Subject: REPRESENT ME - RE: On Vacation 2/13/08 until 2/26/08

Dear Mr. Richmond,

Would you be interested in representing me in a claim I have against American Airlines who in a series of emails very significantly incriminated themselves about their knowledge of their theft of valuables taken out of my hand luggage, resulting in the General Manager of AA's wholly owned subsidiary, American Eagle, to break the email dialogue we had going and call me up the next day after I pointed out his and colleagues "blackened hands" and threaten me with an illegal government investigation were I to take him further "to task", which you would know is not the first time I have had to confront a bully-coward.

Sincerely,

Gary S. Gevisser

Ps – I think you need to update your automatic response.

Subject: Mr. Bush , would you being interested in representing me and filing a lawsuit against American Airlines et al for having stolen my valuables back on April 3rd of last year?

The hyperlink below may not take you to my most recent communiqués with Sargent Brian Jensen of the San Diego Police Harbor Department who went deafeningly silent after I questioned him about why he would visit with pawn dealers throughout San Diego country, when trying to track down the bulk of the gold stolen by American Airlines officials and their baggage handlers out of my hand luggage when while making himself look busy also made him look extraordinarily "foolish", to say the least, given how I had painstakingly gone about providing him irrefutable "smoking gun proof" of criminal wrongdoing by American Airlines, all the evidence contained not only in the most bizarre "black and white" email communications to me, but once the General Manager of American Eagle, a wholly owned subsidiary of public corporation American Airlines, "came to his senses" that he had incriminated himself after of course I pointed this all out in my follow up communiqué, Mr. Terry decided to call me on the phone and to illegally threaten me with a trumped up criminal investigation.

<http://www.nextraterrestrial.com/pdf/SDHP-blog.htm>

Now I am certainly not the best American football player in the world, not even close, but I have played much tougher and rougher sports like ice hockey and rugby which require a far greater amount of intelligence which is why I suppose the least intelligent athletes choose to play American football since the coaches make so many of the calls, but I could be wrong, but not about "Offense being the best Defense".

I doubt very much that a jury of my peers or that of nonsense talking American Airlines officials, not to mention yet again, the "Fish Rots From The Waste Up" [sic] would be all that distracted by my point of view on this most likely inadmissible evidence that of course American Airlines would attempt to use in order to distract from their extraordinary foul play that includes the extraordinary deafening silence of Mr. Gerard Arpey, President and Chief Operating Officer of American Airlines after he initially emailed me letting me know how much he wanted to "help".

Should you for not be "interested" I would appreciate if you would be kind enough to refer me to someone competent.

I think you understand why the Mossad would not be interested in purchasing this lawsuit.

Should you need an additional referral, please do not hesitate to contact Mr. Jeffrey R. Krinsk Esq.

Sincerely,

Gary S. Gevisser

STEMS FROM HUMANS BEING LAZY AND FEARFUL FROM EMBRACING THE TRUTH!

Sargent,

The only news I still remember on the radio from yesterday afternoon as I made my way towards Alpine on the way to our Stone Home 20 minutes, depending, further east deep inside the Cleveland National Forest was that it was raining in Alpine and by the time I arrived at our home-cabin-home I was greeted by the last drops, enough to celebrate with my wife in Del Mar an hour away, depending, over the cell phone and of course rub your ears.

It gets easier once you learn to go with the flow of G-D-Nature everywhere, at all times, night and day, the coincidences, the "connecting dots" all disappearing and then reappearing and here I am again, still alive and kicking, it makes no difference whatsoever you only now realize to "play ostrich" because deep down inside you cant escape not only the logic of my reasoning but how so very right, so very often I am, in the right place at the right time.

I need to know either the status of your "eyesore" investigation of the valuables stolen out of my hand luggage on April 3rd of this year by American Airlines officials-employees and/or which other authority within the San Diego Police Department-District Attorney's office would be helpful.

Time is of the essence!

Judge Throws Out \$5.3 Million Verdict Against Digital on Keyboard Injury

By JON G. AUERBACH

Staff Reporter of THE WALL STREET JOURNAL

A federal judge threw out a landmark \$5.3 million jury verdict against Digital Equipment Corp. in a keyboard-injury case after the submission of new evidence that suggests the plaintiff's debilitating wrist injury was not work-related.

However, in a separate decision, the judge upheld a smaller verdict against Digital by a co-plaintiff with a repetitive-stress injury.

In a decision announced orally yesterday in U.S. District Court in the New York borough of Brooklyn, Judge Jack B. Weinstein said he would call for a new trial in the larger case in light of the new evidence, filed earlier this month by Digital. The filings include a previously undisclosed medical report that concludes that the wrist injuries suffered by the woman, Patricia Geressy, were caused by a neck condition unrelated to her work as an executive secretary.

Mrs. Geressy's attorney, Steven J. Phillips, said he plans to appeal the ruling, arguing that the new evidence is not material. In a statement, Digital, based in Maynard, Mass., said it was "pleased with the judge's decision."

The December jury ruling was the largest ever such jury verdict against a computer-keyboard maker, and plaintiffs' lawyers predicted it would open the floodgates of claims from people suffering from carpal tunnel syndrome and other repetitive-stress injuries.

In reaching their verdict, jury mem-

bers faulted Digital for failing to issue warnings that would have alerted Mrs. Geressy, 51 years old, to the dangers of repetitive typing. Smaller amounts were also awarded to two co-plaintiffs with repetitive-stress injuries.

Included in the new Digital filings were the results of a 1993 medical examination of Ms. Geressy conducted at the request of her employer, the Port Authority of New York and New Jersey. The examination, conducted by a Las Vegas-based medical diagnostic firm, concluded that Ms. Geressy's wrist pain was "not due to repetitive-motion injury," but rather caused by a muscular condition in her neck, according to the filings.

Digital argued that Ms. Geressy withheld the results of the medical tests, which it said would have had a "material effect" on the outcome of the trial because it "directly refutes her claims" about the cause of the injury.

In the smaller verdict, the judge upheld a \$274,000 award by the jury in December to a co-plaintiff, Jeannette Rotolo, a former billing clerk with the Long Island Jewish Medical Center. Mr. Phillips, who also represents Mrs. Rotolo, 32, said that ruling "is very good generally" for repetitive-stress cases. Digital said it would appeal the ruling.

The judge threw out a \$302,000 ruling awarded to the other co-plaintiff, Jill Jackson, a former legal secretary with Stroock & Stroock & Lavan in New York, because the statute of limitations had expired.

2. Application of Law to Facts

National publicity followed the announcement of the **jury** verdict in December of 1996. *See, e.g.,* Diana B. Henriques, *Big Jury Award in Injury Case Over Keyboards*, N.Y. Times, December 10, 1996, at D1; Jon Auerbach and Laura Johannes, *Digital Equipment Loses Verdict on Carpal Tunnel*, *Wall St. J.*, Dec. 10, 1996, at B4. The news of Ms. Geressy's nearly \$5.3 million verdict against defendant reached **Gary S. Gevisser**, Chief Executive Officer of Sunmed, Inc. (formerly known as Injury Evaluation Consultants (IEC)) in Las Vegas, Nevada. The information struck Mr. Gevisser as particularly noteworthy because, before the litigation had been commenced, doctors from his company had examined Ms. Geressy, prepared a medical evaluation on her condition for The Port Authority of New York and New Jersey (the IEC Report) and, contrary to the jury finding at trial, had determined that her ill health was unrelated to her work. *See* Affidavit of Kenneth J. King, sworn to March 25, 1997 ¶¶ 10, 11, Exhibit A (King Affidavit). Mr. Gevisser contacted Digital Equipment Corporation to explain his knowledge of the *Geressy* case and his company's own information regarding Ms. Geressy. *See* King Affidavit ¶ 11. Defendant then subpoenaed the IEC Report and filed the instant motion for a new trial based on discovery of this evidence.

Ps – As you recall the last information you provided me was that you were finishing off your interviews of American Airlines personnel while mostly busy tracking down at local San Diego pawn shops whether all or part of the gold and monies taken out of my zipped bag that American Airlines' officials have stated in "***black and white***" was "***returned to the only bag that was unzipped***" in the hold of the commuter plane with some 20 or so passengers on board, has been pawned possibly in exchange for Diamond Currency.

Allow me to again repeat^[1] what Mr. Terry wrote as the only story the **DAAC** controlled media are reporting worth talking about is Carl Rove saying, ***History will be kind to President Bush*** given

[1] the most extraordinarily bizarre 93 odd word paragraph from the email Mr. Chris Terry, General Manager of American Eagle, a wholly owned subsidiary of New York Stock Exchange listed public corporation American Airlines, sent me on Monday, April 30th at 3:26 PM PST.

It is very unfortunate that someone had left a pocket unzipped and their money and this gold fell out. The money was found immediately and returned to the only bag that was unzipped, but unfortunately the gold was not seen until the aircraft

was closed and ready for departure. What was found was several little gold pieces and one small gold bar (with 14K printed on it). After the aircraft pulled out what gold we saw on the ground was picked up and placed in an envelope and immediately put into our safe.

You are also aware that with each passing moment in my effort to “**give peace a better chance**” I am pulling out all stops to inform those in jail as well as those such as [Eddie Pollard](#) out on bail and of course those on parole that being violent, breaking the law no matter how “bad the law” only serves the best interests of those who “**profit handsomely** from war”.

Not to mention you understand today much better than ever why **IT IS** that “**in war money is no object**” given how those “handed out” monies by corrupt governments during the relatively peaceful periods use such ill-gotten “**means of exchange**” stolen from the people without political clout, to acquire the resources most valuable during wartimes such as oil and water, never forgetting the Golden Rule, “**Whoever has the gold makes the rules**” then barter those precious and finite resources amongst themselves during war when the masses are all so very shell-shocked not capable of figuring out how easy it was for their corrupt elected and non-elected government officials to simply crash the currency markets, that much easier when currency is not backed by gold which in the case of the United States goes back to August 15th, 1971.

To mention little if you can hold the thought of Senator Ted Kennedy, former President Lyndon Johnson and Vice President Humphrey forced to attend the funeral of their major benefactor American Charles Engelhard, the co-head of the counterfeiter of counterfeiters, the **DeBeers-Anglo American Cartel** at the very top of the crime syndicate pyramid, this special interest of special interest group who from time to time make it their business to “**set up**” even those who do their “**bidding**” who are not “al-to-get-her” [sic] stupid and understand perfectly well when accepting Diamond Currency as payment for “**selling out**” family members, friends, acquaintances, you name it, as well as their fellow citizens and no better example right now than top counterintelligence agent Robert Hanssen, it is just a matter of time before they get caught but comforted by the fact that the knowledge that they have of the world’s intelligence services including the Mossad, FBI and CIA knowing perfectly well they have accepted untraceable and never inventoried Diamond Currency is one most extraordinary “**life insurance policy**”, a fact of life known to Israeli Military Intelligence long before the Mossad began reporting directly to David Ben Gurion in December 1949.

And of course you have not forgotten my Royal Mater-Mother’s hastily but extraordinarily carefully crafted “**memoirs**” which she began broadcasting over The Internet on October 9th, 2001, some 53 odd years to the day after she married my father Allied Fighter-Bomber-Pilot Bernard Nathan Gevisser on October 10th, 1948

that leaves little to the imagination what my highly secretive mother was doing but more so her father and his partner, my paternal grandfather, Israel Issy Gevisser:

From the earliest days of 1949 she visited Israel two and three times a year writing reports for different publications. Her paternal grandmother had been an early resident of Tel Aviv only returning to England when Zena was born. The Gevissers (she married Bernie Gevisser when she was 19 after only a few months in Durban) owned land in Haifa harbour and Zichron Yscov and she rapidly felt at home in Israel.

Reporting on the many wars when Israel was attacked she was the first civilian in the captured area of the Sinai and in later years at her own expense twinned Durban with Eilat. In 1978 she left Durban eventually making her home in Netanya [Israel] and England.

And you most certainly haven't forgotten that "peace" is "war" to those who profit from violence and war including poorly conditioned members of local law enforcement who are known on more than one occasion to curtly comment, "IT IS THE LAW" when reading people their Miranda Rights, people who are mostly just poor, ill-informed but deep down inside their heartbreaking, gut wrenching cries are heard and felt by each one of us with a soul worth saving, and the rest to hell with them. This life is no joking matter.

Subject: WORLD WE SERVE...Fwd: I am trying to reach Ross Terrill.

Dear Ms. Faust,

I assume that only part of the reason you haven't got back to me is that you have other priorities as well as of the opinion that with Harvard Universities coffers "overflowing" my financial contribution wouldn't make much if any difference to your workload while of course there is the distinct possibility that you simply haven't got to my email for a myriad of excellent reasons.

You would, however, be wrong in terms of both your "other priorities" and the very significant contribution I can make which would beyond a shadow of a doubt significantly free up your workload so that you for example could give a little more thought to the use of the words, "**world we serve**" in your "**Statement on proposed boycott of Israeli universities**" which I happen to agree with but for different reasons.

First let me inform you that I am a Jewish American raised in what would be considered a "**conservative**" Jewish household where we "**kept kosher**" from when I was about 8 years old, the same age that my maternal great grandmother was orphaned when a gang of marauding Cossacks galloped through her tiny village in Poland and wiped out her entire immediate family.

When, however, I was 13 and being "bartmizvahed" I came to the realization when looking around our synagogue that the biggest crooks in the community had the best seats in the house, closest to our rabbi, that something was very wrong first with the Jewish religion as well as the State of Israel who at the time, April 1970, was openly and actively trading weapons of war with the South African Apartheid Regime.

"Butt" [sic] because I was raised by a very worldly mother who taught me better than to begin a sentence with such a 4 lettered word I was very slow to judge harshly all Jewish people as well as Jewish Israelis apart from those who I felt should have "**known better**", knowing most of all that there was nothing to "gained" by "speaking out".

At the same time and helped by the fact that my immediate family's closest friends were non-Jewish and the closest and most trusted Muslim I made it my personal-business to investigate their "corruption" and no surprise it turned out no different than the corruption of the "Jewish church".

But in the intervening 37 odd years I have made it my business-personal to examine in the minutest detail helped greatly by both having studied Latin which is a "subject" I understand you support being taught as well as my well above average "**command of numbers**".

Cutting to the chase, you might not yet be aware of a Top Secret Israeli Military Intelligence report that states categorically the following:

Al Quaida will launch a series of attacks on the oil fields of Qatar, Kuwait and Saudi Arabia right after next summer's Olympic Games in Beijing, China which in the next instant will paralyze the United States economy.

Suffice to say that while I am not, nor I have I ever been a member or any official or unofficial intelligence gathering organization like the Mossad or for that matter any military whatsoever, I am in fact Israeli Special Forces trained having started my military training at the very young age of 9 when I was first "supervised" by Israeli Special Forces Commanding Officers on how to simply hold an Israeli Uzzi submachine gun, deciding however, when 15 and on a 4 month Ulpan in Israel where I excelled in both the academic and very physical military exercises to not "sign up" despite the fact that I "blew away" all the Israeli military brass seeking recruits such as myself especially when considering my immediate "**Money Power**" family's close ties to the founders of Israel.

The fact that I did not "further my education" in Israel did not in any way, shape or form diminish the "respect" shown towards me especially as I voiced very clearly in the very precise language of Hebrew my profound "**disappointment**" in Israel doing "business" with the vile Apartheid Regime so very close to the 3rd Reich it wasn't in the least bit funny since in fact the South African Apartheid Regime was nothing less than the 3rd Reich's southern division and I would know since I was born and raised in South Africa for one week shy of my 21st birthday.

Were I to tell you more about who I am it would not in the least bit surprise you that this Top Secret Israeli Military Intelligence Report was "shared" with me although once you give such a report which of course Israel sees no problem "**falling in to hands of the enemy**" the only question of importance really is, "**Why hasn't it happened already?**"

I have given you quite a bit to think about already but now I am going to throw in something you might not expect although at this point you might be thinking, "**What the hell, you might as well tell me my pension plan is not worth the paper it is written on?**"

You may already know that there are no Starbucks shops in Israel although it isn't through a "**lack of trying**" on the part of the founder, Chairman of the Board and Chief Global Strategist of Starbucks, Howard Schultz who also happens to be Jewish.

Starbucks has a much smaller competitor The Coffee Bean and Tea Leaf with an employee count of some 3,000 and yet this significantly smaller operation seem to be quite successful in Israel and perhaps you might think it is because Israelis "**back the underdog**" which I think you would agree is more of a Roman Catholic "guilt shtick" or possibly better connoisseurs of coffee than we all think and you may be right and I "concede" on both possibilities because I wouldn't be willing to bother with doing a "**marketing study**" which I know how easy it is to "**tweak**" any study to create an outcome that "**suits the agenda**" and besides why waste time on such a nonsense study since I know the reasons why Starbucks do not have a single shop in Israel and it has nothing to do with the "good" or "poor" quality of their coffee but rather their business partner with "**dog morals**".

of course Mr. Rove as well as well as Mr. Bush's full knowledge today of the **Top Secret Israeli Military Intelligence** report that has Israel while Mr. Bush "**lends a helping hand**" to mortgage holders up to their eyeballs in debt that has us arguing amongst ourselves the "pros and cons" of a civil war outbreak of epic proportions if he doesn't, "**firing the most extraordinary shot across the bow**"

Again, I come back to your choice of words, "**world we serve**" and how you have mounted a "**strong opposition**" to the UCU who have proposed a boycott of Israeli universities and academics.

Not to mention that I also know better than to "**paint with a broad brush**" and that applies to everything including "**academics**".

I sincerely look forward to your prompt response so that I can then "fill you in" in terms of me also being a "facilitator" to serve most of all the next generation of children so that they can be as well informed as me when I was just 15 years of age of the very significant drawbacks of a world constantly at war and getting increasingly more brutal and ever closer to home.

Subject: I am trying to reach Ross Terrill.

I was most enlightened by his article "Dealing with China In the Coming Years".

Consequently, I am eager to make a significant contribution.

Before I disclose my name that while not a "household name" it is very well known to those at the very top of the socio-economic ladder, I want to hear directly from Mr. Terrill.

of the United States in a last ditch effort by members of Israel's intelligence community to get the United States to immediately remove all our military away from the oil fields of the Middle East return to contain the civil war spreading to neighboring countries or be accused masterminding not only 911 which did in fact save the **DAAC** controlled United States insurance industry but by having to inevitably acknowledge that such a threat by Al Quaida to instantly paralyze the U.S. economy by attacking the oil fields whenever is increasingly real and the need therefore not to wait a moment longer before toppling, to protect the United States' "**strategic interests**", all our oil tyrants most of all the House of Saud

And then immediately declare a “state of emergency” when media “blackouts” become the “news of the day” and that day is now, although one could argue differently and suggest it happened when the Jerusalem Post stopped publishing my letters to the Editor back on May 1st, 2000, to repeat:

Kerrey’s versus Pollard’s heroism

Gary S. Gevisser Del Mar California (1 May 2001)

There has been only one Holocaust, but what the Nazi Holocaust demonstrated so well is that human deprivation occurs incrementally. It starts with simple massacres; you shoot the first innocent person and then you shoot the next set of people and after you realize that you cannot shoot enough people you look to more efficient methods such as gas chambers. This is why weapons of mass destruction are developed and why chemical warfare is so frightening. Saddam Hussein understands this. Bob Kerrey, former U.S. Senator and presidential hopeful, took the first step down this frightening path while a U.S. Naval Seal and stopped. On the other hand, Jonathan Pollard, the convicted spy, did not need to kill anyone to understand the consequences of weapons of mass destruction before he blew the whistle on what he saw cross over his desk at Naval Intelligence.

The rewards in America for covering up your sins or revealing the truth are indeed ironic. In this instance Kerrey received the nation's highest award of valor while Pollard's reward is going on sixteen years of hard time.

In war both sides commit atrocities, which is the whole point of peacemakers in attempting to prevent future atrocities. It is in the gray area of corrupt secret policies such as the ill-conceived CIA support of Iraq in supporting Saddam's chemical warfare production that was ultimately aimed against Israel – a policy that is so incomprehensible to anyone who has relatives that lived through the Holocaust.

Were there only one witness to Kerrey's atrocity, this cover-up would have remained with those who elected to follow their leader [which led directly to Kerrey's Bronze Star that stated that twenty-one Vietcong were killed in this incident, a clear lie which could have been refuted at any time including the moment at which President Nixon personally awarded him the Congressional Medal of Honor]. What was going through his mind at that moment when the President of the United States was reading the commendation for heroism to him personally?

Is this public persecution of the whistle blower by the political elite and the press in America any different than that they imposed on Jonathan Pollard? The only difference is there was no corroborating witness and Pollard stands alone in revealing the conspiracy of the misguided CIA policy aimed at the Jewish State which ironically was probably used against U.S. soldiers during the Gulf War. Whose sin is greater; Pollard's for violating an American secrecy law that could have led to the death of hundreds of thousands of Israeli citizens to prevent another Holocaust or Kerrey's sin, which clearly led to the murder of at least thirteen innocent people? Pollard has already spent 15 years, one-third of his life, in an American prison while Kerrey spent the same time in two of America's most exalted political offices; knowing full well that he had lied while serving his country. Where is the justice in the American judicial system? Where is the forgiveness in Bob Kerrey's heart?

Not to mention why such an attack of any consequence has not already happened thanks all due to Israel not only protecting the sea lanes as our oil supertankers bringing in some 4 million barrels a day to keep our freeways full listening to the likes of John and Ken stirring the masses here to nuke parts of the Iraq and wherever back to the Stone Age if they don't behave and become more "civilized" but at least equal in importance is Israel's unannounced but clearly understood "swimmers policy" given first of all not every Israeli is a great water polo player and besides by the time those lets say 1,000 Israeli Special Forces commandos deciding to chance their luck and jump overboard the oil supertankers and patrol boats patrolling the sea lanes in constant contact with Israel's brutal Air Force not in the least bit stretched thin, plenty of oil remember, rather than die horribly from the fallout of Israel bringing on Armageddon remember to having been moment's before wiped out, reach Ellis Island there would be no taxis on the road to drive them for dinner with Henry at Le Cirque which would look like Auschwitz after the DAAC Nazis blew it up believing quite correctly that by making it a tombstone us Jewish people would be kept busy building Holocaust memorials, one after the next and of course always lots to talk about and lets not forget all the eating at this opening and that celebrity dinner and that school fund raising before the next Yom Kippur when we eat our hard boiled eggs we will check closer if the inside yellow is dripping with the blood of those kids who mostly likely were forced to bite down on their own sliced off testicles, what a thought, rather than examining the utter unadulterated nonsense of World War II that only confused the morons amongst us.

I am not a moron.

David Ben Gurion was not a moron.

Menachem Begin was not a moron.

Ehud Barak has to be feeling about as uncomfortable as all the morons out there since he also has yet to comment on the Top Secret Israeli Intelligence report that only non-morons are talking about.

I am not a moron.

David Ben Gurion may not have been as fit as me when he was 50 but he could also understand intelligence reports being couriered in to Jerusalem from devout Christian Field Marshall Jan Smuts that no attempt should be made to either get rid of Hitler or worse yet bomb the Concentration-Extermination Camps back to the Stone Age.

Tick tock, big stick, big stick, tick tock.

You haven't forgotten I have yet to broadcast my follow up communiqué to Professor Sachs of Columbia University written when my Pypeetoe never left my side.

I really do miss horribly my very best co-dependant friend whose spirit lives strong not just inside of our Maggie but all the trees, the plants, the birds bringing the Kingdom, specifically the Middle Kingdom of China to the shores of the war torn Middle East.

Again, Mr. Bush is only the only elected and unelected government official daring to come close to telling the truth when he now says it would not be a good thing if China's military turned unfriendly.

The Jews of the Orient don't set the scholastic levels wherever they go because they are morons.

Diamond Currency, two words, should stop all conversation apart from just discussing who has the best looking wife, husband, girlfriend or boyfriend.

This is an easy one to understand once you put your mind to focus on the "**Money Trail**" beginning with what happened to Hitler's diamonds that were not used?

It does not matter what they were used for.

All that matters is that Hitler was getting his diamonds and the **DAAC** were giving us a hard time.

Conventional Wisdom says when you are at war then it means you are at war.

If you are at war and an organization that is a cartel, a price fixer like none other but does not have upgraded F-16s and Apache helicopters protecting its administrative offices, the toilets where Ernest Oppenheimer and his son Harry would take their dumps, you simply call someone who knows someone who knows someone who may figure out inevitably that there is no one to call because this special interest of special interest group is the industrial-military-complex that

General Eisenhower warned us all about in his last speech from the Oval Office before **DAAC** President John F. Kennedy was sworn in.

David Ben Gurion was not a moron.

Menachem Begin was not a moron.

Emanem is not a moron.

Gary S. Gevisser is not a moron.

Einstein was not a moron.

General Eisenhower before he became President served as the Supreme Allied Commander of Europe.

Eisenhower could read. He could also see that Hitler got his diamond currency and the **DAAC** were giving us a "hard time" but yet he went through with D-Day even though he knew just like David Ben Gurion, Churchill and Churchill's second-in-command Field Marshall Jan Smuts that the **DAAC** had fully infiltrated the highest levels of the Allied intelligence apart from the Jewish Underground mostly trusting non-Jewish people getting and delivering the intelligence.

And you would know that bookmakers at race tracks calling out odds but mostly hand signaling provide not only the best of covers but know all the "cheats" from tax cheats to those cheating on their wives and who can be counted on when the "chips are down" to make the necessary trips from one end of the earth to other if necessary.

You would also know that there is not a single professional gambler in the world who wins who isn't in some way, shape or form bought and paid for.

I come from a long line of traders and bookmakers

my paternal grandfather and his brother the largest bookies in the north of England, their mother Nechie Badash who went back and forth between England and Tel-Aviv only returning to England when my Royal Mater-Mother was born in 1929, was orphaned at age 8 when a gang

of marauding Cossacks “**out on the town**” having fun killing Jews wiped out her entire immediate family.

My grandfather Alef-Albert-Al Badash-Ash was assassinated, I believe in 1963, not because he was a crook.

He and my grandmother Rachel despite arriving in South Africa in 1947 with a million English Pounds Sterling in his “back pocket” lived extraordinarily modestly in a very tiny one bedroom flat in a very middle-to-working class, more working class large apartment building that while very close to snake park on Durban’s north beach, it was noisy from the traffic below, most of the time their windows kept shut and their voices very low.

Look at all the millions of us Americans in jail doing hard time and think just about not what is right and fair but what they will think about what happened to Hitler’s diamonds that were not used.

Inventory is not a very difficult word to understand.

The drug dealers on 69th Street on the south east corner of Columbus Avenue, upper west end of Manhattan, New York City, the money laundering and intelligence capital of the world when not dealing drugs amongst other Mossad agents kept an eye open for me and would greet all my guests with their very friendly black smiles.

One does not need much to live in this world once one knows the truth.

The systemic corruption makes it so very easy for the Mossad to recruit once the truth is known.

Try it this weekend. See if you can go without your Starbucks. Just eat a couple of pieces of fruit a day, a little bowl of cereal in the morning, grab a bite here and there, watch every morsel of food you place in your body including every drop of water and mostly remember to **Keep Smiling!**

And if you are still not exhausted after reading about those lively people meet . . .

THE MAD HATTERS

By Eve Stuart

FORMER South African reading expert Zena Zelman collects hats. Her husband, Alan, has grown a pigtail. Both indulgences are the delightfully colorful predilections of an always elegantly dressed South African duo who, as a result, have been affectionately dubbed by friends and colleagues in the tag team as "the odd couple."

"So what if they call us the odd couple?" laughs Zena. "I'm having the time of my life. And I know that Alan is, too."

The attractive, down-turned forty-blond who is visiting Dutton from England, contends that there is something of the squirrel in practically every woman. Some of us collect dolls, she says. Others collect jewelry or china figurines while many more simply accumulate recipes and knitting patterns.

"I'm mad about hats. And I'm so glad my strict Jewish religious observance make it necessary for me to wear some sort of headcovering on every social and outdoor occasion. It gives me a wonderful excuse to indulge my mania."

In her home in Somerset, Zena has something like 60 or 70 headcoverings in wicker, straw, tweed, silk, lace, and more. These have been collected from all parts of the world.

Photographs by Terence Barrett

Zena and Alan Zelman . . . buying his pigtail is one way of getting attention!

Some of the most exciting have been acquired over the last year, which for her has had "the whole experience of a second honeymoon."

"Don't I know it!" wails South African clothing tycoon husband, Alan. "She's a girl more fun than Joan Collins. I've just needed making a new cupboard in which to store them all."

ZENA is the former Zena Gevison, well known throughout Southern Africa as the initiator of professional training schools for models in this area.

Like most big enterprises, Zena's schools had a small beginning. They started in 1947 with a simple course of lectures to help adult women in Dutton overcome shyness. The response was so enthusiastic that she was soon encouraged to expand the course to include good dressing, fashion, beauty and attractive deportment.

The school in Dutton appeared to fill a very definite need among women of all ages and it wasn't long before she was privileged again to open similar establishments in . . . Pietermaritzburg, Johannesburg, Ladysmith, Johannesburg, Cape Town, Windhoek and Salisbury (now Harare). There was

even one in Elizabethville in the old Congo. Zena had a regular slot in a women's radio series and she also wrote a column on beauty in an African newspaper.

For the next 25 years or so thousands of students were trained by Zena. Some of them became top South African models and beauty queens. Among the latter was Nancy Coenen - now Nancy Ray - who won the Miss World Contest in 1966. Another signal success was Cecile Harman, the first international model who, through Zena's agency, had the privilege of working for Royal couturier Norman Hartnell, and various other top fashion houses in Europe.

"But all that is in the past," Zena says. "I enjoyed those days and they're good to look back on. But today is what counts."

She battles vivaciously. "Do you know what I've discovered in the last year or so? It's that life doesn't begin at 40, as they say, but at 60. I'm nearly that age and I'm having an absolute ball!"

For the last two years she and Alan have been touring the world on what they happily describe as "an extended honeymoon." They were married in a romantic ceremony on the top of Mount Zion in Israel in May, 1964. It is a second marriage for both of them and their joy and happiness is one another's living proof that love and marriage can be a good, if not better, second time around.

ALAN is a retired industrialist, its founder of a garment factory cooperative now known as South African Clothing Industries.

He took early retirement because of stress of teaching up the business was not without stress, which began to be serious to his health.

"I decided I didn't want to be a richest man in the country. I would live and do all the things I've always dreamed of doing - tour the world, see new places, meet new people. I can't say the last year has been just magic. To mark his "liberation" from 9 months prison, Alan gave his pigtail 17 days gone by when Chinese men were into bondage they cut off their pigtail. Well, I've done the reverse. I'm liberating so I've grown a pigtail which, he says with a mischievous twinkle "has been most admired by a good many ladies!"

Need you think might be some of my mad mania for hats and Alan's pigtail really odd and the fact that we do the odd things just for the sheer joy of it together, but who cares? We're like the time of our lives and we both intend to live it up until we die."

Living it up means traveling at 29 high summer years to faraway places with exotic names on exciting, but to their greatest chance to widen their horizons and increase their knowledge of the world and its peoples. Living it means going out to meet life in all its moods, stresses and happenings and discovering the wonder and beauty of it all.

And of course, wherever she goes means, she's now and then, a new hat Zena.

But Alan doesn't mind. "What I love," he says, "is the old's got more beautiful hair going back in a world." And does hat collecting interest him, too?

He nods with laughter. "I've a collection. But I'm so busy in just today. My dear, don't you think that's mad hats in the family is quite enough."

Everyone has there own little story that should be told assuming it is interesting and of course it is once you take up my suggestion this weekend.

I am equipped to fight perhaps not like when I was twenty five but well enough that I could lead today any Israeli Special Forces unit in to "harm's way" knowing that they would follow me but the same couldn't be said about Ehud Barak and a good number of Israel's senior military.

Israel could clean up its act but, the housecleaning that is needed is in the Israeli Knesset, no different to the entire United States Congress, is an impossible task, at least at first blush.

Politicians everywhere don't have the stomach for war not once they understand how little it takes to be happy when you know you are on the side of light and with each passing moment life gets not only more enjoyable but worth living for as the DAAC simply cannot outrun the light increasingly shining brighter with lightening always on our side.

It is of course a miracle of God that any of us are alive today and if we survive through to tomorrow it will be no less of a miracle but more so.

So how long do we want our corrupt politicians to "Play God" when God could obviously care less about them since for starters He-She has chosen to at least keep me around to explain all this very easy to understand stuff to you who will feel better or worse on Monday, all depending,

even if you don't choose to read this email until you get in you may still remember encountering someone this weekend as you go on your diet thinking about all the blood spilled just for a bunch of not really nice people who most of all are not that very bright, certainly you would have no trouble arguing with me that not one of them are as bright as me and I know that I am not as bright as my wife or our dog Maggie and even if Marie Dion Gevisser looks you square in the eye and tells you that our so very soft, so very sweet-mutik cuddly Pypeetoe with no hidden agenda "**was not very bright**" you tell her from me, "**Nonsense!**"; Perfect everything was Pypeetoe, the world to me and Marie.

It is much easier to tell just a little lie in order to help get over the grief of the most perfect soul who did exactly as he was told, even if he did on occasion push things just a little to let you know it was okay for you to feel what it was like to be the "**alpha god**" [sic].

Pypeetoe's only agenda was to be close to both me and Marie and to be fed when hungry the highest quality steak and did he love his Greek yogurt that Marie would sneak him more than me, and when he felt I needed to exercise more he would stretch his long legs and push me out of the bed so that he could have Marie all to himself, burying his cutest head in her neck.

But a lie no matter how small a “white lie” is a lie, is a lie, is a lie.

The Diamond Invention is real and its **DAAC** principals and politicians who have failed the peoples of the world for a century now cannot escape from it.

Knowledge-Information-Light-power, power to change the world stems from humans being lazy and fearful from embracing the truth!

The truth is too disrupting for some people too busy keeping track of all their lies from day one - MDG

Truth, that which does not change.

[Geviseris-Gewissen-Gevisser](#)

but during these next 7 days while **MDG** has both her “tTOo” [sic] kids get to see that not everyone in the world is so very wretched as their so growl looking 60 year Sperm Donor, the studio cliff house is going rock big time as I make the most exhausting but fun filled attempt in futility to catch up.

Not to mention the so disgusting slimeball of slimeball makes you in your 83rd year look like you are ready to not only compete but win every single event in the next Olympics to be held in Beijing including table tennis, her athletic sister, Danielle Dion also like MDG 1/32nd Huron Indian and her partner-husband Radek a 60 or so year old most awesomely athletic Yugoslavian, anything but “old farts” and as logic would dictate not “all about money” and not having to hear repeatedly, “money cannot buy you happiness”.

To mention little of God who keeps **THE IT** around just to make all the rest of the miserable wretched sons-daughters-of-bitches feel not all that bad about themselves, no strike that, actually extraordinarily good as well as important as they now get on their hands and knees and pray to the Lord that He-She should keep Dr. John BIG BEN Stewart MD around longer than all the so many good amongst us who when rising from the dead once he and all those who ally themselves with him are all long dead will make much more of a point to paying careful to all the ant size human ants just doing their thing.

To mention in passing you being a witness last evening to **MDG** threatening that if I post one more nude photo of her up on The Internet she will drug me, dress me up in leathers, take photographs, post them up on The Internet and to top it off join forces with www.Plentyoffish.com.

And of course my so very radiant wife could easily pass for being in her early twenties especially when not listening to her make such perfect sense in the most breathtaking French accent and just looking at her gorgeous face and a body so out of this world I just want to cry for when waking up fully clad in those leathers.

Now turn up even louder track 3 GRAVEDIGGER so that when the train passes by the Doppler Effect forces when combined with that of the fresh ocean swept air originating from the shores of the awesome Peoples Republic of Communist China you begin feeling the effects of weightlessness.

Do you have any more details apart from what it says below that your grandson “**received known stolen property \$400+**”

Not to mention bail set at US\$50K not US\$250K!

To mention little of **Roy “Marc Rich Ally” Essakow**

whose back of head you see in the photo above closest to the door in my Royal Mater-Mother's Charm School

THE IMPORTANCE OF BEING A WOMAN (SERIES 2)

BY
ZENA GEVISSER

located in the converted garage of our home at 50 Bowes Lyon Avenue, Glenwood, Durban, South Africa, leading in to the driveway which we first had to walk down before most if not all of those you see in that one-of-a-kind pillow fight photo joined Roy after a sleepover where we would have our customary pillow fights, ending when Roy was arrested for stealing a bottle of orange juice that was part of a “sting operation” set up by the local South African police following a series of thefts which Roy nor any of us had been a party to, nor for that matter had we any knowledge that others less fortunate would do such a criminal act simply out of a basic need to survive in the very hostile environment of South Africa, hostile not only to the tens of millions of the most awesome peoples of color but all independent thinkers around the world who didn’t need anyone to explain to them that it was the brute force of the **DeBeers-Anglo American Cartel’s United States Armed Forces** which kept the most brutally repressive **South African Apartheid Regime** in **UNINTERRUPTED** power from 1948 to 1994.

Roy’s father’s reaction when arriving at the police station was to crack him so hard across the head that Roy went flying across the room but it was my Royal Mater who would have preferred that Natie Essakow had “**kept his cool**” and let Roy, who my mother cared for more than anyone else apart from her own 4 children, go to jail; Zena Gevisser not mincing any words when letting me know that had I stolen anything no matter how small she wouldn’t lift a finger, not even provide the bail money, “***I would let you rot in jail!***”.

Until of course it happens to one's own children it is all so very easy to act so very preachy telling ones children repeatedly that if they ever felt they needed a hand to simply look at the end of their arm.

And when again saying it enough times it may in fact work wonders on the children but what about the grandchildren who never got a "**fighting chance**" beginning with having such awesome caring parents and grandparents as me and in fact a good number of us independent thinkers who have been able to see the writing on the wall for "sum" [sic] time now.

I got back a couple of hours ago after dropping Marie and the kids off at the San Diego Commuter airport where American Airlines officials and employees stole back on April 3rd a fair chunk of gold out of my hand luggage which I was able to prove beyond a shadow of a doubt in a series of [emails](#) between myself and American Airlines' General Manager upon my return from Europe, not to mention the retaliatory threatening phone call that on top of the "deafening silences" of [Gerard Arpey](#), the President and Chief Operating Officer of American Airlines et al speaking volumes.

The best was a fatso at the United Airlines counter asking me "**What is it that you don't get?**" after she provided me with her curriculum vitae which had me mostly focusing on apart from her fat the words, "**8 and half years on the job!**"

Not to mention that the reason she wasn't going to check Marie through to Vancouver, Canada instead leave it up to officials in Los Angeles to decide whether my French-Canadian wife had the "right documentation" was because, "**I don't want to be written up!**"

No surprise that Marie's 18 year old Danielle would pipe in, "**What is it that you don't understand?**"

Is there any Pollard family member interested in seeing this 18 year old grandchild of yours get a "fair trial"?

Not to mention his father, your one son, has been labeled a "**sex offender**" since he was in his mid-twenties for having had consensual sex with an underage girl whose parents were simply looking for a "scapegoat" for their lack of parenting skills, causing not only your son but his children to be "cast out" despite repeated attempts especially by your son to try and do the "right thing".

Bear in mind that behind the studio cliff house right by the garbage cans is a US\$550 Willis Brothers surfboard

I had made for Jonathan

which he has barely used because it is not quite to his "liking", wrong this and that which may in fact make perfect sense even to the Willis Brothers who thought it would be perfect given how it is unlikely they would want to see a board in pretty much perfect condition out there soiling up the San Diego dump for every surfer kid "down on his luck" willing to give their "front teeth" to be so fortunate to own which is not to suggest anything apart from why don't you and I try selling it and even if we get say US\$5 perhaps the person we sell it to will throw in a buck or "tTOo"

[sic] and before we know it we could have say US\$5,000 enough for the 10% bail non-refundable deposit or if we think your grandson is a “flight risk” to get him a competent criminal attorney who with my guidance might be able to help not only your grandson but his younger brother fast following in his elder brother's path to a *life of crime*?

Not to mention how "gang-bangers" are such very easy "targets" for law enforcement to show the rest of the discombobulated citizenry that they are "**tough on crime**" as those most rapacious criminals build into their "**cost of sales**" the "**cost of getting caught**" getting away time and again with "**bloody murder**".

Not to mention that even if your grandson has personally never committed a single violent act, gangs just by their very nature are intimidating which of course gives those of us who think we are above it all the perfect excuse to excuse all the reasons we know for a fact why it is that gangs are so very attractive to those whose very basic needs are not being met and who join the "bullies" who invariably make up a very small percentage but who give all "gang-bangers" such a very bad name.

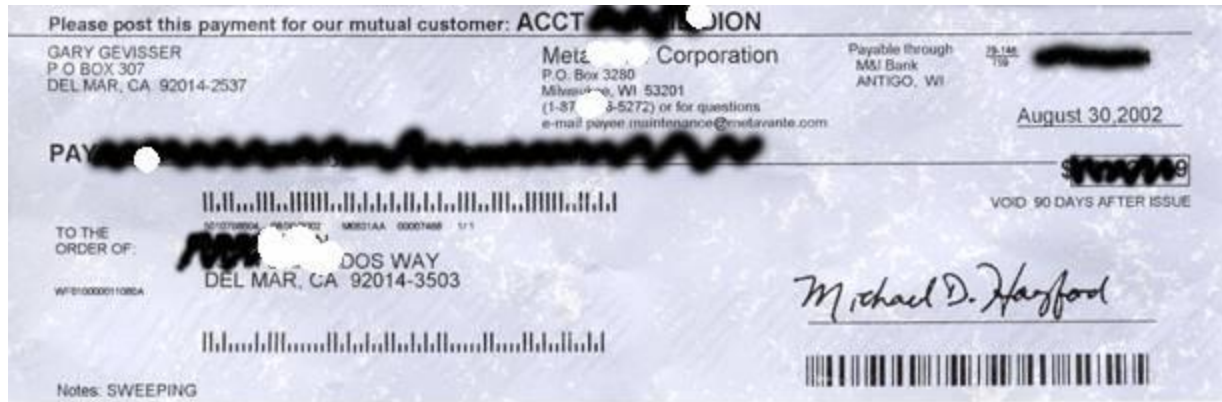

We know most of us human beings are simply followers and when given no choice end up rallying around the bullies of the school.

Not to mention how it comes to pass that it is the self-righteous "**bleeding heart liberals**" out there the very first when "**rising above the ashes**" [sic] buy their "**status symbol**" BMW and Porche gas guzzling SUVs while continuing to voice so very loudly their call for "**change**" along with of course their disgust of so athletic President George W. Bush who is fully deserving of every vacation he and his awesome wife, I forget her name,,,,, o yes, Laura, take.

Now think of **Bill "Rhodes-DeBeers-Marc Rich-Scholar" Clinton** and Hilary having their perfunctory sex!!

It is no different in any part of the world all this outrageous hypocrisy although when you consider how extraordinarily nervous these days are people like Harry Rady standing to inherit one of the world's greatest fortunes from his father Ernest Rady in command and control of American Assets that includes significant mining holdings in Canada, you have to think there is more to this story of Harry building up one most extraordinary arsenal in his La Jolla home to fight off those down and out tying up his parents and escaping with some US\$43 dollars odd, than simply Harry also taking steroids which is what I believe I read as well as in the **DAAC's** San Diego Union Tribune.

BTW after Marie took photos of JoNathan this morning to send to you to get in to the "right hands" to wean him you might think that much quicker off **BIG BEN's "handouts"** I journeyed with Marie to an upper-end cosmetic store in Solana Beach located in a shopping center owned by Ernest, actually he owns both shopping centers on either side of Interstate 5 on Loma Sante Fe Road that a friend of mine from Durban, South Africa who I first lived with in Chicago when I arrived back on St. Patrick's Day 1978, now in the street-parking lot cleaning business and as a result of my connection to Ernest, got the concession resulting in this check to me.

Not to mention last evening when I went to pick up our vegetarian and your albacore and yellowtail sushi from Matsu Gawa just up the road from the studio cliff house on 11th Street as I got off Marie's red scooter I dropped a hundred dollar bill that a rather large patron waiting outside for a clearing at the very crowded sushi bar found and not knowing who it belonged to handed it over to the female waiter who was waiting on me at the cash register; the wad of \$100 loose bills I had in my left hand left little doubt who the money belonged to, and of course once the honest gentleman and his lady friend were seated at the sushi counter I handed him back the money while letting him know that if there was anything remaining after eating Matsui Gawa out of "**steak and Home**" [sic], now come to think of it he was while very sweet as big as a house, to leave it with Jim the only other waiter who is of course on my email list and who had his hands full keeping up rather well on what may very possibly have been the busiest night in the history of Matsui Gawa benefiting from the overflow of drunk horserace goers frequenting the Del Mar Plaza just a few blocks north increasingly attracting the cheapest of whores.

Why not also leave, "**goods things alone**"?

Naturally, I made good use of the time while waiting for our delicious meal to be packed and shared with the gentleman Marie's business card while letting him know to wait a few weeks before www.SELLNEXT.COM is fully functioning.

Now, of course, I could have gone overboard and started an auction to see if anyone would be interested in www.real-tycheck.com that expires on August 22nd.

Once, however, one recognizes why it is that rich spoiled brat kids who can go to their **BIG BENs** benefiting from real estate inflationary bidding wars when needing cash to buy the next and best greatest whatever, cannot even bring themselves to pass an opinion about how they feel about the possibility of a military draft being reinstated here in the United States in order to support our out-of-control industrial-military-complex that feeds the stock market that in turn feeds the insurance industry that in turns creates out-of-control real estate development dependant on the masses breeding out of control, all of which is responsible for their trust funds being worth more than the paper-deforested trees they are written on, so in the next breath you are beginning to see not only the "**defense case**" I am preparing for your grandson but to get all gang-bangers to realize that those members of law enforcement responsible for "**tagging**" them are nowhere close to being their enemies and to as difficult as it sounds at first, given the unmentionable violence that occurs in prison awaiting trial, to try while praying as hard as they can to God to place themselves in the shoes of local law enforcement "**on the beat**" who have

also mouths to feed who each and every day that they see their mom and dad put on their uniform and place the gun in their holster it may be the last time.

When one considers how I was the only one in my family of 6 to be in the least bit interested in why my paternal grandfather, a very wealthy trader who could afford as many maids as he wanted had his very busy arms trader orphaned mother return to England from Israel to raise my very brilliant, secretive and not one to tell anyone what to do or how to do it mother at the same time never tolerated for a moment anyone DARING to question her, so you understand why it is that I am extraordinarily sensitive to those spoiled brat rich kids the most discombobulated which doesn't mean that they should be allowed to turn their backs on people like your grandson.

Moreover, just take a look "on the faces" [sic] of any kid who has finished high school anywhere in the world once you inform them of yesterday's news that the western world's central banks had to pump in billions of their worthless currencies in to the totally underwater capital and financial markets, that such billions didn't simply come out of "nowhere" but out of the hides of the next generation, you may rethink a number of things beginning with how the next generation of children throughout the world may decide to do something before the world runs out of oil in 5 years or less, depending.

Then look very, *very* very, carefully at the alternative to the United States Government reintroducing the military draft which you can bet your bottom worthless-fictitious and very blood stained DeBeers-Dollar will not be well received by those in particular who faired rather well on the battlefields against the **DAAC** United States British military post World War II.

To raise the pay of American service people to that which we pay our mercenaries, currently between US\$75,000 and US\$150,000 a year to protect not only American service people and of course our mercenaries are not doing the greatest job in the world but to make sure the oil flows not only out of the ground where we so purposefully create our "tried and proven" civil wars but on to oil supertankers which have to travel the high seas, not to forget the Cole or the USS Liberty spy ship for more than a picosecond, would mean our service people are then mercenaries no longer fighting for "love of country, freedom and democracy" being paid the "*sniff of an oil rag*".

Not to mention please let me know what else I should mention prior to my follow up email to President George W. Bush when I will be spelling out in simple English although if you want it in Hebrew I am fully capable of doing it just as well, the Top Secret Israeli Military Intelligence report that makes China "central" to a date-time certain when the Israeli top military brass expect either Israel and/or Al Quaida and/or the United States of America and/or Great Britain to launch of series of attacks in the Middle East that in the next instant will paralyze the American economy.

Ps - I assume you read my email to you when you got home last evening.

Ps II – Perhaps you could also help me reach this Harvard University Professor, Ross Terrill who penned the abysmal "*Dealing with China in the coming years*" the ending saying everything,

"Above all we [the United States] should continue to be a beacon for freedom, with dignity and patience, but also with tenacity and no apologies".

Not to mention do you think Mr. Terrill has the excuse of being "**discombobulated**" or totally **DAAC** corrupted when forgetting the American led 8 Allied invasion of China in 1900 financed by **DAAC** financed American bankers led by J.P. Morgan?

You might in fact agree with my "**drift**" that the email below I began sending out this morning to "**all interested**" parties might not only help in your grandson's defense but stop with this nonsense of making China the new **EVIL EMPIRE**.

Subject: I am trying to reach Ross Terrill.

I was most enlightened by his article "Dealing with China In the Coming Years".

Consequently, I am eager to make a significant contribution.

Before I dis...---...

Not to mention yet again my "**Spago**" pal aka "**our man Roger**" aka **Roger W. Robinson** a name **The IT** couldn't help but mention on **September 8th 2002**, our JoNathan's 10th birthday, and 3 days before **THE IT** filed the baseless criminal complaint against me, when during the birthday celebrations when Marie was busy making certain all the kids were having a great time, **THE IT** after totally "**losing his cool**" when seeing me in the driveway of his X-wife's home on Barbados Way, Del Mar in my new Mini Cooper S, as this redneck of rednecks failed to goad me in to a fist fight then "**out of the blue**" while shaking the car from the passenger side began saying "**Roger Robinson is also afraid**" of what else besides for me exposing all those rotten selfish future shellfish who think the world is all about them.

To mention little again of **The IT** who to the best of my knowledge has not met this "**traitor of traitor**" to the "**Free Enterprise System**", also then asking Marie who had now come out of the house to find out what was causing **THE IT** to go utterly berserk to "assure" me that he had no problem with his **eyesight**.

"I detest those who derive great satisfaction in exceeding the limits of their small authority; i.e. evil does not come in the form of a pointed tail or pitched fork!" – Jeffrey R. Krinsk Esquire

Ps III – Don't you think Hitler lying there in his grave might think he might still have a chance of rising from the dead and being absolved of all his sins when comparing his crimes to that of **The IT** bearing in mind that Hitler wasn't really all that well paid an actor who spelled out right from the start his game plan?

Subject: zieglar follow up DO NOT SMOKE ANY POT ON THE WAY UP...RE: Hey, it's Kim from Jeff Krinsk office.

Hey Ziegler,

Do you have any idea how extraordinarily easy it is for Mr. **JRK** Esquire to make money these days as the filthy rich leverage their wealth beginning with the over the top share price of their public corporations and use such monies to continue buying up the land, water and other rich mineral resources such as oil gold, diamond, uranium, coal and the such in the rest of the world?

Do you have any idea the size of Finkelstein & Krinsk's offices in downtown San Diego bearing in mind that unlike Codiam Inc. the most significant fronting private corporation for the **DAAC** located on 47th Street in New York City although their mailing address reads Avenue of the Americas also known as 6th Street, F&K not to be confused with my French-Canadian wife Marie Dion Gevisser do not have a board room?

Would you believe that Codiam Inc's world headquarters is about the size of our stone home, some 800 square feet buried in a hill deep inside the Cleveland National Forest?

Would you be surprised to hear me announce that the size of my boardroom is larger than all the boardrooms of the world combined bearing in mind my stakeholders are all those with access to a computer hooked up to the Internet in "real time".

You mentioned last evening that you were thinking of devoting one of your daily 3 hours of **DAAC** propaganda to sex.

I truly don't think it is going to have that much more of an impact on your Chinese, Russian and European audience who I am encouraging to tune in to your nonsense hate filled show like there is no tomorrow.

Why not start off your next show this coming Monday by asking your audience why Mr. Putin would choose to use a so easily traceable miniature neutron bomb to execute one of his detractors in of all places Piccadilly Circus in London, England?

I would be willing to bet my last fictitious-worthless DeBeers-Dollars that you are not smiling right this instant.

Mr. Putin knew the minute Hasidic-Black Hatter Mr. Laviev laundered some \$14 billion or so diamond currency to ensure Putin's victory in Russia's presidential elections that the **DAAC** would not be so foolish as to keep this secret all to themselves.

I would be willing to bet my last fictitious-worthless DeBeers-Dollars that you are not smiling right this instant nor do you want to hear all the details of my very recent business-personal trip to France and Spain during which time I cannot recall more than 30 seconds when my awesome F-C wife and I weren't smiling from ear to ear.

How often do you play "**Picasso Face**" when making out?

Do you own a dog?

Does your dog look and act like you when you make love to the woman of your dreams.

Your nightmarish hell is only beginning.

For every action-reaction-overreaction there is an equal and opposite reaction, nothing is gained nor is lost.

Fresh water is running out everywhere but there is no need to panic so long as you are allowed to continue broadcasting the same with each and every one of your miserable **DAAC** talking heads on both radio and TV.

Military regimes steal the people's lands and then embrace stuff like democracy which embraces professionals like lawyers.

There are a greater percentage of lawyers in the **DAAC** United States of America than anywhere else in the world.

Let me know if you would prefer I don't continue.

How much time went into planning of the universe

How much time do you think the DAAC have had on their hands to plan for every eventuality as they make money hand over fist without ever worrying about how to make a living, make ends meet etc etc

Re: Comport v. Revlon, Inc., et al.
USDC SD New York - Civil Case No. 99CIV.10192

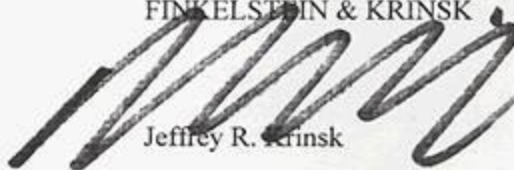

Dear Gary:

By separate cover I sent you a copy of the decision, which will be cited for many years.

We attempted but were unsuccessful in scanning a copy of a copy which is not unusual. Notwithstanding any resulting difficulty, please spare no effort in "stirring up the pot" to find individuals with evidence and have Revlon aware their misdeeds are under a microscope and will only increase in intensity!

Sincerely,

FINKELSTEIN & KRINSK

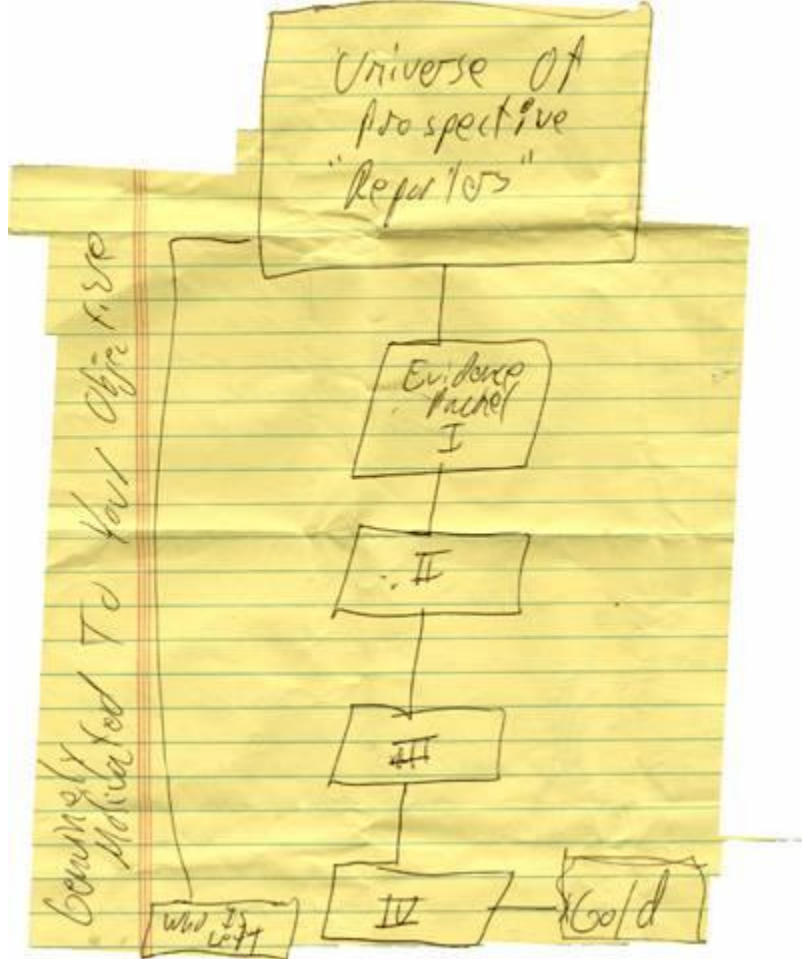

Jeffrey R. Krinsk

JRK/sca

BTW, we agreed to **Ronald O. Perelman** of Revlon settling with us for only \$10 million because I had convinced Jeff that while a trial would have most probably resulted in a significantly greater financial award, not only is "**a bird in the hand worth tToo in the bush**" [sic] but we also had to consider very seriously the pending epic collapse of the world's capital and financial markets in addition to Perelman who is known by his senior executives as "**Capo Di Capì**" having his henchmen execute our witnesses whose names we only found out on **October 24th 2002** had in all likelihood been revealed to the **Capo Di Capì** by my wife's X husband when he illegally accessed my proprietary Internet database since **The It** had nothing whatsoever to gain from revealing in a packed courtroom that he had committed such a foul act apart from me suing him for this illegal action while he, the flat line of flat line plotters prodded away doing the most superb job of letting me know our witnesses were now at great risk.

Not to mention that one of the witnesses in a separate lawsuit with Revlon was asked by **Capo Di Capì's** lawyers whether she knew me despite the fact that neither Jeff nor I had any involvement with her legal actions against just yet another person without a conscience.

Third, below is the world beater business plan Jeff drew up for me back on **December 31st 2003**, a year to the day when my awesomely smart and gorgeous French-Canadian wife sent an email to a gold trader that began, "***It seems that Mr. Gevisser might in fact be on to something***", not to mention that gold last traded on 12/31/2002 at under \$350 a troy ounce, to mention little of the gold spot market closing yesterday at \$678.90

Your interest in my forthcoming book which my very literate math wizard wife titled, **THE HISTORY OF MONEY CREATION AND ITS FUTURE!**, as well as subtitled, ***A Message For The President***, was both enlightening and uplifting.

Consequently I made the decision to share with you yesterday more of my Knowledge-Information-Light just as I crossed the railway tracks heading back from the San Diego Commuter airport where I had picked up an envelope containing "sum" [sic] of the gold I had stolen and which according to the General Manager of X X San Diego was all that was recovered.

Not mention X X in our first conversation informing me that he personally had helped in the recovery efforts, getting on his hands and knees and picking up the small pieces of gold grain that had somehow left my hand luggage and was strewn all over the place causing the baggage handlers to quickly notify Mr. X who told me also how very badly he felt since he could place himself in the shoes of the person who had lost their gold.

This rather small event most likely won't make all that much sense to you for two reasons.

First, I am in the "pre-discovery" mode and I cannot be quite certain who will get to read this communiqué prior to me getting my "arms around" the "proof" I am seeking that talks to amongst a number of things that ***The Fish Rots From The Head Down***.

Not to mention yet again, proof is a function of evidence; the better the evidence the better the proof.

Second, you have to be asking yourself what in God's Name does this have to do with me explaining my plan to you of how you can become financially independent in 60 days or less without having to give up your day job.

Bear in mind that in our rather short phone conversation that lasted as long as it took a gentleman whose left arm had been severed some 10 centimeters or so below the elbow to walk from the first traffic light just east of the railway tracks on Laurel Street to cross over the railway tracks heading in the opposite direction to me before reaching the next set of lights, I never mentioned anything about how I could explain to you in 45 minutes or less how you can become financially independent in 60 days or less without having to give up your day job.

When being repetitive it is helpful to make every so often minor but relevant changes so as to continue capturing the interest of your audience and I assume I have been moderately successful, at a minimum.

Remember you always have the option to hit the delete button as well as to lie to me so as to enjoy while getting paid a free meal at Rainwaters where you can pick any item off the menu including the ~~\$88~~ 48 ounce Porterhouse Steak that may in fact cost today well over a hundred worthless-fictitious so very blood stained DeBeers-Dollars.

Probably less than one half of one percent of the entire world's human population have heard of the mostly South African based DeBeers corporation who for more than a century have controlled every aspect of the diamond market.

Not to mention I am thinking about training my super intelligent and so very openly sensitive **SIIG** to say the word, "**DeBeers**".

Bear in mind that even if you have never taken a single business course in your entire life you would know assuming you haven't let your formal education interfere with your learning that if you control any important market and few would argue with the fact that more than half the world's sales of wholesale diamonds running in to the tens of billions of worthless-fictitious DeBeers-Dollars takes place on 47th Street in New York City, the money laundering capital of the world, in the very next instant you can in fact control every other important market including the stock market, real estate, insurance etc etc including the 3 branches of the United States Government.

Let me now have you look at a heavily broadcasted email I sent out going on 5 years ago which Jeff painstakingly helped edit.

Subject: Epilogue to Manager Minute One

The collapse of the stock market here in the United States is all but certain. It makes no sense that a publicly traded company should be valued more than a private business which generally sells for between 3 and 5 times predictable earnings plus liquidation value, i.e. "less goodwill blah blah" [sic]. And remember management of private companies are much more accountable assuming they have the checks in place for their "**auditors not writely balanced**" [sic].

Publicly traded companies with their diverse shareholder ownership allow management much more flexibility to mix things up, taking with the right and hooking the owners with their left, lefties to boot. Right now the smart money has left or is in the process of leaving the markets in search of "**safer heavens**" [sic], safe harbor provisions a thing of the past.

President Bush should do the smart thing and immediately suspend trading of public corporations, thereby protecting the innocent and naive who are simply throwing good money after bad. Those well run public companies should have no fear for they will be at a competitive advantage relative to the capital that has been so smartly socked away.

The scars of **1907** remain on the masonry buildings housing the stock exchange of Wall Street. The fundamentals of the economy at that time were much worse than in **1929**. One man J.P. Morgan saved the day, not so lucky for the victims of 1929. History has a way of repeating itself but today the "**risk markets**" are more fragile than at any time in history.

"Risk assessment" is my business.

Gary S. Gevisser

[Word count **267**]

Most people who have spent any amount of time around Jeff Krinsk know that he is "smart" although what they mostly focus on when arriving at that accurate conclusion, besides for keeping company with the likes of me, forget for the moment "**Bozo the clown**", is that Jeff is possibly the very best **Shareholder Class Action Litigator** in the entire world at "**making money**".

You may not know that Jeff was already a very successful businessman before deciding to practice law in the most fiercely competitive area that brings together the very best and brightest of attorneys who of course rely on people such of myself with significantly greater business experience to provide them a "**competitive edge**".

To the best of my knowledge the stock market despite my plea for the President to suspend trading in the shares of public corporations continues to reach all time highs which is exactly what Jeff and I had predicted and why it is increasingly that much more critical that the world's masses pressure the President to immediately suspend the trading of shares in public corporations so as to prevent the current civil war fully underway here in the United States from reaching unstoppable epidemic levels that could become a pandemic in an instant were our trading partners such as the Chinese not so "**fully up to speed**" thanks to people like Jeff and me.

Again, you wouldn't need to have attended a single course or lecture involving economics, history or politics in your entire life to fully understand exactly what I am saying so long as you never allowed an imbecile such as "**Bozo the clown**" to get in to the space between your ears.

Let me explain.

DeBeers is a cartel, meaning they don't care at all for the "**free enterprise system**" that is meant to breed "**fair markets**" where people can gather and exchange information, goods, services and minerals knowing that there is first and foremost a "free flow" of information about both all the buyers and sellers.

Once fully understanding what I have written above may have you deducing that it is best that DeBeers who have created this warm and fuzzy feeling beginning with "**A Diamond is Forever- A Girl's Best Friend**" should for all our sakes be in command and control of allocating the world's finite and precious resources including human labor.

And of course to the ignorant that don't know what goes on behind the making of diamond currency a diamond is very pretty.

Let me tell you a little more about DeBeers.

DeBeers is a terrorist organization.

DeBeers is the most vicious terrorist of terrorist organization which was started by someone just like Bill Clinton who you remember is a much touted Rhodes Scholar.

Cecil Rhodes was the founder of DeBeers who are not in the business of mining for diamonds as those one half of one percent of the human population believe.

DeBeers is in the business of stealing land, specifically indigenous peoples' lands beginning with the lands of the multiple black tribes of South Africa that sits atop the world richest mineral resources including uranium.

My mother, who I refer to as my **Royal Mater**, would say that if you asked her second husband, clothing magnate Alan Zulman, for the time, he would tell you how to build a clock.

It is not quite as funny as hearing it for the first time but after hearing my **RM** mention it repeatedly it tends to get a bit "old".

My eldest brother, poet-master chef-master masseur of master masseurs Neil Gevisser who is now going on 56 years, some 6 years older than me, when he first got his drivers license and got stopped by a South African traffic cop for going through a red light told the officer after being asked why he did something so reckless,

"When you've seen one red light you have seen them all!"

Again, it is a whole lot funnier when Neil tells the story but you cannot even begin to imagine how funny it was hearing Neil tell it for the first time when I was just 12 years of age but already well on my way to becoming a member of Israel's most elite Special Forces commandos.

Jeff knows DeBeers is today, this very hour, this very moment in a whole lot of trouble and so is a whole lot of people including Bill Clinton but who all combined, remember represent only a fraction of the one half of one percent of the world's population who know the name DeBeers.

Again, should you not think what I have written is both enlightening and uplifting which simply means you are not benefiting from the **DeBeers-Anglo American Cartel's** diamond drill bit oil wars then just let me know and I will abide by the exact "**terms and conditions**" of our agreement.

On the other hand should you feel not only enlightened and uplifted but invigorated to the point that you would challenge me to a race around the 90 minute loop walk of Nobel Canyon that begins and ends right outside our stone home here deep inside the Cleveland National Forest but only just once since I am fighting a little cold, the first in 5 odd years, then take a leisurely drive out here and assuming you can keep up with me in the 45 minutes it will take us to complete the course and please wear excellent trail running shoes, a full facial helmet and protective gear around all of your joints and please I beg of you **DO NOT** smoke any pot on the way up, I will spell out for you in simple English how you can without giving up your day job be

financially independent in no more than 60 days, well before we reach the halfway point at the top of Noble Canyon that is about 4200 feet above sea level.

Subject: PROTOCOL... RE: American Eagle

Dear Mr. Bowler,

This matter involves not only the use of an aircraft in the commission of a crime, theft of approximately \$35,000 in valuables, mostly gold grain also known as gold shot that was taken out of my **hand luggage**, on the ground at San Diego commuter airport on **April 3rd**, flight 3086, departure time 5:55 PM PST, but after I reported the crime to American Eagle I received a retaliatory threatening phone call from your San Diego General Manager.

I have considerable amount of “*back up*” material including emails starting on **April 12th** to AmericanAirlines.wecaare001@aa.com, confirmation # I2007/04-22134-00008-001 which I don't have easy access to currently.

I can, however, provide you with the essence of my “complaint” by having you look at a series of emails between myself and Mr. Steve Terry, General Manager of American Eagle, San Diego that began on **Friday, April 27th**, continued in to the weekend, ending **Monday, May 1st** after I responded to Mr. Terry with straightforward follow up questions resulting from Mr. Terry's last email where he described a bizarre breakdown in protocol.

There can be no mistaking the purpose of Mr. Terry's ill-conceived decision on **Tuesday, May 1st** to call me on my cell phone [1-858-735-6398], the call beginning at 8:56 AM PST and lasting 2 minutes and 56 seconds.

It was crystal clear that Mr. Terry had no purpose to call me other than to intimidate me to “*cease and desist*”, letting me know in no uncertain words that that he and his superiors had taken the decision, in his words,

“to now hand this matter over to the TSA for them to investigate why it is that you are traveling outside of the country with so much money?”

Below are the emails between myself and Mr. Terry:

Bear in mind the passengers numbered no more than 20 and were seated very patiently having never been advised until we got to the steps of the plane that our hand luggage would be taken out of our possession, not to mention hand luggage that had been passed through x ray machines which would have kept a digital photo for how long you think?

Why weren't the passengers notified if not in flight then immediately when we arrived in Los Angeles some 30 minutes later?

Furthermore, I assumed that since you emailed me on Saturday you were focused as I am in getting to the bottom of this rather unfortunate incident.

Did you ever receive an "incident report" I filed with your parent company, American Airlines over the Internet?

Did you file any report with your superiors?

Did your baggage handlers tell you how much money was "*returned to the only bag that was unzipped*"?

How much time would you say was spent going through all the passengers' luggage to make certain that no other bags were unzipped?

Please run by me, since you were on the scene picking up the gold, what thoughts were going through your mind as the best and most efficient way to notify the passenger who you would have assume was oblivious to all the fuss going on below, of their "misfortune"?

Have you thought to ask me how much gold as well as a 1909 Lincoln penny is missing?

In all the years you have worked for both American Airlines and American Eagle have you ever come across small gold nuggets just lying on the Tarmac?

Have you read the most current editorial in the back of American Airlines' in-flight American Way magazine, page 124 titled, Liar, Liar?

Mr. Gevisser,

With all due respect I talked to you on Friday April 27 consequently I am off on weekends and returned today Monday April 30th. As you probably know when you take off for two day's there is two day's of work piled up waiting to be completed!

It is very unfortunate that someone had left a pocket unzipped and their money and this gold fell out. The money was found immediately and returned to the only bag that was unzipped, but unfortunately the gold was not seen until the aircraft was closed and ready for departure. What was found was several little gold pieces and one small gold bar (with 14K printed on it). After the aircraft pulled out what gold we saw on the ground was picked up and placed in an envelope and immediately put into our safe.

If you have any questions please do not hesitate to contact me.

Bear in mind the first thing you told me when we spoke for the second time on April 27th, the 7 minute and 36 second phone call beginning at 10:49 AM Pacific Standard Time how very "saddened" and "concerned" you were when your baggage handlers rushed in to your office to notify you of the all the gold that had "fallen" out of my hand luggage that then caused you to rush down to the plane, still standing on the tarmac, before getting on your "hands and knees" to pick up from on the ground as well as what was in the plane what amounts to the most extraordinarily small amount of gold that was, also in your words, "retrieved".

Consequently I assume, at a minimum, you would personally know if what appears to be a coin in the envelope which again I have yet to open, is one of the 10 one ounce gold coins that were in a tightly sealed hard plastic container?

Time is of the essence!

Why is it taking so long for you to respond to this straightforward question?

Mr. Gevisser,

With all due respect I talked to you on Friday April 27 consequently I am off on weekends and returned today Monday April 30th. As you probably know when you take off for two day’s there is two day’s of work piled up waiting to be completed!

It is very unfortunate that someone had left a pocket unzipped and their money and this gold fell out. The money was found immediately and returned to the only bag that was unzipped, but unfortunately the gold was not seen until the aircraft was closed and ready for departure. What was found was several little gold pieces and one small gold bar (with 14K printed on it). After the aircraft pulled out what gold we saw on the ground was picked up and placed in an envelope and immediately put into our safe.

If you have any questions please do not hesitate to contact me.

Steve

Bear in mind the first thing you told me when we spoke for the second time on April 27th, the 7 minute and 36 second phone call beginning at 10:49 AM Pacific Standard Time how very "saddened" and "concerned" you were when your baggage handlers rushed in to your office to notify you of the all the gold that had "fallen" out of my hand luggage that then caused you to rush down to the plane, still standing on the tarmac, before getting on your "hands and knees" to pick up from on the ground as well as what was in the plane what amounts to the most extraordinarily small amount of gold that was, also in your words, "retrieved".

Consequently I assume, at a minimum, you would personally know if what appears to be a coin in the envelope which again I have yet to open, is one of the 10 one ounce gold coins that were in a tightly sealed hard plastic container?

Time is of the essence!

Why is it taking so long for you to respond to this straightforward question?

Was one gold coin part of what was recovered?

Also do you recall where most of the gold was recovered bearing in mind the flight left at 5:55 PM on April 3rd?

I thought it best that I leave it unopened so that when I make my claim there will be no doubt as to what Janet handed over to me.

In feeling the contents it seems like there is a 1 oz gold coin.

Is that the case?

Mr. Bowler, while I have been in touch with various law enforcement authorities including the San Diego Police Department and the FBI I have also taken the added precaution to protect myself and those I care about by making as public as I possibly can this most egregious "petty crime" which coupled with the retaliation for doing the right thing, the threatening call nothing short of "insult to injury" should, at a minimum, result in not only disciplinary action but an entire reassessment of American Eagles' protocol.

Sincerely yours,

Subject: HAVE I MADE MY POINT? RE: Kirk, are you interested in a class action lawsuit I am preparing against American Airlines?

Given you knowledge of my "**risk assessment**" skills could you recommend someone bearing in mind I have already done significant "precovery" work that wouldn't take much time for anyone as skilled as you to write a formal complaint, not to mention the following.

My loss which I would be able to prove to a "**jury of my peers**" is about \$40,000, made up mostly of gold bullion.

Not to mention such a number has never been previously mentioned to Mr. Terry.

Second, in interviewing staff of American Eagle as well as employees of TAS, the security firm contracted by the San Diego airport authorities, they are all aware of the significant weaknesses in the internal controls that are so very "convenient".

For example, in addition to TAS apparently not keeping for more than half an hour a photographic record of what passes through the x ray machine there is no notification when you check in beforehand at American Eagle, and very possibly the other commuter airlines, that your hand luggage will be taken from you after you pass through security and just before you board the plane.

Second, there is a gap next to the screener viewing what it is in your hand luggage.

Such a gap is not known to the passenger going through the metal detector who is not only made to feel like a criminal but is often times distracted when asked for their boarding pass as well as on occasion ID which is often times in the hand luggage causing more of a delay for someone standing next to the screener and viewing exactly what is of value, to have all the time in the world to grab those valuables and/or inform the hand luggage baggage handlers.

Moreover, while relatively large amounts of cash and gold bullion which I carry with me most of the time when I travel is opaque and therefore you would expect the screener to ask to see exactly what it is, most of the time I am never asked and the gold just passes through without any objection.

Not to mention it will be interesting to see how many reports Mr. Terry has made to the TAS and other authorities like the FBI for when people like Black Hatter Mr. Levi move billions of dollars worth of diamond currency all around the world?

Not to mention the use by DeBeers of the postal service.

To mention little of my decision following increasing physical threats to my 4 Ps, People, Pets, Property and Plants to disclose a “fair amount” of “my hand” which of course provides Mr. Terry and American Airlines a “**Heads up**” to do exactly what else apart from further “**cover up**”?

In the words of your colleague Mr. Jeffrey R. Krinsk Esq., Mr. Terry is either incompetent, culpable or both, take your pick?

BTW, when my wife and I returned to San Diego on the same airline while going through security up in Los Angeles I overheard the gentleman in front, a man with a foreign accent, telling the person ahead of him how his passport had been taken out of his hand luggage when he previously went through security and that he reported this incident to the “authorities” in order to get a new passport but he refused to give me his name, his reasoning, “**I am in enough lawsuits.**”

I understand fully, as you well know, how the “real world” works but surely there is going to come a point in time, very soon, when even you are going to have to ask yourself how much longer can all this nonsense of each of us only willing to stand up and “**fight the right fight**” when it comes “**knocking at our door.**”

The rest of the world, i.e. those living outside of the United States who pay a much higher price for their gasoline thanks to our oil wars which result in not only having our oil tyrants continue but for not much longer to accept our increasingly worthless currency but allowing us to maintain our military bases on their soils which serve as both a “**gun pointed to their heads**” as well as a “**gun pointed to the heads**” of their second-in-command not to “jump the gun”, are beginning to question ever more carefully exactly what is going on as they rid their economies of being dependant on an out of control military-industrial-complex.

Such aware, i.e. sensitive people living on the front lines of our induced refugee crises throughout the world not just in Iraq and the Balkans are also looking at everyday mundane things like international travel guides which don't currently point out all the risks for Americans and foreigners traveling within the United States.

Have I made my point?

NOT TO MENTION how it comes about in our country that prides itself on being the strongest proponent of “FREE TRADE... **FREE ENTERPRISE SYSTEM... FAIR MARKETS... FREE MOVEMENT OF CAPITAL... FAIR TRADE PRACTICES [UNLESS YOU ARE THE DEBEERS-ANGLO AMERICAN CARTEL] ... A NATION OF LAWS-LAWYERS...**” [sic], so very important the notion of “**RULE OF LAW**” and the importance of “**MAINTAINING LAW AND ORDER**” and never to forget how we so self-righteously comment, “**VIOLENCE IS NEVER THE ANSWER**” or better yet pontificate on “**THE PUNISHMENT MUST FIT THE CRIME**”, a general manager of a major New York Stock Exchange corporation when not able to come up with answers to very reasonable questions following his previous beyond belief laughable email would **CHOOSE** so very poorly to call me up in the sanctity of my dwelling to threaten to intimidate.

Moreover, can you share with me any law on the books of the United States preventing United States citizens from taking out of the U.S. as much money as they want.

To repeat what Mr. Terry said to me earlier today when he called so unrepentantly;

“Why it is that you are traveling outside of the country with so much money?”

Gary, this situation is not something I could handle. My firm is very busy with other work and we are trying to curtail taking on any new matters, especially ones like this which are outside our traditional areas of expertise. Thank you for think of us, but I must decline. Kirk

You caught me just as I was about to send a response to the general manager of American Eagle that owned by American Airlines.

Rather than have me explain it all let me have you take a look at my draft response to his phone call earlier this morning as well as all the “back and forth” between him and me.

MR. TERRY, WHY TERMINATE THE PRECISION OF EMAIL TO CALL ME at 8:56 AM PST, the call lasting 2 minutes and 56 seconds just to let me know that the decision taken by your superiors is to now hand this matter over to the TSA for them to investigate ***“Why it is that you are traveling outside of the country with so much money?”?...***

Subject: Why weren't the passengers notified immediately while the plane was still on the ground that there was a "problem" with valuables separating from their hand luggage?

Bear in mind the passengers numbered no more than 20 and were seated very patiently having never been advised until we got to the steps of the plane that our hand luggage would be taken out of our possession, not to mention hand

luggage that had been passed through x ray machines which would have kept a digital photo for how long you think?

Why weren't the passengers notified if not in flight then immediately when we arrived in Los Angeles some 30 minutes later?

Furthermore, I assumed that since you emailed me on Saturday you were focused as I am in getting to the bottom of this rather unfortunate incident.

Did you ever receive an "incident report" I filed with your parent company, American Airlines over the Internet?

Did you file any report with your superiors?

Did your baggage handlers tell you how much money was "returned to the only bag that was unzipped"?

How much time would you say was spent going through all the passengers' luggage to make certain that no other bags were unzipped?

Please run by me, since you were on the scene picking up the gold, what thoughts were going through your mind as the best and most efficient way to notify the passenger who you would have assume was oblivious to all the fuss going on below, of their "misfortune"?

Have you thought to ask me how much gold as well as a 1909 Lincoln penny is missing?

In all the years you have worked for both American Airlines and American Eagle have you ever come across small gold nuggets just lying on the Tarmac?

Have you read the most current editorial in the back of American Airlines' in-flight American Way magazine, page 124 titled, Liar, Liar?
