Subject: Adam, did you understand that, most of all, Ben Gurion had to "play the game"?

Why haven't you written down your "explanation"?

I just saw another email from you about t-shirts design. Didn't we discuss this ad-
nausea, you were going to leave the design to those artistic in this area?

Adam, you keep missing the point and it shows up repeatedly.

I am all about Knowledge-Information-Light journeys, spotlighting from within using my brain, the mind the first indicator of the supernatural, all those who interfere with God's precise sequencing including God's, not human beings' children; humans "empty vessels" for the most part who mostly talk without listening let alone gather in the intelligence of their own minds that gets taken over by "light-forces" when the mind of the owner, born with free will to think their spirituality can NEVER be lost, begins to short-circuit from going around in circles, of course never figuring there had to be more than one reason why G-D-NA-ture got rid of our tails.

BTW Marie slipped earlier today "hurtling" [sic] over a rock that caught her "cocksex" [sic].

If you ate right and exercised right your Crohn's disease wouldn't crave dope which is all I can think of that explains your highly limited logical thought processing.

Or are you thinking of the very quick millions of dollars you could make before I "go public" with that medical cardiology scam?

Do you know how much of a cut those prescribing medical pot get and at the same time what percentage of the prescriptions medical doctors write are for medical pot?

Do you think that would be a good survey question particularly for first year medical students to see if they are going in to the practice of medicine for the money?

Do you ever think there is a "consequence" for the US being the drug capital of the world, both prescription and opium and the such, not to forget meth that prevents most US Americans from not only being able to ask the right questions but think everyone in the rest of the world who live under piracy are nutty?

How many times have you thought of reading this hyperlink below taking you to The Revolution in South Africa: An Analysis

<http://www.mltranslations.org/SouthAfrica/SApamphl.htm>

Do you think it might help in revoking all mining rights to remind folks not exactly okay with the "status quo" that an American, born in the United States and buried in the United States not only inherited from his father the title, The Platinum King but when Mossad assassinated Charles Engelhard got buried on March 2nd 1971 at St. Mary's Abby church, Morris Town, two words, New Jersey, this mafia of mafia kingpin like none other controlled the world supply of platinum?

Do you know of a single US service person apart from Dr. Laura Schlesinger's son, who is okay with the "status quo"?

Do you think G-D-Nature has a role in exposing all those who lie, steal and cheat, too busy keeping track of their lies from day one?

Do you think if someone has just an ounce of spirituality they would lie?

Marie Dion Gevisser just asked, "Do you hear the coyotes?"

Time to "sign off" as you realize you are not the only human being in the world who knows that my uncle David Gevisser is still very much alive just like my mother, my uncle Dave's most "trusted" friend.

While Nero fiddled Rome burned!

You should understand that while of course G-D-NATURE could care less at this point if a single human being survived, G-D-Nature wouldn't think twice about helping only those who help themselves by knowing first of all "tTOo" [sic] share their ill-gotten gains with those they know who have been purposefully harmed.

Since it is doubtful you are going to get a meaningful response from Ms. Bravo, I thought I would share you communications:

Estela,
I realize that everyone has an agenda, but after all the information I shared in my last email, you chose to reply with a self promotion which I find to be a disappointment.

Sincerity is a word but it requires actions to support it or in the very least not be a contradiction. Your films are your contribution and your truths, documenting not only what you feel is important, but also documenting what you feel is unimportant.

I would still be very much interested in your opinion of www.just3ants.com, Diamond Currency, or Edward J Epstein's THE DIAMOND INVENTION (<http://www.edwardjayepstein.com/diamond/prologue.htm>).

Let your actions speak,

Estela,
I will see if I can find your new film online as I am always interested in

expanding my knowledge and awareness.

I am located in Del Mar California, USA. FIDEL was a step on a path of discovery for me. Over the past year, my view of my government and the world as I knew it has changed dramatically.

I have a close Jewish South African confidant that was once employed by DeBeers and shared with me the role that diamond currency plays in financing governments and wars without leaving a money trail. In addition he made me aware of documents from the US Justice Department that discusses DeBeers being a major financial contributor to both of the US' political parties.

It takes people not unlike you to step up and share knowledge and information when it is shared with them; this is why we have put together just3ants.com, to help bring awareness of DeBeers providing an untraceable vehicle for financing human suffering for profiteers.

If you have a moment to check out our website I would greatly appreciate your insight and perspective.

Thanks again for FIDEL and the awareness of your most recent film which I look forward to viewing.

I hope this finds you well.

Thank you for your time,
Adam

Prior to watching your movie FIDEL I had been an ignorant believer of my government; I would like to apologize on behalf of my government and media as they do not represent their people.

Thank you for making such a wonderful film.

I just now heard your voice message, but some of it cut out.

Neché Badash?

I have given it lots of thought; I have had no outside distractions but myself which I know can be significant.

Did you get my phone message?

Much more than the USS Liberty. What about those closest to Ben Gurion?

I am waiting for you to come up with answers to the "explanation". How much time this weekend have you put into it?

The USS Liberty was an example of that. I think the just3ants explanation needs to be more broad so that it leaves them searching the site for answers.
