Subject: EVERYTHING HAS A BEGINNING: RE: Mountain Bike ;) (Hope you had a great weekend)

Read this email from the top down which may have **you** read it from the top down but I doubt it.

My read is that you are not ready to buy my second hand super duper mountain bike, very much on its last legs, at any price but if you are, then make me an offer otherwise I must move on with other stuff.

What did you think of the US forcing the Jewish Underground fighting for a Jewish homeland in Palestine to begin journeying hot on the trails of the victors of World Oil War II, directly in to the "*belly of the beast*" where the US then "held fort" for some 45 odd years stealing South Africa's gold so that people like you could "play pong" but not for much longer?

In other words, don't you feel extraordinarily duped, unconsciously co-opted-corrupted when you read in Hollywood blockbuster author Ed Edward Jay Epstein's *The Diamond Invention*, chapter 18, *The American Conspiracy*, reference to American Charles Engelhard, who wisely chose my Royal Mater-Mother's close and "lucky friend" my uncle David Gevisser as the executor of his fabulously mineral rich estate, journeying to South Africa in the late 1940s, and also hear how much pride this Nazi assimilated Jewish person took in telling Hollywood blockbuster author Ian Fleming of *Gold Finger* fame, that not all the stolen gold went to Fort Knox; Charles Engelhard eventually assassinated by the Mossad, so arrogantly laughing at the silly bunch of US Americans as good chunks of the gold ended up, not as you would have expected at Engelhard's Engelhard Minerals and Chemicals headquartered in Newark, one word, New Jersey, instead exported directly out of South Africa in the form of gold statues to Hong Kong where it was summarily melted back down into gold bullion before being transshipped in to safety deposit boxes in safe havens for each and every member of the bought and paid for United States Congress/British Parliament who provided the military muscle on the ground in South Africa to afford such abysmal elitists the luxury of playing allocator of the world's precious natural resources including humans without having to break a sweat.

Don't feel the need to only reply once you have examined my latest blog post on www.just3ants.com.

By the way, today, at exactly 1:07 PM PST I finished a 17 minute and 35 second phone call with Pacific Bell/AT&T customer service personnel who assured me that that the weeklong service interruption we have been having here at our studio home, perched atop the cliffs of heavily corrupt Del Mar, California would end shortly, the customer service representative doing such a fine job that I felt it important to personally thank her male supervisor for us being placed ahead of everyone else with equal priority for not having to wait another possibly two days; both employees letting me know that since the last call by one of the many service technicians in the area was only static on the line, a repair person would be over unless there was an emergency that they both felt the need to remind me would obviously take priority bearing in mind I wasn't about to call President George W. Bush.

As soon as I got off the phone I raced down the stairs to my most beautiful and sexy wife once again organizing the garage to allow me my own "spot in the sun" on days like today to relax with the garage doors open in the most comfortable lounge black leather lounge chair that has been in storage now for some 2 years, allowing her not only to paint but by us being in separate areas during the day, it is

her opinion that I will be less distracted by pointing out that I give much better foot massages on the bed which especially in the afternoon with the sun glazing in, reflected off the ocean becomes just tempting, especially for someone such as myself who feels that I am only now just reaching full puberty.

I began, choosing my words ever so carefully, "You should try taking a 'leaf out my book' and when talking with customer care people who mostly feel they have "dead end" jobs and who have no compunction in letting you know what they think to "show loving-kindness", not to mention "catching more flies with honey than vinegar" which almost created a choking spell for my 31/32 French-Canadian, 1/32nd Huron Indian wife, Marie Dion Gevisser who knows much better in French, "Vengeance is sweet to the heart of an Indian", not to mention MDG is simply exacerbated with all the lying, stealing and cheating that she has had to bear with for the past week; the excuses, forget the waiting on hold sometimes as much as 45 minutes, my call again lasting 17 minutes and 35 seconds, driving her to the point of insanity.

BTW my very easily bored wife says that while I drive her insane I also keep her sane, although when she once said it in English with her cute French accent it really did sound awfully cute and showed that she does care about me being possibly more than her only sex slave, just so long as I stay in shape and most of all don't talk during love making.

I recounted how I had painstakingly, ever so patiently without once interrupting the customer care-service person lady who of course no longer had to read the script so carefully prepared by her superiors who have prepared for a lifetime the past fires along with the flooding that has them all now finding God like never before since they feel so much more "job security", which of course doesn't sound quite as smooth as "secure in their jobs" for reasons you understand better than them or at least until such time as they do a Google search on me, I finally gave the lady a "piece of my mind" upon hearing that there could be as much as another 48 hour delay, much like the nonsense talk my no nonsense wife has been hearing all week.

We need to do something rather drastic. My wife is not yet, to the best of my knowledge, going through womenopause, and I want to play my part as much as possible and you would know the old adage, 'The world would be far better off if women were on permanent PMS, then they wouldn't put up with any of the bullshit'!"

MDG by this time was in fact finding it funny figuring out that not only had me quoting her words brought on great laughter from the customer service lady but much more importantly we would be next on the list of calls.

I think it is important to let you know when making notes of this to impress you next wife even if the story you tell her just to impress her enough to marry you and make you feel good by telling you that are her sex slave when of course you know that a good number if not the overwhelming majority of women feel that they are nothing more than "sex slaves", that the same positive reaction didn't come from

the customer care service person's supervisor who you shouldn't have all that much difficulty recalling happened to be a male but smart enough not to change us now ahead of the line.

Darlington, you are going to see me "picking up the pace" over the next 3 days, so if I don't respond to your nonsense you will understand why.

Would you wholeheartedly agree that all human beings get their just deserve 24/7, and if not begin by explaining what shit things have happened in the course of your life that you haven't deserved!

Bear in mind those who have sought "comfort" in religious institutions beginning with Judaism, with the most extraordinary ingenious teachings which promote most of all self-awareness/reflection without any adorning of artifacts let alone human imagery that has the vast majority of the Jewish people wanting exactly what the Christian church offered and getting their comeuppance, now each generation of Jewish people carrying so much guilt versus the Roman Catholic church which grants immediate absolution allowing Catholics to simply move on.

How long before or after you receive this email do you Senator Ted Kennedy will get a copy?

Have you ever thought about the dinner conversations over at the Kennedy compound some 6 acres over in Nantucket sound, on the east coast of the United States when Joe P. Kennedy, the so publically vocal anti-Semitic patriarch of this crime family had the "floor"?

Were you aware that Governor Arnold's wife is a news reporter and member of the Kennedy clan who to the best of my knowledge has never not once denounced Joe P. Kennedy or Arnold's equally virulently anti-Semitic father which doesn't stop Jewish people here in the United States from supporting the Socialist-Democratic Party that was in power during World Oil War II?

How much talk do you think went on in private amongst the Kennedy clan following Senator Ted Kennedy forced by the Mossad to attend the funeral services of Mossad assassinated American Charles Engelhard on March 2nd, 1971 at St. Mary's Abby church, Morris Town, two words, New Jersey?

Not to mention academia manipulating the masses as the new corrupt church, but again not for much longer.

To mention little of how very easy it will be to understand why you have now so very little interest/time for understanding why two Peruvians such as Augusto Benito Vargis and Alvero would be at each other's throats; Augusto and his wife Patricia working so very hard as Inka trail guides using both muscle and mind, the two going hand in hand, guiding mostly poorly conditioned westerners through the travails of the Inka Trails where they learn mostly the "bloody" hard way how to traverse the many steps while at the camp sites getting taken on the most

educational light journeys by the likes of Augusto explaining how such "needy" westerners who all they have going for themselves are their blackened handed monies, thinking that by spending such monies they do more than promote the "money, me" American culture.

BTW Marie and I have been invited to a new cash and land rich neighbor's Christmas-Holiday Party this Sunday and we have both agreed that since this couple who recently moved in alongside us renters here on the cliff don't know anything about else and nor have we bothered to offer since not only do they look down on "renters" they also know that I know they have played things a little fast and loose with some rather public property that by now the corrupt city officials may have "legalized" their use of the public property through a "variance" of sorts.

You would agree that Augusto, concerned about his young child's future, would be securing his child's future by doing something positive, more so than putting fictitious money in the bank, certainly by the time you have analyzed very carefully this rather drawn out "intelligence report".

Alvero, what is his distraction you are surely, a concerned citizen of the world, asking, since he has child, no responsibility except to himself which may be his distraction, no doubt looking for something that anyone who is single with no real responsibility has to do, except getting laid by a richer most beautiful woman going thru menopause which my wife strongly disagrees with my mother's proclamations, bearing in mind my marketing-math wizard wife's draft of her Myspace profile:

I am an artist.
Sexy , beautiful and intelligent. What else do you want to know?
I can't type. Make it short. Let's cut through the bs.
just go to jus3ants.com and tell me what you think.
This is some of the things I am interested in apart from art.
My age. Almost 50.

Now look carefully at those carbon copied and think about those in the blind copied section seeing those same names as you as well as lists of different sections of those in the blind copied section.

By now you should have read carefully my mother's craftily written memoirs that only at "first blush" look like run smoother than my writings.

The disagreement with Zena Gevisser begins with that the name given by over-controlling men which MDG says should have been, "womenopause".

Now I wouldn't know for certain who is right which is why I am now beginning to poll some 7 billion of us humans, but few women would argue that women well deserve a break from men who do most of the fighting.

I was not around for my mother's menopause and it seems highly unlikely that either my wife or I will survive her "womenopause" which unless you have been through one it may be hard for a man let alone a married man to know.

BTW the other day Marie and I looked at the lifeline on our palms it apparently shows that we "would" both live to around 75 which if it means I won't be in better both physical as well as mental shape that I am today then I am not sure that is something I look forward to, bearing in mind how extraordinarily close the world is right now to blowing up, forget that ingenious Israeli Military Intelligence report that I remain the only person reporting that says not only how very easy it would be for Al Quaida were they not on the side of the US to blow up the oil fields of Saudi Arabia, Kuwait and Qatar but in the next instant such an event would paralyze the US economy and you would know that just because such a highly likely terrorist attack has not occurred does not mean it will not happen or that Israel may decide to "take matters in to their own hands".

You would also know that both the Mossad and Israeli Military Intelligence are doing a mighty fine job in "promoting" me being the only person in the world promoting this most ingenious military report in the annals of human history that you nor anyone else with the most basic common sense cannot get out of the minds, and yet the world's capital and financial markets have not yet reacted to these set of facts that makes being able to "predict" earnings going out even one more year are extraordinarily if not impossible to do.

Coming back to my mother's Charm School teaching which Zena Rosland Ash Gevisser Zulman also articulated in her book *The Winking Cat*, which according to my mother may have been the only thing the journalist for a nothing Wellington, Somerset, England newspaper got right in the article titled, Movie Moguls Latch on to Short Story; the section covering this very important topic for young, single highly virile and good looking men like Alvero states verbatim,

The book promotes Zena's own message of living – "whatever happens, keep smiling". It contains 22 pieces, including 4 short stories, is a series of poems and parapsychology experiences, and the fascinating feature, The Menopause Woman Needs Younger Men."

Notice single "woman" and plural "men".

Getting back to each one of us humans get exactly what we deserve.

People don't make a doormat out of you, you make a doormat out of yourself.

People who are surviving especially those in remote villages and jungles have much higher sensitivities.

By us Americans in particular, having all these luxuries, well beyond necessities, we tend to shut down prematurely, nowhere near as sensitive as us men would protest

and the women of course have stopped listening, many of us men feeling we can shut down.

The technology, however, is getting to the masses of men, women and children in remote areas where the "free market system" is beginning to take root.

Now I want you to listen very carefully what I have to say next.

The US Justice Department are not the only department in the world tuned into this missive.

Included in addition to Israeli Military Intelligence and the Mossad and I would say about 1 million people conservatively, that is right after I hit the send button, is a very competent ATT&T field technician currently testing out the equipment, a funny guy about my age making reference about him not being surprised if my wife and I were "part of the government" when speaking with MDG and me earlier as we were cleaning out the garage, again allowing me to be on the internet in the "basement" so as not to disturb her when she is either painting and wanting total silence apart from the birds, the wind and the sound of the waves or getting her beauty sleep even though I can touch type lightly my new keyboard is the most silent one I have ever owned.

And of course all of us are part of the government when the government represents, "we the people" and not just those monopolies that own them.

So in a nutshell, we the spoon-fed have two very significant disadvantages and we had better wake up or the world is going to pass us by as technology leapfrogs the masses we are counting on to die from our genocides.

When last did you hear about the masses of "have-nots" getting the same information about the corruption of the "haves" at the exact same time?

The masses are not only getting wired but have the numbers that make all the difference when it comes to conventional wars.

Trust me, US Americans in beautiful spots like Del Mar, so very fortunate to be right on the beach don't want to go to war with either the Peoples Republic of Communist China or Israel or both.

Now stay tuned for the second disadvantage that impacts significantly those waking up to what technology coming via satellite to remote regions of the world where possibly the Lost Tribe of Israel is hanging waiting for this glorious day which is of course today; more importantly those "playing ostrich" thinking nothing will change that you can just merrily continue on don't have a single clue who exactly is "clued in" but knowing that with each tick of the clock increasingly more humans get wired to the point that they could in the next instant say, "enough is enough".

And just the fact that it hasn't happened doesn't change your exponentially increasing negative outlook.

Today I saw The IT going in to Jimbos, the relatively local health food store and the first thoughts I had were,

"What is this incredibly unhealthy specimen attempting to do apart from trying to impress someone that he is healthy only because if forced to, he can possibly still smile but not for very long but then again when you are in the banana section of the produce department it might possibly work on the easily impressed who if a conversation is strike might be impressed with his doctor's credential so long as they don't ask to speak with his medical malpractice insurance adjuster who has been called upon time and again to settle medical malpractice lawsuits for The IT's former employer Sharp Memorial Hospital of San Diego?"

I know The IT never saw me not only because this former pathologist has extraordinarily poor eyesight and finally put out to pasture while of course getting Sharp Memorial to make good on his pension, for how much longer is anyone's guess, but because I am only 5 foot 8 1/2 inches versus the 5 foot 11 this coward-bully prefers to see me as without of course being able to figure out that I am of course much more physically competent than a giant of one inch shy of 6 feet, having a lower center of gravity that combined with my skills learned from the very best of the best of Israeli Special Forces commandos and Commanding Officers from a very young age, give me the confidence to remain very relaxed in rather trying situations that of course only happen around cowards-bullies and why I do my best to choose my company carefully.

Then again, God/G-d has a mind of His-Her own.

After carousing around for about 5 minutes The IT left Jimbos without purchasing a single item. Bizarre! Not even one of those pitch black apples from Arkansas that seem to remind a lot of people of Snow White.

You are still waiting for that most significant "disadvantage" to US Americans in particular and again so is each and every aware but corrupt member of the United States Congress and the remaining 2 Branches of Government, all of whom have been dreading this very moment.

What you are about to hear has never, not once ever been stated publicly, certainly not in as clear and precise English as I, a rather credible person, will now do.

Before I do so you would understand, wouldn't you, why it is that the Office for the Israeli Department of Defense Attache at the Israeli made a very strategic decision on November 19th to send me a "SHORT, CLEAR e-mail of what it is that" they needed from me and when I did the very next day, they then let me know they never received it or any of my numerous subsequent emails.

Do you feel a little bit nervous or is it you think me just sensing your nervousness of what I now must tell and which has been fully understood by both Israeli Military Intelligence as well as the Mossad going back many decades, certainly at least as far as late fall 1972 when I met on November 1st, 1972, for the very first time with David Ben Gurion, head of the Mossad at Kibbutz Sde Boker, located in the Negev Desert; such a most memorable event taking place some 57 odd days following De Beers sponsored PLO terrorists beginning to brutally murder 11 defenseless Israeli athletes at the Munich Olympic games.

Forgive me now if I go back to the first question I put to Ami Ayalon the most decorated Israeli Special Forces commando, former Admiral of Israel's most brutal Navy and today the most powerful person in the Israeli cabinet, carrying the title, "Minister without Portfolio".

Question 1. Do you refute the Israeli Military Intelligence report:

Immediately following the 2008 Beijing Olympic Games, Al Quaida who serves the best interests of certain US banking interests with direct ties to the House of Saud, will launch a series of attacks on the oil fields of Qatar, Kuwait and Saudi Arabia that in the next instant will paralyze the U.S. economy; much like this very smart, not so top secret Israeli Military Intelligence report is designed to do, and at the same time explaining why precisely Al Quaida has not attacked the oil fields of Qatar, Kuwait, and Saudi Arabia, so biting the hand that feeds Al Quaida.

"Yes" or "No".

It is not in the least bit funny our sacrosanct Anti-Trust laws since the instant one allows a single monopoly to exist in any important industry, in the very next instant they can use their monopolist powers to undermine and eventually put out of business each and every one of its competitors beginning with those who "legally" print money unless they come to some sort of accommodation with corrupt elected and non-elected government officials who have a right to print their own currency and why you have never heard any single member of the United States Treasury or Federal Reserve or the United States Congress for that matter, ever once talk openly about the extraordinary abusive "Money Power" of De Beers and all their many affiliates.

Yes, take a very deep breath and know what it means for incorruptible grass roots organizations going forward bearing in mind the business of corrupt government is to corrupt grass roots organizations before they take root.

Do you just feel that much more the world passing you by?

You still when you inevitably pick yourself off the floor might think whatever it is that I am talking about is not going to happen in your lifetime which you also know doesn't mean it won't happen in your lifetime as you know it is now happening in your lifetime.

Up until this very precise moment in time you have been arguing that you won't see a difference in you lifetime and so whatever it is that I have to say doesn't matter.

Everything has a beginning.

You might still be saying, "Much of this is what we discussed before?"

No it isn't.

Did you forget something?

Sometimes less is more.

Now go back and tell me what was of importance to you in order of priority and you would mostly likely answer, "The discussion of menopause or womenopause!"

The you would also mostly likely mention my mother, Zena Gevisser, raised by her pogrom orphaned grandmother who came from the same tiny village in Poland as David Ben Gurion, making her home both in England and Israel.

You would know from reading my mother's memoirs when she left Durban, South Africa under the command and control of the United States of America's 3rd Reich's southern division posing as the South African Apartheid Regime, my mother eventually made her home in England and Israel.

The next thing you would say that "caught your attention" and something you couldn't really recall all that well hearing before was the importance of De Beers understanding perfectly well the need to corrupt grass roots organizations before they took root and backing their opposition with untraceable Diamond Currency not difficult in the least especially considering that Diamond Currency is also lightweight and can be moved across borders in diplomatic pouches carried by corrupt government officials who have the "law on their side".

What else about what I have written was the most important thing you have heard in your entire life and you would say something like, "I thought you referenced it but I never caught it! There was something about you going to mention something that had never been publicly spoken of, at least to the best of your knowledge!"

One thing you might not have been aware of although I have been repeating it ad-nausea, the sort of thing you don't have to do when dealing with non-brain dead

people like Israeli Military Intelligence and the Mossad, is your "awareness" of the timing of my meeting with Ben Gurion and the attack in Munich of 11 Israeli athletes who weren't exactly wimps.

Once you have just one single monopolist, such a monopolist who can command the attention of the President of any country beginning with the President of the United States, makes all laws irrelevant.

The truth is only irrelevant to those who benefit from De Beers being the monopolist of monopolists, the special interest of special interest group and why President Roosevelt and President John F. Kennedy feature so very prominently in The Diamond Invention, first written in 1978 when I arrived in the United States armed with a "Letter of Introduction" signed by my uncle Dave, the American head of the DeBeers-Anglo American Cartel.

Anti-Trust/Anti Monopolies/Anti Competition laws are important laws because at their heart is the importance of protecting people against monopolists and to get them no matter what to adhere to antitrust laws, for the principle purpose to protect against the ability for unregulated currency in the form of products as well as fair competition, to prevent under-pricing to put competitors out of business.

You know what happens when you under price and put competitors out of business?

The monopolist becomes a bank of sorts.

What happens to the people put out of business?

Desperation and compromise of character to support their own family

And then what?

Erosion of society; values.

How do they feed themselves?

Eventually kill each other.

How do you contain people from killing their neighbors until the civil war of one state versus the next state spreads all the way to Washington DC.

What do you do with these desperate people inevitably saying, "Off with their heads!"?

Kill them or allow them to destroy themselves by creating a system to foster desperation.

What is that system?

Laws.

What sort of laws?

Laws to kill legally.

What are laws to kill legally called?

War which serves the purpose of containing neighbor against neighbor to combine into units such as navy, marines, army, air force; to fight neighboring peoples.

But first you have to define "neighbors" as being different; borders, race, religion

Borders rob those closest who trade with one another.

Where is it closer than the Jews and Arabs, specifically the Palestinians and the Israelis, so very smart traders?

One monopolist makes sense and who plays all sides, and no side, and no side that survives complains; President Roosevelt didn't complain much that is, and when he did De Beers laughed at him. You understand what happened to the diamonds that Hitler didn't use. Read until the "penny drops" time and again Chapter 9, DIAMONDS FOR HITLER.

<http://www.edwardjayepstein.com/diamond/chap9.htm>

The people never win.

The hard working people that is.

Much different than what we have discussed before?

Yes!

Do you understand why, the United States "Justice" department tasked with executing our sacrosanct Anti-Trust laws for a century now don't want to look too closely at my communications with De Beers beginning November 11th 2004, breaking a 24year silence. What a story, heh? Even if fictional.

<http://nextraterrestrial.com/pdf/cod-leon-hell.htm>

The schools never teach this.

Dinner is now ready.
