Gary hello - USA-1-858-735-SEL-NEXT [6398].

Remind me, did we got to Natal U at the same time? How did you get on my email list?

BTW, it is possible you didn't get my last heavily broadcasted email which you can read by clicking hyperlink below:

Not to mention, Devin one of the smartest people I know, emailed me earlier,

Gary:
Your 1st sentence is the best question you have ever asked. IMHO.
Devin

right after I returned from visiting a money making machine cardiology operation.

In my humble, but seasoned, opinion, you will not want to miss my next "insight and analysis" of the important issues of the day as working and lower middle class US Americans will begin rejoicing once getting their arms around in perhaps no more than the first two sentences why they are so going out of their minds worrying about their credit card debt, their homes, those that own, just a paycheck away from being foreclosed on, without a moments rest to simply "kick back" and enjoy me explain their "brutalizing" by money creation artists now coming under the most agonizingly intense spotlight.

Everyone should be entitled to have fun, enjoy what is mostly a hell anywhere in the world if you don't have "money", but notice how you "hesitate" knowing Israeli Special Forces Commanding Officers are not the only ones thinking twice about sending their most brutal killing machine commandos in to "harms way" which has you back once again thinking of the filthy, lazy rich thinking they were going to be able once again to sit out the next most bloody civil war.

So very easy to preach about all the virtues that come from living a "good and honest life" when you have "money" in the bank, food in your stomach, access to clean drinking water, and best of all hoodwinking the poor to fight your battles, best of all on foreign lands and after fleeing to neighboring lands those you haven't killed to pollute the lands with your army bases as "business interests" suck the precious mineral resources dry.

Be sure to have a list of names, preferable email addresses of all those you know who you think have this very annoying habit of usurping their limited authority. What I love most are Rednecks like The IT and those on educated on the far left who in the past are much harder to identify.

Once you figure out "Hitler" then it is as easy as pie flushing all the nonsense talkers starting always with your closest of kin who you will notice the instant you mention my name and know just the fact that you

are in contact with me exactly not only where you stand with them but why most likely you won't want to have anything more to do with them.

You do understand that 1929 was a very good year for the money creation by artists who saw this opening move to the Great Depression well prior to them forming the US Federal Reserve in 1913, one year prior to the outbreak of World War I.

You also understand that if you have any skill including "people skills" you are going to be rejoicing big time just so long as you haven't been greedy, which I very much doubt.

Equally important, you would know that you don't have to be Jewish to understand one most genius aspect of Judaism and it is certainly not "saving lives" but rather once someone has changed their behavior they can never be reminded of their past; although again in my going on 50+ years I have yet to find a single human being who when given the opportunity to grab the money does it half heartedly.

I had planned to end the day on my wave ski, instead I chose to respond to you and at the same time enjoy the company of my great artist painter French-Canadian wife who reminded me that I should have gone out this morning when the surf was really good.

We all have right now all the time in the world to do everything we need to do given how time is now on the side of light.
