**Subject:** WHY - desperate people act desperately - stored on cd-rom

Deep breath!

Why would you even respond yet alone request that I add you to the "\$ hit list" [sic]?

Also, would anyone who knows you better than me be willing to share more info on you.

Why would you want to "attack" someone as credible as myself apart from what I have to say about all the corruption in the world being a little too close to home?

What are your connections to the South African Apartheid Regime and its equally repressive successor?

Would you agree that "Abstract Art" is part of the game of not having to explain how you made your ill-gotten gains?

Is there something possibly by the way I look that makes you think I would be so dumb not to have "lined up my ducks" prior to breaking my 24-year deafening silence with De Beers back on November 11<sup>th</sup>, 2004 [See homepage just3ants.com]?

Do you not think De Beers were smart enough to recognize I had taken what I considered to be "necessary precautions" bearing in mind that it is unlikely you know of a single person apart from immediate family members who have worked for Codiam Inc. headquartered on 47<sup>th</sup>-Wall Street, New York City, let alone had an uncle whose closest friend in the world was their mother; not to mention yet again that to the best of my knowledge my uncle David Gevisser is the only executor of American Charles Engelhard's estate that included control of the world's supply of platinum plus the "control block" of shares in the highly dynamic De Beers-Anglo American Cartel, the mafia of mafia who are anything but Jewish all the while giving good Jewish people a rather bad name as they have for a century now been the world's horrifically poor allocator of resources.

No doubt your adversaries will inevitably feel empowered as we uplift the masses not only with the truth of how very poorly they have been misinformed but once armed with the knowledge of how to appreciate fine art beginning with the extraordinarily difficult fine art of oil painting so they will be even more uplifted when laughing their heads off at all the ignoramus nuveau riche who were suckered in to the collection of nonsense modern-abstract art, wouldn't you agree?

Now do yourself a favor and examine why revolutionary Black South African groups at one time saw fit to promote the fact that American Charles Engelhard was an "open supporter" of the South African Apartheid Regime at the very same time he was good friends of the Kennedy clan and Lyndon Johnson family.

Then you should have little difficulty understanding why Nelson Mandela didn't either destroy that CD ROM or make it available to the general public.

Of course you only required me to explain to you why you couldn't figure out that if there was one CD ROM there was most likely at least one more that FW de Klerk kept for himself knowing that De Beers had their copy as well, the same with the CIA as well as the Mossad.

Please let me know how the rest of your weekend goes.
