Subject: SEDUCING NEXT OF KIN - Part II

Mr. President,

Again, when you cannot trust your parents you don't have a family.

When you cannot trust your President you don't have a country.

The stress level, partially reflected in the price of Gold currency, the best indicator of the common sense common person's distrust of elected and non-elected government officials including of course yourself and folks like the Secretary of the US Treasury and equally nonsense US Federal Reserve, is palpating especially amongst the liars, cheats and thieves now being exposed like never before in the history of the world, and therefore increasingly paralyzed.

Gold last trading just shy of US\$1,000 up some 184% since I had my good listener and logical thought processing French-Canadian wife send on December 31st, 2002 an email to a group of gold traders that began, "It seems that Mr. Gevisser might in fact be on to something.."

Mr. President, it is rather important my beyond question credibility which is why I derive such great satisfaction in all the extraordinary "deafening silences" amongst all those so very nonsense talking folks who increasingly have the most difficult time both when awake as well as when trying to get a restful night's sleep knowing that in ignoring what I have to say there is this permanent digital record we have of not only who knew what and when did they know it, but each one of us going on 7 billion odd human beings getting with each passing moment exponentially more information about who amongst us is getting the information that is being shared with others about what each one of us knew and when we knew it, without those of us "playing ostrich" knowing exactly who and when others they know as well as don't know, knew the exact moment each one of us decided to begin "playing ostrich" as it simply got too close to home.

Now place yourself in a court of law and I and/or one of my associates is called as an expert witness to testify when either the defendant or the plaintiff were informed about their failure to fully disclose their knowledge about certain "material" truths such as that ingenious Israeli Military Intelligence Report that says the following:

Immediately following the Beijing Olympic Games, Al Quaida will launch a series of attacks on the oil fields of Saudi Arabia, Kuwait, and Qatar that in the next instant will paralyze the US economy.

Not only has both Israeli Military Intelligence as well as the Mossad lent credibility to their ingenious Military Report of all time by not "taking issue with me"; moreover, our back and forth email communications including the very moment IMI over at the Israeli Embassy in Washington DC went "deafeningly silent", all the while telling me over the phone that they could no longer receive my emails, spoke the most extraordinary volume about my again, proven credibility.

<http://just3ants.com/emails/israeliembassy/default.shtml>

Mr. President look very carefully at my FBI file that I have been assured by FBI agent Michael Lombardi would be opened if I dared copy him on one more heavily broadcasted email that I daresay was somewhere in the region of 72 emails ago that he as well as his bosses have been both carbon and blind copied.

Perhaps, if you are too busy, then have our Attorney General explain to Mr. Lombardi the critical importance of "full and accurate disclosure" specifically as it applies to Wall Street's ability to "predict" a "rosy scenario" which of course is totally impossible making much more than a mockery of these middle-middling-"woe-men" [sic].

<http://www.nextraterrestrial.com/pdf/FBIlook.htm>

Considering the size of my emails, would you agree that it is conceivable that my file is very possibly the largest FBI file?

Now think what it will look like if I were to live to 120?

Perhaps, you would consider putting in a good word for me to have the FBI's headquarters in Washington DC named after, how about Pypeetoe?

What about turning that US Navy swastika shaped building on Coronado Island, San Diego in to a learning center for the "Appreciation of the Arts" starting with young kids?

Suffice to say, I might have a bigger file than say Senator Ted Kennedy that would include his presence at the funeral of mafia of mafia head American Charles Engelhard, an "open supporter" of the South African Apartheid Regime who in conjunction with the CIA and British intelligence developed and perfected biological weapons that were used on the opponents of the Apartheid Regime throughout the world including here in the United States with both deadly and torturous force.

Can you provide any reassurance to those of us who have been poisoned that all their assassins have been apprehended?

Contained in that file will be the name of my uncle David Gevisser, my father's first cousin who took over from Charles Engelhard as the co-conspirator-inventor of The Diamond Invention when uncle Dave became the executor of Engelhard's fabulously mineral rich estate that included the "control person" position of the De Beers-Anglo American Cartel, the mafia of mafia, special interest of special interest group, central bank of central banks.

The next most important name is that of Roger W. Robinson who I have known intimately ever since "Our Man Roger" left De Beers' Chase Manhattan Bank to join the National Security Council located in the basement of the White House in March 1982 where he met up with House of Saud, Saudi Arabia attorney Sec. James A. Baker who "Our Man Roger" provided us with empirical evidence that the man now controlling United States Defense Secretary Robert Gates was,

"THE MOST DANGEROUS PERSON IN THE WORLD!"

<http://www.nextraterrestrial.com/pdf/mvalder-poor%20teacher.htm>

Not to mention, that between January 1984 and April 1985, "Our man Roger" also served as Executive Secretary of the Senior Interdepartmental Group-International Economic Policy, a Cabinet-level body that reported through the National Security Council (NSC) to President Ronald W. Reagan who bears the same initials as "Our Man Roger" as well as born on the same day, February 6th, some 40 years apart.

<http://www.nextraterrestrial.com/pdf/jpollard-ussr.htm>

The next most important name is "Our Man Roger's" bosom buddy, my one American attorney of umpteen years, Mr. King Golden Jr. Esquire, formerly General Counsel of San Diego based Defense Contractor, Science Applications International Corporation [SAIC].

Not to mention that Mr. Golden Jr. Esq. held on to his shares in this massive employee owned corporation figuring that with all he knew about how SAIC went about "lighting fires" throughout the world including "sharing intelligence" which he justified as the "best way to maintain the peace with spies on all sides knowing everything there was to know", the value of those shares would skyrocket, which as you know, they did.

Chase Manhattan Bank's chairman remains De Beers controlled David Rockefeller, a founder of the De Beers Trilateral Commission.

No need for me to go on and on, at least not now, now that I have to prepare to seduce my wife this evening after the following email from MDG who is over at our stone home deep inside the Cleveland National Forest, right when I was on the phone with Spanish master oil painter Sebastian Capella, most upset about the political situation in Spain right now which has big government socialists once again grabbing from the hard working who of course are not all poor, but certainly like most of the rich, good, bad and indifferent, very poorly informed, but thanks to missives such as this, increasingly less so.

Subject: Hi baby

Keep smiling!

Don't drive back, I will be back this evening.

Can you see if I could get an appointment with your dentist to get my teeth cleaned Thursday afternoon?

MDG refers to this photo below taken just before Dr. John K. Pollard Jr. emailed us to say in not so many words, "Send me an email of your smiling", as my, "Mona Lisa smile"

And this one below, "The politician smile"

What do you think next happened to that perfectly round tomato knowing that although I am ambidextrous, mostly left-handed, throwing best with my left hand but playing all racket sports with my right as well as being mostly right-footed?

You don't mind if I needed some "filler" while waiting for feedback on the draft of this communiqué from not only those on the payroll of the world's intelligence institutes; not to forget my secret weapon knitter wife who is now ignoring me.

In case the NSC and the FBI are slow in getting you the rest of today's communications with my so breathtakingly cool wife, click hyperlink below; bearing in mind in my follow up communiqué I was a week off in the dental appointment I had already made for her with most excellent dentist Dr. Dickson who I met with at 7:30 AM today, having had to get up like most people working for a living at the crack of dawn and drive back from the Cleveland National Forest some 63 odd miles to Dr. Dickson's offices in Solana Beach; not to mention having arrived there close to midnight last night after our most wonderful dinner.

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20mdg-dental.pdf>

Furthermore, may I suggest that even if you are perfectly happy with your dentist, you would be well served to get your teeth checked with brilliantly schooled, most modest, perfect teeth, and the most perfect bedside manner Dr. Dixon who I believe is only 30 with, however, the wisdom of Saul.

Such a professional who loves what he does is very possibly not a dying breed especially when considering a young lady assistant who is now following in his footsteps and going to dental school making him and the rest of the staff very proud.

Not to mention the very excellent administration staff he inherited when very recently purchasing the business from Dr. Freimiller who I believe lives in Rancho Sante Fe.

Why is you think the so foul mouthed bought and paid for media don't make a big deal about the vast majority of US Americans who are not out there just trying to grab the money who actually contribute to the betterment of humankind including all those such as Dr. Dixon and this soon-to-be dentist spending a day of their work week helping the poor.

Wall Street does absolutely nothing for the average professional and wage earner apart from stealing from them blind and so dam arrogant to boot!

Need I tell you that there exist even great medical doctors schooled here in the US who are not all about money and seducing great looking women; if you know of any please forward to me their email addresses as well as those belonging to their next of kin.

These are the very best as well as saddest of times for me and my awesome wife who is the most extraordinary mindful mother of "tTOo" [sic] kids who I have helped her try raise with the same value system as the two of us but who have opted for the money.

At some point I believe Marie Dion Gevisser would grant Adam L. Tucker permission to load up on to our www.just3ants.com website two most thoughtful communications to both teenage kids that has resulted in only one response from her 15 and a half young son who only responded because he wanted MDG's signature on a DMV Permit Form.

Would you happen to know off the top of your head whether both parents' signatures are needed for a kid here in California to get this nonsense temporary drivers permit without a kid showing that they are at least as mature as their most mature parent?

You understand perfectly well that this privacy business is one most masterful distraction that has the working poor wanting to believe that at least they have their privacy while many don't even have their own private bathrooms, let alone the energy at the end of the day to figure it all out and then to top it off, try and find the money to do anything about why it is that you say quite accurately, "the rich don't pay taxes" and the superrich starting with the DAAC, the counterfeiter of counterfeiters, at the top of the dark pyramid, fix the price of their so "blackened handed" currency to pay for more than just their nonsense taxes including it costing them nothing to speak of when bribing government officials to pass all sorts of tax laws on the working poor, so incredibly exposed.

When you are poor, only then does "equal under the law" begin to mean something.

I am, quite honestly, sick to my stomach and of course I and my most sensitive wife are not alone in knowing that there is of course a much more powerful force out there watching at least over the two of us who don't need to be reminded, "By the grace of God go I".

Have you managed to read your personal copy of the "heel-boots" email I sent last evening just before my wife and I dined at Il Fornaio located on the deck of the Del Mar Plaza where we were not only so well entertained by Il Fornaio's Regional Manager Mario's brother, whose name I didn't catch but who is the Executive Chef in charge of all the chefs of this 20+ chain that now includes an operation in Virginia, possibly within walking distance from the White Cross of United States Attorney General, Senator Robert F. Kennedy, located just below the front doorstep of President Washington's family home, now our sacred Arlington Memorial Cemetery, but Alfonso, an Italian master chef, prepared for Marie and me the most delicious, not on the menu, vegetarian risotto that was simply out of this world; not to mention when it came time to sign the credit card receipt, not having looked at the bill when it was first presented, simply handing the waiter my credit card, neither Marie nor I could believe our eyes given how very significantly discounted it

was, bearing in mind that Il Fornaio is already extremely well priced considering the consistently high quality food that includes an imaginative seasonal menu that changes monthly, helping to maintain a "fresh, creative look"; to mention little of my stunningly beautiful and "dressed to kill" French-Canadian wife wearing her Balenciaga green "Army Jacket", black Theory pants and matching black Vera Wang very open and sexy low tee-heeled shoes, was at least equally entertaining and of course it was all good fun and most of all "good for business"; to mention in passing in Part III I will include a photo of Marie Dion Gevisser standing next to Alfonso.

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20atucker-proof.pdf>

It is all so confusing.

Who and what to believe?

And when you hear via the grapevine that Democratic Presidential frontrunner Obama won't salute the American flag, if you feel outraged as do many of US Americans, is it enough when asking his supporters how they feel about such a "slight" to then still have the energy to listen carefully as to why his supporters agree or disagree, again assuming the rumor is correct; and then once taking a very deep breath, after of course letting the person talk themselves blue in the face defending why Obama is the best person to support their pocket book since we know at the end of the day pretty much everyone including the corrupt politicians vote their pocket book, to ask that individual be it Obama, Hilary, John McCain, Senator Ted Kennedy, Father Christmas etc etc, what the impact is going to be on the US economy once the world, beginning with very poorly paid US military personnel, become fully aware of why the US and the British Government backed with the full military might of the United States Armed Forces for some 45 odd years the most vile, the most Nazi, the most heinous, the most repressive, the most racist South African Apartheid Regime and in return for "business interests" who have names, faces, home addresses as well as email addresses, receiving the bulk of the gold, platinum and uranium stolen from the overwhelming majority of Black South Africans?

Mr. President, when you read once again that ingenious Israeli Military Intelligence report which explains in simple English that the reason Al Quaida hasn't attacked the oil fields of Saudi Arabia, Kuwait and Qatar, right there in their own backyard versus coming all the way over to the US mainland, is because they know better than to bite the hand that feeds them, then you begin to get your arms around that much more the, "Stored CD-ROM" containing data relating to the "smart poisons" programme developed by the South African Apartheid Regime in conjunction with both British and American intelligence; i.e. CIA, which gets handed down from one stooge South African President to the next, all perfectly appreciating the need to keep it under "lock and key", all the while the whole world knows exactly what biological weapons have and are being used by assassins throughout the world equally knowledgeable about what is stored on multiple copies of the "STORED CD ROM".

<http://www.nextraterrestrial.com/pdf/Microsoft%20Word%20-%20president-store.pdf>

BTW, that same low flying bright red helicopter I mentioned just the other day flew by the cliff house, the time, 11:11 PM Pacific Standard Time.

By The Way, what exactly is the "holdup" on Obama's wife not willing to release the thesis she did at Stanford University, apart from it of course being a totally nothing distraction in helping her and Obama explain how they benefitted from Black South Africans earning slave wages during the 45 odd year brutal reign of the South African Apartheid Regime.

I can only suggest you convene this very instant in the Situation Room of the White House your entire cabinet as well as Bill and Hillary Clinton, John McCain and Obama and why not Rush as well as Larry for a "live" one of a kind Educational

Light Journey-One Tribe of Achievers seminar-workshop and in preparation have them read word-for-word The Diamond Invention written by Hollywood blockbuster author Edward Jay Epstein beginning with Chapter 9, DIAMONDS FOR HITLER, subtitle The Secret War Report of the OSS/CIA.

<http://www.edwardjayepstein.com/diamond/chap9.htm>

My God Mr. President, it is the most gorgeous day here at the beaches of Del Mar. Do you surf?

I would also suggest that you ask them not to comment until they have finished and indicating as such by raising their hands, just like they were taught in pre-school which should have you then passing them each the following identical question,

What do you think of the implications for us all in this room continuing to talk aloud, "We are a nation of laws" given how President elect John F. Kennedy just before being sworn in as President and Commander in Chief of all United States Forces met in a public setting, with the Secret Service present, at the Carlyle Hotel with mafia of mafia head, Anglo South African Harry Oppenheimer, the co-head of the De Beers Anglo American Cartel [DAAC] whose "control person" was none other than American Charles Engelhard who inherited from his also American born father the title, "The Platinum King", and upon Engelhard's assassination at age 54, and buried on March 2nd, 1971 at St. Mary's Abby Church in Morris Town, two words, New Jersey, Engelhard and Co. now controlled as well the world supply of platinum, that not exactly coincidentally, can be found in the exhaust system of every new motor vehicle produced in the United States since 1974, some 3 odd years after the DAAC had the US Government go officially off the Gold Standard on August 15th, 1971 and Engelhard and Co.'s holdings then began to skyrocket in value?

Make certain to ignore any of those who do not provide you with a written answer.

Next have them answer when they recall assassinated JFK or his brothers, assassinated Senators Robert F. Kennedy and Senator Ted Kennedy who attended along with former President Lyndon Johnson and Vice President Humphrey, Engelhard's funeral, again some 11 odd years following that so extraordinarily telling meeting at the Carlyle Hotel located on the upper east end of New York City, ever once commenting on the extraordinary "Money Power" of the DAAC who now for more than a century have engineered-manufactured-distributed their own exclusive unlimited supply of untraceable, lightweight and never once inventoried Diamond Currency, always price fixed at more than a barrel of oil, making a total mockery of not only our anti-money laundering laws but each and every law on the books including our so sacrosanct anti-Trust/anti Price Fixing laws that are at the heart of us Americans crowing the loudest,

"We are a nation of laws. We believe in the rule of law and the need to maintain law and order, essential to the Free Enterprise System which is pivotal to the spread of democracy, freedom, blah blah" [sic]!

You might find at this point not a single person seated in the Situation Room writing a single word nor would any of them be willing to talk, "on the record".

And please don't let them think that by having collapsed in to a heap of tears it will wash away their most bloodied hands.

Why not suggest that they all stand up in line about say 3 feet from the wall and then jump head first into the wall, each time shouting out loud the name,

"Steve Biko".

Don't hesitate, however, to remind them all, increasing "blue in the face" that "Deafening silences speak volumes".

BTW, this coming Saturday night my wife

will be wearing at a charity event for the San Diego Orchestra a Bluemarine dress, purchased from Gerard over at the Del Mar Plaza which you can see below draped over a chair that Marie Dion Gevisser restored.

In the foreground is an oil painting by master painter Sebastian Capella -

Bastían Capella, el pintor saguntino afincado en San Diego (California), ha triunfado entre los empresarios valencianos. not to be confused with quack chiro Dr. Sebastian - of the 2200-year old Roman Coliseum in Sagunto, Spain where Mr. Capella was born some 8 decades ago, teaching now more than 60 years.

Not to mention how Spanish dictator Franco was one of the very few to successfully stand up to Hitler, which says a lot about how rather weak was this Little Corporal from World War II, facts that didn't just surface "yesterday".

The record is also very clear that the United States and British Governments were no "friend" of the fledging State of Israel some 3 odd years following the defeat of Nazi Germany which amongst many things explains the Swastika looking US Navy building built between 1967 and 1970 on Coronado Island, San Diego where the US Navy SEALs are based.

Of course you are not alone in recalling how on June 8th, 1967, some two days in to the brutal 6 Day Arab-Israeli War, the combined forces of Israel's Air Force and its most elite Maritime Special Forces unit, Flotilla 13, later headed up by Admiral Ami Ayalon, Israel's most powerful cabinet member, "Minister Without Portfolio", launched the most extraordinarily "unprovoked" and most brutal attack on the totally defenseless USS Liberty spy ship operating in international waters off the coast of Egypt, having been commandeered into "harms way" by Admiral McCain, the father of the imbecile now the Republican candidate for President of the United States that you know perfectly well again carries the title, Commander In Chief of all US Armed Forces, thank God, getting up to speed with my proposal that only US Military personnel and their immediate families be allowed to vote for our corrupt

politicians and once in office the first thing they do is vote themselves a sufficiently high pay raise that ensures our military personnel don't "turn".

http://en.wikipedia.org/wiki/Lavon_Affair

The fact that most US Americans don't know their history, economics or politics does not mean the rest of the world is also ignorant.

More importantly, the Chinese, who live to learn versus a great number of US Americans who live to eat and as logic would dictate mostly talk crap, for very good reason, these Jews of the Orient set the scholastic levels wherever they travel including places like Israel and vice versa.

Yes, most Israelis, especially those in Israel's most brutal Special Forces are not in the least bit fanatical which has a lot to do with their extraordinary success on the battlefields, which has everything to do with trusting their "intelligence" mostly coming from within the "enemy's camp" who didn't start learning the truth about the real enemy, not "illegals" but "elitists" without any loyalty to country, religion or ethnicity just to their "greedy kind", just when I began broadcasting.

Look only at your watch if you find yourself needing to be distracted and even then you have to deal with the truths that I am spreading at Light-G-D-speed all in an effort to give peace a better chance.

Most Jewish people I know who as you know are only Jewish when it suits them, no different to the mostly Gentile world who are only Christian, Buddhist and Muslim when not being anti-Semitic which is also only when it suits their pocket book, haven't really given any thought to how it was possible with the world knowing the truth about the atrocities of the Death Camps like Auschwitz, for the fledging Jewish State of Israel some 3 years later having to defend itself from an Arab enemy who had no military to speak of, but backed fully by the combined military mite of the US and the British Government who "inconceivably" had placed an arms and trade embargo on Israel, including making it illegal for any man of military age to enter Israel to help defend against an enemy that the best military minds at the time including Field Marshall Montgomery believed would push the Israelis into the Mediterranean Sea within a matter of hours; and when that failed, some 12 days later on May 26th, 1948 installed into power on the southern tip of the African Continent that most evil of evil South African Apartheid Regime aka The 3rd Reich's southern division who then went on to perfect Hitler's and the rest of the victors of World Oil War II's biological weapons programme.

So now let's talk about solutions to the blank faces of Senator Ted Kennedy, Hilary and Bill, Obama and John and let's not forget the rest of your cabinet, not all your allies.

The CIA, like the Mossad didn't need to read in Chapter 9 about De Beers having fully infiltrated the Diamond Committee of the British Ministry of Economic Warfare, to know that World Oil War II was one most extraordinarily contrived war

orchestrated by the ruling elite who had their eyes set mostly on the non-combatants in places like Mexico, all of South America and of course Africa beginning with South Africa sitting atop the world's richest mineral resources apart from oil which had been fully secured on February 14th, 1945, right after the atrocity of the Yalta Conference that began two days following the Red Army, not American GIs, liberating Auschwitz on February 2nd, when De Beers President Franklin D. Roosevelt met on board the [USS Quincy](#) with Ibn Saud of Saudi Arabia, the clearest "shot across the bow" to David Ben Gurion, head of the Hagannah Jewish Underground movement fighting the corrupt British-American government, not to press forward for a Jewish homeland.

Again no surprise why the United States Government then imposed an arms-trade embargo on the fledging Jewish State in an all out effort to help the world once and for all, get rid of the Jewish "problem-questioning-wandering" people, not enough that 6 million of us had been brutally murdered without a place to run let alone hide; not to mention Roosevelt and Co. turning away the SS St. Louis in 1939 at the outbreak of World Oil War II, just one more indicator of why the smartest of us Jewish people have always known to "stay low" with our "ear to the ground" and place the most trust in actions, integral to Jewish thinking.

If you are interested in participating in our forthcoming seminar-workshops prior to completing your term in office, please let me know ASAP.

To be continued.
