Subject: Write the book today and i will edit it this evening

The sun just landed on the Pacific Ocean's far edge, and it is as bright red as I can ever recall. So very spectacular. Now the most perfect shaped female breast.

You haven't forgotten the connection between Israel - 1948 - South African Apartheid Regime aka The 3rd Reich's southern division - Roosevelt on board the USS Quincy on Feb 14th 1945 and Joker Ibn Saud of House of Saud.

Then connect up to Sec. James A. Baker's law firm and House of Saud.

Then connect up King, Valerie, Roger and I concluding when Roger W. Robinson and Sec. James A. Baker were "calling the shots" at the White House during President Ronald W. Reagan's first administration, that Sec. J A B was "THE MOST DANGEROUS PERSON IN THE WORLD".

Then come back to Boris Senior concluding at the outbreak of Israel's War of Independence some 3 years and 3 months following the House of Saud controlled by De Beers sending us Jewish people the clearest shot across the bow, "DON'T FUCK WITH DE BEERS" who control all 3 branches of the United States Government, that the United States Government was "no friend" of Israel.

Then skip forward to the fall of 1972 when I, age 15 and not exactly a spoiled rotten, too big for my boots talkative kid, not even close, "pleasantly" chatted with my Royal Mater-Royal Mother's most trusted friend in the entire world, Boris Senior who made a point when recruiting volunteers to fight in Israel's "fight for survival" to avoid my amazing fighter-bomber-pilot Bernie Gevisser, "like the plague".

Just now the sun has disappeared.

What an awesome time to be alive, fit and well.

If you don't hear from me again just make about 500 copies, the same number of prints as The Winking Cat, and deliver it to every member of the US Congress and perhaps they will all resign at once, knowing the US military is a little tired as well and are highly unlikely to start a war with China backed up the brutal Israel Defense Force who shouldn't have much difficulty getting recruits beginning first thing tomorrow morning.

Also note the Reuters announcement, "Saudi holds over 200 militants, foils oil attack" back on Wed Nov 28, 2007 12:22pm EST.

5 days earlier, on Friday November 23rd I sent Keren over at Israeli military intelligence the 6 questions.

<http://nextraterrestrial.com/pdf/Microsoft%20Word%20-%20imi-rich.pdf>

4 days before that, on Monday, November 19th, in an email to you I had a Side note to Keren that read:

Make sure the next time you threaten me, please try and find the courage to do so with a cocked gun.

Your cowardice reminds me a lot of those such as yourself who celebrated the assassination of Israeli Prime Minister Yitzhak Rabin who you recall was not only a pretty good soldier but trusted by Ben Gurion to sink the Altalena with fellow Jewish soldier Menachem Begin on board.

Now if you would stop for just a moment with your need to "suck the hind tit", explain in simple English the not-so-top secret Israeli Military intelligence report:

Immediately following the 2008 Olympics in Beijing China, Al Quaida will launch a series of attacks on the oil fields of Saudi Arabia, Kuwait, and Qatar which will immediately paralyze the United States economy, much like this report is designed to do.

Also note that Keren says she never received a reply to her November 19th request,

Mr. Gevisser,

Please send me a SHORT, CLEAR e-mail of what it is that you need from us.

If it wasn't clear until now, our department, the Defense and Military Attache is responsible for US-Israel Military and Department of Defense relations.

If you will be clear I might be able to help you.

Until now, after several e-mails and phone calls I still don't understand what it is that you need.

If you will not be clear and short I will have no choice but referring your name to our security office.

All the best,
Keren

Also note that Keren request was in response to an email I had copied her on that was sent to you with the subject:DILLY DALLY- RE: draft to Dershowitz

Also note Keren continues to protest that she has received no further emails from me.

Very, very excellent.

1. Date of first broadcast of Israeli Intelligence Report – you will need to do a search on my desktop computer. Search under Israeli military intelligence.
2. Edits needed in the paragraph, "My next thought was why would Al Qaeda orchestrate such an elaborate attack on the World Trade Center Towers, with so many potential points of failure when [delete there] an attack on an oil field in Saudi Arabia, Kuwait, or Qatar would seemingly be so much easier?
3. Instead of "4.5% of the world's [apostrophe] population..." put 4.2%...
4. Don't we say "across the bow of" rather than "for"....?
5. Edit needed, "It is no secret that the United States funded and trained Osama Bin Laden and Al Qaeda during the 1980S as a means of attacking Iran and the Soviet Union, and that Osama Bin Laden is a member of the Bin Laden family which is intimately

My first contact with Keren over at the Israeli embassy was on Monday oct9th. – showing a picture of me as a very young kid holding special forces weapons following by my prescient timing letters to the editor of the Jerusalem post that got published beginning Feb 1, 2001 soon after Clinton granted Rich a presidential pardon and some 20 days before Fbi mole Robert Hanssen who got paid in diamond currency was arrested.

Next item of importance is what Boris Senior had to say about the US no friend of Israel; not to mention Boris was the only person my mother had me contact in Israel when I went on a 4 month Ulpan back in

1972, arriving at Kibbutz Sde Boker where Ben Gurion had retired some 3 odd days before DeBeers sponsored PLO terrorists began to massacre 11 defenseless Israeli athletes, to mention little of my meeting for the first time some 57 odd days later with Ben Gurion, some 13 months to the day when he died on December 1st, 1973, soon after the Yom Kippur War which is when Marc Rich began trading with the enemy, not in the least bit interfering with Bill Clinton on his last day as President giving Rich a so rare presidential pardon.

Subject: Priorities

Give me a list of your priorities for the remainder of the day.

Below is my "rough" updated draft of my last heavily broadcasted email. It might help in your one assignment today.

Dear Mr. President,

Following the "money trail" is an exercise in studying human nature that allows each of us right this moment, in real time, to make a certain determination beginning with ourselves, who is and who is not corrupt.

Moreover, it is as easy as "child play".

My silencing of those conspiracy theorists beginning with Sofia, this one 911 Mysteries group, is only comforting if you happen to be honest and not a member of the De Beers diamond-crime syndicate who for more than a century have managed to silence all their critics either by killing them in cold blood or buying off their opposition until their critics get the message loud and clear that they too can have it "easy" so long as they redirect their passion towards other acts of inhumanity beginning by corrupting grass roots

organizations in faraway lands where our "dictator of the day" is "kept honest" knowing that his second-in-command is currently being compensated by CIA operatives that much less but with sufficient resources as well as motivation to be that much brutal with grass roots organizations should it be necessary.

Alan Dershowitz, Simon Wiesenthal are but two Jewish people who the overwhelming majority of people Jewish and non-Jewish who have heard their names would assume not only are Jewish but represents the best of the Jewish people even though both of them have track records that smack of self-aggrandizement.

Truth has a way of cutting through all the distractions no matter how very carefully conceived by highly imaginative as well as most evil human beings who thought their day of reckoning would never arrive and that includes a Day of Judgment when they believed that the worst thing an Omnipotent Power would do is to have them languish the rest of their days in Hell where they would find themselves in the company of many.

The more recent motto of the Mossad, Israel's most brutally effective intelligence institute who does not report to the nonsense United States Congress so very heavily bought and paid for it is no longer in the least bit funny, reads,

"Where no counsel is, the people fall, but in the multitude of counselors there is safety." - Proverbs XI, 14).

Last evening at a neighbor's "Holiday party" here on the cliffs of heavily corrupt Del Mar, California I never got to hear my incredibly well dressed and so very sexy French-Canadian wife in her so very cute French accent articulate her conversation stopper response, "He takes care of my multitude of needs" in reply to the often question directed towards me, "What does your husband do for a living?"

Not to mention in this nouveau riche gathering was one Del Mar, City council person suffering from "Poverty of thought" Council member Drucker not only

made a point of smiling at me but in front of my gorgeous wife addressed me by my first name all the while knowing perfectly well why exactly I consider him and his corrupt colleagues no different to the brutally oppressive South African Apartheid Regime who ruled at the bequest of the 3 branches of the US government with diamond studded iron fist for some 45 odd years during which time in exchange for protection the United States of America stole all of South Africa's gold output as well as the rest of many and highly valuable precious resources that belonged to the overwhelming majority of Black South Africans who simply didn't have the big guns or for that matter the same level of greed as us "money, me" US Americans.

Now of course Marie Dion Gevisser can be as equally crude as anyone I know including me but whenever in public she finds a way to make everything sound so very smooth beginning with how she can go from so very polite sex talk to discussing organic farming leaving little to the imagination of the very distinct possibility she is in agreement with me that being vegetarian as we are, she too sees nothing wrong in enjoying multiple orgasms so long as her sex partner is up for it.

Now when an English person says, "Giddy up" it sounds very much like "Get It Up" but when someone as articulate in the English as she is in the French which is MDG's second language, math her first, it has an "air about it" that makes even the most out of shape lover want to try better.

If any of us were raised in a household where money is the embodiment of the parents and grandparents which is very much the case not just in The IT's household there is in fact very little to look forward as one grows up apart from a lifetime of disappointment which does not mean one can or should dissociate from those who acknowledge openly that they have decided they can "live with themselves" and take blacken handed monies since they argue "it is there for the taking". At the same time so long as the rest of the relationship is on your terms both blackened handed people and this of course includes co-opted-corrupted children who understand perfectly well that they are being co-opted-corrupted, can "still get along".

Moreover, while everyone can be “all smiles” the truth is that there is the most significant price one ultimately pays when waking up each and every day and noticing there is increasingly little to look forward to, including great sex as the short-circuits within the brain, the result of a lifetime of lying to oneself, inevitably take their toll.

Everything I am discussing not only connects up but in explaining the ingenious workings of the mind that could only come from one most ingenious designer who designed a system that is constantly in perfect balance, one comes away feeling that no matter what, no matter how good or evil one is it is not in the least bit difficult to keep track of your own thoughts that inevitably parallel not only mine but the rest of humankind, the oxymoron of all time.

The Mossad also understand perfectly well exactly what I am doing even if many if not most of them had never heard of me until I began communicating with the Office of the Israeli Department of Defense Attache at the Israel Embassy in Washington, DC

I have tasked my one apprentice Adam Tucker with completing by the end of the day a first draft of my latest forthcoming book dealing with the ingenious not so top secret Israeli Military Intelligence Report which should have been enough for you to have immediately suspended the trading of shares in public corporations given its multitude of revelations beginning with the fact that Al Quaida hasn't already successfully attacked the oil fields of Qatar, Kuwait and Saudi Arabia only because Al Quaida is smart enough not to bite the hand that feeds it which only explains Al Quaida's reluctance not to paralyze the U.S. economy in the very next instant.

But there is a long history to this Military Report that I remain not only the first civilian in the world to have reported but still no one including Israeli Military Intelligence have issued a public announcement apart from their extraordinary deafening silence speaking volumes.

It begins in earnest with South African-Israeli Boris Senior, a founder and Deputy Chief of Israel Air Force producing a very easy to read book titled New Heavens in which this no-nonsense fighter-bomber-pilot who literally during

Israel's War of Intendence threw bombs weighing as much as 50 kilos out of the cockpit of his plane emphasizes not only that the U.S. Government was not a friend of the fledging nation, curtailing the pilots' ability to transfer airplanes to Palestine but going on to point out, in contrast, the Russians rescued the endangered Jewish fighting forces from destruction by permitting "Czechs to assist us (training in and procuring Messerschmitts)." In addition, **"Russian diplomatic and political support in the United Nations during that period were instrumental in helping Israel survive." This directly contributed to the success of the war in the air, which, through the efforts of the Mahal overseas volunteers, brought final victory to the nation and led to Senior's ability to initiate and build the Israeli air force.**

Mr. President, that fact that Stalin later changed his mind and came out against Israeli does not in any way shape or form diminish the fact of life that Stalin originally supported the creation of the State of Israel in 1948, the USSR was one of the first nations to recognize the new country and while future Prime Minister of Israeli Golda Meir came to Moscow as the first Israeli Ambassador to the USSR that year, AND NOR DOES IT MITIGATE the fact of life that the U.S. Government had absolutely no interest in saving one single Jewish person given how to anyone with a brain and who was not corrupt understood perfectly well the 3 Branches of the US Government that included many Jewish people were bought by De Beers well before the outbreak of World Oil War II; both the British and American government knowing perfectly well that De Beers were instrumental in the rise of Hitler's Nazi Germany.

Not to mention it was no coincidence that President Franklin D. Roosevelt chose very carefully in acceding to his DeBeers' bosses wishes that the USS St. Louis not be provided a "safe harbor".

You will also recall that the British army general staff headed by field Marshall Montgomery reported to the British government, "When Britain evacuates Palestine, the Jews will immediately be overcome."

But remember, Boris Senior was most correct when expressing that,

"The Jews had a powerful weapon – what is known in Hebrew as "Ain Brera, meaning "no alternative" In other words, the Jews were fighting for their survival with their backs to the wall, or rather the sea. Losing the war would mean in the best case losing their homeland and in the worst case their lives. For many it meant a return to persecution. Each and every battle was fought on a background of desperation knowing the fate that faced them if a single battle was lost. The memory of the holocaust just 3 years before cast an ever-present shadow on the Jewish fighters and counts , in part, for the desperate heroism shown by the fighting men and women of Israel.

Boris Senior while by no means "naïve" understood when he and I met in 1972 that De Beers were "beyond reach" and to even mention their name in "private settings" even at the family dinner table could only bring "trouble" given how ingeniously this mafia of mafia had meshed themselves into the very fabric of ultra orthodox Judaism, the ultra orthodox Jewish-Black Hatters themselves not in the least bit naïve serving from the very start of the Diamond Invention as De Beers' "cushion" as they mingled mostly amongst themselves in the world's money laundering capitals when not "getting the goods" on non-religious Jewish people who knew better than to also speak out against De Beers and end up like Al Quaida "biting the hand that feeds it".

There is talk these days of "Taking God out of the currency" and what else is there backing our currency?

The value system here in the U.S. is so very transparently "money" and money is becoming worthless especially as Knowledge-Information-Light now travels at Light-G-D-Speed, leaving it not so very important that I publish in print my forthcoming book, The History of Money Creation and its Future!, subtitle, which my very brilliant French-Canadian wife also titled, "A Message for the President".

It is truly a great feeling when "about and about" and not feeling the need to convince anyone of anything and simply let whoever we meet figure out in

their own time what it is of value that we “bring to the table” apart from also being able to engage in “light conversation”.

Yes, so very extraordinarily unsophisticated were Hezbollah Special Op commandos when during the 2006 summer war with Israel some 100 of them broken up in to 10 groups blasting the most non-technologically advanced missiles in to Israel causing the evacuation of Haifa, the 3rd largest city in Israel, housing a population of some 300,000.

Yes, what if just 20% of those same very well trained Hezbollah Special Op commandos were the 19 odd Al Quaida-House of Saud hijackers who were so very thoughtful in bringing on board totally nonsense box cutters that allowed the Department of Homeland Security to beef up the employment numbers, all the while giving our bought and paid for media and politicians yet another opportunity to promote worthless-fictitious US-DeBeers-Dollars.

Yes, Mr. President what you learned at Harvard Business School is very true, at least as it applies to monopolies.

The instant you allow just one monopolist to operate so do all the preachings of “free markets” that in turn allow the use of choice words, “Spread of freedom and democracy” ring shallow, indeed.

Most immigrants to the US are invigorated by the stories of the Mayflower which had hard working peoples escaping religious and political persecutions in faraway lands willing to settle in hostile territories where indigenous peoples were brutal even amongst themselves and in the process of setting up their homesteads willing to risk their lives in pursuit of the American dream, just for all, blah blah.

Most immigrants to the US know that we are the only nation in the world to have used nuclear weapons on two massive civilian populations but those miserable thoughts are then very quickly mitigated when us Immigrants recall how very “generous” are US Americans in helping the world’s poor feed themselves with gifts that are mostly “double edge sworded”.

Gillette may still make the best razors but we wouldn't know for certain since US Americans don't know the first thing about "free and fair markets" although we remain pretty good at cracking jokes, but increasingly less so as grass roots organizations all around the world including here in the US begin to take root, and more importantly, increasingly not afraid of "Big Brother".

So easy to know whether a new or old member of any organization is corrupt simply by having them share their opinion on Edward Jay Epstein's, The Diamond Invention.

Why do you think this most fascinating book detailing the devious nature of De Beers begins, "In Japan..."

My agenda is rather easy to figure out, the same I suggest with each one of us going forward without the need for any of us to want to kill one another and to leave it up to God to decide our fate the next time around.

Wall Street is an extension of the 47th Street which is nothing more than another department of the US Treasury and US Federal Reserve.

They are all about promotion with those doing the promoting all getting their "promoted interest".

Of course I didn't get off a ship just yesterday and nor do I care that much for sailing.

And the fact that I know a whole lot about the business of "money creation" more so in all probability than anyone else alive is quite disturbing not only for all of Wall-47th Street and of course the entire US Congress, US Supreme Court and the like but those such as The IT and his cow girlfriend whose command of the English language I think you would agree is quite atrocious let alone her physical threats that of course don't both The IT who allows the cow of cows with those so awfully crooked legs and a fatso torchas nor The Its two children quite obviously fully content with the "status quo" which of course is not a constant.

What is, is and will remain that way until the end of time.

Life is great but not for a single human being who has usurped their limited authority beginning with those in high offices like Bill "Rhodes-Secret Society-De Beers-Scholar" Clinton granting traitor of traitor Marc Rich a so very rare and bloody nonsense President Pardon at the 11th hour of his fictitious Presidency.

Why not go ahead right now Mr. President and throw your hat in the ring to become President for a 3rd term and who knows with my support you might get enough votes to make a Constitutional Amendment although I suspect that you have by now fully figured the US Constitution just like the US Supreme Court just like the US Congress is totally irrelevant to those masses of the people in the 3rd world that we have yet to murder and increasingly armed with knowledge as well as weaponry; more important know how to fight a whole lot better than each and every Trust Fund kid I know and those masses of Americans who don't have Trust Funds I doubt very much they want to fight for multi-millionaires like the disgusting Clintons and the such.

BTW would you have paid to watch me go up against the cow in a boxing match where the winner would walk away with the pool of US\$2 million worth of gold bullion.

Not to mention the US\$60 billion or so bailout for super rich Americans, so utterly revolting, one must of course just shake one's head once, and every so slightly.

Write the book today and I will edit it this evening.
