Keren – add to your answers to my 6 questions what you think Mr. Bellows means by my, “post of our discussions have already done irreconcilable damage”.

Not to mention so proprietary was the “sensitive” information but not proprietary enough for him to keep it to himself, at the same time sharing such knowledge of fraud being perpetrated by AIG and the US Government on not only American citizens but the so poorly informed citizens of the world that now affords Mr. Bellows the luxury of not only continuing to be employed by this DeBeers corrupted rather large financial institution but in the event American International Group were to terminate Mr. Bellows he would have one most extraordinary “wrongful termination” lawsuit sufficient, I think you would agree, to bankrupt the already bankrupt AIG along with their sister public corporations Marsh & McLennan and ACE Ltd.

Pease afford Mr. Bellows the same protections afforded your best and brightest “informers”.

BTW were you aware that to eliminate the sourness of say a grapefruit one adds salt, not sugar? I learned this at the checkout register at Albertsons where I was buying the freshest mushrooms for our “going to so yummy” Mushroom soup with caramelized onions, Marie Dion Gevisser just adding, “I am not so sure I want to add the spinach at this point. I am going to have to have Merna taste this one.”

Of course I assume you are following along with everything else going on in my very “colorful” life.

Earlier today we visited San Diego Natural History Museum where we saw a rather well put “to-get-her” [sic] showing of the Dead Sea Scrolls and just as we entered the exhibition we ran into Israeli Special Forces paratrooper Clive Gurwitz who you will recall not only fighting in the 1967 6 Day War but whose now deceased father Julius was my highly secretive Royal Mater-Mother’s lifetime rather brilliant South African-Israeli lawyer.

Assuming you have the time to respond prior to my follow up tomorrow with President George W. Bush where I will begin with a side note to your boss, Ami Ayalon, assuming of course I don’t hear otherwise from you, please let me know what you think of the top story currently in Drudge Report, [EXCLUSIVE: NEW BUCHANAN BOOK DECLARES 'END OF AMERICA'...](#)

Subject: De Beers - Diamond Currency

A close confidant of mine was formerly employed by De Beers through a US based company called Codium Inc., out of New York. My confidant attended closed door meetings conducted between Stephen Cohen of Codium Inc. and Martin Rapaport of the RAPAPORT REPORT, a US publication that distributes the price of cut diamonds for the US whole sale diamond market.

We have started a website to help bring public awareness to the systemic corruption and control that De Beers has using its untreatable diamond currency, which for example gives them control of the oil industry which would be unable to operate without diamond drilling bits.

Please visit our website and tell us how we can help each other stop the genocides.

Dear Adam

Plases tell Gary thank you for the invite below - but I cannot engage in any further discourse with him - his 'posts' of our discussions have already done irreconcilable damage

It is not his cause(s) nor my opinion of his assessments or judgment - it is his lack of professional decorum and insensitivity to the very strict big brother oversight that has beset my industry - especially the very sensitive position I am in - which leave a zero tolerance and absolutely no latitude in matters of perceived confidentiality where the mere suspect of impropriety in the discussion of discrete matters is even a remote possibility where perception alone becomes the precedent

I can only trust that somehow you can make him understand my position - and hope that he will afford me the courtesy that our long time friendship warrants

I wish you both the very best

Subject: 420 OUR MAN ROGER-DONT WORRY AMERICA, ISRAEL IS BEHIND YOU.

Ron - I understand from Adam, fast waking up to why it is that fam~~ily~~ members are more concerned about what strangers think than caring for their own, now operating off a "sister" network to the one I am on, albeit he and I less than 6 inches separating us here at the cliff house in Del Mar which you have yet to visit, that you sent him an email the other day in which you told him,

"Please let him [Gary] know that I hope he is well when you next speak."

There is something you can do to help keep me "well" and that is to pull out stops in getting everyone you know and that includes each and every one of your two kids' friends as well as their families to read about all that is going on at www.just3ants.com

While it is currently not as inviting as one of those "killer" video games that attract not necessarily the "best and brightest" amongst us, I am quite convinced you can use your imagination to come up with ways to improve just3ants.com's "attractiveness".

So far there is no video, let alone "live video" such as what I filmed a little earlier showing a school of dolphins frolicking amongst two surfers on paddleboards much like my "butt" wave-ski but unlike a waveski which one sits on top of, these latest paddleboards have the surfer constantly standing while holding a paddle with one end in the water acting as both a propeller and rudder, something I have to try although Joe Blair, a legend local shaper, has offered to take me out on one of his latest masterpieces. Perhaps Joe could send me a hyperlink to his website which I will then place up on just3ants.com or any one of my other 100 or so websites in various stages of construction from the "bottom up".

Not many people in the world know how far back you and I go which is not close to how far back I go with pothead deluxes, right winger Roger W. Robinson and left winger King Golden Jr. Esq.

Allow me now to give you a "quick and dirty" bio of "Our Man Roger", picked up off the U.S.-China Economic and Security Review Commission and which was taken down within a matter of hours of me beginning to bring Public International Attention to DeBeers' master spy banker Roger W. Robinson who I have known "intimately" since prior to him leaving DeBeers controlled Chase Manhattan Bank to join the National Security Council in March 1982.

[Roger W. Robinson, Jr., Vice Chairman](#)

Vice Chairman Roger W. Robinson, Jr., was reappointed to the U.S.-China Economic and Security Review Commission by Senate Majority Leader Bill Frist on May 7, 2003,

for a three-year term expiring December 31, 2005. Mr. Robinson served as the Commission Chairman from October 2002 through July 2004, and was unanimously approved on July 19, 2004, as the Commission Vice Chairman for the 2004-2005 report cycle.

Vice Chairman Robinson is President and CEO of Conflict Securities Advisory Group, Inc. (www.conflictsecurities.com), a Washington, D.C.-based company that offers impartial research and advisory services in the field of global security risk management (i.e., the links of publicly-traded companies to terrorist-sponsoring states and proliferation-related concerns). He is also President of RWR Inc., a consulting firm established in 1985 that provides strategic planning services and analyses of breaking geopolitical developments that could potentially impact on international equity, debt, and currency markets.

Prior to forming these firms, Vice Chairman Robinson was Senior Director of International Economic Affairs at the National Security Council. He worked at the White House from March 1982 until September 1985. Between January 1984 and April 1985, Vice Chairman Robinson also served as Executive Secretary of the Senior Interdepartmental Group-International Economic Policy, a Cabinet-level body that reported through the National Security Council (NSC) to the President. As Senior Director, Chairman Robinson had responsibility for all economic, financial, trade, and energy relationships of the United States worldwide for NSC.

Prior to joining the NSC staff, Vice Chairman Robinson was a Vice President in the International Department of the Chase Manhattan Bank in New York City. As a banker, he had responsibilities for Chase's loan portfolio in the USSR, Eastern and Central Europe, and Yugoslavia for five years. He also served for some two and a half years as a staff assistant to former Chase Chairman David Rockefeller and earlier on assignment with the Chase branch in Tokyo.

Vice Chairman Robinson has published extensively on security-related risk in the global capital markets and earlier on East-West economic and financial relations. He has served as an expert witness on numerous occasions before both Senate and House committees. In addition, he is a frequent radio commentator and makes regular broadcast media appearances.

Vice Chairman Robinson holds a B.A. from Duke University and an M.A. in international affairs from the George Washington University. He served for some seven years as a member of the Board of Visitors at the Sanford Institute of Public Policy at Duke University and presently serves on other Boards. Vice Chairman Robinson is also co-founder of the Prague

Security Studies Institute in the Czech Republic.

First you will note that American-Israeli spy Jonathan Pollard was caught and then sentenced to life imprisonment while "our man Roger" and his cohort Sec. James A. Baker were in full command and control of the White House during "Our Being There" President Ronald W. Reagan's first administration where the daily "call to arms" was "Soviet-EVIL empire".

Not to mention that also born on the same day but 40 years apart, President RWR and "Our Man Roger" RWR who made it patently why King and I as well as Ms. Valerie Schulte Esq., a member of our inner circle, not to forget Guy De Chazal of Morgan Stanley and then of course Gi at the European Bank for Reconstruction and Development, should consider Sec. Baker as,

"The most dangerous person in the world".

To mention little of deep DeBeers' mole counterintelligence FBI agent Robert Hanssen who played a significant role in both Jonathan Pollard's capture and sentencing, was finally apprehended on February 20th 2001 and remains alive today and his family living on his DeBeers pension because he accepted as part of his payment for "offering up" other spies also playing all sides, diamond currency.

To mention in passing my very first Letter to the editor of the Jerusalem Post under the command and control of Israeli Military Intelligence got published some 3 weeks prior and drew quite an audience since it was an open letter to Israeli-American spy Jonathan Pollard

You will notice that when you place your cursor over the title, Roger W. Robinson there is a hyperlink to a non-operating page of the U.S.-China Economic and Security Review Commission.

The next thing you will notice when of course reading his bio from the bottom up is that the current chairman of this rather highly deceptive and "troublesome" group also went to Duke University but unlike "Our Man Roger" who went on to George Washington University, Ms. [Carolyn Bartholomew](#) got her J.D. from Georgetown University Law Center and is currently also a member of the State Bar of California.

Ron, perhaps I went on a little too long, in part because I am working on a number of other things including corresponding with other friends of mine in different parts of the world who for good reason prefer not to use email when communicating with me.

Suffice to say, you would understand while I respect your wish not to comment on Edward Jay Epstein's most fascinating internet only non-fiction novel, The Diamond Invention, that with Loylds Insurance of London accepting as "legal tender" Diamond Currency that is priced fixed by DeBeers, the counterfeiter of counterfeiters, at always more than a barrel oil, there is "credence" to my "position" that DeBeers controls the world's insurance market no different to the world's stock and real estate markets.

While you and I in the nearly 11 years we have known each other, meeting on many occasions where we also found time to simply "shoot the breeze", never once did I get into my most intimate knowledge of how the DeBeers-Anglo American Cartel get to not only see but "vet" each and every Wall Street deal "worth talking about" given how using their unlimited supply of untraceable, lightweight and never once inventoried Diamond Currency first used to bribe elected and unelected government officials to never fully apply the world's sacrosanct anti-Trust/anti-Monopolies/anti-Price Fixing laws against this Monopolist of Monopolists, special interest of special interest group and with the "remaining balance" to buy all the opposition again "worth talking about", this banker of bankers also own each and every law firm in the world, again "worth talking about" who make it their business to inform the DAAC well ahead of their "best and brightest" legal eagles giving the "green light" on each and every Wall-47th Street deal, again "worth talking about."

You will recall that you and I first met in Las Vegas, Nevada in early January 1997 when Chief Executive Officer and Chairman of the Board of AIG, Maurice Hank Greenberg instructed your boss at the time, Bill Frye, to send out his "best man" to "kick the tires" of the medical device company I was running at the time that both Hank and Thomas Tizzio, AIG's President, thought might be an excellent "fit" as in "acquisition target" and hence why it is that immediately after my less than 30 minute phone conversation, on or around December 11th, 1996, with Hank who in a matter of minutes brought Tizzio on to the line, these two very top dogs of the world's largest financial institution summoned Bill Frye who was American International Group's head of Mergers and Acquisitions.

This time I am giving more details in order for the U.S.-China Economic and Security Review Commission to pay very careful attention to my "bone fides" so as not to "jump the gun" although you would think they have already figured out to send out a team of assassins might not be their best choice with me choosing very carefully to carbon copy both the Mossad and Keren at the Office of the Israeli Department of Defense Attache at the Israeli Embassy in Washington DC., a stone's throw away from the "bandit belt" a name given to all the US Offense-Defense contractors who congregate in that "neck of the woods" and whose business model on the one hand has them having their one hand out and the other pushing buttons starting all sorts of the most uncivil civil wars in mostly foreign lands which for good reason have yet to reach the homeland of the USA.

This would be a good time, I think you would agree to have me explain in simple English the reasons why we have Anti-Trust laws in the first place.

The Kings and Queens of old would compensate their best warriors by handing over lands "won" in combat.

Such stolen lands including rich mineral resources would then be handed down to the heirs of those warriors unless of course another King and Queen defeated their rival and those "stolen" lands would then go to another warrior and their offspring until eventually everything "balanced out" and the masses no longer fighting

amongst themselves having got rid of all their weapons then went on to live happily ever after.

We are not quite there, but much closer than you might possibly think.

Let me explain.

After the Kings and Queens of old got fed up and tired of this merry-go-round of "Let them eat cake" they, the ruling elite with the biggest guns, decided it was necessary for all of them to be part of one, possibly two superpowers who in turn would have mid-level superpowers such as the French, Germans etc etc who could also be allowed to have their own strategic nuclear weapon systems as well as a "standing army" so long as they had an unemployment problem.

Paying for each superpower such as the Soviets and the United States to have their toys as well as the rest of NATO to be also allowed to engage in their own "war games" could be accomplished in a myriad of ways.

Let me explain.

Money has been around for thousands of years, that is non-paper money as you see below growing on trees.

Precious metals such as gold and silver go back also to Biblical times.

Beginning at the end of the American-Anglo Boer-Farmer War of 1899-1902 a problem developed since the atrocities committed by the American financed British armies when placing Afrikaner old men, women and children in to Concentration Camps, and some 20,000 of them as well as 10,000 Black South Africans dying of thirst and starvation, began reaching the increasingly better educated British masses whose conscience told them it was wrong; moreover, if maintaining the Holy Roman British-American empire meant such brutality on the foreign battlefields then "to hell" with the entire concept of "Empire-Nation building".

Yes, that phrase, "Nation building" doesn't quite sit as well as it used to.

The Kings, the Queens, the ruling elite, all one and the same, realized the need to "hoodwink" the increasingly aware, technology savvy masses.

The ruling elite knew not only their art but the history of money beginning with the fact that whenever a ruler stopped backing their currency with gold it was just a matter of time before both their currency and economy would collapse, "overnight".

Consequently the ruling elite with no loyalty to country or religion just to taking care of one another, stealing the world's gold - he who has the gold makes the rules - without any of them having to break a sweat while "living the good life", decided to follow "scripture".

Let me explain.

When you tell a kid with hormones not to have sex, the kid increasingly wants sex.

The ruling elite and the corrupt church, all one and the same.

To promote, "Love of money" was made easy by the corrupt church, academia, the new corrupt church and the ruling elite, all one and the same.

Handing out money through big government programs goes back to the beginning of time.

First one stops promoting precious metals such as gold and silver as currency but continue printing money 24/7 while allowing the masses to love more and more this "love of money" so vehemently condemned by the church who also employ individuals who understand "reverse psychology".

And so long as there is enough land, water and oil to go around for everyone to OWN their own home, brand spanking new BMW, everything is honky dory, no need for backing of the currency being printed and dished out 24/7.

So long as, however, there does not come along an "upstart" King and Queen with their own "big gun" who instead of "playing the game" and joining the rest of the ruling elite having a grand old time, "playing business", starting one civil war after the next, one refugee crisis spurning in a neighboring land yet the next civil war while the first civil war in Iraq calms down, the masses either dead, dismembered, shell-shocked or better yet refugees in neighboring lands putting increasing pressure on the Euro.

Well you get the picture, although not quite.

Let me explain.

The Diamond Invention spells out rather clearly that DeBeers are the world's #1 banker as well as military mite so long as everyone who is anyone goes along with their utter brutality and incompetence.

You know that I am not incompetent and I am very potent because of the fact that I know, versus believe, that I am not omnipotent.

The importance of owning one's own home is very much an "American thing".

Between 1850 and 1950 the price of real estate remained flat along with population growth very much under control.

A life of leisure brings on inevitably boredom as well and so producing kids works for the rooster as well, as well as the wife who also gets fat and ugly wanting to avoid sex like the plague.

rights in Hong Kong, fits in perfectly well with that ingenious, hard to get out of the subconscious not so top secret Israeli Military Intelligence report.

Feel free to repeat it to yourself right now, but just once.

Of course you would notice in my father's 60th mission dive-bombing the crap out of the DeBeers Nazi bastards in his Kitty Hawk that he shared with 3 other Allied pilots, that he only pulled out of his dive some 50 to 100 feet above the houses, all the while scoring a "D/H - Direct Hit"; Bernie Gevisser's skills and experience during his 71 odd miraculous missions not lost on those who he flew alongside including Syd Cohen,

Jan. 1945

The person hiding behind the beard is Syd Cohen, who is also a pilot in our Squadron - he is really a fine fellow. We had a slight fall of snow on this particular morning

a founder of the brutal Israeli Air Force and Commander of Israel's first squadron during Israel's War of Independence which the Jewish Underground, headed by

David Ben Gurion knew would be, "fait accompli" immediately after DeBeers controlled President Franklin D. Roosevelt met on February 14th 1945, a month after the photo of my father and Syd Cohen was taken, with Ibn Saud of the House of Saud on board the USS Quincy in one most extraordinary photo shoot, all aimed to send the clearest "shot across the bow" of David Ben Gurion and Co. that if the Jewish people continued to insist on their own homeland and force the hand of the United States to have the United Nations grant Israel statehood then Ben Gurion and Co. could look forward to the House of Saud,

"armed to the teeth".

Yes, I know you were thinking when first seeing a clipping out of my father's two logbooks and the photos of him and buddies from Squadron II, that I would lose all those suffering from Aspartame, ADD as well as Absent Parenting Disease.

Not to mention Israel has never stopped for a moment "being at war", the 1956, the 1967, the 1972 massacre of 11 defenseless Israeli athletes at the MUNICh Olympic Games, the 1973 Yom Kippur War, all one very awfully bloody "war game" that has the State of Israel being the United States', "first and last line of defense-offense."

You may recall seeing "sum" [sic] of us wearing T-shirts from the 1970s that read on the back right below an Israeli fighter plane:

Don't worry America, Israel is behind you!

Not everyone in the United States owns their home, most are still renters and that includes our very poorly paid and trained military personnel increasingly wired and increasingly intolerant of Commanding Officers who fail to tell the truth, the whole truth and nothing but the truth.

Not everyone in the Peoples Republic of Communist China owns their own home and the PROCC is an economic powerhouse that is fueling the world economy.

Not everyone in the United States who is my age is capable of even being a halfway competent street fighter let alone equipped to go to war with the 1.5 billion strong Peoples Republic of Communist China's Special Forces trained for several decades now by the very best of the best of Israel's most elite Special Forces units, and I would know.

Now also tell me how much you are enjoying your thanksgiving today also remembering to comment on what I sent out earlier; click on hyperlink below:
