Davide – I will send you something tomorrow more precise that I would be talking about in a 2 hour seminar-workshop with a 20 minute break.

It could be good business for Pacifica or Il Forniao and they might want that? Pacifica have a really good room just across from Gerard.

Again, I would split all the net revenue with you, and we can think about a charge that would make economic sense. You do some "shopping" and get back to me.

Realize that for all those "working for a living" and/or who are invested in real estate and/or the stock market and/or co-dependent on Trust-Hush-Funds, "time is of the essence".

This seminar-workshop will spell out the "solutions" to the problem facing all those being compensated in US Dollars and who do not "add value" to the betterment of humankind that begins with the U.S. Dollar increasingly exclusively dependant on the ability of the US military to force the rest of the world to accept our Dollar as payment and at the same time the US military is paid in US Dollars and those US service people on the 130 US bases scattered throughout the world pointing our big guns at our tyrants head, they are first to "feel the pinch" which brings me back to that good question I put to my friend Augusto who is a highly educated Peruvian guide:

Why do you think Mr. Chavez hasn't simply cut a deal with China to get all of Venezuela's oil and in return get state of the art technology, a customer whose currency is on the rise and military protection at the same time without worrying that China's Special Forces Commandos would "turn"?

I think that and what follows is a good start.

Ben – it is possible you and your group have yet to receive a copy of the email I sent yesterday to the news director of Channel 8 - KFMB TV, San Diego, California, now being shared with every TV station in the world that took away from me writing, The History of Money Creation and its Future!

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20fdambrosi-think.pdf>

I know you haven't forgotten about me or the email I sent you in follow up to your communication that had you going "deafeningly silent". [click second hyperlink below]

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20bsinger-workproduct.pdf>

I also understand "passive aggressiveness" rather well without ever feeling the need to take a course in psychology.

One of the things I learned from an early age when noticing how the biggest crooks in our Jewish community of Durban, South Africa not only had the best seats in the synagogue but were also the most "open supporters" of the Apartheid Regime; and when I looked at the most "liberal" who were also the most vocal in their opposition to these nutcases running South Africa with a diamond studded iron fist, I couldn't help but notice how so "very social" were all those both on the "left" and the "right" who were all profiteering financially from this most vile, most inhumane, most void of art culture, most anti-competition regime in the history of the world which didn't seem to bother in the least the United States Regime who was so very busy elsewhere in the world, particularly in Asia under the doctrine, "in support of our south east Asia policy" which the world understood to mean, "preventing anti-competition spreading from communist countries".

Now of course you and your friends who chat a lot and get your articles published understand perfectly well what I am getting at and how what you do affords you all much more than your Starbucks coffee but what about all those who are suffering so horribly by your propaganda of "disinformation"?

So let me come back to one of the very few questions I had for those very close to David Ben Gurion back in late 1972 just prior to returning to South Africa after a 4 month Ulpan on Kibbutz Sde Boker where Ben Gurion was now retired but in full command of his faculties, no different I suspect to Field Marshall Jan Smuts when along with Ben Gurion listened very carefully to what Field Marshall Montgomery said after assessing the Arab armies lined up on Israel's borders just waiting to invade the instant Ben Gurion declared on May 14<sup>th</sup>, 1948 the newly formed State of Israel,

"When Britain evacuates Palestine, the Jews will immediately be overcome".

I wanted to know why for example the State of Israel would allow a single member of the Durban North, South African Lazarus clan headed by two brothers, Gunter "The Pig" Lazarus and Bernard Lazarus, entry in to Israel given how much their so visible presence in South Africa so very much undermined the essence of Judaism and therefore constituted a very significant risk to the fledgling State of Israel who had a lot more on their hands to contend with beginning with the fact that the United States Government was "no friend" of the fledgling Jewish homeland?

By The Way, you do know that Jan Smuts who understood not only De Beers rather well including De Beers' founder's first will calling for a Secret Society of bankers but also how best to wage a guerillas war, went along with a kibbutz being named after him in 1932 just when US business interests beginning with US bankers caused the collapse of German banks that resulted in these same US business interests getting Chancellor Hindenburg of Germany to hand over power to the Little Corporal from World Oil War I, Hitler who you recall reading about in Chapter 9, DIAMONDS FOR HITLER in Edward Jay Epstein's so very fascinating novel, THE DIAMOND INVENTION detailing the devious nature of De Beers who were financed at the turn of the last century by the very same business and banking interests who

financed the Anglo Boer-Farmer War of 1899-1902 as well as the American led 8 Allied Nations invasion of China in 1900.

I also assume what comes to mind right now not only in your mind is the expression, "I scratch your back, you scratch my back".

When in my mid-teens I was not only very good at asking questions; moreover only speaking when I had something intelligent to say, but during Gadna training at Kibbutz Sde Boker, Negev Desert, I also didn't make a big deal about how very well I had done in all the physical exercises including scoring highest in our group on the firing range; nor for that matter were any of my South African Jewish friends including Roy Essakow, my closest friend who later went on to join traitor Marc Rich in Zug, Switzerland, aware of the fact that I could from the very first time I went up in a small plane with my father, when I was no more than 10 years of age, able to both take off and land given how well I not only listened but how very good a teacher was my amazing father who during World Oil War II flew and dive bombed alongside Dr. Syd Cohen MD, considered "a pilot's pilot" and who Ben Gurion chose to be Commander of Israel's first Squadron 101 when Modi Alon was killed when coming in to land during Israel's most brutal War of Independence 1947-1949

BTW the plane above that shows my father Bernie just climbing on board was very similar to the one flown by his and more importantly my Royal Mater-Mother's close personal friend, Colonel Boris Senior, Deputy Chief of Israel Air Force when Boris who received the same flying and dive-bombing training as my father in South Africa, was a secret member of the more militant Irgun Jewish Underground movement ferrying assassins throughout Europe.

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20president-implicationsA.pdf>

You would also know that it was not a coincidence that my Royal Mater's father, Al Ash, a very cash rich trader "abruptly" informed my very attractive and most popular 18-year old mother in 1947 that they would be leaving Leeds, England to settle in South Africa which greatly disappointed my "born to perform" mother who was having a ball in England following the end of the war which had Zena commenting in her memoirs, "Life Story of Zena"

*"The war was over and her dreams of being a foreign correspondent and dropping behind enemy lines in Europe came to an abrupt end."*

<http://just3ants.com/FamilyTrees/GevisserBadash/zena/impwom/default.shtml>

You also perfectly understand why it is that those "operational" only get told what they need to know and why even from the very beginning when Ben Gurion's Hagannah was fighting the British-Americans for a homeland in Palestine long before the outbreak of World Oil War II, there were policies in place to deal with hypocrites such as those in South Africa who "openly opposed" and survived the Apartheid Regime as well as those who actively supported this most anti-Semitic, anti Christian, anti-Muslim, anti-competition Regime of Regimes.

This very moment you are not alone in having to come to terms with your own legacy that I am pulling out all stops in helping you write in "black and white" and feel free to send me photos of you as well as your so very "chatty" clan.

You would know that by this time the Board of Directors of CBS and all their affiliates as well as competitors are also very much up to speed.

May I strongly suggest that you get a copy of Boris Senior's autobiography, NEW HEAVENS, My Life as a Fighter Pilot, that was only published after his death in 2004 and take a pause or "tTOo" [sic] when you come to the section dealing with how Boris when returning from Israel to South Africa to secure planes for Israel's pending War of Independence, he managed to acquire 50 British Spitfires in perfect condition at a price of 6 English pounds Sterling each; bearing in mind that the one million English pounds Sterling that my grandfather Al Ash arrived with in South Africa was worth a whole lot more back in 1947 than the US\$6 million my uncle David Gevisser received as his "sign on bonus" in March 1971 when agreeing to be the executor of the estate of mineral rich Charles Engelhard, again some 5 odd months before the United States Government put a big gun to the head of all the world's leaders when letting them know on August 15<sup>th</sup>, 1971 that the US was officially going off the Gold Standard and would be using its Almighty Dollar increasingly only backed up by Armed Forces of the United States to steal both the mineral wealth of those countries and their labor.

David Ben Gurion didn't need to get a Masters in Business Administration to figure out that those with the biggest guns who were most often victories in wars also make the laws as well as promote the propaganda, "We are a nation of laws".

There is good reason why there are so many lawyers in the United States of America who also just like business school graduates cannot explain what else today besides for the US Military backed up by an out-of-control military-industrial-complex continues to prop up the totally worthless-fictitious De Beers-US Dollar.

Below are more photos of my mother and father soon after they first met in 1948. The kid on my father's shoulder is my first cousin cardiologist Dr. Barry Molk MD. who practices in Denver, Colorado.

Be sure to let me know if you have any questions.

Weather permitting; i.e. the surf doesn't pick up, I will be responding to Garry Purkiss, a fellow Natalian and surfer who still at age 55 plays competitive rugby here in the U.S.; and I assume you won't mind if I first run it by Keren over at the Office for the Israeli Department of Defense Attache at the Israeli Embassy in Washington, DC.

Since my most beautiful wife in every sense of the word has just arisen, "I am ready for breakfast", this would be a good time to end off.

While "less is more" usually, it is my life experience that it makes no difference to those who are "passive aggressive" who find every excuse in the world to explain their bad behavior and on those rare occasions when they actually say, "I am sorry" never mean it.

Stay tuned.

Dear Mr. D'Ambrosi,

Earlier today I spoke with Ed Trimble's assistant, Ms. Chasbrow, who when we spoke confirmed receipt of the two photos I included in the email I sent her at 1:08 PM [see below]; the second showing a close up of Chopper 8 that came rather close to our studio cliff house yesterday at about 5:14 PM as my wife and I were looking out the west facing windows at what appears to be a US Navy ship that for the past several days has been going "back and forth", and I doubt very much they would go to such measures to "spy on us" when they surely have better things to do, and besides I am an "open book".

By The Way ----
