

3.

recent years of the existence of this letter and Jenny's reply some six months on.

It is inconceivable that my late father, after all the time and effort he and your grandfather, Morris, devoted in trying to trace their sister and family, over the years, should just shut the door on their murdered family.

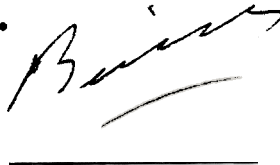

This letter was never discussed with me, in the last + - 10 years of M.G.'s existence, before Kirsh closed the 'shop', whilst I shared an office with my father. It is just beyond my comprehension for my late father to have kept this 'unreal' letter from me, whilst all his fears and hopes were continually aired. Only your aunt Jenny can no doubt give us the answer. I cannot believe that he would not wish to, at least, keep in touch with someone with a 'possible' link with his late sister and her murdered family.

The above is not intended as a lecture or whatever. Maybe I really wish to let your father have this information.

Please give my love to your Mom and Dad.

Maybe we can get together on your visit to Cape Town, with your cousin Johnny, with whom I am in regular contact. I have met your three brothers some two to three years back, when they had dinner with my daughter, Kathy and her husband David Danziger.

With best wishes.
