Interesting "analysis".

It should help you complete your analysis of the ingenious Israeli Military Intelligence report that should I not survive this weekend, use the gold I have given you to help pay for each member of the US Congress receiving their own copy; bearing in mind it is not only me but high ranking members of the Mossad who don't believe I will survive another week given the truth we all know, "desperate people act desperately".

At the same time you understand well we are all living on borrowed time.

You also remember that Mandela's De Beers' replacement was Thabo Mbeki, the current President of South Africa who went along with my cousin Mark Gevisser writing his autobiography.

And you also recall this Mark Gevisser's father is my father's first cousin, David Gevisser who immediately following the burial of Mossad assassinated American Charles Engelhard at St. Mary's Abby Church, Morris Town, two words, New Jersey on March 2<sup>nd</sup> 1971, some 5 odd months before the US went officially off the Gold Standard, became the executor of Engelhard's beyond belief mineral rich estate, my uncle Dave receiving as his "sign on bonus" a cool US\$6 million.

You also recall that such a sum of money, not exactly a "kick in the pants" was a minute fraction of the "Money Power" of my uncle Dave and those closest to him given how within a handful of years his command and control of the world's supply of platinum became infinitesimally valuable as the 3 Branches of the US Government mandated that a piece of platinum be placed in the exhaust system of every new motor vehicle produced in the United States creating for the De Beers Anglo American Cartel a "built in" market without having to spend a penny on marketing and advertising; not to mention all that control of the world's supply of platinum hadn't cost the DAAC a single penny as they had the backing of all the Armed Forces of the United States including the out-of-control CIA.

Not to mention, you wouldn't need to attend one of my seminar-workshops to know with that sort of "priceless" inventory how much credit one could get from those financial institutions which the DAAC did not control which were few and none; and of course I would not be the only person in the world who would know in addition to the Mossad who didn't need to go to business school to know that Hitler didn't get his financing for building the world's most extraordinary military machine when a barrelful of Deutche Marks couldn't afford a loaf of bread by stealing all of European Jewries gold etc, etc, which didn't touch sides with the "mother lode" that began to be stolen from the mostly Black peoples of Africa following the 3 Branches of the United States Government's backing, beginning 3 years following the defeat of Nazi Germany of the 3<sup>rd</sup> Reich's southern division, aka, The South African Apartheid Regime sitting atop the world's most precious mineral resources located on the southern tip of the African continent.

Why shouldn't I go on given how my awesome French-Canadian wife is giving me a few more moments to finish up before going to the local hardware store to buy birdseed.

You also remember that in 1994 when this CD-ROM was handed by De Beers' handpicked F.W. De Klerk to Mandela who also knew better than to destroy its content, De Beers' Sec. James A. Baker's handpicked CIA Director Robert Gates advocated a pre-emptive strike on north Korea.

You also remember that Robert Gates is the current US Minister of Defense replacing Donald Rumsfeld following Sec. James A. Baker and Co. rather upset with President George W. Bush who wasn't "going along with the script" beginning when he first came into office and began to "talk down" the US economy given his read of the disastrous balance sheet left by his predecessor Bill "Rhodes-De Beers scholar lawyer" Clinton who a year prior to leaving office had thought it in his best interest to let US Americans know that the conditions in the US were ripe for a Bosnian style ethnic cleansing civil war.

You will recall that in 1994 when the irrefutable evidence of the CIA's direct involvement in the South African Apartheid Regime's biological warfare programme that was not simply being tested but perfected on the opponents of the De Beers United States of America's South African Apartheid Regime was being placed under lock and key by Nelson Mandela who saved his neck from the gallows on April 20<sup>th</sup>, 1964 as he in his most despicable 11,700 word speech, "I am Prepared to Die" paid homage to both the British and American justice system.

You will also recall that when Nicholas Oppenheimer's father, Anglo South African Harry Oppenheimer met at the Carlyle Hotel in Manhattan with President elect John F. Kennedy, Nelson Mandela had yet to begin serving his life sentence and understood just like the 3 Branches of the United States Government the extraordinary significance of the future President and Commander in Chief of all US Forces being forced to pay homage to his bosses both Harry Oppenheimer and Oppenheimer's partner Charles Engelhard who was very much alive some 11 odd years before his death at age 54, although when reading Hollywood blockbuster author Edward Jay Epstein's book, The Diamond Invention, Chapter 18, THE AMERICAN CONSPIRACY, the reader is left with the impression that at the time of that meeting between the incoming President of the United States and the co-head of the mafia of mafia on US soil, Engelhard was long dead.

You will recall me mentioning time and again that both my cousin journalist-author Mark Gevisser and his father David Gevisser the "male heir" of Engelhard are still very much alive, facts of life known to the 3 Branches of the US Government, Thabo Mbeki, Nelson Mandela and never to forget the Mossad who also understood the significance of that so very important meeting at the Carlyle Hotel so very well documented by the US Justice Department and known to the general public since the mid-1970s when it became available under the Freedom of Information Act.

May I suggest you begin in anticipation of Part II of this "stored on cd-rom" communiqué to the President you start pulling together a list of every teacher and professor throughout the world and don't forget to have them look at the first hyperlink I provided in the Part I communiqué to Becky Button over at the Rancho Sante Fe Inn.

Ps – Please upload on to just3ants.com you very brilliant "before you can be straight with anyone else you have to be straight with yourself" communiqué to your mother; not to mention how she couldn't forget my response to her "toilet" communiqué which you smartly chose to remind her of.

I will also be adding hyperlinks as well as photos we took yesterday at the stone home here deep inside the Cleveland National Forest of our almost 94 year young friend Gene Requa + his wolf Nikki to Part I of the email I first began broadcasting to the President yesterday; not to mention that Gene who will be 94 in July believes that he will very possibly outlive not only his 2 sisters who died at age 94 but their mother who died at age 97 since they did not have his healthy diet, a vegetarian since age 40.

Moreover, Gene who has designed the addition we are planning to this most quaint stone home spent two years studying architecture at Caltech University before then building in 1960 his first home in Altadena, California that took him a year to sell before then moving to Del Mar and building his present home.

Before then he spent some 15 odd years working as a car designer for Studebaker, and before that 4 years at General Motors and before that 4 years at Ford and before that he studied industrial design at the Pratt Institute in New York City.

Equally important to us getting on tape some of Gene's profound statements about the problems of most people, in particular US Americans is a "faulty diet", Gene does not feel the need to get one of those handicap placards that are so prevalent on our streets used mostly if not exclusively by those working out most of the time to "beat the system" and not in the least bit embarrassed.

**Subject:** RE: STORED ON CD-ROM

If Nelson Mandela is truly altruistic, the logical question to ask would be why would he not simply destroy the CD-Rom?

Why would anyone let alone a famed human rights activist see value in retaining such knowledge?

As you would say he was either incompetent, culpable, or both... I would venture to say he is culpable considering his public homage to the US government that supported his imprisonment and then later freed him. I would find it hard to believe that a man with his life experience would have missed the connection with the US and British intelligence agencies benefiting from the research and development of 'Dr. Death' which was tested on the black population of South Africa which Mandela was "fighting" for.

While the activists here in America were busy trying to prevent the use of chimpanzees in lab experiments, Dr. Wouter Basson was testing biological warfare on the South African black HUMAN population not only without opposition but with the financial support of the South African Apartheid propped up by the US military. I would blame complacency for ignoring the apartheid government, no different than the ignoring of the first hand accounts of Auschwitz which started coming out of Germany as early as 1940, nearly five years before Auschwitz was liberated by the Russian army, not the allies who were profiting from the Jewish slave labor.

I woke up when I lost my business and the center of my money world, hopefully the collapse of the US\$ will provide the same wake up call for the rest of America.

Adam

Dear Mr. President,

You need a few allies.

I might be able to help.

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20becky-hi.pdf>

First though you need to pass a reading test which my one American programmer and close colleague, Adam L. Tucker failed, and I suspect he is not alone and hence it is fair to say that others as well can benefit including Dr. Teri Lawton, a reading therapist as well as Dr. SeBastian, a quack chiro who should not be confused with Spanish master oil painter Sebastian Capella.

**Classified information on South Africa's biological warfare programme, which it developed with the assistance of British and United States intelligence services, was stored on CD-Rom.**

**The data was handed over to the incoming government of President Nelson Mandela by outgoing President FW de Klerk in 1994, and remains under lock and key.**

By the way Adam L. Tucker ...----...
