knowledge-Information-Light travels at Light-G-d-speed

over the internet reaching China a unified country of some 1.5 billion strong and hard working peoples while peaceful especially towards us Americans have no reason for forgetting the atrocities of the American led 8 Allied invasion of China in 1900, the Japanese atrocities that preceded World Oil War II, the “in support of our south East Asia policy” all about containing the Sleeping Dragon, not to mention yet again China’s prominence in the ingenious not so Top Secret Israeli Military Intelligence report.

JoNathan who now has his first girlfriend, less than a week old, is wearing a 280 year old Tribal Chief ceremonial “Dragon” jacket purchased on my French-Canadian

wife's and my 24 day "fact finding mission" to China last summer.

Not to mention following my spring 1989 first visit to China

I would “see *fit*” to head up the restructuring team of Epilady USA Inc. the U.S. marketers of the Israeli-made Epilady womens shaver that was never once bothered by “knockoffs” produced in the Peoples Republic of Communist China.

China’s Military Intelligence like Israel’s Military Intelligence do not need to comment on the one-of-kind Israeli Military Intelligence report that will remain in each of our subconscious until the day we die and face our final day of judgment that begins now.

If you are not part of the solution than you are part of the problem!
