Subject: WIRE-january's rent - basic needs-RE: Insurance

Dave, nice to hear even if it is not all positive.

Suffice to say you will recall once asking me a rhetorical question, "*Why is China the new enemy?*"

People have poor short term memories beginning with the fact that people have such very poor long term memories beginning with modern day history of the world told now to 3 generations, spanning some 100 years, that has been written by the oppressors who as logic would dictate make themselves out to be the "good guys" and those they enslave the "bad guys" with most of the venom directed towards those massive of Chinese slaves who are now not only "up in arms" but continue to set the scholastic levels wherever they travel and can far better understand than the masses of US indoctrinated Americans that the very poor decision yesterday by the US Federal Reserve to make it easier for the biggest crooks to legally steal more, will inevitably hurt most of all the already very poor in the United States.

And if you happen to be of the poor working class and haven't figured out a way to steal legally like the upper middle class and those above who consider those that actually have to sweat for a living as stupid, the odds of even finding the time let alone the energy to connect up all the dots is all but impossible.

Place yourself now in the shoes of the filthy rich with so much leisure time to dilly dally, quick to pass judgment on the poor whose poverty they see as "state of mind" and in the same breadth rushing to this leisurely activity and that nonsense meeting all the while burning gas/petrol and every so often remembering to recycle their recyclables.

In other words, the filthy lazy rich have no more time on their hands than the hard working poor who increasingly have an internet connection and in many instances as fast as the lazy filthy rich with their so nauseating Trust Funds, if not faster.

Of all the important and time sensitive things I have written you bring up a very important "confrontation" between Iranian speed boats and a US destroyer armed with the most sophisticated conventional and nuclear weapons in the United States of America's arsenal.

Your reaction, "***I am sure though his [Captain of the US Hawker]actions did avoid escalation of the situation***" is very possibly the verbiage needed for us to attract more than just me to my forthcoming seminar-workshop a week today to be broadcast over the internet.

BTW do you have any comments with what Adam L. Tucker emailed me earlier:

From: Adam L Tucker [mailto:adam@just3ants.com]
Sent: Wednesday, January 23, 2008 10:56 AM
To: gevisser@sbcglobal.net
Subject: Seminar model idea

What do you think about making the seminar free and just charge for participation in a chat room or in an instant message Q&A?

The model could bring in subscribers to your weekly Q&A sessions and news letters, allowing for consistent revenue in addition to charging for live seminar workshops.

China was not mentioned in that confrontation that demonstrated above all else the gross incompetency of not only the captain of the US Hawker but all his superiors who have yet to condemn his inexcusable actions including all 3 Branches of the United States Government.

All we know are the facts provided by the US military beginning with the Pentagon who provided both the video and the verbiage that they contend demonstrated beyond a shadow of a doubt the beyond belief threatening by 5 Iranian speedboats, not only dropping unidentified objects into the water but immediately thereafter declaring over their radios, "***I am coming at you, will explode in a couple of minutes***"; bearing again in mind just one rubber dingy armed with a torpedo blew wide open the USS Cole killing and wounding many US navy personnel resulting in the building of more ships and more US personnel sent in "harms way" doing what exactly, apart from the United States of America not having to pay a fair market price for its oil?

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20nblock-coming.pdf>

In the minute or so it has taken you to read what I have written above, both Israeli and Chinese military officials reading this communiqué along with of course United States as well as British military officials including all the world's intelligence agencies have figured out that there is much more to what I am saying as well as doing in getting the world's hard working poor to think very carefully before teaming up with any violent organization including the world's officially sanctioned gangs of murderers who are afforded brand spanking new clothing, the most sophisticated weaponry including communications devices, barely edible food in their stomachs and little else more.

Not all of the world's official military are the same, however; on the contrary Israel's military as well as that of the Peoples Republic of Communist China remains "head and shoulders" superior to the rest of the world but even Israel is having its problems given the speed at which the truth is being shared with its most important Special Forces commandos who are the most "wired".

Yesterday, in my last email sent to Adam L. Tucker [click hyperlink below] organizing this Internet seminar-workshop, I made mention of the fact that it is not

only the Mossad who have figured out that they don't need to use money or for that matter any other means of exchange when getting what they want including intelligence and weapons placed in the hands of Israeli assassins immediately prior to a mission on foreign soil, Israel's most "wired" intelligence institute with the most brutally effective assassinations unit, has no issue whatsoever in killing even Jewish people who they consider to be a threat to the State of Israel, all the while recognizing that with advances in information sharing technology such as that offered by the internet, it is so much more effective to get their message across by simply exposing traitors and their collaborators, all the while such traitors and collaborators who still get too full of themselves get reminded every so often when a "loved one" suddenly becomes gravely ill or better yet dies in an airplane accident.

<http://nextraterrestrial.com/pdf/Microsoft%20Word%20-%20atucker-goodthing.pdf>

Once you grasp the reality of what it means when I not only say, but can prove beyond a shadow of a doubt, that it is not only the Mossad who don't need money to get everything they want, then all you need do is look how tough it is for you to get me my rent on time; bearing in mind the vast chunk of the rent you pay is for living in a 3 bedroom house right on the ocean which were it here in the United States, specifically southern California, more so heavily corrupt Del Mar, California, what you pay is currently "nothing", although by the time you receive this email the US Dollar could possibly reflect its fair market value which would make it worth significantly less than Deutsche Mark during the Weimar Republic when a barrelful couldn't afford a loaf of bread.

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20atucker-pisic.pdf>

Dave, I am trying as best I can to get you to "expand" your "product offering" by first approaching all those 57 odd people, and of course there might be some overlap, who ate and drank with you over Christmas and New Year to attend our forthcoming Internet seminar-workshop.

Bear in mind that not only will I split with you the profit of those you invite but by them able to ask me any question, and perhaps there will have to be a certain limit per individual, I should be able to cover quite a bit of ground in a short amount of time including spelling out the awesomeness of the British people who much more than bringing the world democracy, however imperfect it was to begin with, were the first conquering nation in the history of the world to be willing to say "No more" and return back the spoils of war after having defeated the Afrikaner Boers in the American financed Anglo-Boer War of 1899-1902.

Here was Britain now in "command and control" of the extraordinary mineral riches of South Africa having its peoples take to the streets of London condemning the brutality of British elitists using Britain's overpowering military strength to imprison Afrikaner old men, women and children in concentration camps, some 20,000 dying.

Those protesting weren't "naïve", they understood perfectly well what this "new found wealth" would mean to the standard of living of each and every British citizen, even those at the very bottom of the socio-economic ladder would somehow benefit and they did but nothing like the "Crown" whose loyalty like all the world's "ruling elite" is only to themselves as they indoctrinate the masses with "God save the Queen".

Never forget for a moment that the British Crown's "crown colony" remains the United States of America.

Time to fly to a medical doctor's appointment.

Gary

Subject: RE: JANUARY'S RENT - basic needs-RE: Insurance

in answer to Jan rent Yes we are sorry if its got to you late ! Problem was the few we had at Christmas and new year mostly paid by credit card and it took a time to clear the banking system ! there is very little cash around at the moment what with the economy and the weather being very bad we had gales here last week

Numbers for lunch Christmas day 32 new years eve 25 but since then very few its a struggle with energy prices going through the roof petrol someplace now at just under £5 an imp gallon electricity and gas just gone up again but nothing we can do about it

The future seems promising there are signs that people are starting to go out again but it will be slow we made positive progress through the year to build a reputation and client base so we not starting from lower than base level this year we even had a visit from Gordon Ramsey before Christmas

we have to pay all bills and rent from turnover as our capital has been invested in the first year here on the electrics gas supply extraction flooring and decor along with stock so please bear with us if things are a little late we need some good weather and a bit of good luck to get through mineheads winter

further news for you 3 pubs including our old one are struggling big time 2 are back on the market inc our old one and on Saturday night our old gardener was stabbed and murdered for a few quid by teenagers this dependence on cash through a bad economy in this area is now getting out of hand

as a final note am not sure what to think about the American Iran confrontation as I really didn't hear that much about it I am sure though his actions did avoid escalation of the situation I also read you stuff about DeBeers etc as I have a lot of relatives in south Africa having moved there in the mid 50s

best regards to all

Dave

Subject: JANUARY'S RENT - basic needs-RE: Insurance

Dave - have you sent January's rent?

I am scheduling a week from tomorrow, Wednesday, January 30th, my first broadcasted seminar-workshop over the Internet, all geared to scare the living daylights out of those so very arrogantly profiteering from the collapse of their house of cards capital and financial markets that was prevented today here in the United States because once again the hard working and taxed to death poor went along with the nonsense US Federal Reserve stepping in to bail out the lazy and filthy rich who just relish most of all the confusion believing the poor will only get their "acts together" once they cannot afford to feed themselves and by that time the rich will have fled to their safe havens leaving it up to local law enforcement to maintain "law and order", bearing in mind not all local law enforcement are multi-millionaires and nor are they all stupid, the same with all the world's military.

My focus will be on those know why it is that I have such extraordinary "credibility" at the highest levels of the very dark De Beers-Anglo American Cartel [DAAC] pyramid, who have never felt it necessary to understand me better by having me ever repeat myself.

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20atucker-better.pdf>

Such individuals who, consider themselves the "smart money" folks with loyalty only to the color of the money they have in their possession as they create all sorts of smokescreens using the most deceptive propaganda when dispensing disinformation such as, "racism, beginning with the color of a person's skin is at the root of all evil", understood perfectly well that when on July 23rd, 2002 I called for President Bush to immediately suspend the trading of shares in public corporations, such a very reasonable suggestion would never be implemented; on the contrary, the "smart money" folks who by then had already

fled the capital and financial markets, specifically the stock and real estate markets in those regions of the world heavily dependent on big government handouts to the lazy rich, knowing how much perfect sense I made, simply went on the most extraordinary "buying-selling spree", first picking up the phone to their respective financial institutions and leveraging themselves fully, first by taking out unsecured loans that were then immediately used as collateral to "short" both the stock and real estate markets, again beginning here in the united States, the most "underwater" economy the world has ever witnessed given how our economy is totally dependent on our military strength that is waning at the most extraordinary pace to the point that US Military websites are now banning posts of mine as well as others promoting the truth that I speak; such banning speaking, beyond belief, loudly as to how vulnerable do US military officials feel about their own "clay feet".

Moreover, the "smart money" folks knew even more than half a decade ago that they had no "skin in the game" given how even if the totally rigged markets were to turn against them, meaning that corrupt elected and non-elected government officials would be able to get away with printing more fictitious-worthless monies and handing them out first to their major benefactors who got them in to such omnipotent law making positions and nothing quite like the power to produce money, the "smart money" folks who were and remain betting that the masses will inevitably figure out exactly how the how system works and refuse to continue investing in their own downfall by allowing their retirement monies to be invested in totally nonsense stock markets that drive both the real estate and insurance markets, thereby causing a precipitous all markets collapse, such monies being pumped in to the markets in the meantime prior to the masses waking up, causing the stock and real estate markets to keep rising, thus placing a "squeeze" on the "smart money" folks' "short positions" who were, again using the monies borrowed from banks, betting along with the banks that the markets would collapse but only when enough information had finally reached the "common man", resulting in the "smart money" folks once again picking up the phone to their bank managers all over the world letting them know that they were now "in bed together" and if the banks didn't continue to keep increasing their credit facilities, the "smart money" folks with again, "no skin in the game" would simply walk away, first from their unsecured credit lines, causing in the very next instant a precipitous stock market and real estate market collapse.

This is yet again another good example of "Heads I win, tails you lose".

Suffice to say that even the most non-sophisticated human being who has never even heard of the Internet should be able to not only understand what exactly it is that I am talking so long as they have just an average command of language but at least equal in importance is that they can very quickly appreciate that I happen to have a very significant degree of experience in the capital and financial markets, in addition to the business of De Beers who for more than a

century now have been in total control of the world's capital and financial markets as well as the entire world's drilling industry.

Consequently, even without looking at my family's extraordinary close ties to the De Beers-Anglo American Cartel as well as Israeli Military Intelligence who didn't need to read The Diamond Invention to know that the DAAC not only financed the wholesale slaughter of 6 million Jewish people during the Holocaust but were dead set against the Jewish State of Israel which from its fledgling beginnings in 1948 has had to seek one accommodation after the next with this mafia of mafia, all the while never losing sight of this most violently anti-Semitic organization that of course includes many Judas Jewish people, it only makes perfect sense that I would end up at a most critical juncture in the history the DAAC sitting in the offices of their most important price fixing operation on US soil back in 1980 when I wasn't exactly a "potted plant", as both Stephen Cohen and Alan Lipworth, the two principals of Codiam Inc. headquartered on 47th Street, New York City, the money laundering capital of the world provided Black Hatter Martin Rapaport with his pricing of Diamond Currency that was then produced in the Rapaport Report which serves to this day as the Bible for all the world's diamond-money laundering dealers who know better than to have ever questioned publicly how Mr. Rapaport ever comes up with his pricing let alone what prevents corrupted elected and non-elected government officials from hauling in Mr. Rapaport, Stephen Cohen and Alan Lipworth and "nailing them to the cross"; bearing in mind it is not a state secret that there was a very significant "schism" relatively recently between Mr. Cohen and Mr. Lipworth who is a not all that distant relation of mine, the same with Stephen Cohen.

What I have written above could very well serve as a "preview" for this upcoming "live broadcast" that will of course be archived on www.just3ants.com
<<http://www.just3ants.com/>> , making the minimum US\$20 upfront charge a really good deal.

Of course it is very possible that none of the 11 odd who say they are committed to registering will actually do so, in part because that US\$20 could be the difference between surviving one more day and not surviving, let alone without food and clean drinking water in one's belly how could I, reasonable person, expect any of them to have the intestinal fortitude to figure out without my help that this collapse we are witnessing in "real time" in the capital and financial markets is 100% contrived and all geared to make the hard working poor feel even more helpless as the rich now more than ever, "lick their chops", turn on the music loud, rejoice and most of all laugh themselves silly at the poor who they cannot believe still haven't figured out how to steal legally and therefore never get caught.

Not to mention, how the really "smart money" people throughout the world who have benefited handsomely from my "insight and analysis of the important events of the day", not to mention "prescient timing", are right now racing around their living rooms and board rooms screaming their heads off, never believing in a million years I will ever be able to reach the masses of poor who again are not stupid, simply very misinformed.

To mention little of these gutless bastards who when "push comes to shove" have absolutely no fight in them to stand up to those with truth on their side, the most extraordinary weapon when it comes to any type of warfare, particularly guerrilla warfare where your opponent doesn't simply walk and announce, "Look at me, I am two feet taller than you, so take your best shot".

To mention in passing those salivating right now as the poor of the world get so very desperate, feeling so very helpless, these cowards whose entire strength comes from their "money belief system" and only know from the bullies who raise them on a "money based" value system, still have to deal with me who didn't get off a ship in Haifa Harbor, Israel, just yesterday, and why it is that more than Israeli Military Intelligence pay very careful attention to what I have to say, and of course that includes folks like the FBI, MI5, CIA and never to forget the Mossad who are also made up of human beings who have emotions beginning with feeling extraordinarily sad right now that by all "appearances" the People Republic of Communist China has "succumbed" to the western "money culture" without China's leaders having pointed out sufficiently the "drawbacks" when simply looking at the beyond belief superficial behavior of the current generation of western teenagers beginning with the most messed up here in North America who couldn't be counted on anything more were they to have to defend the mainland of the United States, than getting on their cell phones and calling on Daddy and Mommy to release more of their Trust Funds, and for the overwhelming majority of US American kids of military age who don't have Trust Funds, well they should feel just as comfortable in registering for this first seminar-workshop as the Trust Fund kids I know who will be allowed to participate free of charge.

You might find one or more patrons of the Seacrest-Waterfront Café who share as well as don't share your point of view on the important issues of the day, and of course there is nothing right now more important than one's money, and therefore very interested to hear my explanations about what is happening this very moment in real time with the capital and financial markets all over the world and who in turn might decide not only to more regularly show up to drink an ale and eat but bring others along in the future who both share and don't share their opinions.

I may have figured out a way to directly compensate those who bring me a "paying audience" who feel they also don't have a "voice" but don't want to be part of

any organized group, preferring just like me to "go it alone", creating their own incorruptible grass roots organization that "attracts" others "like minded".

Each of us, no matter our "different point of views", can create our own "network" even if that network numbers no more than one.

Regards,

Gary

Ps - How's the weather?

To: 'dave clark'
Subject: BASIC NEEDS-RE: Insurance

Dave - Thank you for this information and thank you for Decembers check although I would have preferred it sooner as I make it my business to keep very little cash in my bank accounts given how extraordinarily unstable are the capital and financial markets and most likely to get a whole lot more so.

You, however, have a business that serves the very basic needs and therefore the least likely to suffer in a worldwide economic depression that could be over in an instant, in fact in the same instant it were to begin, were to masses to come together which increasingly seems likely, but I wouldn't count on it.

How many meals did you serve on Christmas Day?

Are you more or less optimistic about the forthcoming year?

All the very best,

Gary

Ps - What did you think of the actions of the captain of the US Hawker when confronted by 5 threatening Iranian speedboats?

On that subject, attached is a pretty close to complete draft of an analysis of a not so top secret Israeli Military Intelligence report. I would be interested in your opinion.

BTW, I am planning on putting on seminar-workshops all around the world.

Below is part of email Adam L. Tucker, who is writing the analysis, sent to a gentleman who came across some of our writings on the internet, in particular our one website www.just3ants.com <<http://www.just3ants.com/>> , letting him know the purpose of these seminars-workshops:

We will soon be holding seminars to expose the intimate relationship between the United States and De Beers among other things.

The following is cut and pasted from Edward J Epstein's "Diamond Invention"

<http://www.edwardjayepstein.com/diamond/chap18.htm>
<<http://www.edwardjayepstein.com/diamond/chap18.htm>>

This raised the possibility that the diamond cartel and its allies might have found some way of intervening in the antitrust division. In a previous antitrust case involving the ITT corporation, President Nixon had blatantly attempted to prevent the antitrust division from pressing its suit. On August 4, 1974, the Justice Department received information that the "De Beers organization is a

large contributor to both political parties and should this investigation get to a stage where cases were actually filed [the antitrust division] would probably receive much political pressure." The informant also disclosed that one major diamond dealer in New York was in "constant contact" with Harry Oppenheimer and was somehow relaying to him "information on the progress of this antitrust investigation." The diamond dealer in question was further alleged by this source to have "arranged the meeting for Harry Oppenheimer with John Kennedy when Kennedy was President-elect ... at the Carlyle Hotel," and to have served as an intermediary between Oppenheimer and American concerns in a number of deals.

By monopolizing diamonds, De Beers has been able to control every industry that requires industrial diamonds:

Diamond drilling bits needed for accessing: oil, silver, gold, platinum, uranium, etc

Diamond blades required for mass production of anything steel: tanks, guns, jets, cars, etc.

Synthetic diamonds are not as hard as natural diamonds and so their industrial applications are much more limited; although you should know that GE was also indicted for benefiting from the price fixing of De Beers.

<http://query.nytimes.com/gst/fullpage.html?res=9D0CE6DF143BF93BA25751C0A962958260>
<<http://query.nytimes.com/gst/fullpage.html?res=9D0CE6DF143BF93BA25751C0A962958260>>

Gary's uncle is the executor of Charles Engelhard's estate; if you read the Diamond Invention you will see that Charles Engelhard was the US partner with Harry Oppenheimer the head of De Beers. Engelhard Minerals and Chemicals is now THE platinum monopolist thanks to the platinum that was mined from South African during the South African Apartheid Regime. And you would forget that there is a law that was set in the mid 70s that required all vehicles manufactured in the US to have platinum in their catalytic converters.

There is a lot of information but once you get the concept it is pretty easy to comprehend...

You have undoubtedly heard of the Golden Rule... He who has the gold makes the rules.

The next question you and every United States citizen should ask is, "where is all the gold?"

As the economy collapses people are going to be looking for answers more and more, we want to get to them before desperation breeds violence.

I hope this inspires you to help share the information.
