Subject: WHO TO KILL - RE: link

Ok, so you want more bad news for those responsible for creating economic hardship in your home country of Brazil that forced you to come here to earn worthless-fictitious so very blood and poison stained US-De Beers Dollars?

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20atucker-kindspeech.pdf>

Can you translate in to Portuguese the last email I sent Adam L. Tucker that contains a hyperlink to the voice mail message left by Ernest Slotar, an extraordinarily important cog in the Diamond Invention.

Are you now in a position to understand the significance of that message as well as the follow up conversation I had yesterday with Ernest that establishes the extraordinary nexus between myself, him and Codiam Inc. at a very pivotal moment in The Diamond **Invention**?

Are you now sitting down, blocking out everything going on around you to appreciate fully why the United States Justice Department "froze" when they received the "back and forth" between myself and Codiam Inc. that started with, "Remember me?" back on November 11th, 2004, my breaking a 24-year "deafening silence"?

Are you now "smiling from ear to ear" understanding why there is no one in the world in a better position to explain to the peoples of the world, literate as well as illiterate what exactly it means first for Brazilians when the United States Government has allowed now for more than a century for De Beers, the special interest of special interest group, to totally control the world's drilling industry.

Do you understand that Brazil's current government officials, elected and non-elected are not alone in understanding that the world is waking up to their corruption as well as the corruption of each and every former government going back to the turn of the last century?

Are you now not "smiling from ear to ear" more than ever before unless of course you have connections within the Brazilian government who are buttering your bread more so than those you consider your competitors?

Of course you are "smiling from ear to ear" knowing perfectly well that unless you are a well paid and trusted Mossad agent which I know for a fact you are not, you also know perfectly well you are not getting close to your fair share of the graft-spoils of diamond tipped drilling bit oil civil wars which are genocides, plain and simple.

Once a sufficient number of Brazilians understand why my Royal Mater-Mother so encouraged me to immigrate to the United States of America, making it sound to everyone including each one of my 3 elder siblings as well as my father, and his younger sister as well as his elder imbecile brother, that she was having the "hardest time" to get me a "green card", first spending thousands of dollars with top New York lawyers who she was paying some US\$1,000 an hour for their services, eventually after making a "big fuss and dance" with my father to get his sister, Daphne Gevisser Molk who was already an American citizen living with her well-to-do medical doctor husband, Dr. Leizer Molk MD in Denver, Colorado, to simply fill out a fricken form and petition for me to enter the United States under what I believe was a "6th Preference" at the time, so extraordinarily distracting all the various family intrigues, not to mention all the so convoluted jealousies, that not a single member of my immediate or rather large extended family even once asked how my highly secretive and beyond belief worldly mother using her most important "client", my father's first cousin, my uncle David Gevisser, to get me a "nothing to speak of job" working for Codiam Inc., the most significant fronting organization on United States soil for the De Beers-Anglo American Cartel, the mafia of mafia who for more than 100 years have laughed themselves silly at hundreds of millions of people such as yourself forced because of dire economic straits to leave, just like me, your homelands in pursuit of the "American Dream", all the while you promote such a bloody DeBeers-Almighty US currency when not talking about all the other so distracting conspiracies such as the seeding of the clouds with poisons; all such conspiracies, of course, "floated" by the top dogs of the DAAC who have plenty of time to come up with every conceivable distraction when not fulfilling their two very busy jobs, all in pursuit of remaining the allocator of the world's resources.

To repeat:

The first busy job is where to next vacation.

The second busy job is who to kill.

You understand that when you are allowed to have for a single moment the right to produce your own currency you can in that same moment "steal blind" by immediately corrupting and/or buying out your opposition with the DAAC's straightforward offer:

Take the money now or open a Taco stand!

The DAAC have now had this right for more than a century.

Do you feel right now stupid or mad as hell or both?

Now tell me what you plan to do about it?

I will be over at the Plaza in about 30 minutes to pick up a vegetarian sandwich or I might simply enjoy a salad from Il Fornaio on the deck of the Del Mar Plaza.

I didn't think you would mind if I use this email to check with Alfonso

to see if he could prepare a special vegetarian meal this coming Wednesday evening for Marie and me to celebrate my 51st.

BTW, what do you make of Davide?

<http://www.nexttraterrestrial.com/pdf/Microsoft%20Word%20-%20davide-gold.pdf>

Now go find a very quiet spot even if it means you "staying put" right in front of your computer screen but not letting a single thing distract you.

Click on the hyperlink below taking you to Chapter 21, CAVEAT EMPTOR – BUYER BEWARE! Of The Diamond Invention.

<http://www.edwardjayepstein.com/diamond/chap21.htm>

The photo of a laughing Marilyn Monroe was very thoughtfully planted.

So was my arriving on the same plane as Ernest Slotar's wife Anthea and their youngest daughter Melissa on March 17th, 1978.

As you scroll down some 10 paragraphs of this yet another very important chapter in this most fascinating Internet only book written by Hollywood blockbuster author and investigative journalist Edward Jay Epstein who still writes editorials for the DAAC's Wall Street Journal, you come to the words,

Meanwhile, in London, the real De Beers, unable to stifle all the bogus entrepreneurs in Arizona and California using its name, decided to explore the **pot**ential market for investment gems. It announced in **March of 1978**....

Did you know that Senator McCain was one of those senators implicated in the United States of America's Savings and Loan crisis that took place very possibly before you were born?

I know of one gentleman who met with Senator McCain yesterday but I doubt he brought up to this frontrunner to be the next President of the United States what the not-so-good Senator has to say about The Diamond Invention and how it implicates not only Senator McCain but all his opponents.

Do you support us not all elephant sized citizens of the world invoking, **Article Two of the United States Constitution?**

See you very possibly in a short while.
