Subject: FIDUCIARY RESPONSIBILITY - RE: De Beers Diamonds Class Action - Information Request

I am a former senior executive of De Beers who beginning on November 11th 2004 broke a 24-year silence with Codiam Inc., De Beers' principal price fixing operation on US soil, headquartered on 47th Street, New York City, the money laundering capital of the world.

Below is a hyperlink taking you to those email communications that abruptly ended when I made it patently clear that when we were to next meet I would be bringing along the Feds etc, etc.

<http://www.nextraterrestrial.com/pdf/cod-leon-hell.htm>

Suffice to say, this correspondence will be posted in due course on the front page of www.just3ants.com

I am currently on hold with folks from your organization having now called for the 3rd time the 800 number you provided, and so far after speaking with two of your personnel, again on two separate occasions, I have been summarily disconnected which I find rather annoying, since all I am trying to do is flush out whether or not you are simply going through the motions of taking on De Beers, the special interest of special interest groups who after buying off all the politicians-lawyers worth talking about then buy off their opposition, and with what remains of their unlimited supply of untraceable, lightweight and never inventoried Diamond Currency, always price fixed, in flagrant violation of our sacrosanct Anti-Trust/Anti-Price Fixing laws, at more than a barrel of oil, also find the funds to buy off in addition to all the senior executives of OPEC who set the price of oil, but increasingly less so, supposedly 3rd party administrators of these utterly nonsense class action lawsuits that puts money in to the hands of just more De Beers owned

lawyers-politicians including Justice Department lawyers while giving the ignorant investing public along with the hard workers of the world constantly finding themselves at best treading water, with the rather frustrating false sense of security that there is anyone worth talking about, apart from myself, taking on this mafia of mafia.

Now the 3rd individual I have now spoken with just came back on the line to let me know that a person by the name of Jason will get back to be no later than 5 PM tomorrow since I am apparently calling after business hours which didn't of course stop this hard working, most likely honest gentleman from picking up the phone and then to be told to give me the runaround?

In the interests of bringing up to speed both Jason and your attorneys who I suggest should contact Ron Bellows, senior risk management specialist of AIG to make certain they have both "Adequate and Proper" malpractice liability insurance, I have taken the liberty of cutting and pasting a rather important paragraph referencing US Justice Department reports, detailing the incoming President of the United States meeting with Harry Oppenheimer, the Anglo South African head of the mafia of mafia:

This raised the possibility that the diamond cartel and its allies might have found some way of intervening in the antitrust division. In a previous antitrust case involving the ITT corporation, President Nixon had blatantly attempted to prevent the antitrust division from pressing its suit. On August 4, 1974, the Justice Department received information that the "De Beers organization is a large contributor to both political parties and should this investigation get to a stage where cases were actually filed [the antitrust division] would probably receive much political pressure." The informant also disclosed that one major diamond dealer in New York was in "constant contact" with Harry Oppenheimer and was somehow relaying to him "information on the progress of this antitrust investigation." The diamond dealer in question was further alleged by this source to have "arranged the meeting for Harry Oppenheimer with John Kennedy when Kennedy was President-elect ... at the Carlyle Hotel," and to have served as an intermediary between Oppenheimer and American concerns in a number of deals.

Click on below to see in its entirety, Chapter 18, THE AMERICAN CONSPIRACY of The Diamond Invention written by Hollywood blockbuster author, Edward Jay Epstein:

<http://www.edwardjayeinstein.com/diamond/chap18.htm>

You should have little difficulty understanding why in 1938 at Ivy League Princeton University, freshman polled Hitler as the "greatest living human being" and Einstein who was now residing at Princeton, was second.

Not to mention that in 1934, Einstein who wasn't exactly a fool; i.e. could tie his own shoelaces, blah blah, wrote as his return address on an envelope sent to another Jewish friend who happened to be a Jewish rabbi, "Concentration Camp, Princeton".

Consequently, when you prepare the next "update" to your "claims" against De Beers try and remember to also make reference to Chapter 9, Diamonds for

Hitler, subtitle The Secret War Report of the OSS/CIA and then when it comes to assessing damages against De Beers don't forget to take into account your own brain damage and those other Americans who have benefitted from the American Nazis who won World War II.

Please respond ASAP.

Is there a name telephone number or email address of the person in charge?

Are you folks familiar with the Israeli Military Intelligence report and how it impacts De Beers?
