Subject: THATS IT-RE: I don't know what I am talking about!

First note that I have cut and pasted your last 3 emails to me.

Go ahead with Palomar College and of course do not be in the least bit concerned of anyone including the Mossad daring to interfere with your "dialogue"; not to mention Sarah Sim of Prince News as well as Joyce Kwan of MIT's Nuzeds would have already consulted with their legal counsels who would surely advise them not to "tortuously interfere" with my business-personal.

Second, I think the music on just3ants.com should play automatically but at the same time allow the viewer the choice much like a jukebox.

Adam, don't get caught up in the music stuff even though getting really hip music is important. We should be letting the younger generation guide us in this area.

I made a number of breakthroughs this morning which you will read about shortly.

Focus on getting video up as well as tying things together beginning with getting your blog going and placing your "its" on the \$ Hit list with of course the puppies connection, each of them forced to sniff their own shit.

Remember, everyone likes to read all the shit on everyone else while of course protesting that we shouldn't go on and on about shiteheads, that there is both "good and bad" in everyone and therefore there is no purpose in focusing on the "bad" when there is also so much good blah blah, all the while these mindless people have this rather annoying habit of forgetting why it is that they have even the time let alone the inclination to be acting so "goody tu shoes" [sic] when benefitting so very handsomely from the corruption of those on our \$ Hit list.

Not for a moment should you also forget why it is that I have such a very significant "footing" on The Internet because of the fact IT IS also the shiteheads as well as those they have MOST co-opted-corrupted who keep clicking on my ever changing hyperlinks no one apart from me knowing when and what changes are being made to increase the circle of those dependent upon my insight and analysis of the important events of the day.

Let me give you one example.

Blind copied on this communication are approximately 20 individuals who up until a couple of hours ago had never heard of me nor were they in the least bit interested in my "agenda", even now not quite certain what it is that I hope to achieve.

About 50% of them, however, without, no different to 99.99% recurring of US Americans, for VERY GOOD REASONING, evil that it is, knowing really any history of either World Oil War I or II which was a continuation of WOW I, now do perfectly understand, the connecting dots between; ONE, American banker J.P. Morgan and Co. financing both the American led 8 Allied nations invasion of China in 1900 and the American-Anglo Boer-Farmer War of 1899-1902 as well as the Diamond Syndicate/Cartel DeBeers; SECOND, the financing of "nothing" Little Corporal Hitler who prior to being funded by DeBeers with both Diamond Currency, unlimited in supply, untraceable, never once inventoried and always price fixed at more than a barrel of oil, as well as industrial diamonds to produce the precision tooling needed to put in motion Nazi Germany's most awesomely Military machine that had the western nations financing DeBeers, financing little corporal, most non-Aryan looking stooge Hitler, forced to "play catch up" to nothing and totally broke Hitler who following his stint in jail where he wrote Mein Kampf couldn't afford a pot to pee in much like the rest of the inhabitants of the Weimar Republic where a barrelful of Deutch Marks couldn't afford a load of bread, Hitler very possibly using worthless Marks as wallpaper when this failed artist painter couldn't even make a living as a wallpaper hanger; THIRD, the meeting on board the U.S. destroyer USS Quincy back on February 14th, 1945 between DeBeers President Franklin D. Roosevelt and Ibn Saud of the House of Saud, Saudi Arabia which had DeBeers who controlled the world's drilling industry and therefore OPEC and the likes of Standard Oil - the US Justice Department's breakup up of John D. Rockefeller's monopoly nothing but one more DeBeers cartel's smokescreen - telling, in no uncertain words, the Jewish people who survived the

Holocaust, that if they DARED to keep pushing for a Jewish Homeland, namely Israel, following the Soviet Red Army liberating on February 2nd 1945 Auschwitz that was consuming some 10,000 Jewish people a day, then immediately following the DeBeers controlled United Nations granting Statehood to Israel on June 15th, 1945 within a month of the United States of America's DeBeers South African Apartheid Regime seizing power in South Africa sitting atop the world's richest mineral resources apart from oil, then it would be just a matter of hours before those Jewish people who didn't end up going up in the chimneys of Auschwitz and the such would end up either dead in Israel's War of Independence or swept in to the Mediterranean sea where they would have to fend for themselves without any hope of say a US ship such as the USS Liberty spy ship appearing out of nowhere to pick up any and all survivors; **FOURTH**, the decision by the State of Israel on June 8th, 1967, some 3 days in to the 6 Day Arab-Israeli War with Israel's victory all but certain in the very first hours, to commence the most extraordinarily brutal air and sea attack on the totally defenseless USS Liberty killing some 34 American sailors and injuring close to 200 without there any possibility of a single member of the DeBeers bought and paid for United States Congress providing much more than "lip service" to any enquiry given how this would have opened up in the very next instant a hornet's nest of epic proportions.

Let me know when reading my highly secretive and very non-Jewish looking Royal Mater-Mother's memoirs, "LIFE STORY OF ZENA" whether you see the connecting dots between her "from the earliest days of 1949 visiting Israel two and three times a year" and British-American pilots providing escort to Egyptian fighters taking on the Israeli Air Force in January 1949 when the brutal Israeli Air Force began to tell the world who first said with that photo shoot on the USS Quincy, "**Don't fuck with DeBeers**", their [Israel's] response, "**Don't fuck with the Jews**".

Let me know the instant you hear of a single member of the United States Government which includes the Pentagon and the US Supreme Court providing an explanation of why China decided right now to "snub" all United States Armed Forces with its decision at the 11th hour not to allow the nuclear powered aircraft carrier Kitty Hawk landing rights in Hong Kong, the first leg of the Chinese Rooster, Taiwan the second.

Let me know the instant you hear of the United States Government mentioning anything about the United States leading an 8 Allied nations invasion of China in 1900 right in the middle of the American-Anglo Boer War where the British-Americans used Concentration Camps to brutally murder some 20,000 Dutch-Afrikaner old men, women and children following Field Marshall Jan Smuts' Afrikaner guerrilla forces, expert rifle shots on horseback managing to hold off the massive conventional armies of the American-British, again financed by J.P. Morgan and Co who again also financed Cecil Rhodes, the founder of DeBeers who also provide the rather well known Rhodes Scholarship that affords the likes of Bill "Cecil Rhodes-DeBeers scholar" Clinton more than a pot to pee in.

Let me know the instant you hear of a single member of the western media beginning with Drudge Report making reference to why Albert Einstein who thought extraordinarily highly of the most awesome Field Marshall Jan Smuts, second in command to Churchill during WOW II, would think it not only smart but most appropriate to write as his return address on an envelope back in January 1934, long before Auschwitz was even built, the 3 most telling words, "**Concentration Camp, Princeton**".

Gary,
Do you want to take this one?

This is the Palomar college paper, and although they are a community college, their demographic is probably more receptive than any of the ivy league schools, since most of them are working to go to school, and are there because the education is much cheaper than the universities.

We would certainly consider it. It depends on the topic. Feel free to send it to the below email. I have cced the editor in chief, who makes the final call on what goes in the paper.

Thanks,
Erin

I have a story that I would like to discuss; a very timely subject that deals with Einstein's views on academia and how it ties in with a recent Israeli intelligence report.

When is the deadline for your next publication?

Thank you for your time and attention,
Adam

Hi Nikki,

Thank you for writing me. I believe that we do have a lot in common and would be interested in talking more. As I mentioned, I have a lot of things that I am learning about including my passions. If you have a moment, please take a look at a website and mission that I am working on, and if you are still interested, please feel free to write me :)

well adam im so glad you wrote to me. I visited hte website and though i only skimmed it i found it very powerful. Would you mind if i showed it to my mom and sister? I am sure they would find it interesting as well. So how was your holiday? I understand what you mea nabout things in common but there is only so much you can tell from a profile or even from sending emails back and forth. I would love to know more about your passions as i myself am a very passioate person about a lot of things. Well its late and i should go to bed soon. I relaly hope to hear from you soon. One thing you need to know about me is i am a very impatient person! so anyways i guess i will wait and watch for an email.

Good morning!

Please do share it with your mom, sister, and any one else that you can think of.

I have one more homework assignment for you, it will help you understand why I am working on this and why I am so passionate about it.

The below links go to two chapters of an online book, called THE DIAMOND INVENTION. The first linked chapter is entitled "Diamonds for Hitler" and is based upon declassified reports from the OSS/CIA available because of the freedom of information act.

<http://www.edwardjayepstein.com/diamond/chap9.htm>

This linked chapter below is called "The American Conspiracy"

<http://www.edwardjayepstein.com/diamond/chap18.htm>

It may take about 20-30 minutes to read both, but they are really informative and it will change your perspective on WWII and the role our government has played in war.

Some key things to think about are; without industrial diamonds, no one can drill for oil. And without industrial diamonds, no one can manufacture precision tooling necessary for mass production of anything that is steel or requires steel to be cut.

Which means that who ever controls diamonds also controls those industries to some degree.

What gets your blood flowing, what are you passionate about?

Talk with you soon!

Adam

We were just talking about giving the viewer the “jukebox” choice.

There is a female artist who plays the harp that is a must right now. Danielle sent us her CD and would know both her name and the song we are talking about.

Ps – the mini “short-circuited” on us right after we left the theatre last night bearing in mind Marie watched “War of the World’s” the night I had my “collapsing buildings” dream and apparently this remake by Spielberg has cars “blowing fuses” and standing still as ant looking Aliens take over.

GG with his pet rock ant.

Marie comment, “lots of speedboats on the ocean. Has to be rough. Catush. Catush”

Subject: I don't know what I am talking about!

Adam – you are not going to necessarily know at first what Marie and I talking about. You might think like us “it is like talking to the birds”.

Marie now commenting on the initial study Sebastian Capella did of her-pyeeetoe’s portrait.

“He made the study in the low key of chroma; the sand is grey but on just the left little strip he raised the chroma. He said, ‘ok I am trying this and this.’ Very interesting! Did u see all the difference in color all the way from the sand to the sky? He was testing the colors.”

Adam, the point is when people say they are not interested to find out what is their interest and equally important have them articulate their level of interest to find out the depth of knowledge or lack thereof.

My suggestion is to set up a space for Marie at MySpace

Reading as follows or as you think:

I am an artist.

Sexy , beautiful and intelligent. What else do you want to know?

I can’t type. Make it short. Let’s cut through the bs.

just go to jus3ants.com and tell me what you think.

This is some of the things I am interested in apart from art.

My age. Almost 50 [Insert photos starting out with her in her bathing suit – look on refrigerator see baby– ending with portrait]

Marie now saying “I am not sure what it will accomplish if I don’t respond?!”

Hard to tell with Marie at times whether she is being “instructive” or questioning my minority shareholding.

More importantly, I couldn’t disagree more since just3ants.com is already speaking volumes about intelligent and unintelligent people contributing just the 3 ants presence on the internet along with of course those on the \$ Hit List – Marie commenting earlier the Dollar sign on the homepage needs to be either bold or larger font.

Marie now saying as I read back to her my response to her nonsense, “you are just trying to get your way with me again! My feet are cold. I am getting cold feet. That is the truth”

I just felt her feet. She is telling the truth.

Marie now commenting, “I think you have typing addiction” as she smiles and says, “you just cannot stop. Where is my cup of coffee. Go get my cup of coffee” as she smacks her lips “Wont it be good? I think this is where we should stop it”.

Now as she punches me in the rib commenting, "You drain my brain!"
