Note the ongoing dialogue with the Washington Observer who have yet to respond to my last communication without even bringing up the Israeli Military Intelligence report, which has both Israeli Military Intelligence and the Mossad giving me, for

good reason, the "*freedom*" to express their very clear thoughts, going back to the very day that DeBeers controlled President Franklin D. Roosevelt failed to instruct the OSS/CIA to kill one senior member at a time of DeBeers, until such time as this mafia of mafia, the principal financiers of the Nazi Germany had complied with the US' Commander In Chief's "reasonable request" for DeBeers to stockpile industrial diamonds on US soil.

Naturally, Roosevelt also understood perfectly well what was meant by, "***Don't bite the hand that feeds you!***"

And of course from DeBeers perspective, it was quite reasonable to assume that Roosevelt would do nothing more than embarrass himself when letting the world's intelligence services know that this so "loved" US President was nothing more than an "*Emperor without clothes*". -THE DIAMOND INVENTION. Chapter 9, DIAMONDS FOR HITLER.

Of course only if you were living on Mars would you assume such transparent intelligence was not known to the highly active and most deadly Jewish Underground; namely, the Hagannah and the Irgun, operating principally in Palestine fighting the American-British for a Jewish homeland, who were receiving such communications of DeBeers having so infiltrated the British War Ministry directly from Field Marshall Jan Smuts who was second-in-command to Churchill, and no friend of DeBeers going back to the American financed Anglo Boer War of 1899-1902.

Not to mention both Israeli Military Intelligence and the even deadlier Mossad now communicating like never before, at least since the death of David Ben Gurion on December 1<sup>st</sup> 1973, 13 months to the day from when I first visited with my great maternal grandmother's close friend at his home in highly secured Kibbutz Sde Boker, Negev Desert, Israel.

Gold last trading at US\$824.80.

I am now giving President Bush one more night's sleep to while thinking very seriously about immediately suspending the trading of shares in public corporations, thereby protecting the innocent and naïve from "throwing good money after bad", the "smart money" having long left both the stock and real estate markets, to also give thought to the silence of the overwhelming majority of secular Jewish people, particularly those in the United States who overwhelmingly support the big government Socialist-Democratic Party, to the role played by the ultra orthodox Jewish-Black Hatters, who the overwhelming majority of secular Jewish people know provide the "cushion" to DeBeers, the mafia of mafia, in price fixing DeBeers' untraceable Diamond Currency, all the while DeBeers continues to own the world's drilling industry, serving the business-war interests of Israel's enemies, notably all those opposed to "free market forces."

Again we must come back to Albert Einstein when "assigned" to Princeton, University writing, for public viewing, on the return address of an envelope

following the President of Princeton, an assimilated Jewish person, interfering with Einstein's visit to DeBeers controlled President Franklin D. Roosevelt,

"Concentration Camp, Princeton."

Einstein, while weary of big government and equally the scientific community who when making advances in technology create unemployment which serve inevitably out-of-control industrial-military-complexes, was not all that well versed in the role money, especially when backed only by corrupt elected and non-elected government officials, play in creating "economic drafts", although this "nobody's fool" may have in fact thought it all through, and saw no reason to spell it all out given how so very obvious it was to anyone with just fricken eyesight that Hitler was a stooge, picked from the bottom of the barrel, reminding each and every independent thinking Jewish person, the so very few who remain, that the replacement of this anything but Aryan looking Little Corporal from World Oil War I, would be that much worse; and they were.

Yes, the South African Apartheid Regime, aka the 3<sup>rd</sup> Reich's Southern division who ruled with a mighty diamond studded iron fist over some 40 million Black South Africans for some 45 odd years as the United States of America stole blind their rich mineral resources, serves as more than quite the eyesore; a testament to humankind's both stupidity and brutality.

JoNathan, who like us has been vegetarian fast approaching a year, just walking in from yet another surfing trip with The IT to Hawaii; now telling Marie and me - just got my hug - about another "unpleasant" incident in the surf involving a "Gnarly surfer". He and Marie have just left for self-defense classes.

Not to mention JoNathan also mentioned how The IT took him to a fancy non-vegetarian restaurant and JoNathan "lapped up" the garlic sauce from a shrimp dish; and of course you wouldn't be surprised to hear that on this yet another "silence buying" trip there was no talk coming from either the spoiled rotten kids or their so quick to co-opt-corrupt adult custodians when eating or watching TV which mentioned that the price of gas/petrol was now US\$4 a gallon in Hawaii, what such very significant increases in the basic cost of living meant for those simply financially poor; but, who with the internet, now have the power to exact their vengeance, big time, just so long as the poor don't allow their "Poverty of thought" to have them "falling victim" to violence.

And of course, Epstein's The Diamond Invention, along with the Israeli Military Intelligence report, along with the "\$ Hit List" and [www.just3ants.com](http://www.just3ants.com) increasingly getting Public International Attention from places as far away as the Seychelles, those who "talk to talk" will go not only silent but have to increasingly account first to themselves even when not yet "straight with themselves", for thinking so idiotically that it is smart that they feel they have no obligation to share, with the ignorant masses, their knowledge of how the filthy rich have managed, so very easily for a century now, to trickle down the cost of getting rich on to the backs of

the poor, who spoiled brat kids depend on for their Trust Funds being worth more than the paper they are written on.

If you don't wake up in the morning angry and go to sleep at night full of life with the clearest of conscience then you will not wake up in the morning angry at the morons, and eager to enjoy all G-d's blessings beginning with the morons He-She helps highlight as G-d does what She-He does best and take over the minds of the mindless; the mind, the first indicator of the supernatural, a terrible thing to lose.

Shalom,

Gary

I am familiar with this article but there is another report that was brought to my attention that talked to the Pentagon announcing soon after the Chinese general's "nuclear pre-emptive strike" threat the sightings of Chinese submarines.

More importantly, I am now looking to see the reaction of the Pentagon to China's "snubbing" of the USS Kitty Hawk this past Thanksgiving and whether you folks think it has anything to do with President Bush "snubbing" China's Premier when he last visited the White House where instead of a State Dinner he was given a very undignified lunch.

Do you think, another factor in this most public "shot across the bow" of all the armed forces of the US, is the decision last December to have our Secretary of the Treasury as well as Chairman of the Federal Reserve fly to China asking the Chinese to ever so gradually raise their currency when as you know we could just as easily devalue the US Dollar and achieve the same result without our senior government officials wasting time and fuel to jet over to China?

Don't you think there was a whole lot more those meetings in China that the Chinese government are only just now responding to?

I am looking for material I once came across that talked to the Pentagon saying that Chinese submarines were spotted surfacing just outside US coastal waters right after Chinese Maj. Gen. Zhu Chenghu, said in July 2005 that if the United States used missiles and precision-guided weapons in an attack on China's territory, including the People's Liberation Army's warships and fighter planes, then he believed that China would be forced to respond with nuclear weapons.

Thank you.
