Subject: PERSPECTIVE-FW: See you about 8 at When in Rome . . .

It is "rili" [sic] hard for me to address the updates without you first addressing each and every one of Marie's red edits.

I was not able to follow the "little eyes" bearing in mind that I am moving in a myriad of other directions to compensate for the "gaps" that still exist, helped greatly by the so in tune Dr. John K. Pollard Jr.

This is all about "population control" while having those controlling the population, the spoiled rotten of some 3 generations of US Americans finding the time in their so very busy schedules to act so very concerned about "Preservation of Long Life and Limb" but only for those worthless elitist few whose lifespan while increasingly relatively longer than the masses, is not one to "envy".

For some reason you don't think it is worth mentioning that the date Israel declared itself a Jewish State took place some 12 days before the United States put the South African Apartheid Regime in power beginning a 45 odd year continuous most repressive rule, leaving no doubt in the minds of two people, David Ben Gurion, the Prime Minister of Israel as well as Field Marshall Jan Smuts who lost the rigged election to the United States of America's 3rd Reich's southern division, that they would have to "bide their time" while willing to lose Israeli lives and limbs but not nearly as much had the Jewish Underground operating throughout the world "gone overboard" bringing in "superior and overwhelming forces" beginning with those 50 South African spitfires in "perfect-nick condition".

Not to mention that with the war in Europe over on May 8th, 1945 and Fighter-Bomber-Pilots like Jewish South African Syd Cohen heading to the Pacific through the Red Sea before "turning left" on to Sri Lanka, the United States Government decided to unleash on August 6th and then again on August 9th the awesome power of the atom on two civilian Japanese cities.

To mention little of what this signal meant to the State of Israel, the Japanese one of the very few countries opening its doors to Jewish people.

I doubt very much you have run by Kat your latest update but now I would strongly suggest you do, the same with your X and why not ask them as I asked the President to come up with a title, intro and end.

You haven't forgotten that I have friends throughout the world beginning in Israel who I have known a lifetime who see my writings as nothing less than music to

their ears in stark contrast to the victorious Nazis amongst us, a great number Jewish and again who are only Jewish when it suits them.

You haven't forgotten that there wasn't a single member of Hitler's inner circle who were anywhere close to being perfect Aryan specimens; the same couldn't be said about the likes of Yitzchak Rabin, Ben Gurion's most trusted and most brilliant field commander who "dug deep" when not only firing on the Altalena, killing some 15 odd fellow Jewish fighters but when shaking the hand of De Beers sponsored PLO leader Yasser Arafat.

You must not forget the botched Suzannah Operation of the summer of 1954 that not only had Ben Gurion returning first as Israel's Minister of Defense and then Prime Minister where he had once again the Mossad officially reporting to him, but what steps he undertook to make certain that Israeli Military Intelligence never again "stepped out of line" without the most severe retribution.

God help any Israeli Military Commanding Officer who dares to send our young but brutal Israeli Special Forces commandos in "harm's way" without first sharing with them the ingenious Israeli Military Intelligence report that with the ongoing deafening silence of US elected and non-elected government and military officials forces the "hand" of Israel's elected and non-elected government and military officials who are not bought by corrupt US government business interests, to now speak out or forever hold their peace.

Ps - I will see whether we can squeeze another seat at our table this evening; and of course you take your life in your own hands when joining us; Marie has a cold. I am now shutting down for the rest of the year to join Marie who is walking with Danielle along the cliffs; one more most beautiful day, the lyrics of the song playing, "... we will measure your brain....just another children's story...shook up...always one foot on the ground...lost in the sound...I hear in my mind all these voices...it breaks my heart... so sweet, so soft....always one foot on the ground...it breaks my heart".

Subject: John - we have a slight hiccup.

Marie has a bad cold and concerned that you might catch it. It's not bad enough that she "cant have champagne and a good meal, just can't kiss him! He needs to let us know what he thinks. There is also option 2 to get the sitting earlier and would he prefer that or would he prefer to keep it as it is or cancel everything."

Now she is saying after I read it back, "Why do you write the way I talk?"
