Ms Bravo,

Shame on you!

On December 17th of last year I sent you a 216 word email that obviously struck a "raw nerve"; bearing in mind that I understood perfectly well when suggesting you examine carefully Nelson Mandela's 11,700 word "I am Prepared to Die" speech from the dock of the Supreme Court of South Africa on April 20th, 1964, less than a handful of months before President Lyndon Johnson sent the nuclear aircraft carrier Enterprise to Cape Town, South Africa to pay his and the 3 Branches of the United States Government's respect to their major benefactors Messrs Charles Engelhard and Harry Oppenheimer, you would after catching your breath begin to feel the impact of Mandela's godforsaken "beg for life" along with a pitiful plea for a "slave wage increase", immediately on your own "back pocket".

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20estelabravo-insight.pdf>

Bear in mind that the 21 years, shy of 1 week, that lived in the brutally repressive South African Apartheid Regime, I wasn't exactly, deaf, dumb and blind.

The fact that you can "ignore" my "findings" and continue to go about your "business" choosing who to communicate with in order to peddle your goods does not change either the "facts" or the "truth" about who exactly is "buttering your bread".

Yes , we are dealing very much in "real time" although you don't know for sure who exactly is reading what I have to say and when, but quite certain that so long as you and your masters cannot embroil the entire world in civil war, it is INEVITABLE that each and every literate human being in the world will understand not only exactly why you choose to "play ostrich", no different to "playing it fast and loose" with the truth, but how exactly they can make the most; i.e. do good for the betterment of humanity by spotlighting your "playing business".

You must also understand that it is no coincidence that my uncle David Gevisser's son, Mark Gevisser is the autobiographer of Thabo Mbeki's autobiography and for those copied who don't know, Mr. Mbeki is the De Beers-Anglo American Cartel's

successor to their first Black President of South African, Nelson Mandela who would have to be the biggest ignoramus in the entire world not to have known that David Gevisser was the executor of the beyond belief rich mineral estate of Mossad assassinated American Charles Engelhard who everyone who was anyone knew was an "open supporter" of the South African Apartheid Regime as well as close personal friend of the Kennedy and Johnson family.

Yes, you wouldn't be the first to read what Charles Engelhard's Camp Chaleur warden, Robert Stewart had to say about those so very "lucky" to be invited to this crime boss of crime bosses' retreat across the border in Quebec, Canada by simply clicking on the hyperlink below:

<http://www.nextraterrestrial.com/pdf/The%20Atlantic%20Salmon%20Federation.htm>

Fidel Castro while an "okay" military commander is alive today only because he is extraordinarily "naïve" but in all likelihood he is a most honest human being.

I think you would agree that even if I am not right about Fidel he would be most upset with you were you to not forward him this communiqué the instant you finish reading it the first time.

The DAAC are very selective in deciding who shall live and who shall die, and you would know exactly what I mean the instant you were to facilitate a dialogue between myself and any member of this highly dynamic organization; and why not start out with Stephen Cohen of Codiam Inc. and remember to read the draft of my forthcoming email to him; click hyperlink below:

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20atucker-lecturesB.pdf>

Again, you cannot get out of your head one very important fact that will remain in the space between your ears from now until when next meeting up with our most extraordinary vengeful Maker and that is the fact that time is on my side; that with each passing moment the ability for you to "play ostrich" when it suits your "pocket book" becomes increasingly more difficult.

The inability of those who "butter your bread" to collapse the world's capital and financial markets thus forcing the poor to join all the world's "economic drafts" does not change the difficulty all of you, getting more than your fair share of the graft-spoils of diamond tipped drilling bit oil wars, have in predicting the future, so essential to the stability of the capital and financial markets.

So you better understand why it is that you are "pulling your hair out" no different to that kid at college living off their parent-s Trust-Hush-Fund thinking they too are "above it all" as the world gets increasingly smaller thanks to Internet, email and chat sessions.

The fact that I don't respond to all those "congratulating" me for taking on the world's most crooked and as logic would dictate, the world's greatest intellectual midgets beginning with those closest to me who I had no say in them choosing to become corrupt only because they don't want to have to work for a living and use whatever knowledge I share to give them a "competitive edge" even if it means nothing more than sounding "intellectual" to their equally intellectual midgetry friends who easily find "common ground", does not mean I forget these very good people.

At the same time when morons with Ivy League university degrees inform me whilst walking on the beach soaking up all of G-D-Nature's awesome beauty apart from us mostly so very ugly human beings serving mostly as "empty vessels" to enlighten that much more those already enlightened, that back in 1840 a Frenchman remarked that he was impressed with the way democracy was working in the United States and then this Ivy Leaguer goes on to comment that "not much has changed; Americans are very happy with not only their government but the way in which democracy is still working, no different to when this Frenchman commented back in 1840" that had me not saying anything other than asking for the name of this Frenchman so that if Mr. Jeffrey R. Krinsk Esq. of Finkelstein & Krinsk had the time this coming week when visiting the gravesides of US Veterans buried at the Navy cemetery on Pt. Loma, San Diego, he could, assuming he has enough pee remaining in his bladder, go and pee all over this Frenchman's grave which you know to many is one form of respect.

Tell me, would you have bothered informing this full of nonsense highly educated Ivy Leaguer who has yet to provide my wife and me with the scientific evidence that he and his colleagues rely on to keep women down that women are inferior in the math and science, that not long after 1840, some 600,000 Americans were killed in a rather bloody civil war?

Remember again, for 21 years I lived in the United States of America's most brutal regime and you disgusting, so very cheap pimps and prostitutes didn't lift a single finger all the while holding hands as you marched on Washington, "We shall overcome!", enough that you are God dam right you should vomit ad nausea.

How much more irrelevant can you and those who associate with you get?

You are a good "Uncle Tom", who in return for being allowed to live so very well, you have done a mighty fine job in meeting your obligations to give the ignorant masses while playing the utterly nonsense "race card", a false sense of security that there are people out there such as yourselves "fighting the right fight".

Life is only great if you have truth on your side!

Plato didn't get everything right but mostly including the following:

No man should bring children into the world who is unwilling to persevere to the end in their nature and education.

The beginning is the most important part of the work.

The blame is his who chooses: God is blameless.

The greatest wealth is to live content with little.

When the tyrant has disposed of foreign enemies by conquest or treaty, and there is nothing more to fear from them, then he is always stirring up some war or other, in order that the people may require a leader

Gary S. Gevisser

Ps – How much time will you devote over the course of the next 24 hours to figuring what it meant to less educated US Americans when in 1938 freshmen at Ivy League University, Princeton University, polled Hitler as the greatest living human being and Einstein who was a resident professor, second?

You have heard the expression, The Fish Rots From the Head Down!

Estela,

I will see if I can find your new film online as I am always interested in
expanding my knowledge and awareness.

I am located in Del Mar California, USA. FIDEL was a step on a path of
discovery for me. Over the past year, my view of my government and the world
as I knew it has changed dramatically.

I have a close Jewish South African confidant that was once employed by
DeBeers and shared with me the role that diamond currency plays in financing
governments and wars without leaving a money trail. In addition he made me
aware of documents from the US Justice Department that discusses DeBeers
being a major financial contributor to both of the US' political parties.

It takes people not unlike you to step up and share knowledge and
information when it is shared with them; this is why we have put together
just3ants.com, to help bring awareness of DeBeers providing an untraceable
vehicle for financing human suffering for profiteers.

If you have a moment to check out our website I would greatly appreciate
your insight and perspective.

Thanks again for FIDEL and the awareness of your most recent film which I
look forward to viewing.

I hope this finds you well.

Thank you for your time,
Adam
