Subject: Augusto, please give me an update.

Why do you think Mr. Chavez hasn't simply cut a deal with China to get all of Venezuela's oil and in return get state of the art technology, a customer whose currency is on the rise and military protection at the same time without worrying that China's Special Forces Commandos would "turn"?

Have you read the ingenious Israeli Military Intelligence report that so far not a single US American with more than an elementary school education chooses to comment on?

What do you think of www.just3ants.com?

Would you be interested in participating in an online seminar-workshop where one of the things we could do, assuming it was interesting enough, was for those attending to email in real time, better yet get a chat session going, with those who have become "deafeningly silent" once they figure out that I have figured out that they are most comfortable with the "status quo"?

BTW do local law enforcement in the village of Machu Picchu-Aqua Calientes still wear dark blue uniforms with the Coca Cola emblem over the left breast pocket?

Peace!

Subject: Mr. Bush , would you being interested in representing me and filing a lawsuit against American Airlines et al for having stolen my valuables back on April 3rd of last year?

The hyperlink below may not take you to my most recent communiqués with Sargent Brian Jensen of the San Diego Police Harbor Department who went deafeningly silent after I questioned him about why he would visit with pawn dealers throughout San Diego country, when trying to track down the bulk of the gold stolen by American Airlines officials and their baggage handlers out of my hand luggage when while making himself look busy also made him look extraordinarily "foolish", to say the least, given how I had painstakingly gone about providing him irrefutable "smoking gun proof" of criminal wrongdoing by American Airlines, all the evidence contained not only in the most bizarre "black and white" email communications to me, but once the General Manager of American Eagle, a wholly owned subsidiary of public corporation American Airlines, "came to his senses" that he had incriminated himself after of course I pointed this all out in my follow up communiqué, Mr. Terry decided to call me on the phone and to illegally threaten me with a trumped up criminal investigation.

Now I am certainly not the best American football player in the world, not even close, but I have played much tougher and rougher sports like ice hockey and rugby which require a far greater amount of intelligence which is why I suppose the least intelligent athletes choose to play American football since the coaches make so many of the calls, but I could be wrong, but not about "Offense being the best Defense".

I doubt very much that a jury of my peers or that of nonsense talking American Airlines officials, not to mention yet again, the "Fish Rots From The Waste Up" [sic] would be all that distracted by my point of view on this most likely inadmissible evidence that of course American Airlines would attempt to use in order to distract from their extraordinary foul play that includes the extraordinary deafening silence of Mr. Gerard Arpey, President and Chief Operating Officer of American Airlines after he initially emailed me letting me know how much he wanted to "help".

Should you for not be "interested" I would appreciate if you would be kind enough to refer me to someone competent.

I think you understand why the Mossad would not be interested in purchasing this lawsuit.

Should you need an additional referral, please do not hesitate to contact Mr. Jeffrey R. Krinsk Esq.

Sincerely,

Gary S. Gevisser

Ps – Isn't it quite amazing the amount of fog we have been getting over the past couple of days here in Del Mar that along with the great weather is attracting so many people to bluffs right in front of our studio cliff house which you should visit some time.
