Subject: MISS - What if 20 Million Illegal Aliens Vacated America?

Garry, before I forward this rather important article to my entire email list as well as place it up on my www.just3ants.com website, at a minimum, have it be a hyperlink on my blog, can you confirm receiving the email – click hyperlink below - I sent you on Tuesday evening prior to shutting down for more than 24 hours to celebrate my stunning French-Canadian wife's 50th birthday and of course she would prefer that I don't make any mention let alone a big deal of the fact that she looks and feels half her age and of course very self confident to boot; not to mention I have never known any woman including my mother and her very top international models and beauty queens including Penny Coelen, my Royal Mater's Miss World in 1958,

the year Marie Dion Gevisser was born, whose inner beauty is so well reflected in her outer looks.

BTW do you work for Nike, and if so what do you do for them? And if not what do you do "for a living"?

The quicker you get back to me the sooner I will be forwarding this "What if 20 million illegal Aliens Vacated America?" to a great number of folks including the folks at Peace Corp. who you should remember from when growing up in United States of America's Peace Corp. controlled Apartheid South Africa.
