**Subject:** UpDATING - RE: New Cell Phone Law

Adam, I am relaxing here once again at the Rancho Sante Fe Inn awaiting my healthy vegetarian soup and salad that I understand has been on the menu for some 14 or so years although they are taking out the pig.

I was just speaking with Devin about a number of things including he, a Black American and I a Lily White Wheaty Eating African American being the "Wandering backpack Jews"; not to mention it makes perfect sense that it is much easier after a while to tell the truth; to mention little of the baggage handlers of American Eagle when informing me through their general manager Mr. Steve Terry, "we returned the gold to the only unzipped bag" in the hold of the plane there was no mention that the unzipped bag belonged to one or more of the baggage handlers; to mention in passing such despicable "train of thought", so very disgusting and of course occurring within each of our households should have you thinking of those trainfulls of 6 million Jewish people on their way to Auschwitz and the such figuring that at the end of the day, as in the end of the war, as in Germany surrendering on May 8<sup>th</sup>, 1945, when those Jews who survived having to fight for their survival some 3 years later they would have the victorious Allies backing them to the hilt, and when they didn't, and the Israel Defense Force had to not only contend with an arms-trade embargo placed on the fledging Jewish State during its unimaginable and unimaginably brutal War of Independence but the British and American superpowers who won World Oil War II would also make it illegal for any male of military age to enter this newly formed Jewish State you would have to ask yourself first and foremost who exactly were these Nazis that were apparently defeated, followed by who financed the little Corporal Hitler and Co.?

Please send Devin the outline of the seminar-workshop which you prepared a few weeks back and if it needs updating please be my guest.

Ps - my very attractive waitress is not only South African but a fellow Durbanite.

Ps I - You wouldn't be surprised to hear that I am giving serious consideration to calling in the FBI to investigate another "missing" piece of luggage.

---

**Subject:** RE: New Cell Phone Law

Thank you for thinking of me.

Would you agree that a person that does something accidentally should be less accountable than someone that does something intentionally? I ask because I get distracted sometimes with looking out for myself and forget about the rest of the world's problems... there is that old saying about helping yourself before helping others, but then the problem lies in determining when it is time to help others.

I met a 32 year old girl, a couple of weeks ago and after we both figured out that we were not going to be a good match, I told her that I would send her a link to just3ants.com, to which she responded, "good, I can sound like I know what I am talking about to my friends." In hind sight I could have put her on the spot and asked her why she would not think there was a better use for the information, but by that point I knew I would be wasting my breath.

Have you read the "Why?" on the home page of just3ants?

What do you think of the first sentence, "Just3ants is here to show that ignorance is not bliss."? Is it too in your face or not enough?

Not every German wore a swastika on their shoulder during WWII; if you were a Jew in Nazi Germany during that era, would it have mattered if the person shouting hate at you was an official member?

Guilt by associate is something that our legal system recognizes as culpable, and rightfully so since knowing about a crime and doing nothing is just as evil as committing the crime.

Do you remember all those television spots that use to run during our Saturday morning cartoons, "Knowledge is Power"?

Any word from your art school professor that you thought would be interested in enlightening his/her students?

Adam

This is something that all cellphone users need to know!!!!

**According to a proposed new ARIZONA law that would go into effect Jan 1, 2008 you will no longer be able to use a cell phone while driving unless you have a 'hands free' adapter. I went to Circuit City and they wanted \$50 for a headset with a microphone for my cell phone. Having a friend in the cell phone business, I talked with him and was able to come up with an alternative, working through Office Depot.**

**These kits are compatible with any mobile phone and one size fits all. I paid him \$0.08 each because he bought in quantity. Then we tried it with Motorola, Sprint, Verizon and Nokia units and they worked perfectly.**

**A photo is below so scroll down & take a look and let me know if you want one. Also, forward this to anyone you know, who has a cell phone, and who may want one!**

**I can hear you laughing. I thought you could use a laugh. WE ALL NEED TO LAUGH MORE.....**
