Subject: KIND SPEECH - let me know when the audio is up on just3...

Maybe the Bonneville type music that we first hear on "Born Rich" should introduce Ernest Slotar's message?

Marie, soon after I returned from an early morning surf and had finished showering and in between making her breakfast and careful not to let any of the peanut butter drip down the jar, called out from the bathroom of the cliff house, "I wonder when he is going to call back and say,

"You Effer, get us off" [sic]!

Of course Marie didn't pull any punches when articulating loud and clear the "F" word which again when spoken in her so very sexy French accent is like wanting to eat the paint of Sebastian Capella's most recent luscious landscape we get to enjoy at our Stone Home nestled in a slightly sloping hill deep inside the Cleveland National Forest.

The so very busy, most too busy keeping track of their lies from day one that has them tripping up constantly first in the words they use that doesn't take long to imbed itself permanently within the brain that has them increasingly coughing and spitting out their so transparent venom, always,

"Start off, kind speech, honey approach".

Just moments before I turned up the volume to Ernest's voice message left on my cell phone USA 1-858-SEL-NEXT, the verbatim transcript:

Morning this call is for Gary Gevisser;, Ernest Slotar.

Say hello. Would like to wish you well. I hope things are going well with you.

Uh, haven't spoken for a long time.

Uhh, just incidentally, I would appreciate it, I would rather we had the odd conversation which would be nice, but if you would be so kind, I really, it is difficult for me to get into the emails, and I would prefer that we didn't receive that.

And it would be nice to say hello to you from some time to time, and if you could take us off your email list Gary it would be much appreciated. Thank you very much by-bye.

And who can forget your mother's "toilet" email and Marie's response which included another "Love, Mom" hello to her "playing college" student "Tee-pee building" daughter.

We never got to watch more than a few seconds of the Johnson & Johnson Trust-Hush-Funder's "Born Rich", problems with the download.

Is it easy to access Slotar's message from the homepage of just3ants.com?

I am going to be mostly "ex communicator" [sic] today but that shouldn't stop you from expanding the list of Torrey Pines high school teachers to all the Nazi Friars who survived the dive-bombings of my fighter-bomber-pilot father as well as Syd Cohen and not to forget my Royal Mater-Mother's most trusted of them all, secret Irgun member Boris Senior, as well as of course, the meditational instructors catering to "lost souls" wanting to find every way possible to ignore disclosing to the world which corrupt people exactly are buttering their bread; not to forget all the so quiet Dali Lamas on the important issues as well as Buddhist priests, rabbis, politicians etc, etc the worst of course "Doctors without Borders" followed by academics, all now more than ever under the brightest of spotlights.

Now think of all those army recruits being handed hotdogs by veteran and highly successful US Army-National Guard recruiter, Sargent Amanda Lopez hearing these rather laid back words of a diamond dealer one envisions so well referenced in Chapter, THE AMERICAN CONSPIRACY of increasingly edgy Edward Jay Epstein's, The Diamond Invention who the De Beers controlled United States Justice Department maintain "arranged" the meeting at the Carlyle Hotel between President elect John F. "Ich Bin Ein Berliner" Kennedy and Harry Oppenheimer, the virulent anti-Semitic Anglo South African co-head of the De Beers Anglo American Cartel, that at first blush seem so inconsequential.

And of course Ernest Slotar's "sumwhat" [sic] British accent so very elderly and of course gentlemanly like; so very "warm and fuzzy"; until of course you understand the context and how increasingly alienated and so very nervous Ernest Slotar is feeling as the central bank of central Banks, the De Beers-Anglo American Cartel distance themselves from him.

Not to mention such actions, "standard operating procedure" for the DAAC and so very well described in EJE's, The Diamond Invention that Mr. Slotar doesn't want to touch with a 100 foot pole.

And of course you will recall in my 7 minute and 40 second phone conversation with Ernest yesterday which was in follow up to the voicemail he had left me just days before, he wouldn't let me get much of a word in edge ways including what he thought of my decision on November 11th, 2004 to break my 24 year deafening silence with his DAAC bosses following my Royal Mater-Mother just a couple of months prior ending her last conversation we had with the so profound words, "**Are you not concerned for your life!**"

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20tribe-smooze.pdf>

And the fact that Ernest Slotar is not alone and will find great compassion as well as support amongst the Trust-Hush-Fund crowd including those heirs of Johnson & Johnson who talk about all the burdens they carry when inheriting fortunes that they haven't had to work for, blah blah, only serves to spotlight that much more

such miserable, emotionless, so very transparent selfish bastards who simply don't want to have to work for a living and plan on "playing business" so long as their Trust-Hush-Funds remain "fully funded"; and if not, then their argument that they never asked for such ill-gotten gains in the first place, should not be a cross they have to carry throughout their lives; and if so, "so what?", they say, since their argument is that one only dies once, and those recruited by the likes of Sargent Amanda Lopez will be the "first in line" to feel the "blood hatred" of purposefully maintained poor, both financially as well as grossly misinformed.

While it is true, "Never argue with the once born" does not mean that those of us born with a conscience and who make a point of protecting such an important space between our ears, should not confront and spotlight such wretched imbeciles 24/7 and have great fun doing it.

Do you have any idea how very great it feels to have already lived 51 years and right now feeling "on top of the world", fit and getting fitter with each passing moment helped greatly by the extraordinarily strong memory of our precious so very smart and humongous emotional Pypeetoe who passed away in the very prime of life going on a year ago this coming June 28th.

His memory alone makes up for all the world's rotten humans.

BTW do you agree with Marie that the reason God has us human's sleep is to prevent us from doing more damage?

Tell me honestly, don't you feel just great this morning knowing that you are doing everything possible to expose these increasingly unconvincing Trust-Hush-Funder imbeciles relying on the likes of Mr. Jeffrey R. Krinsk of Finkelstein & Krinsk to maintain the façade,

"Well, while our justice system is not perfect, it is the best that money can afford!"

Gold last trading at US\$636.60 and I will continue to accept gold bullion for my 51st birthday gift.

Equally important, Mr. JRK also has to deal with the fact that even his more than a handful of foreign worker gardeners keeping his wife Marcy "Campbell Soup" Campbell out of mischief are increasingly likely as time marches on and the whole world doesn't blow up, to be informed of the connecting dots between stuff like the Bosnian ethnic cleansing civil war, Bill "Rhodes-DeBeers Scholar lawyer" Clinton's speech on January 20th, 2000 where he ended so bizarrely warning us that the United States was ripe for a Bosnian style ethnic cleansing; i.e. genocidal civil war, Darfur, Dr. Death of South Africa and the 3 Branches of the United States Government's approval of the CIA spearheading for some 45 odd years the South African Apartheid Regime Defense-Offense Force's biological weapons programme that included a catalogue of killing methods ranging from the grotesque to the horrific:

- **"Operation Coast" sought to create "smart" poisons, which would only affect blacks, and hoarded enough cholera and anthrax to start epidemics.**
- **Naked black men were tied to trees, smeared with a poisonous gel and left overnight to see if they would die. When the experiment failed, they were put to death with injections of muscle relaxants.**
- **Weapon ideas included sugar laced with salmonella, cigarettes with anthrax, chocolates with botulism and whisky with herbicide.**

Remember, as well, the odds of Sargent Lopez having a multi-million dollar Trust-Hush-Fund at this point are pretty slim.

Remember, as well, the odds of all the other US Army-National Guard recruiters counting on the economic draft to butter their bread, having multi-million dollar Trust-Hush-Funds to spend their time playing when not trying to co-opt-corrupt others to be at least equally corrupt as them, are slim and none.

It taking just one well armed and highly wired Specials Forces unit to "turn" and it could be "lights out" for all those who usurp their limited authority without us even having to invoke the vengeance of a very smart and most extraordinarily vengeful God.

Don't also forget that there are not many Jewish families throughout the world who don't have within their ranks someone profiteering from the Diamond Invention which of course explains the deafening silences of even non-fanatical rabbis such as corrupt Professors Rabbis Abner Weiss and Dennis Prager.

Remember as well, not to wait for Devin Standard to come through with his edits of my yet to be broadcasted email to Israeli Army trained Shunit before I follow up one more time with President George W. Bush who of course understands the imperative need to immediately suspend trading in the shares of public corporations without me having to explain in great detail this "family loyalty" business all tied to "love of money", all tied not to trusting each other, let alone family members all fighting over inheritances, but to trusting the Almighty US-De Beers Dollar now on its last legs and why the U.S Congress has to make such a big deal about Sports Heroes not tarnishing their carefully orchestrated image even though those of us not brainwashed understand perfectly well that sports figures are there just like Hollywood celebrities and members of the clergy in all their regalia to provide nothing more than entertainment but when you don't have "core family values" such figures have to be maintained and remained polished at all cost.

Maybe you can say it better!
