Subject: CLEAR, SHORT ANSWERS - De Beers Diamonds Class Action - Information Request

Mr. [President](#),

It is my understanding that you are leaving shortly for Israel.

I will "Hold fort" here in the United States while you do your best to impress Israelis that I am wrong in challenging them to be invigorated by the Israeli Military Intelligence report all designed to empower the next generation of Israel's children to be a light unto the nations of the world who once getting their arms around this one military intelligence report of all time, will not want to join any military apart from the combined militaries of Israel and the **Peoples Republic of Communist China**.

For good reason China features prominently in this report all designed to let the facts speak for themselves although for the brain dead peoples of the world there is a need for analysis which is why Adam L. Tucker is putting the finishing touches to his hard hitting analysis within days of being shipped to each and every member of the heavily corrupt United States Congress.

Is it also your observation that people with learning disabilities lie?

BTW would you know of any intelligent person who is not also corrupt currently purchasing United States Treasury Bills?

In other words how could say a corrupt United States physician who has benefitted so very significantly from big time US government handouts suddenly offload their US Treasury Bills and purchase gold bullion; remembering that shares in gold corporations could become just as worthless as US-DeBeers-Dollars were those illegally obtained mining rights to be revoked by the peoples of those countries who had no say when those "concessions" were entered into between corrupt foreign corporations and the tyrants who were in power at the time only because the United States provided them with the military muscle on the ground.

You cannot generalize about too many things once you get your arms around this ingenious Military Report of all time.

My secret weapon knitter, artist painter French-Canadian wife is convinced I made it up, or at least that is what she said prior to us making love yesterday all morning before then going on to say, "They could have hired me to kill you and I would simply say that I tripped and one of the needles..."

I can just hear her in her very cute French accent now saying, *"I wish you would leave this out, all these references to me, leave me out."*

On the other hand Marie Dion Gevisser has played a pivotal role in getting ALT's analysis so stiletto-like precise.

Emphasizing the fact that the United States could so very easily pay its service people making them the elite upper class just like our tyrants throughout the world, is a good thing if it would cause our service people to "stand down" and the US Congress to "step down".

The United States of America now finds itself in the most extraordinary bind as the rest of the world does not need to say another thing as the US economy collapses from which there is no possibility of recovery given how the United States of America has lost the moral ground which of course the United States has never had, not once in the history of the United States.

This whole "democracy thing" is like the Kennedy "Camelot", pure fantasy.

On the other hand both Israel and the **PROCC** have not only the high moral ground but both countries have the industrial as well as military complex to force the United States and its ever dwindling allies to "stand down", and to do so without having to say one more word, apart from repeating that ingenious Israeli Military Intelligence report, time and again until such time as the United States concedes it controls the House of Saud, Saudi Arabia who control Al Quaida and Al Quaida, up until now, have chosen not to bite the hands that feeds it by attacking the oil fields of Saudi Arabia, Kuwait and Qatar that in the next instant will paralyze the US economy.

Let each one of the 44 nations who attended the Bretton Woods conference of July 1944 when the US had the British economist John Maynard Keynes place a gun to

the head of each one of the 730 delegates attending, explain why it is that they have had to pay their military so well in order to do the bidding of the United States when enslaving their peoples to produce the goods, services and most all dig the rich mineral resources out of the ground to pay as protection money to the US for not encouraging its Regime Change policy and supporting the US' current regime's second-in-command to execute a CIA led coup de tête.

Just a few moments ago my wife's 15 year son, Jonathan came running into the very cozy garage of our cliff house where I am typing away at a 100 miles an hour to ask me whether I was going back to our stone cabin up in the Cleveland National Forest where his mom and I just returned from, about an hours drive away, because he heard from his mom, again my very sexy, not in the least bit "uptight" but so very appropriate French-Canadian wife, that it was likely going to snow this evening and instead of suggesting he think about the cost of traveling plus the time lost, forget the pollution since it would all go in one ear and out the other in the very next instant, I simply commented that I am busy right changing the world for the better and that I could just as easily accomplish it from where I was sitting in a fraction of the time it would take me to get back to the cabin where it might not snow, which then had Jonathan without missing a beat, grabbing whatever it was that he was coming in to the garage to grab, saying as he raced up the stairs of the cliff house to be with one of his Jewish South African surfing friends who like the rest of his "money, me, surfing everything" buddies really dig it here at the cliff house, especially when so very cool MDG is around, said,

"I had dreams just the other night about changing the world, but couldn't remember, just something big went down".

Getting back to MDG wanting me to just stick to one subject, namely the implications of the ingenious Israeli Military Intelligence report while telling me to leave her out of my communications that serve to distract but only the easily distracted who are not my audience versus US Army recruiters like Sargent Amanda Lopez who understand perfectly like the overwhelming majority of the hard workings people of the world not in the least bit inclined to go to war with either China or Israel, the "new enemy" of the United States let alone a combined military offensive that would be in the very first battle, lights out for of the US military, it was of course much funnier at the time especially when you consider her extraordinary command of the English language that combined with her natural ability to be so very funny has me just wanting to make love to her all the time.

I think you would agree that I made my point rather well in this communiqué [click on hyperlink below] to Kristin Pollard that there is something rather vomit like when considering the United States and the South African Apartheid Regime for some 45 odd years during this most vile tyrannical regime of the US ruled over the 90% black African population of South Africa, had these rather stringent puritanical laws where one would risk heavy fines as well as imprisonment for both distributing and watching movies that showed nudity let alone sex between a black and white person.

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20kpollard-ten.pdf>

BTW, may I suggest when meeting with the current imbecile Israeli Prime Minister that you most of all pay attention to what former Admiral of the brutal US Navy Ami Ayalon, now "Minister Without Portfolio", does **NOT** say, beginning with his thoughts on why United States military websites have banned Adam L. Tucker from posting up messages pertaining to the Swastika shaped building built in 1967-1969 on Coronado Island, San Diego, the Meth capital of the world, which American service people seem to think this most disgusting, so arrogant display of Nazism can be explained as being a "peace symbol" taken from ancient India.

Moreover, when ALT points out that the construction of this Navy facility took place beginning in 1967 some 22 years after the Russian Red Army liberated Swastika inundated Auschwitz where some 1 million Jewish people were murdered, these US military posters go "deafeningly silent" before then issuing their "banning order", no different whatsoever to the way the 3 Branches of the US Government instructed the South African Apartheid Regime during their most repressive 45 odd years rule.

You would agree Mr. President that is it one thing for the US Treasury, US Federal Reserve and of course the US Congress not to be able to account for any of De Beer's Diamond Currency including that used to arm Nazi Germany but it is another thing altogether not to be able to account for all the gold the 3 Branches of the United States Government stole not only from South Africa during the past century using worthless-fictitious US Dollars backed up by the US military mite.

Even if Kristin Pollard and her gang banger first cousins could care less about their share of the gold loot there are whole lot of other deprived American kids including Americans of South American descent that are increasingly interested in CLEAR, SHORT answers.

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20imi-rich.pdf>

The fact that it is an Israeli Military Intelligence report does in fact make a great deal of difference whether you think my only goal is beating my very intelligent wife to die the richest person in the grave.

The report you know is all about gold although you will have noticed that there is no mention of this wonderful feeling, so nice to the touch, just the perfect weight precious material of all time, that most of all is non-reproducible, that has not only you but anyone with any intelligence thinking yet again of what former Chairman of the US Federal Reserve, Alan Greenspan wrote back in 1966, his essay titled, **GOLD AND ECONOMIC FREEDOM**, which of course took place before he got bought.

<http://www.nextraterrestrial.com/pdf/gold-greenspan.htm>

Remember one other thing Mr. President, I have all the time in the world.

You know that when the US led the 8 Allied invasion of China in 1900 and stole everything that wasn't nailed to the ground the US also stole all of China's gold.

1900 was an important year on the southern tip of Africa where the US financed the Anglo Boer War of 1899-1902 which was all about stealing South Africa's gold which never ended after us British-Americans won that war as well when enslaving and murdering some 20,000 Afrikaner old men, women and children in Boer-Farmer Concentration Camps that resulted in the increasingly aware masses, particularly in Great Britain, abhorred by such brutality "crying foul" which simply resulted in the DeBeers-US-British government finding an ingenious way around this "problem" by having the masses "fighting over money", so shell-shocked from war that they couldn't even figure out when mouthing the words, "In war money is no object" what it actually meant.

There is only one question US Americans and the remaining 95.8% of the human population have once getting one's around the US Government financing De Beers, the "beyond reach" diamond syndicate who price fix their diamond currency that include diamond drilling bits to dig for both gold, diamonds, and most of oil so important in all the oil wars beginning with World Oil War One.

To repeat, that question is simply where is all the gold stolen by the US Government that US Government, elected and non-elected government officials have not deposited in offshore safety deposit boxes?

You will also observe that the overwhelming majority of US Americans once understanding that the "game plan" of De Beers and the same with the US Government, again, one and the same, was when hooking the world on "money" just one means of exchange, gold, diamonds, silver, platinum, oil, bread, potatoes etc other more edible forms of exchange and then there is timber to warm ourselves after building wood houses, all the while stealing for the US Government all the world's gold, to create a "money culture" void of culture and ultimately the only thing US Americans have to "fight for" is our increasingly worthless-fictitious and so very blood stained US-DeBeers-Dollars.

You will also observe that no longer do US Americans even give a moment's thought to the lack of morality of the US Government using the barrel of our big guns to wreck havoc throughout the world, starting one civil war after the next all the while enslaving our victims who survived our ethnic cleansing civil wars while forced to embrace the Almighty Dollar.

You know when you start a fire there is no way to know for certain what direction it will take but if your intention is just to start a fire and move on it really makes no difference.

Once reaching "high ground" with or without a TV or radio connection you would know with a high degree of certainty that your mission is accomplished and you could then make your way to the refrigerator and reward yourself with an ice cold

South African Lion Lager; and you would know from just reading The Diamond Invention that the South African Oppenheimers also just love their Lion Lager.

I have mentioned that my very visual, literate, math wizard, very excellent artist painter wife, partner Marie Dion Gevisser said if I write my book about the arsonists of arsonists, the De Beers Anglo American Cartel she would write a children's book on the same subject and title it, The Lion.

This occurred during a quiet moment when we were visiting for the second time the Alhambra in Spain where we met a number of interesting people including a former Syrian special forces commando who when leaving Syria made a living as a bodyguard and now his main interest is in birds of prey; not that I am suggesting were any of your dogs to pass away you might want to replace them with such a beautiful animal that too will eventually pass away versus say one of my wife's oil paintings including her latest very colorful rooster which she ingeniously titled, The Rooster.

Now if Spanish master painter Sebastian Capella were to paint a rooster, my wife would agree it would be, The Rooster and so would Sorolla, Velasquez, Rembrandt, Van Gough.

At dinner the night before last at a Peruvian restaurant I thought for a moment about ordering a Merlot but decided to go with a nice Chilean Pinot Noir.

Quero is quite obviously not only our favorite Peruvian restaurant in the area; the next door neighbor of Joe Walsh, the musician, certainly feels the same way and in fact this rather tall gentleman who reminded my wife and I of our painter Tom, same fair skin complexion and so on and so forth but certainly not quite as athletic or healthy as Tom who relies on being in peak physical condition to do the rather dangerous job of painting the 3 houses on our one-of-a-kind double lot on the cliffs of Del Mar, and by the way Tom most likely had no idea what he was getting himself into when taking this job that has been going on since May.

Not to mention if I or the owner of the properties were to be asked to give Tom a reference you could bet your bottom worthless-fictitious DeBeers-US Dollar he would get the most stellar reference.

I also once mentioned that the only time my Royal Mater-Mother ever commented on my "work product" was when I showed her a draft of an analysis of the media-publishing industry I was about to present to Randolph Apperson Hearst who at the time, late December 1993, was still the Chairman of the Board of Hearst Corporation, founded by his father who as history is rewritten more accurately, will go down as one of the greatest Americans despite his "start" having its origins in the mining industry, given how William Randolph Hearst "saw fit" to challenge Hitler like so very few other Americans in positions of power.

My use of the word "stellar" when describing how management in order to cover up their "non-stellar" performance often engage in transactions such as mergers and

divestitures that in a quarter or so following make it all but impossible to do comparative analysis, bothered my mother since she felt given all the rest of very good insight and analysis that I was providing that I should keep it simple, and use a word like "poor", but certainly not make it any shorter; in fact many who read it including Mr. Hearst preferred that I go on.

I would now like to introduce you to very fit, highly educated and spiritually strong Augusto Benito Vargis who when last emailing me wanted to know "the plan".

In not so many words because in fact I used a lot of words, I suggested that he and Alvero, a rich and corrupt Peruvian bury their hatchets and make love even though I know both are heterosexual and just the thought of having sex with another male is enough for both of them to want to "spit blood".

Just before beginning this hastily written communiqué I noticed Augusto sent me an email today, the one prior back on December 7th.

Suffice to say, Mr. President, one does not need to have worked on 47th Street, Manhattan, New York City the money laundering and intelligence gathering capital of the world to appreciate exactly what it means by De Beers owning the entire world's drilling industry for more than a century now.

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20atucker-cockedgun.pdf>

I promised Augusto who left me a telephone number that if I didn't hear back from him in 10 minutes I would call him.

I will now try calling him.

In the meantime may I suggest you get hold of a copy of Oliver Stone's JFK and fast forward until you get to the verbiage 1 hour, 41 minutes and 2 seconds in to the movie when you hear the word "De Beer".

Not to mention you would observe when adding or multiplying the 4 digits 1421 it results in the same number 8 which is "lucky" to the Chinese who few would argue discovered the America's ahead of Columbus; the book *1421 The Year China Discovered America* worth reading but not close to as important when considering the implications of the ingenious Israeli Military Intelligence report as the book, *The Diamond Invention*, written by Hollywood blockbuster author, Edward Jay Epstein, who details rather eloquently the chronology of the devious nature of the DeBeers-Anglo American Cartel, the mafia of mafia, the special interest group of special interest group who first take care of all the world's corrupt politicians before buying off their opposition using their unlimited supply of untraceable, lightweight and never inventoried diamond currency always price fixed at more than a barrel of oil.

To mention little yet again of this most fascinating non-fiction novel beginning with the words, "In Japan..." and the very first date mentioned is 1967, a very important

year in modern day history beginning with the brutal Israel Defense Force attacking the defenseless USS Liberty, a spy ship that had no business in a war zone apart from getting up to mischief.

To mention in passing, yet again, that US Navy Swastika building where construction began in 1967.

Just moments before hearing this never again repeated word "de Beer" there is this very jittery homosexual talking wildly out of control:

Flipping sides all the time.

Fun and games man, fun and games.

CIA and mafia working together trying to whack out debeer, mutual interest been doing it for years.

Operation Mongoose...Who the F... pulls each other chains, who the F... knows?

O what a tangled web we weave when we practice to deceive.

All I wanted to be was a catholic priest. One terrible weakness and they started to defrock me.

JFK ends with the following script:

As a result of this film, Congress In 1992 passed legislation to appoint a panel to review all the files and determine which ones would be made available to the American public.

Did you know that Jim Garrison, the Louisiana prosecutor who got as close to the truth about the DAAC assassination of JFK who like his brother Robert F. Kennedy forgot who "battered their bread", died in 1992 at age 70?

One last thing Mr. President, before I take a break is that it is worth bearing in mind there is no reference throughout this long drawn out movie to diamonds, let alone President elect John F. Kennedy, immediately prior to being sworn in as President and Commander in Chief of all United States Armed Forces finding the time in his very busy schedule to pay homage at the Carlyle Hotel located on the upper east end of Manhattan, to De Beers' Anglo South African boss, Harry Oppenheimer with all 3 Branches of the United States Government looking on, understanding perfectly well the implications of such an obvious meeting, no different to when Senator Ted Kennedy, former President Lyndon Johnson and Vice President Humphrey were forced by the Mossad to attend the church funeral of Harry Oppenheimer's Mossad assassinated American partner, Charles W. Engelhard on March 2nd 1971, while the reader of The Diamond Invention is led by investigative reporter Edward Jay Epstein, also on the payroll of the DAAC, to

believe that Engelhard was already dead at the time the DAAC rigged the 1960 Presidential election.

And to keep things in their right perspective back in 1967, American Charles Engelhard who played every American political party alike, was just 50 at the time and very much "on top of his game".
