Subject: WOULDNT THIS BE A GOOD TIME FOR CHINA AND RUSSIA TO COME TOGETHER? - RE: Check out my CustomInk design "just3ants"

Adam.

A movie first requires an idea.

How about finding a guy like Hitler, but who would finance such a comedian, so out of shape he could barely raise his arm?

Do you remember me telling you how the DAAC which is the acronym for De Beers Anglo American Cartel get to see each and every Wall-47th Street deal and of course every movie worth talking about that costs them absolutely nothing to produce?

Would you say Nicholas Cage is good looking enough to be an actor that De Beers could live with?

If you mentioned to Nicholas' uncle who is a major movie director that you think Nicolas who once dated The King's daughter would be the perfect person to depict a Wall Streeter changing into a Hasidic-ultra orthodox Jewish-Black Hatter all the while "talking dirty", and the next scene is on an airplane where you see the leader of an Israeli "hit squad" walking down the aisle of an airplane and then seats himself behind a Black Hatter, would that all possibly lead to Nicholas agreeing, free of charge, to wear one of these t-shirts?

Do you also recall in SPIelberg's movie what looked like American CIA interfering with an important "hit"?

Do you also recall SPIelberg in his 5 minute introduction to this 2005 movie-documentary-drama mentioning, **"You should make no mistake that I am not attacking Israel with this film"** and then immediately goes on to emphasize his point about not attacking Israel, **"in no way shape or form am I doing that."**

Wouldn't you say that by making such a big deal about **"not attacking Israel"** Mr. SPIelberg is in fact drawing attention to the fact that the United States

Government, totally bought and paid for by De Beers, has never been a "friend" of the Jewish State and which would explain a number of things including the Navy Swastika shaped building on Coronado Island, construction beginning in 1967, the year in which Israel used French Mirage Jets to brutally attack the defenseless USS Liberty spy ship placed in "harm's way" by Senator McCain's father?

BTW, when you start wearing the t-shirts which I guess have to be produced even if it is only the one you are wearing and a handful or "tTOo" [sic] you are carrying around, and people ask you what www.just3ants.com is all about, and let's say you come up with something meaningful, how would you be able to assess whether this is all a good return on your investment including time which you would know from Economics 101A requires one to look at the "opportunity cost", i.e. the cost of the next best alternative?

For example what would it take to get Stephen SPIelberg's one attorney, Ms. Melanie Gurvitz Esq. to call up Nicholas Cage's uncle and tell this major movie director who now has his own brand of wine, Coppola that you want to play Nicholas in the movie, The Diamond Invention written by Hollywood blockbuster author, Edward Jay Epstein?

Again in the words of SPIelberg, ***"This is a very very tough subject and we have decided to approach it honestly and unsparingly."***

So now place yourself in the shoes of a De Beers top executive who doesn't have to worry about his credit card debt, mortgage or rent payment and most of all that SO VERY IMPORTANT credit rating score, couldn't you act not only so very concerned about all the ills of the world and at the same time be so very generous with your ill-gotten gains knowing that there is not even the remotest possibility of spending a single night in jail without first bringing down the entire western world's house of cards.

Israel gains nothing from the United States that looks from the outside very together but from the inside very broke, being forced to once again use its nuclear weapons on a civilian population including an attack by the US military on the mainland of the United States.

Have you also forgotten that you have pretty much finished with my assistance of course the analysis of the ingenious Israeli Military Intelligence report that most people with just one single neuron firing right in the space between their ears would agree has been confirmed by both Israeli Military Intelligence as well as the Mossad who both understand that American intelligence also understand the far reaching implications beginning with how it is possible to win an everlasting peace which of course is war to those who profit from war but who are so easy to identify, beginning with all those who choose to go "deafeningly silent" with me, someone who may not be the greatest non-fiction writer, but has more credibility than at least anyone else you know?

Continuing on with Mr. SPIelberg's 5 minute 100 mile per hour introduction that he wanted to do like he wanted a Mossad bullet fired in to the back of his head,

"This film is an attempt to look at policies that Israel shares with the rest of the world and to understand why a country feels that its best defense against a certain kind of violence is counter violence, and we try to understand this as filmmakers, through empathy because that is what you do, you extend empathy in every single direction because you can't understand the human motivation without empathy."

Money comes in to play in everything and yet the only thing related to money in MUNIch apart from it can found in the title is the exorbitant amount of money that SPIelberg maintains changes hands between Mossad operatives tasked with killing enemies of Israel, without US Congressional approval, and Mossad agents tasked with gathering intelligence for the "hit squads" to do their jobs without "interference".

Continuing with Mr. SPIelberg's introduction, ***"This movie is not an argument for non response."***

You have noticed all the people who are very "engaging" with me but the instant I point them in the direction of The Diamond Invention or the ingenious Israeli Military Intelligence report they either go "deafeningly silent" or when responding say something along the lines of "Thank you for the note" which is what Professor Ben Singer did.

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20%20bsinger-workproduct.pdf>

Can you explain what it is exactly you think I would get out of watching the movie Lord of War, apart from being entertained?

You do notice that you choose like everyone, what to pursue aggressively and not what to pursue but why tell me since I am not looking to date you?

Have you tried reaching my "close friend" Deborah "Aggressive" Sturman Esquire who was the catalyst in getting the multi-billion dollar settlement out of remnants of the Nazi Germany military machine, all approved of course by De Beers who were happy once again to promote the use of worthless-fictitious De Beers-US Dollars.

You of course understand perfectly well the deal that was "clinched" at the turn of the last century when the corrupt United States Congress approved American banks led by J.P. Morgan financing De Beers, the counterfeiters of counterfeiters who are also the best at brainwashing propaganda beginning with, "A Diamond is Forever-A Girl's Best Friend".

Do you understand why it is that you are not "convincing" beginning with explaining to those seeing you wearing a t-shirt why they should support all mineral drilling rights being revoked without a lawyer anywhere in the world able to make a convincing argument other than there are "sum" [sic] good things about pirates, beginning with how at least one member of the US Supreme Court can very possibly remember enjoying one rendition of the Pirates of Penzance."

Since we have all the time in the world why don't we now poll freshmen at Princeton University to vote "yes" or "no" on whether they think the United States with military bases on some 130 of the 190 countries is a pirate of the Nth degree and for those who answer "No" to be asked why they think their fellow freshmen from 1938 voted Hitler as the greatest living human being and Einstein second?

Lets now come back to those 4 digits 1421 which when added or multiplied result in the same number 8 that when rotated 90 degrees looks a lot like the infinity sign and there are "sum" [sic] of us who are quite convinced that we are, right now in the year 2008, in the middle of the "twist", that may coincide with a much delayed "polar reversal" where the north and south poles change.

Change is inevitable and when choosing change one always increases the odds of success, proven in mathematical terms by Marilyn Vos Savant considered the smartest person in the world.

What do you think President George W. Bush and his closest advisors are doing at this late hour apart from not getting a restful night's sleep as well as of course anxiously awaiting you modeling t-shirts?

That US satellite that is expected to be blown to smithereens prior to causing any damage on the surface of the earth would be "tit for tat" given how this is exactly what the Chinese did not so long ago that caused quite the "uproar" here in the U.S.

Wouldn't this be a good time for China and Russia to come together even though most of us westerners are quite convinced Russia is a rogue nation run by former KGB thugs?

Russia, has, however, questioned the military benefits to the U.S. by having orchestrated this event, possibly from the very moment the satellite was designed.

The United States Government has yet to define its relationship with the DAAC apart from what is rather well described in Edward Jay Epstein's most fascinating non-fiction novel, The Diamond Invention.

You will recall that the US satellite was launched in December 2006 when both the Secretary of the US Treasury and Chairman of the Federal Reserve flew over to China to encourage the Chinese not to be too hasty in revaluing their currency and in the very next instant pricing the United States out of the oil market; not to mention what it would do to American service people located on some 130

extraordinarily polluting military bases around the world, being paid in US Dollar and not able to afford much more than a pot to pee in?

Have you run by anyone you have met on the internet dating websites such as Mindy and Kat whether they would buy these t-shirts and how many?

Again, how much time did you spend this weekend while it is not only America's poor who are being fleeced like at no time in history, working on the t-shirts and how much on the "explanation" that at one point was so important?

Let me leave you with first the thought of you not knowing a Mossad agent if you saw one as you now read the tail end of SPIelberg's 5 minute introduction to MUNIch:

On the contrary what this movie is showing is that a response that may be the right response is still one that confronts you with some very difficult issues, and when we have to respond to terror today, what is relevant is the need to go through a careful process, not to paralyze ourselves, not to prevent us from acting but to try and ensure that the results that we produce are the ones that we really intend.

I mean it is the unintended [mumbling] results that are probably some of the worst and that will ultimately bedevil us.

What you see in this movie is not an attempt to answer, "*Should there should be targeted killings or not?*".

What I am doing with this movie is highlighting some of the dilemmas and highlighting some of the issues that need to be discussed. I am not trying to answer them. But the movie in a sense, apart from being a human drama which explores what these guys went through, will hopefully stir that discussion.

<http://www.nextraterrestrial.com/pdf/dstandard-spi.htm>

Second, what do you think an Israeli Special Forces trained Mossad "hit squad" would think if they thought all they were doing was for "love of money"?

I don't know exactly what was going through Nero's mind when Rome burned but I can imagine what it means to a Commander In Chief when you cannot feed your American soldiers who are only fighting to prop up the anything but Almighty US Dollar.

You will recall that during the summer 2006 Hezbollah-Israeli war, Israel encountered logistical problems in supplying its green as well as out-of-shape soldiers with water but you never heard of Israel which produces no oil ever running out of oil.

Two years would have passed by the time Beijing Olympic Games begin, and during this time period Israel has got to see "up close" the US military falling apart at the seams beginning with that extraordinary display of incompetence by a US captain

when his not exactly inexpensive top-of-the-line Aegis battleship was buzzed by 5 very threatening Iranian speed boats.

Focus on where exactly is all that gold stolen from South Africa going back to the turn of the last century and when you introduce the two words, "DIAMOND CURRENCY" the conversation stops.

What is your goal in the next 24 hours apart from thinking about what exactly is this United Nations organization doing apart from also promoting De Beers as the best alternative we have in the allocation of the world's precious resources including slave wage earners?

Explain to me why you think your t-shirt idea will help improve your mother's dating prospects since you can't get a single woman you have met on internet dating websites to focus on how it is possible for one American family to own from the turn of the last century such an extraordinarily large stake in the mineral riches of South Africa that for most of the last century was governed by the most racist regime in modern day times without of course the backing of the United States military-industrial-complex.

I am proving with each tick of the clock that no one has come close to describing a corruption like that of the Diamond Invention. The Revolution in South Africa: An Analysis which I have mentioned time and again is not difficult to understand but it is simply not very interesting especially when you are experiencing chronic pain which is what most people who are out of shape or who have experienced an accident have to deal with 24/7 and yet they all for the most part still have this yearning to go on living what is going to be increasingly one most extraordinary hell as the truth gets spread at Light-G-d-speed to all 4 corners of the earth of what the United States Government has done in pulling off the greatest con of all time, beginning with Hollywood-Madison Avenue showing the rest of the world suffering horribly under our piracy pictures of BIG HOUSE, GREEN LAWNS, LONG DRIVEWAYS, BIG CAR and most of all how well clothed as well as armed are American service people.

War is not simply bloody, it is intended to be very painful, all because a small group of greedy bankers who didn't want to have to work for a living felt they knew what was best for the rest who they convinced would only be happy if they had a strong leader to ultimately blame when things went wrong.

"Fun and games. Just fun and Games... De Beer" – 1 hour 41 minutes and 2 seconds into Oliver Stone's JFK.

Sleep time.

Have you seen the movie Lord of War? It is a mainstream movie about gun trafficking and they just showed a scene with Nicholas Cage selling guns for Diamonds Currency.

Btw, the only reason that I designed the shirts was because I have emailed all the local state and community college art departments and not had a single response, I will pursue more aggressively, but in the interim I wanted to start wearing the shirts and giving them to people.

Downloading pirated movies is illegal.

Marie agrees, Our rEVOLUTION is good if not great but what about Einstein's image?

What about each person sticking out their tongue?
