Subject: "If you are comfortable with the status quo then you won't like what my husband has to say!!" MDG - RE: INVITATION DRAFT - Legacy

I liked it.

Why not throw in what “cut out the fluff” Marie Dion Gevisser says as well,

“If you are comfortable with the status quo then you won’t like what my husband has to say!!”

Possibly later this evening, I will be sending out an email that is currently around 11,800 words to Wildblue.com who currently provide the satellite internet service here at the Stone Home. Maybe it will help make the invitation “harder hitting”.

Currently, it begins as follow

Here is the “problem” that Bill Clinton, every Democrat, every Republican, every Independent, yes pretty much anyone belonging to any political party and/or religious institution here in the United States, never figured when mostly thinking the hard working poor are stupid, not able to figure out how to legally steal.

The “problem” begins and ends with the “solution” of how I-we are going about in an “interesting way” spotlighting these arrogant hypocrites as they never dreamed possible in their worst nightmares, all the while building up one most extraordinary foundation; truth has a funny way of cutting through all the bs.

It was so easy for the filthy rich without any loyalty to country or religion while having their political stooges along with the priesthood of all the major religions breeding controversy all the while “pick pocketing” from the poor, to believe that the status quo would not change beginning with the ruling class of elitists throughout the world convinced that they would forever get away with trickling down the costs of them getting richer on the backs of the financially poor who could never really mount any offensive to speak of since the business of all corrupt governments is to corrupt grass roots organizations the instant they take root.

But with each tick of the clock information technology transfer is fast catching up with the poor being forced to do the heavy lifting; just a matter of time before the information of the injustices reaches the poor before they are all dirt poor and are at each other’s throats just to survive; moreover, that the hard working poor still, incredible as may be to believe, have the financial resources to wage the most extraordinarily peaceful but effective internet warfare against all corrupt governments who also have to realize that the people have just as powerful an information tool as them.

So does it really make any difference who is the next President of the United States?

Of course not given how transparent is the over-the-top corruption of all our United States politicians who also with each passing moment have to contend with a massive peaceful uprising that will greatly interfere with their plans for

all out war amongst the world's poor who are having little difficulty seeing all the manipulation and deception by our corrupt elected and non-elected government officials.

Not to mention yet again why it is that China who in 10 years will have the world's largest English speaking population, features so very prominently in the ingenious Israeli Military Intelligence report bearing in mind that China does not need for Al Quaida or for that matter the United States to officially take over the oil fields of Kuwait, Qatar and Saudi Arabia to revalue their currency and in that same instant price the United States out of the oil market without a single member of the United States government able to, "cry foul".

<http://au.youtube.com/watch?v=pMcfrLYDm2U>

To mention little of every single United States politician knows perfectly well that China was in a position to do just that yesterday as well as the day before which does not mean they won't decide to do it before you receive this communiqué.

To mention in passing that time right now is very much on the side of the Peoples Republic of Communist China and their allies made up of all their trading partners who don't have the United States of America's biggest guns pointed at their heads.

Again, just ask any Israeli Special Forces Commanding Officer who has spent any time in China over the past 3 or so decades whether there would first of all be any point to even ask the very best of Israeli Special Forces commandos whether they would be "comfortable" taking on their Chinese counterparts who like Israeli Special Forces are not waiting for the enemy to arrive in Haifa Harbor, unless to get them to smile from ear to ear knowing that not only do Chinese Special Forces Commandos know exactly what Israeli Special Forces commandos know but the Chinese have muscles where they count.

A continued non-vote by the overwhelming majority of unrepresented citizens of the United States of America is a must, but it is not the only thing we can do.

We can also explain how only because all 3 Branches of the US Government were corrupted; i.e. bought off with money, gold and platinum that one American, Charles Engelhard was able to amass in both his and his father's lifetime control of the world's supply of platinum when the United States of America produces some 2% of the world supply and South Africa some 78%.

Moreover, when Engelhard was buried on March 2nd 1971 and it was "official" that while he inherited from his father the title, "The Platinum King" he now controlled the world's supply with his most corrupt American politicians forced to pay their respects beginning with Senator Ted Kennedy, former President Lyndon Johnson and Vice President Humphrey, all big government Democrats, South Africa was under the diamond studded iron fist control of the most repressive South African Apartheid Regime who provided Engelhard and his partner Anglo South African Harry Oppenheimer with the black slave labor.

In return for Engelhard taking care of American politicians in all the political parties as well as keeping church officials throughout the world "quiet" those same politicians provided this most racist, most obscene, most vehemently anti-Semitic, anti-Christian, anti-Muslim bunch of retards all the military mite of the United States' Armed Forces for a continuous period of 45 odd years, beginning on May 26th, 1948.

The last thing any reasonable crook would want to happen is to get their very poorly paid military personnel upset to the point of joining the ranks of those US Americans without a high school diploma who are not eligible to join the economic military draft who are joining in droves those most vicious street gangs; just ask Dr. John K. Pollard Jr. how his two gang banger grandsons are doing as of late.

Hello There. My name is Gary Steven Gevisser. According to very precise Devin Standard who felt the need to critique me, "Black, not African American. You are the African American. I am Scottish, African, Caribbean and American Indian" [sic] when once again choosing very carefully to respond to an email I sent a co-opted employee of De Beers' Gemological Institute of America. Subject: INVITATION DRAFT - Legacy

Can you tell me your thoughts? I am not sure if I like the format but I was having trouble not sounding preachy and this is what resulted.

You knew it couldn't last forever. We all saw the signs, but who wanted rain on the parade. We teach our children to be responsible for their actions; we should lead by example.

Undoubtedly there will be finger pointing followed by protestors backing one group or the next. No difference since each will serve the same result.

We all benefited to some degree, but it was not balanced when considering the division amongst financial classes being the greatest it has ever been in the United States history.

When did you start asking questions? You know that will be the next "Where were you when JFK was shot?" What was the first sign that you saw that let you know it was not like any recession we had ever seen?

Ignorance will not prevent layoffs, foreclosures, unemployment, desperation, food lines, class division, and class wars.

We have been complacent with our easy lives. We worry about gas prices, steroids in baseball, and competing with the Jones' while the rest of the world worries about survival.

When we have 130 military bases across the world what message are we really sending? Why have we been lying to ourselves when we knew what fighting for "democracy" meant cheap goods and services?

What do we do now that the idea of leaving a footprint with our money is slowly slipping as the homes and nice cars that we own are slowing tightening around our necks?

In 1929 the world markets crashed and so marked the beginning of the great depression. For most of the world it was a reallocation of resources. It meant overnight, stock brokers became dock workers and farmers, white collar become blue collar. A once thriving nation struggled to eat.

How will you be remembered when your money is worthless? What do you want to leave your children?

Can you survive in a barter system?

How did we get here and who thrives when we collapse?
