Subject: NOTHING WILL HELP YOU

Dear Sir,

Having run by a handful of trusted colleagues what I sent you last evening who thought it sufficiently "good" that I think about recording it today and posting it as the first free vodcast on our site www.just3ants.com.

In a few minutes President George W. Bush will present his last State of the Union address and in all likelihood he will talk about the multi-billion-godzilla stimulus package without mentioning that for folks like yourself living off a paycheck and relying on your pension fund in your "old age", such a "boost" for the economy is not only coming to come out of your hide, but much sooner than you would have ever expected.

Remember constantly, the Chinese who own still large amounts of our worthless-fictitious De Beers-US Treasury Bills still set the scholastic levels wherever they go and can still at any time be willing to walk away from their investment in US Treasury Bills which they knew were totally worthless when they first began buying US Treasury Bills all the while perfecting their ginormous economy that currently fuels the world economy for the time when China can simply forget the US economy, a fraction of the size of hard working Chinese people, and focus on China's own market without a care in the world about inflation given how their revalued currency will afford China oil from the rest of the world at a fraction of the price China is currently paying.

I also suggest you watch the movie America Freedom to Fascism that is available free over the Internet. You can begin watching it immediately by clicking on the hyperlink below:

<http://video.google.com/videoplay?docid=5355374476580235299>

There is one scene involving a former Commissioner of the Internal Revenue Service who uses Yiddish to intimidate the producer of the movie who just moments before had flushed out this corrupt lawyer Sheldon Cohen, who also Chief Counsel for the Internal Revenue Service and when he "retired" from this rather "Money Power" job joined a prestigious Boston law firm.

As Mr. Cohen who we can all assume is Jewish, begins to fall apart, caught "red handed" with all his lies and obfuscations, he then threatens the producer, "You understand Yiddish, Set-Jer-Gornichst-Helfin" without bothering to translate in to English, "NOTHING WILL HELP YOU"

Suffice to say I relied on my friend Mr. Sidney Abelski Esquire whose parents were both imprisoned in the death camp Auschwitz to provide the exact Yiddish since mine is very "sketchy", certainly not as good as my Hebrew which is nowhere near as fluent as when I was in my mid-to-late teens when I would be mostly thinking as well as dreaming in this rather precise language.

You shouldn't have to be Jewish to feel the most extraordinary shiver going up your spine when hearing such outlandish verbiage especially in the context of this investigation by a person simply seeking the truth from a senior US Government official who moments before pleaded, "You caught me unprepared".

Most of us non-fanatical Jewish people while not talking much about the Jewish Kapos who the Nazi SS relied on to "maintain order" in the death camps of World War II, have not forgotten either.

....

As you may have gathered I have a "number of things on the go" that include taking care of my healthcare needs following my recent passing of a very painful kidney stone when the heavy pain medication could have damaged my heart although I am currently feeling rather well, my pulse in the low 40s, very possibly now added a pound or two without necessarily raising my body fat percentage much above 10%; most importantly my wife has yet to suggest I invest in a dildo.

Constantly in my mind are many of my mother's teachings beginning with, "Sticks and stones break bones but words kill".

Establishing "priorities" when you know as much as I do about how the "real world" works, most of all how the smartest and most devious minded people think is really not in the least bit difficult bearing in mind you should by now be sufficiently "up to speed" to understand that the principal focus of the world's ruling elite has been ever since the discovery of gold in South Africa in great quantities, relatively speaking that is, in the latter part of the 19th Century, to grab, relying exclusively on the barrel of a gun, all the world's harvested gold and to then "judiciously" grant themselves the mining rights to the gold buried underground.

Consequently, all that one has to do apart from "complying with the law" such as not parking in an illegal parking zone unless willing to pay the fines and feeding and clothing oneself all the while having a roof over one's head and of course an internet connection, better yet a fast reliable connection which I currently do not have but know what I need to do if the internet connection I currently have proves too cumbersome, is to focus on just two things:

First, the trading of gold.

Second, the reaction of the United States Government to that ingenious Israeli Military Intelligence report which spells total doom for the US economy outside of the US Government continuing to be able to get our poorly paid military service

people to wage war on the world's poor who are increasingly wired and in far better physical and mental shape than our very drug crazed young people having to deal with the reality of the world not just United States citizens waking up to the truth beginning with the American people having been so hoodwinked by our so very corrupt government.

Three, those same as well as retired US service people not joining the rank and file of the hard working poor and demand a full accounting by the 3 Branches of the US Government of the gold they have stolen from around the world and chosen not to share with US American citizens which we in turn can use as a bargaining chip when the Chinese come over here with their much more valuable currency and take our jobs.

The historical use of brute force rather than civility and logic by the US Government is a fact of life that simply cannot be ignored in this digital age bearing constantly in mind that folks like Israeli Special Forces Commandos and their unit commanders as well as higher ranking Commanding Officers all today intimately familiar with that ingenious Military Intelligence of all time, maintain their "edge" by virtue of Israel's over-the-top ability to gather intelligence, their sources fully aware that in the event of a "foul up" the State of Israel will not wait for a green light from the White House before taking their "vengeance".

You would do well to watch SPIelberg's epic 2005 movie-docudrama MUNIch that begins with this Jewish Hollywood blockbuster producer-director providing a 5 minute introduction that to the "casual observer" comes across as "harmless", and possibly just a little self aggrandizing which most would "excuse" given how SPIelberg comes across as a "nice Jewish boy, family man and so very charitable" and besides he also has going for him his Hollywood celebrity status and like the rest of the De Beers-Hollywood elite has "mouths to feed" and besides a pretty convincing argument would be,

"So what if he feels the need to make much ado about nothing, since he can afford to. He has the big bucks".

As you, however, examine his verbiage through the eyes of a very well trained intelligence officer the first question you have to ask yourself is why even mention, in the first minute:

George Jonas' book [Vengeance] which by the way has been in print since 1984 and it has never been discredited; it has been attacked by various people, by ex Mossad agents and even one of the Black September terrorists. But being attacked isn't the same as being discredited, plus we did our own research and I am very comfortable with having used the book as a source.

Just that verbiage alone should be enough for anyone you believe to have "common sense" to conclude that it is extraordinarily bizarre for anyone let alone a Hollywood director-producer with no intelligence training, feeling the need to "adjudicate"

what it means for something or someone to be "discredited" let alone suggest that if certain "intelligence" has been "attacked" by "ex Mossad agents" that such an "attack" by Mossad agents, far more skilled in the Mossad's way of doing business; i.e. "By way of deception we wage war", is disingenuous.

Mr. SPIelberg, I contend, wanted to do this introduction as much as he wanted to have a Mossad bullet fired into his head but he had little choice bearing in mind that he had already finished filming the movie that contains certain very important truths that would only be known to members of the several Israeli hit squads that became fully operational following the 1972 Munich Olympic massacres that resulted in the brutal deaths of 11 defenseless Israeli athletes, beginning with certain problems these hit squads encountered in the field that had them questioning their intelligence, not from "foreign sources", but from what they believed to be "breakdowns" within Israeli Military Intelligence officers who operate in high profile establishments such as Israeli Embassies where workers can be very easily observed going to and from work and when on their "own time" are highly susceptible to being co-opted-corrupted both wittingly and unwittingly, the same with their "loved ones".

Not to mention yet again that I arrived on Kibbutz Sde Boker on September 1st, 1972, some 3 days prior to the start of the massacres and then some 57 odd days later, on November 1st, met for the first time with David Ben Gurion, who although "retired" now for the second time as Prime Minister of Israel still had the Mossad as well as his most trusted consigliores reporting to him on a regular basis.

To mention little also of how Ben Gurion who hadn't forgotten either the Jewish Kapos or the Suzannah Operation of 1954 when the lead Israeli Military Intelligence officer in charge of a covert military operation in Egypt "turned" most likely even before the start of the operation that resulted in the capture, torture and in some cases execution of his fellow Israeli officers, decided that the only way to avoid "rats" was to run "black" as well as "double black" operations while when necessary reminding "field officers" operating on foreign soil of Ben Gurion's willingness to kill fellow Jewish and Israeli soldiers in order to maintain "command and control" as what was done in the Altalena Affair which took place within a month of the start of Israel's most brutal War of Independence which both the corrupt British and American Government did not believe would last more than a few hours.

To mention in passing that Ben Gurion's name is mentioned at least twice in MUNIch given how the De Beers sponsored PLO had twice attempted to assassinate him causing not only Ben Gurion but those closest to him to take a very "special interest" in the not in the least bit top secret decision for these hit squads to leave the most "indelible impression" on their targets that the State of Israel understands perfectly that the "rule of law" does not apply at all to the United States Government, the most lawless nation in the history of world when they don't get what they want beginning with tyrants who forget who butters their bread including US Presidents such as President John F. Kennedy.

Mr. SPIelberg also gets it absolutely perfectly right that American intelligence officials interfered with at least one of the most important "hits" as well as at least one member of the Israeli-Mossad hit squad losing their life to a "honey flower", a female assassin posing as a Dutch prostitute who in the movie eventually got her "comeuppance", courtesy of once again reliable intelligence being provided to the one Mossad hit squad, not by Israeli Military Intelligence or for that matter the Mossad but by ruthless but "caring" members of the remnants of the French Resistance, devout Roman Catholics who have their own internal conflicts but are unified in their respect for Israel's best and brightest executing pretty much flawlessly Israel's Foreign Policy of, "two eyes for an eye".

But Mr. SPIelberg gets it absolutely dead wrong when suggesting that the Mossad pays for weapons let alone intelligence; moreover, that the Mossad would spend vast sums of money, albeit US Dollars-Treasury Bills that would "open up" those sitting on such large sums of money to all sorts of the most vicious "attacks" including an audit from the Internal Revenue Service, when all the Mossad agents would need to do in those totally unknown situations as well as impossible to imagine scenarios when they would need to purchase intelligence and weapons including C4 plastic explosives, is to pay with either Diamond Currency that is unlimited in supply, untraceable, lightweight, never inventoried and always price fixed at more than a barrel of oil or the barrel of gun but again only when their most "wired" Special Forces units are not tapped in directly to the source.

The Mossad have not forgotten that the United States of America was "no friend to the fledging state of Israel" from its very beginning.

The Mossad didn't need to read chapter 9, Diamond For Hitler, but of course they have just like you and millions of "ordinary civilians" who can understand that the Mossad not only understood what De Beers accomplished with their untraceable Diamond Currency but had beginning with Israel's extraordinary victory in its War of Independence, the "muscle" to follow in this "mafia of mafia's" footsteps and with each passing moment exact their vengeance on De Beers who profited so very handsomely by the extermination of some 6 million of our Jewish brothers and sisters during the Holocaust of World Oil War II.

Mr. SPIelberg would be hard-pressed to argue that he doesn't have the time or inclination to produce-direct, The Diamond Invention and so bite the hand that feeds him, no different to Al Quaida choosing so very carefully not to attack the oil fields of Saudi Arabia, Kuwait and Qatar.

Again, Mr. SPIelberg has been a relatively significant holder of US Treasury bills.

Mr. SPIelberg deserves great credit from the US Treasury Department for his so vocal and visual promotion of De Beers backed US Treasury Bills that have never benefitted the State of Israel.

Israel needs peace not weapons of war that are traded between it warring neighbors and the United States of America awash like their tyrants surrounding Israel, in worthless De Beers-Dollars.

There is as you can see very little difference between De Beers and the US Treasury and US Federal Reserve, made up of non-elected government officials whose loyalty are to private bankers who represent the world's elitists.

The instant you begin watching America Freedom to Fascism so you instantly begin to realize that I am not "extreme", not even close.

Moreover, you find yourself having very little negative to say about countries like China, even Mexico whose tyrants don't serve the best interests of the Mexican people or for that matter the average American citizen who has no say in what the corrupt US Government decides to do beginning with which Mexican tyrant serves their DAAC agenda which by now you might know by heart:

Take the money or open a taco stand!

It stands to reason that everything I have to say which can be proved beyond a shadow of a doubt smoothes out all the extraordinarily few "rough edges" of America Freedom to Fascism, again a very excellent production, that only "falls short" in failing to follow the "money trail" that led to the illegal formation of the US Federal Reserve in 1913, one year prior to the outbreak of the first World Oil War.

So who would you want managing your pension fund, China, the new superpower or the lawless United States Congress who don't even abide by the decisions of the United States Supreme Court?

All the best,

Gary Steven Gevisser
