Subject: MODERN ART MONIES - THE CROOKS ARE GOING DOWN - RE: Didn't you say that Engelhard's liars [sic] that you met with in 1979 were located on Market Street in San Francisco?

You got everything "spot on" apart from Engelhard's and my uncle David Gevisser's lawyers-liars were located on Bush Street, San Francisco.

There is "deafening silence" right now coming from all "quarters", each one of us knowing exactly the reason why or so we think we know bearing in mind the ingenious deception of the Diamond Invention is all geared toward distrusting those who can't "make it" and trusting those who have.

My uncle David Gevisser is the "perfect example" but my uncle Dave can be found in each one of our families.

Notice how very quickly one stops questioning how someone in your family makes money when finding out that they are "filthy rich" and if your conscience were to prick and you were to "speak out" so very quickly you would be told how rotten is the whole world and at least this person is "family" and someone you can go to in time of need.

That Black female American slave who said, "I could have saved many more slaves if only they knew they were slaves" got it only partially right, if that, given how her expression has become part of colloquial talk.

The real slaves, the ones who need the most saving are the slave masters and their offspring who as time marches on lose all their initiative and cannot provide for either themselves or their families in times of need, instead the internecine fighting is most bloody amongst the filthy rich.

Given however, the fact that it is the masters, the bullies, the cowards who have had the biggest guns ever since the start of the Diamond Invention that began at the turn of the last century when the ruling elite saw the opportunity to implement Cecil Rhodes' first will calling for a Secret Society that would be the world's allocator of resources, control the entire educational system as well as the media outlets expressions such as "I could have saved many more slaves if only they knew they were slaves" helps greatly maintain the "status quo".

The Uncle Toms of the world also know exactly who they are and those with an education such as Devin's father with his Harvard Business School education now

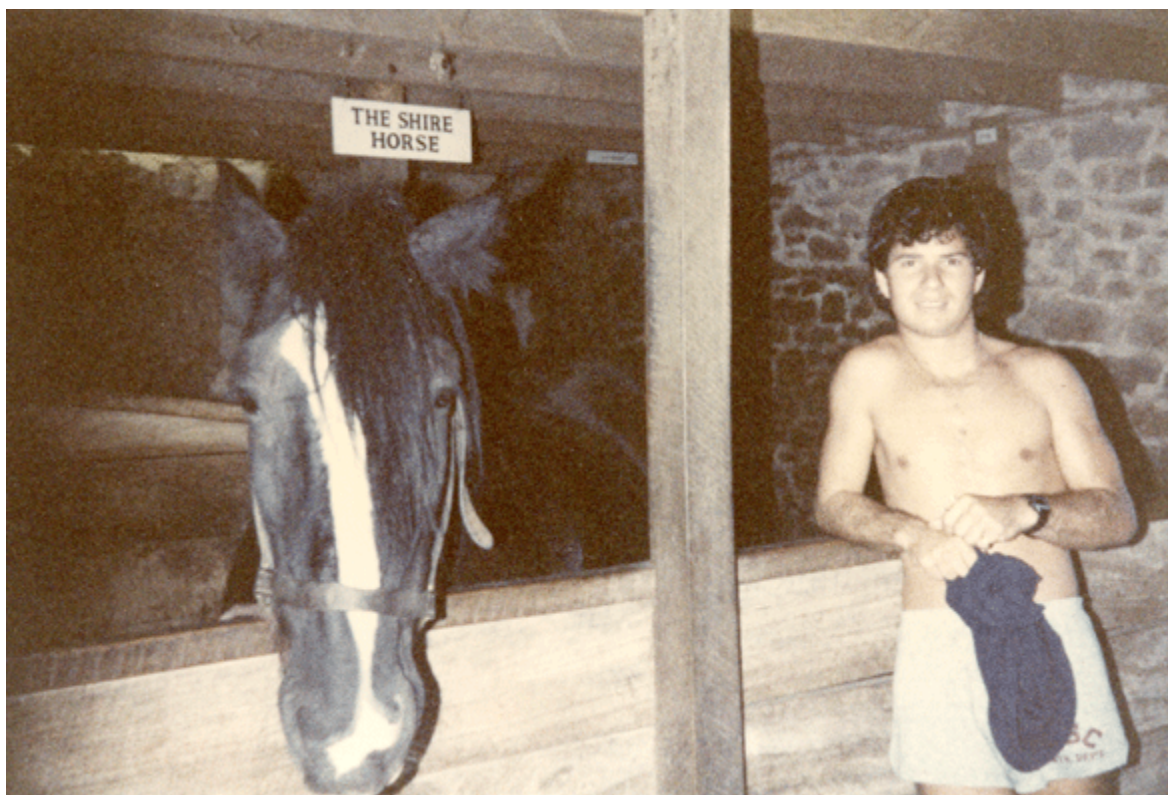

have to deal with those poisons administered on his Black South African brothers that were developed in Apartheid South Africa under the guidance of the CIA that is not some autonomous branch of the 3 Branches of the US Government.

Last evening you heard me give a "rendition" of what I plan to do today with Robert Gates, US Minister of Defense, an extraordinarily close ally of Sec. James A. Baker of the House of Saud who is also as close as it gets to "our man Roger" aka Roger W. Robinson a most senior "spook" in the National Security Council in President Ronald W. Reagan's first administration.

Jonathan's phone alarm just went off and after taking awhile to get up and find he made his way to the front of the studio cliff house, looked out and saw that the surf was relatively flat and promptly went back to his bed.

You recall the reaction of his biological mother, Marie Dion Gevisser to my "rendition" of the fate that should await Mr. Gates which was that I should redouble my efforts, MDG possibly feeling that would cut the conversation short and we could move on to more "pleasant" things but of course I was by this point focused almost exclusively on Jonathan's "blank" reaction given how impossible it is to avoid taking one's eyes off such a walkin-talkin-work-of-art whose expertise in art appreciation let alone capable of executing a very excellent oil painting can only be appreciated today by an extraordinarily small number of people.

Certainly there are no more than 30 people I know in the entire world who have this knowledge base and besides for me all of them are students of Sebastian Capella and remember I wasn't exactly born or for that matter raised in a horse stable.

Once realizing the magnitude of the deception by the ruling elite who realized the importance of having to murder the arts beginning with removing all classical training in oil painting all the while hooking the masses on money and having "money power" people decide what is and what isn't good art, so you don't need to be a rocket scientist to figure out the timing of the influx of "modern art" all about "feelings" without any possible way to "gauge" who is "good" versus "bad".

So we go back to not questioning those who have lots of modern art monies.

The crooks are going down today and why shouldn't we name each one of the people we know who don't take issue with those in their immediate family who have enslaved them worst of all with "Poverty of Thought".

The light just began hitting the mushrooming clouds. Hopefully we will get more rain and those living in canyons without any roofs over their heads, empty bellies, not able to remember when they last drank clean drinking water will at least feel some of my energy and know their plight isn't going to last much longer.

The crooks are going down.

Ps – Place what I sent last evening to Sargent Amanda Lopez of the US National Guard-Army somewhere on www.just3ants.com where it isn't all that difficult to find.

If so, it probably made it convenient for lunch meetings with the Federal Reserve.

Federal Reserve WIKIPEDIA (http://en.wikipedia.org/wiki/Federal_Reserve_System)
The purpose and functions of the Federal Reserve System include: ^{[12][13]}

1. To address [banking panics](#)
2. To serve as the [central bank](#) for the United States
3. To strike a balance between private interests of banks and the centralized responsibility of government
 - o supervising and regulating banking institutions
 - o protect the credit rights of consumers
4. To manage the nation's [money supply](#) through [monetary policy](#)
 - o maximum employment
 - o stable prices
 - o moderate long-term interest rates
5. Maintain the stability of the financial system and containing systemic risk in financial markets
6. Providing financial services to depository institutions, the U.S. government, and foreign official institutions, including playing a major role in operating the nation's payments system
 - o facilitate the exchange of payments among regions
 - o to be responsive to local liquidity needs
7. Strengthen U.S. standing in the world economy

I think the American public have good grounds to say that the Federal Reserve has not upheld its responsibilities to the public.

And as a consequence the American public should have a right to seek retribution.

Do you think JRK would be willing to name the Federal Reserve as a Defendant?

At some point one of these guys aka limbs of De Beers may sound appetizing for him. Didn't you tell me that Jeffrey went into law because he wanted to practice law? "US Public versus Federal Reserve & De Beers Anglo-American"

SIDEBAR TO JEFFREY:

Into how many pieces must Gary cut De Beers before you will stand tall?
