Subject: COULDNT YOU FIND US A BETTER PLACE TO LIVE - connections

Adam,

Just finished the most delicious, healthy lunch, maybe I will describe it later in great detail, after getting back from the most exhilarating hike that included "panning for gold" which got me thinking today is the day I will let more than just President George W. Bush know I will "lead the charge" for all the peoples of the world to immediately "make void" all the mineral exploration rights granted to De Beers and each one of their affiliates without having to be in the least bit concerned of US military intervention; and can you explain why?

Is it possible that part or all of your "confrontational" communiqués with your corrupt family, of course nowhere near as evil as The IT but certainly up there, is contained in this "**Couldn't you find us a better place to live?**" string of communications that included a personal message to Marie's 18-year old college student daughter.

If there is more stuff, then either go through my extraterrestrial pdf directory or simply look on my desktop computer in Microsoft outlook which has me thinking you are not thinking very straight?

Adam, can you tell me if you are "tracking" as well as the Mossad who along with British and American intelligence couldn't help but notice my Royal Mater-Mother "From the earliest days of 1949 she visited Israel two and three times a year writing reports for different publications" looking like this:

And when "from the earliest days of 1949" my very "light on her feet" mother was not visiting Israel again "two and three times a year writing reports for different publications" all contained in her craftily written memoirs entitled, "Life Story of Zena" she was also visiting "hot spots" like Maputo-Lorenco Marques, Mozambique with her not exactly "over the hill" 49 year very strong physically and monumentally cash rich father, Al Ash who arrived in South Africa from England two years earlier with a cool "one million English pounds Sterling in his back pocket".

LOURENCO MARQUES.
1949

Now you should understand why very brilliant "people reader" wife is quite certain my forthcoming book, THE HISTORY OF MONEY CREATION AND ITS FUTURE!" will be a guaranteed best seller if we plaster the word "NON-FICTION" on the front and back with possibly just a "Forward" from Keren over at the Office for the Israeli Department of Defense Attache, Israeli Embassy, Washington DC, but that should not stop you from making good use of your time and excellent profile on all the internet dating services to make contact with my mother either directly or through those folks on her one-of-a-kind email list which you can access by clicking on the hyperlink below and not to forget to ask her, "What's with you stealing Gary's seafront view bachelor pad in Sea Point, Cape Town, and why would your ex-husband Bernie, Gary's father not want to 'ruffle your feather' by telling you to 'go to hell?':

<http://www.nextraterrestrial.com/pdf/Zena.htm>

You would also understand that I am not the only person in the world who fully understands why it is that I am "speaking out" at this time, just like they remember how very thoughtful I was going back to when I was not yet in my teens asking very "mindful" questions that didn't end when I explained my reasoning for "going

it alone" in my quest to find better solutions than simply killing one's enemies including De Beers who by the mid-1960s when former Federal Reserve Chairman, Alan Greenspan was writing his epic, easy to understand 1966, GOLD AND ECONOMIC FREEDOM, had everyone of importance, all bought and paid for, apart from my immediate family including both grandfathers.

You should now go back to Steven SPIelberg's 2005 epic movie MUNIch starting out again listening carefully to his 5 minute 100 mile per hour introduction that you may think is regular pace, and when you hear him repeat, "in no way, shape or form am I attacking Israel" the first thing that should stay now permanently in your mind is that SPIelberg is doing exactly that as he makes quite a point in the movie of Israeli-Mossad hit squad members showing "remorse" and questioning their "goals" when only an anti-Semite would know that the best trained Israeli Special Forces commandos know only to "forgive" their enemies and therefore there is not the slightest possibility of anyone in either Israeli Military Intelligence or the Mossad in the slightest "depressed" unless for other reasons such a corrupted to be talking such nonsense to SPIelberg unless to set up such an intelligence officer or SPIelberg or both; moreover we all know Israel is just one BIG BOMB going off in Jerusalem from being wiped out.

Also remember that even if you have been raised by a pogrom orphaned grandmother, known very well to David Ben Gurion, does not mean the Mossad and/or Israeli Military Intelligence should always trust you, and certainly no more than your credible son who is not only very generous but remembered rather well his charm school lessons beginning by choosing a superstar model, more than very excellent painter artist and now teacher, as my wife, who hasn't "sold her soul".

Most importantly I don't subscribe to "The end justifies the means" and also different to my mother who "only debates people who agree with her" which you also know doesn't get you too far.

Risk Assessment is my business.

Yes.

Do you have a copy of the email that I sent my family confronting each of them? I sent it from my ajmco2@yahoo account which was suspended and I would like to post it on just3ants.

Subject: CONNECTIONS

Dedicate this weekend to getting it perfect. Don't feel the need to remind me that you mostly know exactly what you are doing. You are doing an amazing job bearing in mind that I haven't forgotten you are the first westerner I know to have taken your family "to task" for their corruption which does not mean you are close to "firing right", remembering my uncle David Gevisser who you see sitting in the middle of the "swing photo" taken in 1948, the year my parents were married, is still alive and so is my mother who was seated to his right, the same with my father who was to Zena's right, not to mention how again, my very busy mother was so very busy both before and right after my parents were married on October 10th, 1948, "From the earliest days of 1949, she visited Israel two and three times a year writing reports for different publications".

The Mossad don't need to be reminded that they were formed in December 1949 and immediately began reporting directly to David Ben Gurion who again came from the same tiny village of Plonsk, Poland as my great maternal grandmother, Nechie Becker-Badash who was orphaned during a pogrom when a gang of Cossacks on horseback entered their home and slashed the throats of her entire immediate family as Nechie cuddled herself in a tiny closet.

The Mossad whose motto is "By way of deception we wage war" don't get quite as distracted as those raised to be co-dependants, not even close!

I will provide in writing what I once mentioned over the phone, beginning with, "How I started with De Beers, at least in recent times, when I started reading the diamond invention in late 2003, drawing connections between different events...."

Marie and I are now about to go on a relatively long morning hike, but I will have my phone that works pretty well on the trails.

I assume you got at least one copy of the heavily broadcasted email I sent Dalton?

The moosh was purposeful as it was written for its audience who is not exactly made up of Devins and JKPs, but I will firm it up with your feedback.
