Subject: "CONCENTRATION CAMP, PRINCETON" - EINSTEIN - [Nuzeds] [News] Timely Response

Ms. Kwan – more than 24 hours have now gone by since I last attempted contacting you when following up on what Adam Tucker wrote you in an effort to have you publish an article that would serve to educate-enlighten your students that their professors may not be in a position to discuss for example the “Rape of Darfur”; the rape of the women more so than the chopping off of heads and limbs of the men, an extraordinary effective but rather inhumane way of extermination of a “troublesome people”.

It is perfectly understandable that Professors wouldn’t touch with a 100 foot pole, not so much in discussing that when the women of Darfur get raped the men of Darfur don’t touch them with even a 100 ft pole thus bringing to an end their breeding, their culture, their way of life, their survival to focus attention on this most barbaric genocide ever invented by western humankind, the oxymoron of all time, but why such truths of man’s inhumanity to concentrate on murdering to the last one whose lands have been stripped bare of rich mineral resources, gold, oil and the like, were not lost on kind, but telling it the way it is Einstein whose 3 words, “*Concentration Camp, Princeton*” speak volumes not only to your ongoing “deafening silence” but those of your sister newspapers such as Prince News.

The genocides are perpetuated by keeping the students ignorant to such truths.

Bear in mind that time is now, given the “critical mass” I have achieved, very much on my side, the “side of light” as I effortlessly 24/7 using the Internet shine the brightest of spotlights on those with “blackened hands” who serve the interests of a rather “obscure” but highly dynamic organization, the South African based, DeBeers-Anglo American Cartel [DAAC] who have for more than a century now, “interfered with the light”.

I would know, not only because I spent the first 21 years, shy of one week, living in DeBeers’ Apartheid South Africa but because during this time I had the opportunity to travel many times to both Europe and Israel where I was back in the fall of 1972 when DeBeers sponsored PLO terrorists brutally murdered 11 defenseless Israeli athletes causing David Ben Gurion who had previously survived two assassination attempts by DeBeers financed-sponsored PLO terrorists, to activate not only Israeli based hit squads but more importantly to implement in protecting them, lessons learned from the debacle of Operation Suzannah when back in the summer of 1954 yet again a Jewish person sold out another Jewish person, although when you are talking about not only “life and death” but the health and lives of Israel’s very best undercover agents the significance of “brother selling out brother” is a little more serious, wouldn’t you agree?

At least equal in importance I twice had the opportunity to take over from my uncle David Gevisser as the American head of the DAAC.

Coupled with my opportunity at a very healthy and most fit 15 to meet on November 1st, 1972 with David Ben Gurion who while “retired” to Kibbutz Sde Boker was still the head of the Mossad, Israel’s intelligence institute whose motto for many years, “By way of deception we wage war”, was a lifetime of listening to my mother explaining, “**the problems of the world relayed in her [paternal grandmother’s] presence and the solutions to many of these problems.**”

My mother Zena Rosland Ash Gevisser Zulman also impressed upon me, "If you are not part of the solution then you are part of the problem" which helped greatly in getting me to "only speak when spoken to" and "to hold my peace".

"It is better to keep quiet and let people think you to be a fool than to speak out and remove all doubt!" – Proverbs

By age 15 I perfectly understood the motto of the Mossad and already knew how to assemble and disassemble both an AK 47 and Israeli made Uzi submachine gun "in my sleep", given how my very non-Jewish looking very Jewish mother when I, her 4th and last, was born after 8 miscarriages, "***made up her mind that they [her 4 children] must be trained to live outside of the country and sadly the land of their birth.***"

I am while looking at both data showing the trading of currencies and text messages being sent to me over the Internet "cutting and pasting" from my mother's very carefully crafted autobiography titled, "***Life Story of Zena***" which she began sending via email on October 9th, 2001, the day after I sent her a message that I had attended a very important board meeting of

a not all that well known private company that was being held in the office next door to the chairman and Chief Executive Officer of a rather well-known Real Estate Investment Trust corporation actively traded on the New York Stock Exchange, and the fact that this chairman and CEO was also the chairman of this private securities and lobbyist corporation was of course no coincidence.

Like my mother, I didn't need everything to be perfectly spelled out in "black and white" given how I was mostly raised by my highly secretive and beyond brilliant mother who in turn was raised by her father's mother, the sole survivor of a pogrom which wiped out Nechie Badash's entire immediate family.

Nechie Badash and David Ben Gurion, the first Prime Minister of Israel and who beginning in December 1949 had the Mossad report directly to him, came from the same tiny village of Plonsk, White Russia-Poland.

The ingenious Israeli Military Intelligence report which the Mossad nor Israeli Military Intelligence have yet to refute and nor will they is of course both easy to understand and ingenious and will remain as part of your subconscious the remainder of your life as it will each and every one of us.

There is this thing which my mother and I refer to as "Ancient Energy" that comes from us coming from a long line of traders.

I am nothing more than a messenger but one who does not scare easily; in fact I fear not a single living thing apart from G-d whose name I do not use lightly given His-Her omnipotence.

Academia is nothing more than the new corrupt church and it is time for you all to fess up to your sins or face overwhelming and superior forces of light.

Lack of knowledge—Information-Light-power, power to change the world stems from humans being lazy and fearful from embracing the truth.

The truth is too disrupting for some people too busy keeping track of all their lies from day one.

Your lack of knowledge-light is betrayed by your silence.

Academia's only chance of survival is to continue with your violence but then again I am alive, fit and well and look forward to anything you throw my way knowing that whatever negative energy you put out will come to me only as positive energy, albeit in spades.

Provide me with a forum to go up against your very best and you will see how very quickly I speak the truth just by their deafening silence.

Would you see me as more credible if I were to just enroll as a student at MIT where not only would I pass the required entrance exams but in all likelihood I would be able to get Dr. John K. Pollard to write me a "Letter of introduction" even though he might be upset about having to take a "rain check" on dinner here at our cliff house perched atop the bluffs of Del Mar, CA.

Ms. Kwan,

I wish to follow up on my colleague Adam Tucker's prior communications. Earlier I had left a phone message.

Would this be a good time?

Gary

Joyce,

Several weeks ago a close confidant of mine began speaking about an ingenious Israeli Intelligence military report.

I would prefer his name remains anonymous, at least for the time being, bearing in mind it is the substance of his knowledge that you will see is not only credible but extraordinarily timely.

This individual is very much in touch with Israeli Military intelligence and has been since he was very young even though he is not Israeli and nor was he was born in Israel, in fact he is a US citizen and lives in the United States with his French-Canadian wife.

The intelligence report that he shared with me reads as follows:

Immediately following the 2008 Beijing Olympic Games, Al Quaida will launch a series of attacks on the oil fields of Saudi Arabia, Qatar and Kuwait that in the next instant will paralyze the US economy.

There are several aspect to this very easy to understand report that even if one of your writers were to "dream it up" it would make perfect sense, begging several important questions beginning with "why hadn't I thought of it?" followed immediately by, "Why hasn't it happened given how it would be so very easy for Al Quaida to attack say a sitting duck oil supertanker fueling up at a sitting duck deep sea oil rig?"

All depending on your skills and experience in "intelligence gathering" you would be able to take longer or shorter in "cutting to the chase".

Once you focus on how easy it was for Al Quaida to hit the Cole using very unsophisticated means to deliver a non-nuclear and very non-sophisticated relatively speaking missile fired from a rubber dingy so your next thoughts

go to the extraordinary level of non-sophistication used during the 911 attacks where were it not for the hijackers using box cutters what would Homeland Security have done for either an "encore" or to justify the buildup of more of our out-of-control industrial-military-complex that produces more Coles and more of a presence in the Middle East where we don't currently get any of the oil needed to satisfy our shortfall of some 4 million barrels of oil a day.

On the other hand none of us knows for certain exactly where we get our oil but one thing is for sure we certainly know what price we pay or so we think.

This leads to Albert Einstein in January 1934 to write as the return address on the envelope he was mailing, "Concentration camp, Princeton."

Those 3 words when considering Auschwitz and the such hadn't been built should be nothing short of bone chilling, all depending.

Again, Israeli Military intelligence is very much "up to speed" on everything that I have written above and which has been "vetted" by my close colleague.

Equally important, is the well known fact that Israeli military intelligence who have been working very closely with the Peoples Republic of Communist China for several decades now, beginning in earnest following the June 1989 Tiananmen Square massacres which caught pretty much everyone apart from those who orchestrated it "flat footed", works very closely with the Mossad, Israel's not all that super secret intelligence institute that has a rather remarkable and rather well known assassinations unit which the world first began to hear about following the massacre of 11 defenseless Israeli athletes at the 1972 Munich Olympic Games.

Einstein to many "failed" in his attempts to come up with a unified theory for the inner workings of the universe but he was not afraid to speak out against all injustice including those at Princeton who were trying to get him to "shut up" and not bring attention to the rise of Nazi Germany.

No military wants to find itself without oil when the world is expected relatively shortly to run out of oil.

Thank you for your time,
Adam

Hello Adam,

The deadline for this Tuesday's issue, our next publication, is tomorrow night at 6 p.m. Please tell us about the story in more detail!

Thanks,

Joyce Kwan

I have a story that I would like to discuss; a very timely subject that deals with Einstein's views on academia and how it ties in with a recent Israeli intelligence report.

When is the deadline for your next publication?

Thank you for your time and attention,
Adam
