I am sorry.

Obviously I needed more than 5 minutes, in part because my most beautiful, beyond belief gorgeous wife just came home.

And yes Marie Dion Gevisser has me once again distracted but not to the point that I forget for a moment why it is despite helping her raise her 15 year old-young son, JoNathan since he was 18 months and her daughter, Danielle now 18 – please let know if you need help with the math – both spermed by The IT, with what I consider to be a “value system”, both kids have succumbed to the “money, me” culture so very addictive in a society that has lost its way, a full century now, beginning with, at the turn of the last century, when American banker J.P. Morgan and Co., backed to the hilt by the corrupt 3 branches of the US Government; i.e. Armed Forces of the United States of America, financed both the American led 8 Allied nations invasion of China in 1900 and the Anglo Boer-Farmer War of 1899-1902 as well as the DeBeers diamond syndicate.

3 minutes max. I promise.

**Subject:** International affairs

When in England at a fairly large conference, Colin Powell was asked by the Archbishop of Canterbury if our plans for Iraq were just an example of 'empire building' by George Bush.

He answered by saying, "Over the years, the United States has sent many of its fine young men and women into great peril to fight for freedom beyond our borders. The only amount of land we have ever asked for in return is enough to bury those that did not return."

It became very quiet in the room.

\*\*\*\*\*

Then there was a conference in France where a number of international engineers were taking part, including French and American. During a break one of the French engineers came back into the room saying "Have you heard the latest dumb stunt Bush has done? He has sent an aircraft carrier to Indonesia to help the tsunami victims. What does he intended to do, bomb them?"

A Boeing engineer stood up and replied quietly: "Our carriers have three hospitals on board that can treat several hundred people; they are nuclear powered and can supply emergency electrical power to shore facilities; they have three cafeterias with the capacity to feed 3,000 people three meals a day, they can produce several thousand gallons of fresh water from sea water each day, and they carry half a dozen helicopters for use in transporting victims and injured to and from their flight deck.. We have eleven such ships; how many does France have?"

Once again, dead silence.  
\*\*\*\*\*

A U.S. Navy Admiral was attending a naval conference that included Admirals from the U.S. , English, Canadian, Australian and French Navies. At a cocktail reception, he found himself standing with a large group of Officers that included personnel from most of those countries. Everyone was chatting away in English as they sipped their drinks but a French admiral suddenly complained that, 'whereas Europeans learn many languages, Americans learn only English.' He then asked, 'Why is it that we always have to speak English in these conferences rather than speaking French?'

Without hesitating, the American Admiral replied 'Maybe its because the Brits, Canadians, Aussies and Americans arranged it so you wouldn't have to speak German.'

You could have heard a pin drop!

What is it exactly that you don't understand about my consulting fee?

Just say, "I agree!" and then go down to the bank where we both bank and deposit the initial US\$1,000 flat fee into my checking account.

I appreciate the feedback.

Have you rethought our "interaction" the other day that had you "reneging" on our deal, deciding to "go it alone" in selling your very blood stained diamonds?

Do you understand the concept of "Black hands cannot lay white eggs" despite Conventional Wisdom saying otherwise?

BTW, the draft you see to the President is so very rough that I hadn't yet bothered to run it by Keren at the Office of the Israeli Department of Defense Attache at the Israeli Embassy, Washington DC.

So u read my draft to President Bush and it failed to "move you"!

It is rather easy to move at a 100 miles per hour when you are disconnected from the real world.

Does it not bother you that your lifestyle that affords you to purchase a 3.2 million dollar home although you could have just as easily impressed me if you had said a 3.2 cent home, is dependent upon the masses of the world including those here in the US remaining ignorant that the Nazis not only won World Oil Wars I and II but after getting rid of the stooge Hitler then had the 3<sup>rd</sup> Reich's southern division taking root in South Africa where they remained for some 45 odd years while the US stole all of South Africa's gold and the such no different to what we have done in places like Venezuela and Mexico, not to mention the handshake our Saudi tyrants refuse to make when next meeting Israel's delegates.

When next visiting Colorado perhaps you want to drop in and say hello to Devin Standard.

Devin, who used to be the executor of my estate, has much more going for him than simply being the eldest son of his Uncle Tom father, Kenneth Standard Esq., the immediate past President of the New York State Bar Association overseeing some 72,000 lawyers who would be all out of work were an everlasting peace to emerge in the Middle East and elsewhere, all taking place, I suggest once I refine the draft email to the President.

How about now. I am at our rented studio cliff house and we are right now having a new roof installed. It is noisy so we can go for a walk along the cliff.

Take a look at a very rough draft of an email I plan to send President bush upon our return.

Saudi official rules out handshake with Israelis...

Side note to Ami Ayalon - Minister without portfolio Israeli Department of Defense: The Israeli Military Intelligence report that so far neither you nor Ehud Barak, Israel's Minister of Defense have any issue with me broadcasting is while helping give peace a better chance as it serves not so much to save the world but to help not yet co-opted-corrupted individuals continue their search for truth, G-d is truth, but at the same time it is causing significant heartache to certain business people in Israel who like the overwhelming majority of successful business people here in the United States beginning with the corrupt medical community who send out their doctors without borders to address the symptoms of our genocides while fully knowledgeable that peace is war to those who profit from war. Every moment that you fail to take decisive military action to protect the best interests of the vast majority of the world's population suffering horribly first and foremost from "Poverty of thought", too sick, too malnourished, too fearful of what atrocity comes next so you do yourself very significant brain damage. I have spelled out clearly in black and white that it is extraordinarily hypocritical for example when U.S. officials shake the hands of Israeli officials while insisting that Saudi officials make a big fuss, acting so very independent when "ruling out" a handshake with Israeli officials. Keren at the Office of the Israeli Defense Department attaché located in the Israeli Embassy, Washington DC, is most likely not a multi-millionaire at least not yet but should China revalue its currency to "fair market value" in that same instant she would in fact if she had a thousand dollars to her name be an instant millionaire but unless she had bought herself a pot ahead of time she wouldn't be able to afford a pot to pee in which is not quite as bad as running out of water and then dying from thirst.

Dear Mr. Bush,

Even if you have already read Alan Paton's Cry the Beloved Country as well as seen the movie I began seeing last night with that one great African American Actor who is great at playing both good and bad guys you should try and find the time in your very busy day today to read it again as well as watch the movie that I fell asleep watching.

Dave Matthews who was apparently born in South Africa and whose music we have playing on [www.just3ants.com](http://www.just3ants.com) is no different to any member of the Pentagon, the US Supreme Court, the 3 Branches of the US Government having to "face the music" this very day, this very hour, this very minute, this very moment.

Given the knowledge I had of the level of corruption when about this kid's age and most likely not as equipped to handle such weapons of war, were it not for my mother's teachings and food in my belly that could have been me.

The latest "footrace" involves none of us getting up off our seats since it is all about who has the "bragging rights" for being the first to say the crash of the American Empire was coming.

Smart Money people throughout the world would have no difficulty remembering the carefully crafted email I sent Bill O'Reilly of the Fox Network on July 23<sup>rd</sup>, 2002 that was first edited by Mr. Jeffrey R. Krinsk Esq. of the wildly financially successful Shareholder Class Action Litigation law firm of Finkelstein and Krinsk, Mr. Howard Finkelstein, a former partner at the 2,000 pound gorilla SCAL law firm of Milberg Weiss-Lerach as well as a United States Attorney, and might I add the accolade that Howard is considered by Jeffrey who is himself a very skilled and experienced litigator as one of the best if not the best attorneys when it comes to taking depositions of those co-opted-corrupted.

The first thing you will notice missing in my last communication with Israeli Military Intelligence and the Mossad, Israel's intelligence institute who make no bones about having the most the brutally effective assassinations unit whose motto very much remains, "By way of deception we wage war" is that I never asked Keren to comment on why Starbucks like their United Kingdom "sister" company, Mothercare as of the summer of 2006 did not operate a single store in Israel because I know versus believe it is no secret to both Israeli Military Intelligence and the Mossad, quite one and the same, this snub by Jewish person Howard Schultz founder, chairman and Global Strategist for Starbucks is all because Starbucks and Mothercare's mutual business partner, a member of the Kuwait Royal Family has made it patently clear that Starbucks growth of 5 stores per week and Mothercare's 2 per week, just in the Middleeast will end instantly if either were to "successfully" open a single shop.

Mr. Schultz is simply being "pragmatic" and would be able to convince most Jewish people in the world that as a result of his logical thought processing Jewish people around the world more than ever should support Starbucks.

Only the illiterate are naïve to the workings of the world in particular how deals are done when there are flagrant violators of our sacrosanct Anti-Trust laws that supersede all the co-called civil rights laws because if you don't have a pot to pee in there is really nothing to talk about since when you cannot eat or drink unless you are G-d you are dead.

In my last communication to coward-bully US Marine Captain Brian Steidle who I believe should immediately face a war crimes tribunal bearing in mind I support 100% not only a "fair trial" but the very best criminal defense lawyers representing all US service people being tried for atrocities committed in broad daylight as well as at night when us forces still have command and control or so they think, I made mention of him not having a clue whether he or a family have met and/or been made an offer by a DeBeers official that they couldn't refuse even though I may not have put it quite in those words.

There are many ways as well as words to describe the meeting between President elect John F. Kennedy and Anglo South African Harry Oppenheimer in broad daylight at the Carlyle Hotel that the moment Kennedy stepped into Oppenheimer's suit, the world as we know it came to an end.

From that very moment forward the mafia of mafia were in complete, total, unequivocal control of each and every elected and non-elected government official.

Let me now take you back to Steven Spielberg's movie-documentary where in his 5 minute introduction he throws in the words, "In no way shape or form am I attacking the state of Israel."

In one rather "guy scene" where Israeli Special Forces exit out of rubber boats landing ashore in Beirut, Lebanon, there is a quick greeting between these highly maneuverable commandos with a legal license to kill and never take prisoners alive for very long and members of the Hit Squads sent out by David Ben Gurion following the 1972 Olympic Massacres to track down the masterminds who had also on two previous occasions attempted to assassinate Ben Gurion who was the first head of the Mossad following Israel's success in its War of Independence and remained so until his death on December 1<sup>st</sup>, 1973, 13 months to the day when I first met with him at Kibbutz Sde Boker.

The greeting with Ehud Barak is clear and precise although only his last name "Barak" is used.

You would surely know that Barak is not only a highly decorated Israeli Special Forces commando but he is an expert in Krav Maga which you wouldn't necessarily have to read about on Wikipedia to know has at its core "no rules, no limits".

You will also recall that the underground French Resistance who provided all the intelligence for this raid on PLO headquarters were quite upset about the carnage which left no doubt of Israeli Special Forces presence.

You would also know when watching this movie that a member of the Mossad financed and approved Israeli dominated hit squad is himself hit by a Dutch lady whose cover a high class prostitute comes directly out of the playbook of the Mossad.

Remember SPIelberg makes us aware from the very start is in no way shape or form an attack on israel, that the "hit squads" had no reason to distrust either the intelligence or the weapons including plastic explosives provided by these very loved; i.e. trusted and respected members of the French Underground who SPIelberg leaves no doubt in the mind of his audience are devout Roman Catholics who act very Jewish around the dinner table constantly squabbling but most

you would agree seemed like they were schooled in how to hold a knife and fork when attending my Royal Mater-Mother's Durban Charm School.

You also cannot help forget how the leader of the Israeli hit squad after taking out the Dutch prostitute living on a houseboat following again the French Underground dutifully providing all the intelligence, "free of charge" has good reason to distrust the Mossad and in the process of going stark raving nuts barges in to the Israeli Embassy in Washington DC and threatens Keren's boss.

Lets come back to what it means right now this instant to someone like Brian Steidle who is starting to notice that just3ants.com is not exactly a website to laugh at.

DeBeers in able to buy all the opposition lock stock and barrel while doing so without having to do much more than point their prospective target in the direction of Chapter 18, THE AMERICAN CONSPIRACY, is an integral part of Howard Schultz's excuse for kowtowing to our Kuwaiti Royal family tyrants.

Let me now take you back to 1980 after I returned to South Africa following my liver having been poisoned by DeBeers operatives on 47<sup>th</sup> Street where I had been working for Codiam Inc. although of course for all intent and purposes both Stephen Cohen and his other South African partner Alan Lipworth were in fact working for me given how my uncle David Gevisser was the person calling all the shots and behind my uncle Dave was my Royal Mater who along with her father were most responsible apart from David Ben Gurion in getting my uncle Dave the "top spot" as the American head of the DeBeers-Anglo American Cartel following the assassination of Engelhard in February 1971.

Even after I had my pitiful body pricked and prodded by medical doctors and nurses at Groote Schuur hospital were Dr. Barnard performed the world's first heart transplant, both the liver and lymph gland biopsy, the latter performed on my neck that still leaves a scar not a single member of my immediate family including my father ever once asked me about my job at Codiam inc even though they all knew that my uncle Dave was responsible for making the introductions.

Think about this.

My eldest brother would tell you that his IQ is "off the charts" even though he doesn't have the logic; i.e. the math to come even close and smart enough because his IQ is off the charts not to ask a question he knows the answer to, different from what is taught at law school where budding lawyer eagle legals are taught to never ask a question they don't know the answer.

To be or not to be is a phrase known to most elementary school kids knowledgeable about the basics of English literature which does not give them much if any of a grounding in economics to then be able to follow the money trail and ask the simple question, "Who exactly profited from backing Hitler?" since most US American kids don't have a clue about modern day European history and it is these kids who end up becoming teachers and professors of history and quickly figure out that if they want to keep their jobs they had better "tow the line".

The Dead Sea Scrolls are a testament to the simple genius of Judaism which to the best of my knowledge not a single Jewish person I know comes close to understanding let alone follow in their daily farcical lives.

Written some 2200 years ago, placed in clay jars and stored in caves alongside the Dead Sea some 1300 odd feet below the surface of the sea, they describe the daily lives of a nearby community "at one" with their religious faith beginning with the awesome 10 commandments that don't require a rabbi, Christian priest or Muslim Mullah to interpret unless of course such clergy have mouths to feed including their own when we can all come up with a whole bunch of excuses to make them as well as ourselves feel better as we show our humanity and understanding while also so humble as to suggest that God must have had reason for planting such clergy in our midst and it is not for us, even us Jewish people who are encouraged from birth to question, to go overboard.

Not much in Judaism has changed since its founding father Abraham, not a perfect human being but clearly a respected trader was "chosen for the job" of converting a heathen people who only knew from many Gods who are of course when not making love to one another constantly at war; one minute the people are listening to the wind god and the next the god of fire all the while the Pharaoh have their high priest of the day knowing full well who is buttering his bread to declared the Pharaoh is the mightiest.

The more interaction there is amongst the multiple gods so there exist too many options in terms of which way to go, one way or the other until along comes a Pharaoh dictator, "It is my way or the highway".

The idea of there being only one God cuts out a lot of "head trips" and forces one to constantly "internalize".

The concept of one God while simple, so very precise also has each of our thoughts extending to the also very precise words, "Humankind created in the image of God".

It is much easier to simply say, "I don't believe in God" and go on our merry ways.

And for those who consider themselves religious and who attend religious services, well they are seen by the irreligious as simply bigger hypocrites.

You stop growing as a kid when you stop searching for the truth.

It is all about learning and there is no reason that a kid should stop learning unless they have a genetic problem but at some point if you start lying so you move down this path of constantly compensating by lying to yourself.

The cost is a mindless mind; the mind the first indicator of the supernatural One God who is vengeful to those entrusted with knowledge who usurp their limited authority.

Why should our mindless kids who can't be bothered to question their elders who make it their business to blacken their hands with garlic and butter saturated shrimp be afforded such luxuries all dependant on kids like this

To battle it out.

You, Mr. President have an agenda.

So do each of us.

People don't care if you lie to yourself.

That is when you as a kid stop growing and it becomes difficult and it affects your body and it is significant.

It is disgusting that the City of Del Mar would have policeman on bicycles ticketing along the cliffs of heavily corrupt del mar a 90 year old gentleman because his dogs and those others don't properly care for are not leashed, costing Gene the last time some US\$600 which has the filthy rich beaming from ear to ear.

Think about your two officials visiting China last December and threatening the Chinese with a nuclear holocaust if they were to dare increase their currency to fair market value before sharing your thoughts, your energy with the rest of the world.

It is all about the spread of truth and the kibbutzim in Israel do exactly that but of course the US is not interested in fairness for we are fanatical about our "freedoms" beginning with the right to own our own home at any cost to the hard working peoples of the world who we enslave.
