Subject: **HOW LONG HAVE YOU BEEN PRACTICING FLIPPING ME OFF?**- did i just hear pin drop?- tomorrow-around the world in 80 days-fdr-biggest problem- be careful what you wish for-take your pick!- the most dangerous person in America...---...

That didn't answer why a 9-year old has an email address, but I might as well leave it alone.

Why doesn't your wife have her own email address?

Come to think of it I thought, purely from your behavior, that you were divorced?

Can we end this now!

I have just had the most delicious stir fried vegetarian dinner and would like to relax a little before responding to Alvero.

if you are interested I can have Adam Tucker who despite being busy moving in to his own space as well as preparing for his date tomorrow night and then his "dream" lunch date that he now tells me is not next week but the following week when this "stunning, intelligent, beautiful, modelesque, 5 foot 10, 21-year old Slovakian, is done with her finals, could find the time to email you the recipe.

And since you are interested Veronica has a Saudi Arabian graduate student boyfriend with a job waiting for him back in Riyadh along with apparently "rich friends", making her available to join Adam permanently in Machu Picchu, Peru.

Not to mention, Adam who has just been through possibly the fastest recorded divorce in history, may very well experience the fastest "love match" in recorded

history although I would argue differently and I suspect so would each of us fortunate to have found what we justly deserve.

Each of us knows perfectly well we get our just deserve 24/7.

Of course we are watched also 24/7; the Internet just makes it that much easier to explain, at least for me to explain perfectly clear.

Ps – You seem a little eager to use your “middle finger”, hitting the “e” in what was meant to be the thrust of the email.

How long have you been practicing flipping me off?

I have taken the liberty of highlighting the word.

Are you familiar with our court victory on October 24th, 2002, Superior Court Judge Hendrix presiding?

Why would you assume that I would purposefully want to have a conversation with a 9 year old?

Why does a 9-year old have her own email address? Seems bizarre.

Why would a father include his 9-year old daughter's email address in a very adult topic, "Our military and our nature and pride"?

Lets now look at this email you sent out that included your 9-year old daughter's email address in the "To" section along with 7 others, as well as 25 odd, including me and Detective Dan Pearce, in the "Cc" section. Curious behavior for such a seemingly protective father?

Did I just hear a pin drop?

Subject: Our military and our nature and pride

Importance: High

Subject: International affairs

When in England at a fairly large conference, Colin Powell was asked by the Archbishop of Canterbury if our plans for Iraq were just an example of 'empire building' by George Bush.

He answered by saying, "Over the years, the United States has sent many of its fine young men and women into great peril to fight for freedom beyond our borders. The only amount of land we have ever asked for in return is enough to bury those that did not return."

It became very quiet in the room.

Then there was a conference in France where a number of international engineers were taking part, including French and American. During a break one of the French engineers came back into the room saying "Have you heard the latest dumb stunt Bush has done? He has sent an aircraft carrier to Indonesia to help the tsunami victims. What does he intended to do, bomb them?"

A Boeing engineer stood up and replied quietly: "Our carriers have three hospitals on board that can treat several hundred people; they are nuclear powered and can supply emergency electrical power to shore facilities; they have three cafeterias with the capacity to feed 3,000 people three meals a

day, they can produce several thousand gallons of fresh water from sea water each day, and they carry half a dozen helicopters for use in transporting victims and injured to and from their flight deck.. We have eleven such ships; how many does France have?"

Once again, dead silence.

A U.S. Navy Admiral was attending a naval conference that included Admirals from the U.S. , English, Canadian, Australian and French Navies. At a cocktail reception, he found himself standing with a large group of Officers that included personnel from most of those countries. Everyone was chatting away in English as they sipped their drinks but a French admiral suddenly complained that, 'whereas Europeans learn many languages, Americans learn only English.' He then asked, 'Why is it that we always have to speak English in these conferences rather than speaking French?'

Without hesitating, the American Admiral replied 'Maybe its because the Brits, Canadians, Aussies and Americans arranged it so you wouldn't have to speak German.'

You could have heard a pin drop!

Furthermore, I suggest Detective Pearce encourages you to forward all our communications "back and forth", not just those today, to the last Mrs. Ed Bertolas.

One more thing.

Effective immediately tomorrow, you will be forced to go to www.just3ants.com to get my insight and analysis of the important events of the day or spend the time picking up carefully placed pennies, take your pick!

I just noticed that my partner Alvero from Rupa Wasi, Machu Picchu, Peru just emailed me, "hello". I was having a hard time reaching him by phone earlier. It is possible that tall, relatively very well balanced, very good looking and very in-shape Alvero who you can see below about to serve my gorgeous breakfast, lunch and dinner and everywhere in between French-Canadian wife a most delicious and very healthy "vegatairan" [sic] meal, is out of the country.

Right now would be the most excellent time to book [Condor House](#) where MDG and I last stayed. Don't be afraid to ask Alvero and Co. to play their [Didgeridoos](#). They might should you have someone really beautiful joining you come to your room at the very top of Condor House with the very best view of the awesome ruins of Machu Picchu.

Then again you are not the only one receiving this very heavily broadcasted communiqué.

Should you complete the edits and additions of my forthcoming heavily broadcasted communiqué to John Da , I will try and remember to include your email address in the response.

Again, make a very detailed note in your calendar, that from midnight tonight you just need focus on nothing else but those carefully placed pennies.

I will do more than take your threats, "under advisement"; additionally, I am taking the liberty of strongly suggesting that, at the same time I do my very best to remove your and your X's child's email address from my email list, you to immediately back up your hard drive.

Let me know when this is done so that I can update my records on www.just3ants.com.

BTW, I will pass on your Hanukah gift and leave it up to God.

I assume you are related to Ed Bertolas?

Why wouldn't Ed have informed me of this child?

Is this child old enough to be told about Auschwitz?

Earlier, at 2:07 PM, I heard from our friend and guide Augusto Benito Vargis over in Cusco, Peru.

Augusto writing in English ended with:

i need something for my son future.

I am still ready to do something for my country in spite the danger and to lose time since the next week i will try to review my e-mail more often so please let me know what we need to make and what are our plans.

greetings.

Augusto.

I am currently working on that plan that so far contains 8,863 odd words.

My plan is to first send it to John Dau, a leader of the Lost Boys of the Sudan, and possibly as many as 5,000 individuals who know better than to visit my one website www.just3ants.com where every hit, forget unique hits, count and so very possibly add to US\$23.88 in donations and to get each and every one of their comments before then broadcasting it over the Internet starting with US Military websites; and of course you can be assured I will run it by the Mossad even if the Office of the Department of Israeli Defense Attache at the Israeli Embassy in Washington DC, is no longer officially receiving the emails they acknowledge receiving.

Below is the draft of the first 2,740 words. Please when returning it make all edits and suggestion in the color red. The title is, **FDR-BIGGEST PROBLEM**

ONCE YOU START QUESTIONING, WHERE DO YOU STOP?

GEVISSER REPORT

HEALINE NEWS - US\$23.88 - Total donations to www.just3ants.com

Reason for continuing: That ingenious Israeli Military Intelligence report that I, Gary Gevisser, was the first to broadcast, and still the only one mentioning it time and again, with of course the Mossad's approval, has a lot to do with why you choose smartly to continue reading on. Once you allow one monopoly that can create their own identical monopoly, it is just a question of time before you stop questioning how it is possible to stop a company like Google from becoming a monopoly given how they also have so much money.

John,

I understand better than most the value of time.

By now, as you see the US\$ not only dropping in value, but with no way to recover, actually collapsing; you have got to see that your good intentions

and hard work here in the United States of America, will very soon, not be enough to allow you to continue to support your brothers at home in Sudan.

Not to mention that scene in your dark movie-documentary, GOD GREW TIRED OF US, so much subliminal stuff going on, it can play havoc with the mind, a terrible thing to lose.

You actually show an angry side to you, throwing up your hands, fed up with your brothers crying out from the other side of the phone for you to keep sending them money, money, money, and lots of it; US Dollars of course, and you having to remind them of how hard, hard, hard, you were working, day and night, in out, wondering if the TNT settings on that big bomb being carried by the one member of the Flotilla 13 on September 5th, 1997 had been tinkered with right before the operation began on foreign soil.

Oil never once a major consideration for Israel given the founders of the State of Israel, in addition to on occasion reading tea leaves, clearly able to read in between the lines, all the while focusing their attention on messages being delivered to the masses.

Nothing quite getting the attention of the Jewish Underground fighting both the Nazis in Palestine for a Jewish Homeland as well as the one second front they opened in Europe to help weaken the resolve of both the British and American Nazis in complete and total control of both the world's military might as well as the minds of the masses who remember, will more likely fall victim to a big lie than a small lie, than President Franklin D. Roosevelt and a U.S. Military Attache in the most "picture perfect, a picture tells a thousand words" photo shoot giving joker House of Saud Ibn Saud the "thumbs up" on February 14th, 1945 when just 12 days earlier the entire world was informed of the Soviet Red Army liberating Auschwitz.

Yes, who knew what and when did they know it?

Let me spell it out.

It was all over the newswires, Russian soldiers covering their mouths.

It was all over for the Jewish people of Europe when De Beers let President Franklin D. Roosevelt know that had to "walk a fine line" helped by the fact that he had a wheelchair.

Cutting and pasting from The Diamond Invention: Chapter 9, DIAMONDS FOR HITLER, subtitle, THE SECRET WAR REPORT OF THE OSS/CIA

In Washington, D.C., the administration of President Franklin D. Roosevelt began to hold emergency meetings about diamonds in 1940 when Hitler's armies swept across Europe in a blitzkrieg and threatened to invade England. The possibility had to be at least considered that England, like France, might be overrun or surrender. In that event, the

world diamond stockpile would fall into Hitler's hands. Since the United States had less than one year's supply of industrial diamonds, the loss of De Beers' stockpile would make it difficult, if not impossible, to continue the war. The economic planners for the war estimated that the United States needed at least 6.5 million carats of industrial diamonds to convert its factories to war production.

When apprized of this critical shortage in diamonds, President Roosevelt ordered the War Production Board, which had the responsibility for mobilizing the American economy for war, to buy the necessary 6.5 million carats from De Beers. De Beers, however, had other interests to consider. Its entire system for monopolizing diamonds depended on its controlling the available stockpile. Transferring a large portion of the stockpile from London to New York City, where it would be out of its control, ran counter to the De Beers logic.

Even though the Americans persisted in the negotiations for the diamonds, they found that Sir Ernest Oppenheimer personally opposed any transfer of diamonds to the United States. He argued that if the United States had its own stockpile, and the war suddenly ended, it might release the diamonds and undercut the entire world order that he had so laboriously constructed. Moreover, he held that the United States had sufficient diamonds for present needs, and that De Beers would continue its delivery of diamonds to American manufacturers on a monthly basis. In one letter, he characterized the American demand for a stockpile as "farcical."

The Americans were dismayed by this intransigence. In an official Justice Department memorandum, the War Production Board expressed incredulity at the fact that "the leaders of the syndicate are intentionally risking the war production of the allies." President Roosevelt, disturbed by this development, ordered the State Department to intervene directly with Winston Churchill's war cabinet in London.

I am now going to help you with the math as you place in the back of your mind; one, devout Christian, brilliant Field Marshall Jan Smuts who had a Kibbutz in Israel named after him in 1932 was not only a member of Churchill's war cabinet, Smuts was second-in-command to Churchill and would have taken over from Churchill had he become physically incapacitated or better yet died from his alcoholism; second, that I am going to be giving you what I think should be your action plan while not upsetting your plans for the forthcoming week.

Cutting and pasting from The Diamond Invention: Chapter 9, DIAMONDS FOR HITLER, subtitle, THE SECRET WAR REPORT OF THE OSS/CIA

The strategic importance of diamonds became acutely clear to both the Allies and Axis powers with the approach of the Second World War in 1939. Only diamonds were hard enough to stamp out the millions of precision parts that were necessary for mass-producing airplane engines, torpedoes, tanks, artillery and the other weapons of war. Only diamonds could be used to draw the fine wire needed for radar and the electronics of war. Only diamonds could provide the jeweled bearings necessary for the stabilizers, gyroscopes and guidance systems for submarines and planes. Only diamonds could provide the abrasives necessary for rapidly converting civilian industries into a war

machine. Without a continuing supply of diamonds, the war machine would rapidly slow to a halt. Yet, nearly all the diamond mines remained closed, and De Beers controlled the world supply of diamonds. Obtaining these industrial diamonds thus became a paramount objective for both the United States and Hitler's Germany.

Not to mention I heard earlier from Augusto Benito Vargis, a very well educated, strong minded as well as very physically fit Peruvian Inka trail guide who my equally well educated, strong minded and very physically fit French-Canadian wife and I first met in the summer of 2002; Augusto, writing in very easy to understand English, ending:

i need something for my son future.

I am still ready to do something for my country in spite the danger and to lose time since the next week i will try to review my e-mail more often so please let me know what we need to make and what are our plans.

greetings.

Augusto.

So as you visualize the in much better shape walking corpses trotting around on February 2nd 1945, careful not to trip when leapfrogging the heaps of stacked corpses waiting patiently, thank you, for the bulldozers to arrive, not quite as bad as having to dig your own grave and then guarded over as you are given the free choice to starve to death at the same time as dying of thirst in order to save a US-DeBeers-Nazi bullet, I have helped you compute the number of murdered just in Auschwitz alone between 1939 and February 2nd, 1945.

Again let me help you with the math., hard to distinguish the walking corpses from those the Nazis left in too much of a hurry amongst .

Hitler was never close to being the genius Madison Avenue and Hollywood did quite an excellent job of portraying.

And nor was he in the least bit mad, just an opportunist with a Little Corporal stripe that meant only something to his backers looking for a lonely, desperate, out of work, failed artist painter, poor paperhanger, down to painting the sides of cattle cars where those humans trapped inside could really and truly care less about, to be their next despot; sending the loudest, clearest message to the likes of David Ben Gurion and Co. that this joke of joke Hitler's replacement would be that much more bolder when spelling out, "The end of the cowardly Jewish race is in sight".

Once a coward, always a coward no matter how one chooses to sugarcoat it.

Once a sellout always a sellout, who will seek out the company of those they know to be that much worse.

When you look at this photo below of me, the youngest alongside my two brothers would you say we look in any way, shape or form cowardly?

Do my "chicken legs" bother you to the point that you might think you jump over more than 4 barrels on ice

Bearing in mind I did once clear 7, but at times even fell when just trying to clear 5, so much so that towards the tail end of this one ice show, *Around the World in 80 Days*, I stopped trying to even clear 6.

[Secret Society](#). World Order. Secret Society envisioned very clearly by De Beers founder Cecil Rhodes who didn't have any trouble convincing United States Wall Street Banker J.P. Morgan to finance Cecil Rhodes Secret Society.

New World Order. How many times have not only US Americans heard this thinking it was something we the citizens of the world could look forward to in our "old age".

Look again at the legs of those 3 Gevisser boys, none of whom are gay, but you may agree also with my wife MDG that they are "gay, happy legs".

All those pairs of legs have today a whole lot more muscle and trust me there is more above, capable of doing a whole lot of good for those like Augusto Benito Vargis and his wife Patricia and their young son whose future is looking brighter with each tick of the clock, wouldn't you agree?

Most would agree that over a million innocent, good, hard working family people, men, women and children were exterminated from the time Auschwitz was first built in May 20th, 1940 and February 2nd 1945. Over 90% Jewish people.

Again let me painstakingly and patiently help you with the math.

Cutting and pasting Wikipedia -Auschwitz

In September 1941, the SS conducted poison gas tests in block 11, killing 850 Poles and Soviets using cyanide. The first experiment took place on 3 September 1941, and killed 600 Soviet POWs. The substance producing the highly lethal cyanide gas was sold under the trade name Zyklon B, originally for use as a pesticide used to kill lice. The tests were deemed successful, and a gas chamber and crematorium were constructed by converting a bunker. This gas chamber operated from 1941 to 1942, during which time some 60,000 people were killed therein; it was then converted into an air-raid shelter for the use of the SS. This gas chamber still exists, together with the associated crematorium, which was reconstructed after the war using the original components, which remained on-site.

The first women arrived in the camp on March 26, 1942. From April 1943 to May 1944, the gynecologist Prof. Dr. Carl Clauberg conducted sterilization experiments on Jewish women in block 10 of Auschwitz I, with the aim of developing a simple injection method to be used on the Slavic people. These experiments consisted largely of determining the effects of the injection of caustic chemicals into the uterus. This was extremely painful and many died during and shortly after. Dr. [Josef Mengele](#), who is well known for his experiments on twins and dwarfs in the same complex, was the camp "doctor". He regularly performed gruesome experiments such as castration without anesthetics. Prisoners in the camp hospital who were not quick to recover were regularly killed by a lethal injection of phenol.

Did I lose you when discussing the finger pointing that began that fateful day some 10 years to the day this past September 5th.

How would you possibly know whether it was in fact an Israeli Air Force engineer who got distracted.

It is a very long email, John, some 9 odd thousand words.

But **you** must remember what you were doing when Arab TV began broadcasting half the head of the Flotilla 13 commando mostly likely the one carrying the big bomb.

I had other interesting things going on in my mind at the time but today it is a different story as each us reflects back and forth on most of all the fact that a statistically relevant number of us have less time remaining than we had just yesterday; in fact we can all agree even a baby born yesterday has less time remaining today than it had **the day before**.

I was though, "brought up to speed" perhaps even quicker than you who was in Sudan and possibly picked up the smell of burning human entrails caused by that unmistakable breakdown in Israeli Military intelligence, just by concentrating on the shifting sands.

Even so you most likely were able to distance yourself from the carnage of 11 of the best of Israeli Special Forces commandos including their unit commander given how you had your own survival thing going and couldn't be bothered, no different now.

Right now though, I have your attention to the point that you must surely want to know at least how the minds of the most senior members of Israeli Military Intelligence work especially when things go wrong and the only concern is the next operation already underway and what impact such breakdown in intelligence might have making the analysis of what could go wrong on each and every future operation all the way through to this very moment increasingly more difficult with the passage of time.

This hyperlink below taking you to fairly informative analysis of a more recent Flotilla 13 operation, might have you thinking more about the impact of that half head and other body parts of Flotilla 13 commandos displayed on Arab TV some 10 years ago and at the same time realize that a Flotilla 13 commando less than a year prior had flown out from Israel to assist me in Florida where I was going up against Fred Deluca, founder of Subway who was taking on Dr. MaryRose Cusimano PhD while managing to scare off the entire the United States Congress given his access to Bill Clinton's Arkansas Rose law firm, Rose employing both Attorney General Hubble and Hilary.

http://www.waronline.org/en/analysis/pal_weapons.htm

Google: BIGGEST PROBLEM IN FRANCHISING – FORTUNE MAGAZINE – MARCH 1998

<http://nextraterrestrial.com/pdf/FDeluca-Fortune%20March%2016%201998.htm>

You would possibly know that people exposed to TNT over a prolonged period tend to experience anemia and abnormal liver functions. Blood and liver effects, spleen enlargement and other harmful effects on the immune system have also been found in animals that ingested or breathed trinitrotoluene. There is evidence that TNT adversely affects male fertility, and TNT is listed as a possible human carcinogen. Consumption of TNT produces red urine through the presence of breakdown products and not blood as sometimes believed.

How much do you believe when researching stuff on Wikipedia versus what you hear from me who doesn't hide behind anything other the blowing skirt of my so sweet smelling, beyond belief creamiest of creamy tasting French-Canadian wife, assuming Marie Dion Gevisser allows me to assert control over her 51% interest.

Interesting is a word....
