Dear Mr. President,

You must, right now, do the right thing and the smart thing which is also the right thing and immediately suspend the trading of shares in public corporations.

To delay increases the odds exponentially that our military will "turn" and in the next instant the odds of Armageddon are increased dramatically as our rather upset military turn their sights on US cities beginning with Washington DC.

I am available for further consultation should you think it necessary.

Remember my mother's words, "Keep Smiling!", which she learned from her assassinated father, my granddad Albert-Al Badash-Ash, the "favored" son of pogrom orphaned Nechie Badash who immigrated to Israel from the same tiny village of Plonsk, White Russia-Poland as David Ben Gurion, head of the Hagannah Jewish Underground movement, before Nechie, an early resident of Tel-Aviv, then moved to England where she gave birth to Al Ash on December 5<sup>th</sup>, 1899 before than returning to Israel; going back to England in 1929 to raise my "born to perform" Royal Mater-Mother.

<http://www.nextraterrestrial.com/pdf/al-ash-birth-certificate.gif>

Do you feel after a long hard day at the Oval Office, going to your favorite lounge chair, placing your dog on your lap, not strike that, on your lap, closing your eyes and meditating?

My Croatian-Serbian barber Stefan, who crossed the Alps to Austria at age 17 in 1955 before being sold into slavery by United Nations soldiers who picked him and a friend up at a Monastery where they were taking refuge from their grueling trek, all the while having nearly starved to death, told me just the other day when I last got a shave and trim, that he does exactly that given how very disgusted he is with all the "dirty politics".

I am alive and well, and thank you for caring that I also publish my book, The History of Money Creation and It's Future! which begins where The Diamond Invention leaves off.

Us Americans are very soon going to be wishing, possibly even before the next President of the United States is sworn in that they had listened to all the things you said as well as tried to say but couldn't fully tell the truth because us Americans, by and large, and mostly obese, simply cannot handle the truth.

Would you know if Mr. Martin Wolf of the London Financial Times has a secret lover?

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20mwolf-hoar.pdf>

Mr. Jeffrey R. Krinsk Esq. is not alone in wondering who is and who is not following each and every word I write and say, let alone not having really that much time to even feel exhausted given how the next person he meets even if it is an illiterate beggar in the street mumbling to himself, could be someone extraordinarily "wired" and if not, then the next person, and if not then there is of course yet another day for my message of hope to spread amongst all those who have not allowed their formal education to interfere with their learning.

BTW my wife and I received in the mail today

the following photo

along with the cutest card that ends,

***Enjoy and don't have the Beefeaters come after us -***

Given the courteous relationship you have with the plundering Royal Family of Great Britain I don't think this "Plunderer" former Colonel in the US Air Force who I recently met, and who took this plaque from the door of his room in England at the airbase where King George had stayed for his flight training, during World War II, have all that much to worry about, right?

I have two more photos showing this plaque now mounted on the antique doors leading in to my new friend's office.

Just let me know what format you would prefer.

Mr. JRK will remind you how over Christmas 2001, I believe it was, he received an unsolicited package in the mail containing most incriminating documents taken off the desk of W. H. Nichols, General Counsel

Mr. George Fellows  
President and CEO  
Revlon, Inc.  
625 Madison Avenue  
New York, New York 10022

Dear George:

Thank you for your letter of October 29. I too appreciated the straightforward approach taken at our October 23<sup>rd</sup> meeting. However, your recollections of our discussions differ in part from mine. As you are aware, subsequent to our meeting, representatives of CVS and Revlon have held further discussions regarding this matter and have reached agreement. Consequently, in order to avoid further confusion, I am writing to summarize our understanding of that agreement.

1. We agreed that the total amount due CVS for Revlon/Almay coupon programs run through June 1998 is \$31,132,330. The attached schedule supports this calculation.
2. We agreed that \$8 million of the adjusted balance will be discharged by Revlon shipping to CVS by the last day of each calendar quarter during calendar year 1999 not less than \$2 million of free goods comprised of sku's that will not impact CVS' normal order writing. The free goods will include trial size programs (\$4 million), Ultima II Glowtion (\$2 million), implements displays (\$1.5 million) and Blackbuster Color Cosmetic Kits (\$5.5 million). Further, the free goods will be valued at CVS cost (i.e., a factory list price of \$8 million). The exact selection of goods will be agreed upon by the first day of the calendar quarter in which delivery is to be made.
3. With respect to the \$23,132,330 balance, CVS agreed during 1999 and 2000 (in addition to regular promotional programs that are agreed to) to provide (i) in all stores prominent positioning on the wall for Revlon and Almay products only (i.e., not Ultima), (ii) full distribution of Revlon Superlustrous hair color and (iii) a monthly end cap in the 200 highest volume stores for Revlon, Almay or Ultima products (as selected by CVS) on a quarterly basis. In return, Revlon agreed to ship to CVS on February 28, 1999 and on the 15<sup>th</sup> day of each month thereafter through June 2000, \$1,360,725 of free goods to be agreed upon by both parties (valued at CVS cost); provided that, in the event CVS and Revlon do not agree on a selection of free goods on or before the 10<sup>th</sup> day of each such month, CVS may elect (in its sole discretion) via facsimile notification to Revlon to receive on such shipment date in lieu of free goods a cash payment in the applicable above referenced amount.

of Revlon Corporation which proved highly valuable in reaching a nothing to speak of US\$10 million settlement with Ronald "The Finagle King" Perelman of Revlon Corporation, following of course Mr. JRK's most brilliant deposition on October 17<sup>th</sup>, 2002 of Mr. "Goodday" [sic], a former senior official of Revlon who, in the highly laughable 9+ hour deposition, referred to his boss, Mr. Perelman as the "Capo Di Capi".

<http://www.nextraterrestrial.com/pdf/Deposition%20with%20GG's%20SIC%20notes%20p1-64.htm>

Not to mention yet again how Mr. JRK, with of course my prodding, that included this Revlon Make Up Chart cartoon

drawn by my wife, had courageously filed an epic class action lawsuit against Ronald O. Perelman et al on October 1<sup>st</sup>, 1999 with just a couple of hours remaining before the statute of limitations expired.

Mr. JRK now has to live with the fact that he has "cheated" Adam L. Tucker who has Crohns Disease, something he inherited, far different to poor conditioning and someone deciding to jump head first from 30 feet up and break their neck after having failed to become a quadriplegic when jumping several times from 60 feet and above.

"Time stealers" while a dime a dozen are not good human beings, period.

Mr. JRK remains, however, in my humble but seasoned opinion, one of the most honest business people I know, not even aware of "over and under invoicing" until I mentioned it to him about the same time he told me to let him and Eliot Spitzer Esq, then Attorney General of New York State "handle" Ronald O. Perelman, barely however, giving the ROP more than a "slap on the wrist", while I go after De Beers; Mr. JRK imploring me not to stop until such time as I had dismantled this highly dynamic beast limb by limb, and not to forget the torso.

Spelling out also the fact that I am alive, well and as fit very possibly as the best of the best former Israeli Special Forces commandos, although not close to my peak physical condition of some quarter of a century back when I was scrumming with the womens world rugby team, again back in the early part of 1981 not long after I had returned from an extended visit to South Africa to recuperate from my liver having been poisoned when working for Codiam Inc. on 47<sup>th</sup>-Wall Street, New York City, the money laundering capital of the world, is acutely important considering the speed at which I **am** reaching time and again all 4 corners of the globe without anyone including me knowing who exactly is reading what and when but each of us

knowing perfectly well it is inevitable the odds, given the truth I am speaking, are increasingly in my favor.

These days most working Americans are thinking about their taxes when not thinking about their life savings about to disappear into thin air which is very good news for people like Mr. JRK and the rest of the "smart money" people who relish the much anticipated collapse of the world's capital and financial markets.

Not to forget all the Trust-Hush-Funders egging them on even if it is only with their deafening silences.

Mr. JRK though, is again not alone in "pausing" following Mr. Adam L. Tucker's relatively short "in your face" communiqué.

It is quite obvious that Mr. Tucker is not financially rich and nor does he have close to the formal education of Mr. JRK or me for that matter but I am a rather good tutor once I put my mind to it, and this is again quite obviously well reflected in a myriad of ways.

The best that the corrupt "smart money" people can hope for right now is that if someone doesn't take a blunt ax to the back of my head that I will end up in a padded 5 X 10 cell to prevent me from even using Morse Code to communicate with prison guards whose ears would no doubt be cut off and why not also have their eyes gouged along with the necessary threat of having their tongues cut out were they to dare encourage me to keep fighting?

I am now asking you to prepare in advance a most comprehensive Presidential Pardon to include all the possibly no more than a handful of times I never picked up business #2 of Pypeetoe during our runs in the Cleveland National Forest where the dogs are supposed to be leashed, and in return I will gladly ask my French-Canadian wife to consider you and Barbara as well as both your daughters for her once a year non-existential pardon; bearing in mind Marie Dion Gevisser only gives one such highly sought after pardon to one individual on the "**\$ hit list**" [sic] just once a year and in the event she doesn't decide to give it, then it does not carry over to the following year.

I doubt you or anyone who is mindful of their fiduciary obligation to share with their board of directors, their employees, their shareholders, their clients etc etc material relevant information, has stopped listening.

Another thing showing that we are doing the right thing is how so very scared was Dr. John K. Pollard Jr. that I would begin communicating with inmates via his one gang-banger grandson Jose "Eddie" Pollard that the instant Dr. JKP caught wind of me sending Jose the first part of an email he quickly arranged bail after letting Jose sweat bricks for some two weeks in a prison cell in downtown San Diego awaiting trial for theft; bearing in mind that up until that moment when Dr. JKP saw his whole world about to fall apart, he had preached to all multitude of children and grandchildren,

***"If you need a helping hand, look no further than the end of your arm!"***

<http://www.nexttrasterrestrial.com/pdf/rquinones-runoutofail.htm>

Mr. President, you have no doubt heard the term, "arms length" time and again over your long career but once you understand that De Beers are not alone in never having to pay for their intelligence or their vacations or their hookers or their yachts or their tax liabilities or the assets they have secreted away in numbered bank accounts as well as in shares held in trust with offshore as well as onshore lawyers, accountants as well just regular Joe Blows that you wouldn't "know from Adam", so you think more about a number of other things assuming you were right now in my shoes beginning with the thoughts that went through my highly imaginative mind when first seeing at age 10, back in January 1968 a land mass as far as the eye could see of what I was told was a mine field in the Golan Heights, Israel's northern border with Lebanon, Syria and Jordan.

If you were raised as I was by a very aware and most brilliant mother as my Royal Mater-Mother, Zena Rosland Badash-Ash Gevisser, where you were first of all encouraged to "fly free and high" from the youngest of age, the first thing that would come to mind was her favorite Confucius teaching, "The Tallest Trees Attract The Most Wind"; and therefore, the most important thing is to survive which simply means not only to "stay low" when being fired upon or better yet shoot first and straight,

but to question and not stop questioning until finding the answer to who stands to profit the most from the constant laying of mine fields including the operators of the tourist buses who if the 6 million of us Jewish people hadn't perished in the Holocaust of World Oil War II would, while keeping down inflation add to more of us Jewish as well as non-Jewish people being at each other's throats, as there would be that many more of us pitching our business plans to Wall-47<sup>th</sup> Street.

Notice how quickly you forgot that De Beers and the Mossad are not alone in not having to pay either for their unlimited supply of untraceable, lightweight and never inventoried Diamond Currency always price fixed at more than a barrel of oil.

There are the Russians as well as the South African Defense Force who in conjunction with the CIA, and of course approved by the 3 Branches of the US Government, just look at their deafening silences, developed the most macabre biological weapons systems.

So let's come back to that average Joe Blow trucker here in the United States of America who isn't a fat slob but rather a hard working and skilled artisan whether they be a plumber, a carpenter, a general contractor who has no employees other than himself, an electrician, again all not only working very hard and battling to make ends meet but trying as best they can to do the right thing, now looking at all this "inaction" by mindless people who can't even fricken compose.

Now think if I got just a couple more speeding tickets while riding my superfast Ducati ST4S and had my license revoked and the next time I got tossed in jail without the CIA's assassins being informed; and the Sheriffs Deputies at the prison in downtown San Diego acceded to my request that I be placed in a cell with the meanest of the mean Black African Americans trucked in from Timbuktu if necessary, and then without having to lay a hand on any of them I began to share with them all the knowledge you have of innocent Black South African men being tied to a tree and being injected with poisons paid with US taxpayers hard earned monies?

The Jewish Holocaust of WOW II is, however, most unique and I think you can figure out not only why but where I will be beginning my follow up communiqué.

Although there isn't much surf in front of the cliff house, and it is a little choppy, I feel drawn to spend time in the water and watch the sunset and then return to enjoy another evening with my awesome wife, and of course to give thanks for yet one more day in paradise.

By The Way, have you tried reading my emails to Barbara when she tells you that she is having trouble falling asleep?

Continuing...

Do you charge based upon your word count?

Those in denial might prefer my short winded communiqués versus Gary's carefully designed to weed out those suffering from poverty of thought who lack the stamina to deal with the tough issues of the day only because they insist on keeping the company of those negatively charged individuals who drain all their energy.

What is a SLAPP amongst friends? Wasn't it Gary's ability to show you "...how to avoid curve balls thrown at the head." that had you seeking his services in the past?

My training is with computers and I have very limited knowledge of the legal system ; I'm pretty sure that I am safe to assume that email is admissible in a court of law, but how about in front of a jury of *our* peers?

I have been feeling very healthy lately despite having Crohn's disease and not having my prescribed treatment for more than 6 months now. I am embarrassed that I never equated a healthy mind to a healthy body... but it sure does make sense.

What doesn't make sense is why you would chose to play games with words when you know quite well that you are leaving a very clear record of inaction. I can only assume that you have a back up plan should you get a jury of your peers that don't come from the same financial background as yourself.

You don't have the excuse of having fathered or for that matter smothered any children so what exactly keeps you up at night apart Gary credibility pricking at your conscience.

Gary is quite good at following the money trail and translating it for the masses. Wouldn't you agree?

I can only assume you were distracted reading what I sent Marco Lindsey of Harvard University  
<http://www.nexttraterrestrial.com/pdf/Microsoft%20Word%20-%20m%20lindsey-spell.pdf>  
who not all that surprisingly hasn't responded to my very easy to understand heavily broadcasted communiqué that spelled out a number of important issues of the day but none more important than the fact that our inheritance laws are totally obscene given how they first of all deprive a human being of their God-given right to "initiative", although I know you would word my thoughts far more eloquently; and were it not for Marie right now watching funny videos sent to her by MIT and Cornell university alumnus

joker Dr. John K. Pollard Jr. I would ask my very quick witted French-Canadian wife who would also “nail it”.

Jeff, I am not omnipotent and my potency as you well know comes from this important piece of knowledge; but I have survived longer than you thought when we had our “kid-you-not” US\$16 bet in the fall of 2002 that I wouldn’t see “Xmess” [sic] 2002 following The IT after filing his baseless criminal complaint was then subjected to the extraordinary humiliation in the criminal proceeding on October 24<sup>th</sup>, 2002; and just as Judge Hendrix was about to chop off his head, this slimeball of slimeballs then presented Marie’s very craftily written 7 provision will into evidence that was not only designed to tell Marie “drop dead” but also placed “at risk” my highly confidential “work product” including names of our potential witnesses and what they would attest to in the ongoing class action lawsuit against Ronald O. Perelman of Revlon Corporation; bearing in mind that a week before, one of the ROP’s top henchman who you deposed , to repeat on October 17<sup>th</sup>, 2002, referred to the ROP as “Capo Di Capi” for good reason.

And to “add insult to injury” Judge Hendrix right at the very end, after telling The IT in no uncertain terms, “Go to hell!” then gave Marie “legal possession” of a handgun that I had previously given to her without going through the paperwork required when transferring ownership; bearing again in mind that Marie and I were not married at the time and maintained separate residences.

You had to be in the courtroom to fully appreciate the “long face” look on the face of this flat line plotter of all time, the idiot, the bully, the coward that he is and may the good, smart God, continue to bless all the world’s corrupt with his presence given how they all feel a little better about themselves and of course that includes cowards like the ROP and may he too be blessed in continuing to rot horribly in hell.

Not to mention where in all your life have you see better evidence of the “Hand of God” at work than the fact that The IT who derived great satisfaction interfering with his male son surfing with his friends can never again enter salt water following his emergency eye surgery brought about by having very weak genes; again another blessing from our most smart and vengeful God.

Do you have any idea how much extraordinary satisfaction I get each time I surf back and forth down a wave and know that all

The IT can do is continue down his path to hell which I think we can all agree including The IT as well as his Cow, is only here on planet Mother Earth for all and only those who usurp their limited authority.

The short of all of this is that rednecks like The IT are not only a dime a dozen all over the world but they are the easiest to figure out because they wear their “true colors” on their lapels for everyone to see.

It is the better educated “liberals” who we refer to as the “sly English” who are much more difficult to figure out, and now thanks to the digital age in full force, we can flush them out as well, also in an instant.

You understand perfectly well why it is that ants are winning this race like never before helped along greatly by all those deafeningly silent simply practicing.

Bottom line, I won that bet as well as the “double or quits” follow up bet given how I survived an additional 6 or so days, and you remember how you and I even got to celebrate December 31<sup>st</sup>, 2003 together down at Rainwaters. This receipt below along with the fact that I insisted you pay for Pypeetoe’s US\$88 48 ounce Porterhouse steak should jog your memory.

Marie and I just got back from a relatively short and quick walk alongside the railway track down to the concrete bridge near the Torrey Pines north parking lot and back, passing by where she and Pypeetoe said their last very happy goodbye.

MDG and I don't go a day without thinking, and often talk when alone, about this most special, all heart, loving "goD" [sic] who picked up so well on peoples' positive as well as negative vibes.

This most extraordinary gift from God, who just wanted to be cuddled and to run fast, very fast, like a ball of mass exploding at the start and stopping using all 4 paws as his brakes, and of course fed only the best food worthless monies could afford, liked you a lot even though he made quite a point when running for the first time in to Howard's office and crapping directly under his chair.

Howard should get off pot since what else can explain this former US Attorney's mindless behavior at this time.

He like you does not have indifferent kids bogging you down.

Time is of the essence.

I do not plan on living forever and nor does Marie.

When our time comes we will both welcome being free of all gravity and miserable plotting humans who cannot see the wood for trees, so very primitive as well as mindless are us human beings.

In the meantime, let's have "sum" [sic] fun and help me become the next President of South Africa!

Jeffrey,  
What would be necessary to file a lawsuit naming Ernest Slotar of Slotar Inc. as a defendant?

Spoke with Jeffrey.

The short of it is that he said CA has very strict privacy laws and that we could go public with it but we would have to deal with the legal consequences should they decide to prosecute.

I told him that you seemed to believe that he may have a way of making it admissible he mumbled a little and then went on to say a lot, in an effort to say nothing.

Did you get the emails to philippe and a woman from Harvard university.

BTW I doubt anything but my continued "exposure" will make any significant changes in the way people who only suffer from deficit needs will react.

Is the Slotar's audio up and do think it should be introduced with the Bonneville music.

You should call Jeffrey Krinsk and ask him if thinks that audio and the audio from yesterday will help him make a decision to do the right thing.

I will post Born Rich on just3ants and send you a link later, but I think that the movie may plant a seed for X as well as expose Y to the Hush-Fund world in a significant way.
