Subject: MOSSAD-SHORT-CIRCUIT THE CIRCUITRY - YOU CLOWNS -risk assessment - sign up - Daac

Messrs & Madams,

Currently I am wearing a holter monitoring device that will stay on for 24 hours and if the scary posters in my cardiologist's office, suggesting, "It is a good thing you came... you will feel better if do tests", are correct, that cardiac arrest is also fatal, then not only will the results prove worthless but the cash monies I was willing to pay when leaving the medical offices could also prove worthless.

BTW do you think I look like the singer Art Garfunkel?

There is going to be quite a price we as a society who eat ourselves to a premature death and the racket that good medical practitioners have to function within, are going to have to pay much sooner than most would suspect, including those elitists who have been tuned in to my informative missives from the very beginning and have not only made a fortune from my insight and analysis of the important events of the day, but have moved significant chunks of that wealth offshore to places like Switzerland where the rich act no different to the rich here except they have Swiss passports.

If you just felt the need to clear your throat then there is a very good possibility you will also be eager to speak with your financial advisor responsible for making the arrangements to move your monies including gold bullion offshore.

May I strongly suggest to the rest of you to continue relaxing and enjoy the rest of the show.

It turns out that the "troubling" EKG readings that were taken when I was in the Emergency room 3 weeks ago suffering acute pain from a kidney stone working its way through my plumbing were "faulty" to say the least, and now everyone is

convinced that the pain medication I was never informed could have such disastrous side effects had everything to do with it.

Ca-Ching.

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20atucker-weed.pdf>

What do you think of a study to determine that by observing what people purchase at a supermarket one can determine their lifestyle and then correlate that positive finding with physicians who go into medicine for the wrong reasons and when finding out that their ranks are swelling figure they can make even more money through referring to one another all the fatsos and the fatsos don't even care since they figure big government is picking up the tab, which has the 3% elitists in the world cheering, but not quite as much as before I mentioned the words, "Swiss passport"?

With that in mind what do think about how very angry folks like the Mexicans are getting as they randomly brutally attack Americans in Mexico, telling them to stay home and pick their cotton and other fruits for slave wages that now has Nouveau Riche Americans who swell up neighborhoods like Rancho Sante Fe and Del Mar seeking their primary residences in countries like Switzerland who should consider, wouldn't you agree that before US Americans can even enter another country, let alone buy up their real estate and industry using our fictitious-worthless and so very blood stained De Beers-US Dollars, that we first have to produce a copy of our birth certificate and explain why we are now "running for cover: while the "rank and file" US Americans are being blindsided left and right.

You understand perfectly well as well that Nouveau Riche Americans began with the likes of John D. Rockefeller whose oilfields were dependant on De Beers price fixing their diamond tipped drilling bits at more or do you think less than a barrel of oil?

In other words, there is really no "old money" here in the US and what came before was the "Crown" who dished out favors first to those who provided them with brute force protection.

I also know you haven't forgotten the implications of what it means when you allow a single "price fixer" to operate in a "free market economy", especially a "price fixer" like De Beers backed to the hilt by the "Crown"; and why it is not only the United States of America who has sacrosanct anti-Trust/anti-Monopolies/anti-Price Fixing laws.

BTW I am also home alone at our rented cliff house in Del Mar as my stunning wife is out on a date with Dr. John K. Pollard Jr. who didn't even bother wanting to know if I would be interested in this one art showing.

The fact that I know Dr. JKP Jr. has very excellent ESP is more troubling than this holter monitor which my cardiologist's assistant thought it prudent I wear given the

initial readings, although when she left her office after about an hour's consultation without me charging her a dime to hear all about www.just3ants.com in all likelihood she, Colleen, a very attractive Italian-Irish American from Boston, might have been better off wearing it herself or better yet letting her husband who she says is much more into politics, wear it as he gets up to speed and each time he feels a fainting spell coming on, to press a button,,, let me see, at the very bottom, labeled "E", and to then write down on a chart exactly what time each spell, or stroke or coronary thrombosis took its toll, so that when on Monday he returns the device and they download the data to correlate.

These are the best and worst of times if you are say a 22 year old wife of a US Marine pilot stationed in Iraq, 7 months pregnant with your second child.

Best is if you have heard of me, and better yet if you have been reading everything I have to say going back to the day in early January 1968 and I stood still, examining a minefield in the Golan Heights, Israel's most tension filled border where 3 adversarial nations, Lebanon, Syria and Jordan meet up with Israel; not saying a word to anyone and nor was anyone else I was with including my Royal Mater-Mother and her most trusted Israeli-Argentinean "guide", Yehuda Matov who was never standing still, even when driving you got the feeling he felt he was being watched closely which of course he was.

This was now some 7 odd months after the 6 Day Arab-Israeli war and I was having a hard time figuring out why first of all the mines hadn't been cleared and if it was Israel who placed the mines wouldn't it mean that here I was still 10 years of age on Israel's front lines?

Although 18 months before which to a young kid is a lifetime, I had held for the very first time an Israeli Uzi submachine gun, but I had never fired that gun nor any gun for that matter in the intervening period which didn't mean I couldn't have been capable of firing such a weapon if I had to.

The Israeli tourist bus in the background of the photo taken some 40 years ago gives you "sumwhat" [sic] of an idea of how long it took me to realize that it was not Israel who had planted the mines although the thought did occur to me that this was all a "set up" by Israel to raise monies by pulling at the emotional strings of dumb tourists including Israelis like the Israel's current Prime Minister who fortunately today we all have nothing much to worry about given how it is Ami Ayalon, Israel's "Minister Without Portfolio" who is "calling the shots".

Everything is all about money; money for healthcare, money for bad food that keeps more doctors than we need choosing to go in to the practice of medicine to make money rather than have people eat right from the start, live a full happy life and then die peacefully, all the while contributing to the betterment of humankind.

Now if you don't think you can make a difference, but really, deep down, you feel rather comfortable with the status quo, don't bother reading on although I can tell you that it is not only Adam L. Tucker who informed me earlier after I had sent him an unedited version that included none of the above,

"I enjoyed the section about the mines. Very informative."

Given my knowledge of Israel's military intelligence including the Talipot, the Mossad's highly "wired" Special Forces unit that makes the NSA and NSC look 3rd rate, most if not all of the most senior Israeli military intelligence officers who have read already everything I sent Adam earlier, will make it their business to read it all again knowing not only will I be making changes but in clicking on my hyperlinks they too are contributing to my most extraordinary footprint on the internet.

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20jpollard-fine.pdf>

Not to mention that not everyone in the world has seen Adam L. Tucker's analysis of that ingenious Israeli Military Intelligence report but the Mossad as well as Israeli Military Intelligence have.

Moreover, you would know not just because I tell you so that both the Mossad and Israeli Military Intelligence who haven't always "seen eye to eye" are most encouraging of not only this analysis but the fact that I was the first civilian in the world to "go public" with this most ingenious military report of all time.

Until hearing what I have to say, most human beings would at first have great difficulty figuring out that the out-of-control US military-industrial-complex would benefit from Al Quaida attacking the mainland of the United States as they did on 911 as even greater sums of monies got poured into the out-of-control US military-industrial-complex but would not benefit if Al Quaida who maintain they are seeking the destruction of the United States decided to attack with the same brutal force in their own backyard, the oil fields of Saudi Arabia, Kuwait and Qatar that the very best minds in Israeli Military Intelligence believe in the very next instant, and I agree, will paralyze the United States economy, since although the US gets most of its oil imports, some 4 million barrels a day, from our tyrants south of the US border, such a crippling of the supply line to the rest of the world including Europe will cause the price of oil for everyone to skyrocket.

Since 911 we still have folks like the Mexicans who consider places like Texas, Arizona and Mexico theirs, coming over here to do the work US Americans don't want to do and Al Quaida have yet to "bite the hand that feeds them" which would cause in the very next instant the total collapse of the US Dollar which could have Mexicans either saying, "Keep our lands" or "We will buy you with our pesos for next to nothing!"

BTW Adam also let me know that he found "Two typos" which he marked in green and in the middle of his 19 odd word critique said, "The introduction with Marie seems too long."

You would know that not all free advice is worthless especially when it comes from someone such as my French-Canadian wife whose initial confidence came when just a young teenager jumping two classes because of her extraordinary command of mathematics which one might conclude has no correlation in making someone a great lover let alone the best, but at the same time it would be foolish to exclude such a possibility bearing in mind that while most viewing photos of Marie Dion Gevisser would conclude she is strong, self-confident,

MySpace draft profile:

I am an artist.

Sexy , beautiful and intelligent.

What else do you want to know?

I can't type. Make it short. Let's cut through the bs.

Just go to jus3ants.com and tell me what you think.

This is some of the things I am interested in apart from art.

My age. Almost 50.

beautiful

with a body today while close to 50, her birthday February 13th,

is better than any they have ever seen either live or in the movies where the use of "doubles" is common place, those fortunate enough to witness her sexiness in the flesh agree overwhelming that her photos including the one of her stark naked taken a decade or so ago at Black Beach, La Jolla, California, do not do her "justice".

<http://www.nexttraterrestrial.com/pdf/Microsoft%20Word%20-%20mindy-hello.pdf>

Moreover, I am of the opinion, that the principal reason MDG refuses to allow me to continue placing up on the Internet this one great photo I took of a beautiful woman with the most beautiful naked body, with her face, mostly covered by a straw hat,

turned away, but MDG's unmistakable smile present along with the shadow of her right most perfect pear shaped tit, just visible at the top of her right thigh, is that her body today is in fact far better in every respect, as difficult as that may be to imagine.

Now bear in mind as I strongly suggest you email Dr. John K. Pollard Jr. for your own personal copy that I would gladly sign for 0.0042 troy ounces of gold bullion, about the size of a single grain/shot of gold bullion you see below

or the equivalent currently in US Dollars, US\$3.81, gold last trading at US\$909.90 a troy ounce, that in many circles my opinion does count, beginning with the fact that for the first 21 years shy of one week that I lived in my mother's model-charm school household I got to witness each and every day the most beautiful women in South Africa, **second in the world** only to French-Canadians, frolicking in the skimpiest of outfits and when bathing nude around our swimming pool never, not once felt the need to "cover up" not even when my close friends and next door neighbors gay Susan, her two heterosexual brothers, Mark and Sam Hackner, currently the head of private banking for Investec, South Africa, would use their father's binoculars to get a "bird's eye view".

Given how very much in tune is 1/8th Iroquois Indian Dr. JKP, an alumni of Cornell and MIT, best known as the school for "gifted" kids that didn't interfere with Dr. JKP also receiving colors

for wrestling, I feel rest assured that he has backed up that most extraordinarily beautiful photo in the event I were to decide to defy my wife's wishes and have my daily love making privileges suspended, if not terminated "al-to-get-her" [sic].

Dr. JKP is currently having problems with his email and I am not quite certain of his phone number and rather than give out a wrong telephone number and upset say a very busy call girl on the payroll of the Mossad who remember while never paying for intelligence do have to "play the game" in this merry-go-round of "dog eat god" [sic] world, let me again strongly suggest you simply email MDG at her not often used email address, mdgart@sellnext.com and simply ask for Dr. JKP's telephone number which I know she remembers.

And you would be right if you think the only issue I have with Dr. JKP worth talking about is the fact that he is on this date with my wife, and to top it off MDG has me type her RSVP all the while telling me, "Don't ask questions, just type!"

But at least I got to see my so sexy clothes horse wife change as I thought about going to join my Italian buddy barman Davide and the rest of the very friendly and attentive management over at Il Fornio restaurant on the deck of the Del Mar Plaza before realizing I had this halter monitor that if I sweat could have the 7 electrodes detaching themselves.

I just checked and there is a green light flashing on the unit where the 7 cables are attached to, and obviously my heart is still pumping and I can also still breathe.

And who can forget the party Davide and 3 of his girlfriends arriving

at midnight at MDG's former residence, owned by a high level US State Department non-elected official and George Bush Hater supporter, operating in highly sensitive spots in the world such as Central America, Afghanistan, South Africa and never to forget Zimbabwe, originally named Rhodesia after De Beers founder Cecil "Secret Society" Rhodes after which we get the Bill "De Beers-Rhodes Scholar" Clinton award.

Not to mention the truly great party starting off so very tamely with a champagne toast to the greatest partier of all time Spanish master painter-professor Sebastian Capella

Bear also in mind that MDG is not in the least bit in to "chit-chatting" especially on the telephone unless she is on a "fact finding" expedition when she can be pleasing as well as extraordinarily charming, even with both her "tTOo" [sic] children who along with all their friends and acquaintances anxiously await my forthcoming 20,000 or so word communiqué to the unheard of internet satellite company, WildBlue where I will be following to the Nth degree the advice of my most brilliant, sexy F-C artist-painter-teacher wife and "cut out the fluff" when explaining why it is that the highly dynamic De Beers organization are the world's number one banker who are answerable to no one and who for the past century plus have laughed themselves silly, first and foremost at the Wall Street crowd who take their utterly nonsense jobs so very seriously and of course that includes each and every Wall Street lawyer directly and indirectly on their payroll.

And of course there is reason why I would know and why you clowns at the bottom of the totem pole fighting it out for the scraps are also so nauseatingly "deafeningly silent".

Please now take the time to sign up for my forthcoming Internet seminar titled, **"We dug our hole all the way to China!"**

Most of us English speaking people know the expression, "A bird in the hand is worth 2 in the bush" which is comparable to the French expression, "One stone two hits" but when it is expressed in the most perfect French, "Avec une pierre deux coups", spoken by my F-C wife like everything she says even when speaking the

perfect English with of course a strong French accent, is mouthwatering, no matter your sexual preference.

Bear again in mind, that within a decade China, fueling the world economy and for good reason featured prominently in the ingenious Israeli Military Intelligence report that in spelling doom for the U.S. economy describes rather graphically the inextricably close ties between Al Quaida, the 3 Branches of the heavily corrupt US government and De Beers owned Wall-47th Street, will be the world's largest English speaking population.

In order to prepare yourself for this WildBlue communication, may I finally suggest you examine very carefully the hyperlink below

<http://nextraterrestrial.com/pdf/Washington%20Bunch%20-.htm>

that takes you to an attachment I labeled, "Washington Bunch", one of 14 attachments to a heavily broadcasted "New Beginnings Party invitation"

<http://nextraterrestrial.com/pdf/My%20last%20Peace%20-%20Introduction.htm>

; cut out the "fluff", and simply focus on the intelligence gathering capabilities of those French made robotics my long time American attorney Mr. King Golden Jr. Esquire had passing through the sewage pipes, laying fiber optic cables when closing the final gap of the internet superhighway, all the while remembering in addition to gastroenterologists also thinking, "What the fc*k!" [sic] that Mr. Golden's "bosom buddy" Roger W. Robinson who I have also known intimately ever since "Our man Roger" joined the National Security Council back in March 1982, in all likelihood when both Chairman and Vice Chairman of the very "Money Power" U.S.-China Economic and Security Review Commission which he first joined in October 2002, "Our man Rogers" term ending on December 31st, 2005, never disclosed a number of things to his Chinese colleagues, beginning with his close relationship to left wing, big government handout Mr. Golden Jr.; second, "Our Man Roger's" lobbying activities in Washington DC on behalf of his one client C.Itoh, the world's largest trading operation; and third, most of all his direct connections to the Diamond Invention when serving as David Rockefeller's right hand person in the "Being There" President Ronald W. Reagan's first and so very important term in office.

<http://nextraterrestrial.com/pdf/jpollard-ussr.htm>

Not to mention how very busy TV talking head Roger as well as King thought it "smart" to visit with my former long time girlfriend Ms. Annie George back in 1995, while I was back in South Africa meeting my uncle David Gevisser, the American baboon-looking "figurehead" of the De Beers-Anglo American Cartel, with a view to "intimidate" all the while couching their uninvited showing up at Ms. George's offices in downtown Santa Monica, California that they were mostly interested in getting her to come on the "date" with them and to forget the day some 4 years earlier in February 1991 when "Our Man Roger" was out in California to attend the

80th Birthday celebrations of Ronald W. Reagan who again bears the name initials as "Our Man Roger" as well as born on the same day, February 6th, some 40 years apart.

To mention little of, for good reason "Our Man Roger" gave King Golden Jr. and me as well as the 4th leg in the stool, Valerie Schulte Esq. of the National Association of Broadcasters, the very clear impression that his very close colleague during the "Being There" President's administration, Sec. James A. Baker was, **"THE MOST DANGEROUS PERSON IN THE WORLD"**; and who can forget that Sec. Baker's law firm represents the House of Saud, Saudi Arabia-Al Quaida.

Suffice to say, I began sending out that much spoken about party invitation on December 1st, 2000 in commemoration of the 27th year passing of Ben Gurion who passed away some 13 months to the day after I met with him for the very first time outside his humble home on Kibbutz Sde Boker, Negev Desert, some 57 odd days after De Beers sponsored PLO terrorists began to brutally murder 11 defenseless Israeli athletes at the Munich Olympic Games.

Not to mention that the very last thing on Ben Gurion's mind at the time was "vengeance", instead it was great disappointment and embarrassment in the Mossad's handling of both security for the Israeli athletes as well as the failed rescue operation where the "figurehead" of the Mossad simply allowed himself to be nothing more than a "potted plant".

To mention little that it was not your "typical" "warm and fuzzy" invitation given how I let Randall Kaplan also know a little of my background beginning with how he as well as his lawyers all the while communicating with me about them possibly funding a business plan that didn't need funding, had never seen nor did they ask to see the financial projections that gives not only a better sense of how well I understand the "make up" of Wall Street but how others use Wall Street to pickpocket from the so brainwashed public.

To mention little of me finally “cutting to the chase” in the second to last paragraph,

Randall, right to the point.... you never received any financial projections with the “business plan” about information being the “prized resource.” No one has ever seen a financial projection. **No financial projections were ever prepared.** Remember now, I am a numbers guy! [Chase Brass - One Hope for the future – Addendum III and Leucadia National et al – A “paid for” commercial – Addendum IV, provide a better sense of what I mean by the numbers thing. Randal continuum – Addendum V may also help clear things up for newcomers.] This must all now be making a little more sense to you et al.

To mention in passing Randall Kaplan is the co-founder of AKAMAI the hugely successful internet algorithm corporation whose co-founder and chief technologist was Israeli Special Forces trained Daniel Lewin who was on board American airlines flight 11, most likely the first victim of 911.

Now bear in mind two things as I compose this heavily broadcasted communiqué while on the phone with my primary physician and a cardiologist assistant who don’t appear quite ready to give me a baboon heart transplant, although my great sense of humor primary physician who of course wasn’t the first to ask me when witnessing in the flesh my walkin-talkin work of art F-C wife, “Has anyone told you

your wife looks like a movie star" but only better looking with an unmatched most beautiful smile that combined with her French accented laugh is enough for all us men to become "puppy dogs", in spelling out that I now probably have 2nd degree heart block, and could soon have fainting spells, short of breath to boot, very possibly brought on by the morphine and other heavy pain killers I received to combat the excruciating pain of passing a "nothing to speak of" small kidney stone that had me coughing my lungs **out** just trying to keep the pain killer pills down all the while when trying to drink water, each drop like a spear on the plumbing going from my left kidney to the bladder, figuring that I don't want to bother with any more tests, both of us thinking we have already lived the greatest life imaginable, began his soliloquy,

I know you may be thinking that Marie has already told me, "I paid you to get rid of him but I didn't expect it that quick!"...

First, Israel has been constantly at war from the early 1920s, Israeli permanent force soldiers never taking a day off, not even on the Sabbath or the high holy days including Yom Kippur and even at age 86 Ben Gurion knowing pretty much every covert operation going on throughout the world, understood it was inevitable that such a brutal attack would occur and for Israel to respond, patiently and methodically with Israel's very best already "on the ground" eavesdropping on those the most profiting from highly contrived internecine fighting, the bloodiest, without the slightest of "vengeance".

The essence of Israel's victories in its never ending wars, thanks to in particular the west's thirst for oil, has been to "forgive" its "enemies" who have never been the Arab peoples, who are not only the closest of brothers to the Jewish people in terms of their belief system beginning with common ancestry all the way back to Abraham, a trader, and the first Jewish person to subscribe to the ingenious concept of One God that "held the feet to the fire" of all those relying on "in-fighting" amongst "multiple gods" to excuse their "bad judgment".

Being non-confrontational is no excuse for bad judgment – Superstar Marie Dion Gevisser

Second, both Israeli Military Intelligence as well as the Mossad have already received an advance copy of this forthcoming again 20,000 or so word communiqué to WildBlue, which shouldn't prevent you from making a not exactly Herculean effort to draw the connecting dots between the very elaborately orchestrated recession-depression taking place around the world, but mostly here in the United States that is understood perfectly well by all senior elected and non-elected government officials throughout the world, and what I concluded when just a decade old as I stood in front of a minefield wearing a red and white Kibbutz hat, our "guide" Israeli-Argentinean Yehuda Matov's shadow casting a peak on my back, to his left and in front, my blonde haired mother carrying her ever present handbag, and in front of Zena and to my left my eldest "magic hands" brother Neil,

How much less profit would there be for the manufacturers of those mines if Israeli Military intelligence aided by the Mossad were able to "short-circuit" the electronics either at the circuit board level beginning with building in to the mass produced microchips a Radio Frequency Identification (RFID) microchip about the size of a grain of rice, or after quality control signs off and the packaging personnel while doing their thing also provide the Mossad with all the shipping logistics which allow tracking of each mine placed in the ground?

Not to mention yet again, the Mossad were established in December 1949 when this most wired and deadly intelligence institute immediately began reporting directly to Prime Minister Ben Gurion who hadn't forgotten either my Royal Mater-Mother,

Who, "From the earliest days of 1949 she visited Israel two and three times a year writing reports for different publications" or that my mother's pogrom orphaned paternal grandmother, Nechie-Nellie Becker-Badash was born and raised, as was Ben Gurion in the tiny village of Płońsk, White Russia-Poland, not to be confused with a much larger town that bares the same name.

Mr. Fry,

I apologize but I have never heard of you.

You need not apologize since I have made it my business-personal to remain as far off the "radar screen" as humanely possible, all the while operating at the highest levels of the DAAC socio-economic pyramid.

You make a lot of sense and that is why proud Black and very intelligent American Devin Standard thought I could benefit from your insight and analysis, the same with approximately 5 million individuals/groups who will read this and all that follows within the next 24 hours.

I have every reason, however, to question your credibility but as you will see you will have little reason to question mine, and why in all likelihood you will go immediately "deafeningly silent".

Also speaking volumes is your failure to explain this recession-depression; i.e. if you are out of work and no savings you are no different to our grunts on foot patrol in increasingly hostile territory where the enemy "within" is increasingly your biggest fear.

Intelligence is the key to winning wars and you know enough from the movies to at least follow the logic of why walking away from a battle today so long as you can stay alive to fight the battle tomorrow and eventually win the war.

If your Commanding Officer doesn't tell you the truth because either he is incompetent or culpable or both, take your pick, you are, if you have your thinking cap on right, better off throwing in your lot with those most likely to win because they have the right intelligence.

The ingenious Israeli Military Intelligence report which you can view on the homepage of www.just3ants.com spells out also the nonsense of those with capital "heading for hills".

A monopolist like the De Beers Anglo American Cartel does not have "cost of capital".

Israel's intelligence institute, the Mossad could figure this out on their own but I think you would agree it helps for someone as credible as me to remind them once in a while?

Tell me what you agree with and what requires further explanation.

Suffice to say that blind copied is a statistically valid sampling of the world's literate population.

Risk Assessment is my business.

Eric Fry, reporting from Laguna Beach, California...

"Our business is still solid," the commercial mortgage broker in the office next door declared last August. "I know the residential real estate market is having some problems, but we're just not seeing it on the commercial side." Two months later, the broker's office was vacant.

A couple weeks ago, when the former broker returned to his former office to gather up a few belongings, he stopped by our office to chat for a bit. "What went wrong?" we asked. The broker shook his head and said, "The business just died. Credit completely dried up. We had some top-notch projects to finance, even on great terms, but the banks wouldn't touch 'em."

"The banks wouldn't lend at all?" we asked.

"Nope," he replied. "All of the banks that used to finance our deals just shut off the spigots. The lenders are just running scared, plain and simple. They're trying to preserve capital. They've stopped lending to anyone except for AAA borrowers. And that was not our business."

"Wow," we replied sympathetically. "That's rough...So what happens next?"

"No idea," he shrugged. "No idea."

Hmmmm, we thought to ourselves, maybe WE have an idea. Maybe the commercial real estate market is about to step into the same tar pit that swallowed up the residential real estate market. **Maybe the best real estate to own in America will soon be NO real estate.**

Subject: SIGN UP - FW: Daac

Adam - Devin's decision to email me rather "instant message" should tell you a lot beginning with the need to change the heading on the homepage of j3a to something along the lines of "Live Online Seminar - Coming soon - sign up".

Devin may have better ideas, the same with those blind copied such as Augusto and Tefo.

While doing only the 90 minute loop walk of Nobel Canyon and "taking my time" I thought about people like "deafeningly silent" class action lawyer Jared Stamell Esq. who are divvying out amongst themselves some one third of the hush money US\$935 odd million De Beers are paying them to continue the farce of farces.

You do understand that once you get away with one farce especially one as big as The Diamond Invention the rest are "easy pickings".

All this "privacy" stuff, all the communications back and forth between the 911 hijackers that US intelligence officers "picked up on" as well as failed to "pick up on" that led to one Congressional investigation after the next, one special this, one special that, never forgetting the baked beans that all these so important people have to eat while talking so very serious, putting on "stern faces" which can be hard to tell whether they understand or don't understand or whether simply trying to "deceive" for all the obvious money reasons when non-money issues are also being deliberated but not spoken by these all so very, very important people, some elected, some not elected who all have different agendas going on 24/7 including if there is a hot looking woman sitting at the fancy board room table who only wants to find a rich husband or so that is what her "cover" is, all the while making certain while "tapping away" that those listening in continents away have perfect audio.

Would you know if the Mossad were consulted to find out what they knew and when?

Would it make a difference since the Mossad know only to be totally deceptive with the enemy to the point of providing the most accurate information time and again when they are not providing disinformation?

So much for how much clearer I would have thought if I had only hiked for 4 hours!

Then again you wouldn't happen to know how many hours I have walked in the Negev desert starting out in earnest when I was 15 years of age, thinking much clearer since for starters my pulse rate was in the very low 30s, if not 20s and the last time I was checked which was last week after I passed my very painful kidney stone, it registered 51 or 52 after my primary physician's nurse gave me the fright of my life when first getting a reading from the electronic device placed on the tip of my right index finger of 41, making me feel like I was moments away from meeting up once again with PypeeToe and Maggie, causing my pulse to spike which of course made the nurse so much happier.

Health is everything and nothing when you stop thinking.

How many people do you know who know about the Diamond Invention are constantly reminding themselves to ask the next person they meet including that person staring at them in the mirror each morning and before going to bed, "Where is all South Africa's gold stolen at gunpoint by the 3 branches of the United States Government, who not only Boris Senior felt was "no friend" of the fledging State of Israel?

What would your thoughts today be if you were just earlier today standing in the exact spot in the Golan Heights as I was back in January 1968, just 5 odd months before Attorney General of the United States, Senator Robert F. Kennedy was assassinated and some 3 odd months before Rev. Martin Luther King "met the same fate", looking at a barbwire fenced off minefield?

Bear in mind your father makes a pretty good living putting up fences up and down southern California.

How difficult is it for you to draw the connecting dots between what I thought when just 10 years of age and no member of the United States Congress as well as all those rich succulents running for President of the United States of America, jumping up and down, screaming their heads off to find out exactly what the Mossad knew about 911 and its connections to the ingenious Israeli Military Intelligence Report that they also refuse to address given its so very simple dire straits warning for the U.S. economy.

You represent 3 generations of US Americans who have been "spoon-fed". Now can you imagine how The IT's children and all their peers must be feeling apart from increasingly numb?

Not thinking much about Hitler until I mentioned this so non-Aryan American stooge.

BTW, did you know that a lot of people who buy Devin's Smith & Wesson guns don't kill people or animals and just like "toying" with them and that includes cleaning after also killing something that once had a pulse.

Were you aware that words such as, "You might not lose your children" are used to kill people?

http://www.just3ants.com/20071007/jrk_20071008.htm

When you combine however, guns with evil words, such as, "Take the money now or open up a taco stand" then you start to look at how very easy it is for those who didn't take the money to stand tall and not be in the least bit afraid to enjoy this most beautiful and resilient world, and may God also only help those who have in the "afterlife".

I was told that a recent class action suite was accepted I believe in NY against DeBeers basically alleging price fixing -

I have no first hand knowledge of this (told to me by a third party) - But apparently potential plaintiffs are being notified for deliberation and payment

Subject: Assuming you are online and again just thinking about how easy it is to be paperless and establish "other peoples' priorities"

Look at the chatting between Devin and myself and remember not only is Devin on the road at the biggest gun fare where he is the "top dog" his "first priority" is letting me know exactly when he is "needing time to think".

Are you ready to review the next heavily broadcasted communiqué? 12:20 PM

Devin
Standard

Yes; but I am expecting a phone call that I have to take. 12:44 PM

D 12:44 PM

It should come through any minute. Just keep me informed. I assume you got my "lucky" email. 12:45 PM

Devin
Standard

May have received, have not read. 12:45 PM

i just sent the draft "double cross-copius notes" [sic] communiqué. 12:49 PM
It is just part I. The total is about 20,000 words. You really should read at least the first part of the "lucky" email while keeping your eye on "the news" being reported by the likes of Drudge Report and then think what it will mean to someone like Obama when he finds out who is supporting both him and his opposition.

You also understand there are those out there with less savings, less gold, less time on their hands than you who are doing things like thinking about robbing a bank, having to be the point person on foot patrol who may also believe as much in God as you who still thinks you can "beat the system". 12:54 PM

At 12:54 PM, right after I sent him [Devin] the last "beat the system" he went "offline". Now he is back letting me know he is "available" but is not chatting because he is reading very carefully what I have written as he seeks a "heads up" knowing that he is not the only one.

You can watch it all in real time by just turning on the "available" button to the right of your name.

Devin Standard is Available

(1:03 PM)

I assume you got the last point, "beat the system" and are now reading both the "lucky" and the "double cross".

read Lucky, and saw that R Burkle is fiancing clinton according to drudge

1:08 PM

You do remember me writing as well as telling you that Burkle hired the wife's husband when he left the White House. Interesting how even you don't always figure that Drudge reads each and every word I write. 1:11 PM

the 55 for February was thru Feb 5th. You also understand that my incredible "footprint" on the internet does not come just from just3ants.com, there is that "directory" on nexttraterrestrial.com that THE IT made such a big deal about in court back on October 24th 2002. 1:16 PM

R u still thinking about those very stressed, very underpaid US service people out on foot patrol and while increasingly "wired" are questioning more and more what they are doing and who they will be going up against next who may not be the "real enemy" here at home "milking the system dry"? 1:18 PM

Subject: Latest dialogue with Devin. I am now going to measure the shed and then call Susan.

I just send Matt Drudge the following message thru his website: Do you want to join the chat session between myself and Devin Standard <http://www.nexttraterrestrial.com/pdf/Microsoft%20Word%20-%20dstandard-lucky.pdf> 1:22 PM

There is this person williams91325 on my list who is online. I asked him the same thing. Do you want to join the chat session between myself and Devin Standard <http://www.nexttraterrestrial.com/pdf/Microsoft%20Word%20-%20dstandard-lucky.pdf> 1:24 PM

sorry williams91324 1:24 PM

Earlier there was another person online kalons@pacbell.net who I seem to recall works for one of the TV networks in Los Angeles and as soon as I asked her to join in, she went offline 1:26 PM

I am going to be heading out shortly for my delayed 4 hour hike, having though used this time to also prepare a very healthy meal which was actually frozen "leftovers" from a great vegetarian curry I made with of course direction from Marie; in fact it tasted even better. But I was really hungry. Hopefully it will continue to be the most glorious day
