phone number - Timely Response

Sarah,

Again, the purpose in contacting you was for Prince News to enlighten its students in areas that the Professors wouldn't touch with a 100 foot pole, not so much in discussing that when the women of Darfur get raped the men of Darfur don't touch them with even a 100 ft pole thus bringing to an end their breeding, their culture, their way of life, their survival to focus attention on this most barbaric genocide ever invented by western humankind, the oxymoron of all time, but why such truths of man's inhumanity to concentrate on murdering to the last one whose lands have been stripped bare of rich mineral resources, gold, oil and the like, were not lost on kind, but telling it the way it is Einstein whose 3 words, "*Concentration Camp, Princeton*" speak volumes to your ongoing "deafening silence".

The genocides are perpetuated by keeping the students ignorant to such truths.

I was explaining to Adam Tucker who arrived earlier at our cliff house here in Del Mar that he should consider taking the rest of his life off and then to get back to me when figuring out how to find out how much and when each member of his very corrupt mostly Jewish family got bought off by his Roman Catholic mafia uncle Pete Grande who received a US\$2 million cash infusion for his plastics company

that makes packaging for the likes of the Cheese Cake Factory and Jack In The Box, all in the form, according to Adam, of not necessarily new US\$100 bills in a suitcase; much heavier of course than totally untraceable Diamond Currency worn by the likes of my Royal Mater-Mother Zena Gevisser in either a broach or clipped to the outside of her brazier when,

“From the earliest days of 1949, she [Zena] visited Israel two and three times year writing reports for different publications.”

The Mossad you also understand would have no problem comprehending in all 42 languages broadcast by the BBC that uncle Pete’s defense before a jury of his peers will inevitably be that he, when accepting the money from a South African who he was introduced to by his Jewish Iranian partner, Albert Halimi, was doing what anyone else in his position would have done in order to maintain their corrupt lifestyles that of course included uncle Pete having a girlfriend on the side who apparently gave him genital herpes that I assume got shared;; no different to Jackie O sharing with all her lovers the Kennedy clap; and moreover, when Adam’s mother, Merle Tucker whose younger sister Wendy is married to uncle Pete decided to first use Adam’s soon to be ex-wife, Julie Cadar to threaten Adam with imprisonment for going public with his allegations of fraud and money laundering funds belonging to the DeBeers South African Apartheid Regime, which to the best of my knowledge have not been proven in a court of law, and then there were these extraordinary incriminating emails “back and forth” between Adam, Julia and Merle, not a single member of Adam’s immediate or extended family thought it appropriate to distance themselves from Adam’s mother who when caught with her dirty panties around her knees, daring to call our home on the cliffs of Del Mar a “toilet” then text messaged Adam asking him to help her with a website she is setting up to sell her puppies.

Soon you will be able to click on “puppies” on the homepage of www.just3ants.com

To top it off, Adam who also has issues about an elderly family member, his paternal step-grandfather possibly fiddling him as a kid, received the most extraordinary emails from both his father, Michael Tucker and Michael’s younger brother who let Adam know that he was “there” for Adam if Adam needed a “support system”, because like Adam, this younger brother of Michael Tucker was fiddled by this IT, Ed Tucker which is how the Tucker last name came about, and who is apparently right now “breaking bed” [sic] this Thanksgiving with Adam’s father, again Mike Tucker, who is in the most extraordinary denial; very possibly himself fiddled by this step-father who is still allowed access by Mike Tucker to Adam’s one 9-year old adopted half brother.

Impossible, to believe, Mike Tucker who not long ago wanted to confront me “in person”, now emailing Adam, “***So now what?***”; this beyond belief communication after Mike Tucker’s younger brother laid out all the facts to support what an ass is Mike Tucker; not to mention that Adam’s mother Merle divorced from born in 1954 Mike Tucker since Adam, who is now 28 ,was 6, is also “deafeningly silent”, yet again.

To mention little of when Adam was 10, possibly younger, he was sent to Florida by Mike Tucker to be in the custody of Ed Tucker which is when Adam was fiddled.

Now one major purpose in sharing yet another every day event in a very typical western style raised dysfunctional household is to buttress the question my French-Canadian wife persistently puts me,

“What makes you think it will be any better with the Chinese raising all the world’s children?”

In wanting to assist me in proving to my very thought provoking French-Canadian wife Marie Dion Gevisser, that it can in fact get worse with the Chinese inevitably, thank G-d, producing all the children, I now want to reach out to all my Chinese friends throughout the world including both African American Devin Standard and Lily White Wheaty Eating English-Israeli-American Guy Friedman married to Leya, a most beautiful, tall and slender Chinese lady who has produced, beyond a shadow of a doubt, the most perfect human being I have seen; Mia Friedman, according to Guy, "surrounded by many guns" beyond belief smart and awesomely beautiful; not to mention Guy is a most awesome Israeli Special Forces commando under the command of Ami Ayalon when Ayalon, now the most powerful person in all of Israel, "Minister without Portfolio, was in charge of Flotilla 13, Israel's Special Forces Marine unit who run and swim circles around our drug crazed US NAVY SEALs whose base, Coronado Island serves as one most awesome drop off point for non-prescription drugs entering the mainland of the US.

Again, none of us Chinese people should rely on Devin or Guy to come up with a more screwed up household than that of The IT or the Tucker household and to please forward me immediately the details of greater abuse.

Bear in mind it is going to be tough to top Devin's story of this Danish farmer whose young toddler was eaten by one of the family's pigs when the father went in to the house to take a phone call and upon witnessing the very few human remains that were dripping down the mouth of the pig went back in to the farm house to grab hold of his shotgun, first killed the pig and then turned the gun on his himself.

You know perfectly well that I didn't get off a boat just yesterday in Haifa harbor, Israel where my paternal grandfather once owned priceless land both in his name as well as that of his murdered sister Pessiah; Pessiah, all her children and grandchildren murdered by the DeBeers Nazis; not to mention this photo below shows Pessiah standing in front of our family shop in Vilnius, Lithuania, to the left of her other brother Beryl Abe who was very possibly carried the gay Gevisser gene and of course you know there is no evidence of the homosexual gene just one or more over-controlling parents.

Issy, Beryl-Abe and Pessiah had one other brother, Morris Gevisser who married Janie Moshal who produced two male offspring, the younger David on March 2nd 1971, immediately following the church

funeral of Mossad assassinated American Charles Engelhard, became the executor of Engelhard's most valuable mineral rich estate.

Attending the funeral proceedings at St. Mary's Abby Church in Morris Town, two words, New Jersey was Senator Ted Kennedy and alongside this DeBeers bought and paid for most senior US Government official was another most senior DeBeers' operative, former President Lyndon Johnson and another poorly bred DAAC operative, Vice President Humphrey.

You would know if you had just an inkling of wanting to get at the truth at what caused Albert Einstein to write, of course for public viewing, on the return address of an envelope that he was sending from Princeton University, "**Concentration Camp, Princeton**", that at the time Senator Ted Kennedy's brother, John F. Kennedy was visiting with Charles Engelhard at his Camp Chaleur estate in Quebec, Canada, Canada the next country north of the United States of America, Mr. Engelhard had already inherited the title from his father who started Engelhard Minerals and Chemicals headquartered out of Newark, one word, New Jersey, two words, "Platinum King", two words.

<http://nextterrestrial.com/pdf/The%20Atlantic%20Salmon%20Federation.htm>

It was rather important, assuming you don't believe in coincidences that in the most recent issue of the nonsense Vanity Fair there is an article about President JFK and Jackie O Kennedy which I have yet to read but I understand from reading the preview at the beginning of the magazine that there is mention of the hyphenated word, "President-elect" which is also mentioned in Chapter 18, THE AMERICAN CONSPIRACY, a rather important chapter in Hollywood blockbuster author Edward Jay Epstein's epic non-fiction novel, The Diamond Invention that details the extraordinary devious nature of the DeBeers-Anglo American Cartel able to in broad daylight in full view of all 3 Branches of the American Government including the US Supreme Court, summon President-elect to a meeting at the Carlyle hotel with Harry Oppenheimer.

By again, coincidence, Charles Engelhard's father founded Engelhard Minerals and Chemicals in 1902, the very same year that Charles Engelhard's mafia partner, Anglo South African Harry Oppenheimer's father, Ernest Oppenheimer arrived in South Africa, which is located on the most southern tip of Africa.

Have you ever visited Cape L'Agulhas, the most southern point of Africa, which most agree is a continent.

BTW, in 1995 within a couple of weeks of me meeting with my uncle Dave Gevisser where he offered me for the second time to take over from him as the American head of the DAAC, my awesomely gorgeous, beyond belief athletic French-Canadian wife who after a full days flight from the US with a 10 hour layover in London, long enough for her to lay down and fall asleep while walking for a good 6 hours window shopping, got off the plane in Cape town where I took her promptly for tea and scones at a quaint tea and coffee shop near the Campus of Rhodes University where in June 1966 Senator Robert F. Kennedy spoke utter nonsense, before then racing her to the top of Lion's head overlooking Clifton Beach where we stayed at my Royal Mater-Mother's most awesome bachelor pad where a day or so after I arrived back from Johannesburg after meeting with my uncle Dave, click on hyperlink [this hyperlink](#) to get details, I had a leisurely conversation with Tony Leon, the head of the Democratic Alliance Party of South Africa, which serves as the token opposition to the DAAC sponsored ANC [African National Council] during which time Tony who I have known a lifetime and who remembers me jumping over barrels

in ice show extravaganzas

put on by Marjorie Chase, wasted no time in “cutting to the chase” to let me know how much he not only detested the so very assimilated Oppenheimer family of South Africa but much more importantly how DeBeers had gone about perfecting the execution of genocides following their failure to exterminate all the independent thinking Jewish people during the Holocaust of World Oil War II.

Dear Ms. Sim,

24 hours have now gone by since we ended our phone conversation with you promising to read carefully what I and Adam Tucker wrote you in an effort to have you publish an article that would serve to educate-enlighten your students that their professors may not be in a position to discuss for example the "Rape of Darfur"; the rape of the women more so than the chopping off of heads and limbs of the men an extraordinary effective but rather inhumane way of extermination of a "troublesome people".

I have a follow up communication to this which I will be sending you should your "deafening silence" continue.

Bear in mind, that you do not have a clue who is being blind copied, the same with those in the carbon copy section as well as those blind copied who occasionally get informed who else is being blind copied.

You would know that there is more than simply "method to my madness" that provides me as well as those who decide to go "to war with me" with the most extraordinary "footprint" on the Internet.

Go ahead and type the name Ed Bartolas next to mine when doing a Google search. Let me then know which of our email communications you enjoy the most and would not hesitate to forward to your email list that inevitably will be part of my email list.

Yes, you do not know whether you are "coming or going" only because you have failed to live up to your word.

I would like you now to look at how long it took for you to reply yesterday to my first communication while you and I were talking and then at the amount of time that passed while we continued talking between you receiving my second email; bearing in mind that my computer clock was running some 3 minutes slow and why it looks like what I sent you directly below took place a minute before you

emailed "received" in response to my verbal request to confirm my first email to you which was actually sent at 12:22 PM Pacific Standard Time.

Several weeks ago a close confidant of mine began speaking about an ingenious Israeli Intelligence military report.

I would prefer his name remains anonymous, at least for the time being, bearing in mind it is the substance of his knowledge that you will see is not only credible but extraordinarily timely.

This individual is very much in touch with Israeli Military intelligence and has been since he was very young even though he is not Israeli and nor was he born in Israel, in fact he is a US citizen and lives in the United States with his French-Canadian wife.

The intelligence report that he shared with me reads as follows:

Immediately following the 2008 Beijing Olympic Games, Al Quaida will launch a series of attacks on the oil fields of Saudi Arabia, Qatar and Kuwait that in the next instant will paralyze the US economy.

There are several aspect to this very easy to understand report that even if one of your writers were to "dream it up" it would make perfect sense, begging several important questions beginning with "why hadn't I thought of it?" followed immediately by, "Why hasn't it happened given how it would be so very easy for Al Quaida to attack say a sitting duck oil supertanker fueling up at a sitting duck deep sea oil rig?"

All depending on your skills and experience in "intelligence gathering" you would be able to take longer or shorter in "cutting to the chase".

Once you focus on how easy it was for Al Quaida to hit the Cole using very unsophisticated means to deliver a non-nuclear and very non-sophisticated relatively speaking missile fired from a rubber dingy so your next thoughts go to the extraordinary level of non-sophistication used during the 911 attacks where were it not for the hijackers using box cutters what would Homeland Security have done for either an "encore" or to justify the buildup of more of our out-of-control industrial-military-complex that produces more Coles and more of a presence in the Middle East where we don't currently get any of the oil needed to satisfy our shortfall of some 4 million barrels of oil a day.

On the other hand none of us knows for certain exactly where we get our oil but one thing is for sure we certainly know what price we pay or so we think.

This leads to Albert Einstein in January 1934 to write as the return address on the envelope he was mailing, "Concentration camp, Princeton."

Those 3 words when considering Auschwitz and the such hadn't been built should be nothing short of bone chilling, all depending.

Again, Israeli Military intelligence is very much "up to speed" on everything that I have written above and which has been "vetted" by my close colleague.

Equally important, is the well known fact that Israeli military intelligence who have been working very closely with the Peoples Republic of Communist China for several decades now, beginning in earnest following the June 1989 Tiananmen Square massacres which caught pretty much everyone apart from those who orchestrated it "flat footed", works very closely with the Mossad, Israel's not all that super secret intelligence institute that has a rather remarkable and rather well known assassinations unit which the world first began to hear about following the massacre of 11 defenseless Israeli athletes at the 1972 Munich Olympic Games.

Einstein to many "failed" in his attempts to come up with a unified theory for the inner workings of the universe but he was not afraid to speak out against all injustice including those at Princeton who were trying to get him to "shut up" and not bring attention to the rise of Nazi Germany.

No military wants to find itself without oil when the world is expected relatively shortly to run out of oil.

Thank you for your time,
Adam

The purpose of that communication is to educate-enlighten your students that their professors may not be in a position to discuss for example the "Rape of Darfur"; the rape of the women more so than the chopping off of heads and limbs of the men an extraordinary effective but rather inhumane way of extermination of a troublesome people.

Of course, I was fully aware that while I was speaking ever so slowly and very clearly you were reading very carefully what was causing you to be so very upset.

My extraordinarily "quick minded" F-C wife who has yet to read any of this, before leaving for our Stone cabin in the Cleveland National Forest about an hour car ride east of Del Mar, thought that I and/or Adam Tucker would have introduced The Diamond Invention that would of course explain so much better your "deafening silence".

Marie Dion Gevisser has a "mind of her own" that tells her what should be a priority, no different to each one of us 7 billion odd on planet Mother Earth, crying out to be "saved" with each one of us feeling our thoughts in terms of first and foremost what is a priority.

For example I could have decided the day before yesterday to mail a parking ticket I got for parking her car on the wrong side of the street on a day when that side of the street was being cleaned and in so doing met the deadline that called for the City of Del Mar to receive the US\$35 by November 21st which I believe was yesterday or the fine goes to US\$60.

I could have easily instead of putting a check in the mail yesterday around 4 PM just as easily gone to the Del Mar City Hall, written the check and at the same time saved myself a 41 cent stamp, but then I would have had to see the so ugly faces and fat asses of Del Mar City workers mostly keeping their seats warm while farting up the air.

Airborne particles of feces have been proven when excreted by humans to be not as damaging as the rat feces in Mr. Jeffrey R. Krinsk's over-the-top great party house in Point Loma, California.

Were you aware that Mr. JRK graduated from Boston College and that tomorrow is his birthday?

In all likelihood you can get through each and every distraction I throw your way because of the fact that your income from Princeton University is not supplemented by a Trust Fund such as those set up by the very "money blackened handed" Dr. John BIG BEN Stewart MD for his "tTOo" [sic] children, his elder daughter, Danielle now apparently writing articles for her college newspaper.

Consequently, it is just your absolute disgust at how extraordinarily misinformed you are about how the "real world" works beginning with how very little you know about the extraordinarily lucrative business of "Money Creation", that has you still so very tearful, yet to the best of my knowledge to collapse in to a heap of tears.

I am now instructing Mr. Adam Tucker, my one American apprentice whose very corrupt family have yet to contribute a penny towards his apprenticeship with me, to create a blog for you on www.just3ants.com

Currently, Adam is sweeping the inside of the cabin in anticipation of MDG's arrival and when he is done I would like him to take a damp ever slightly soapy cloth and wipe the dust off all the furniture not forgetting to go around the fireplace as well as the inside of all the many windows as well as not forgetting to give the birds an additional helping so that when MDG arrives she is greeted by one most awesome orchestra.

Each and every one of my communications ever since I began broadcasting my very first missive on October 17th, 2000,

<http://nextraterrestrial.com/pdf/Perspective%20One.htm>

one day prior to my amazing Jewish South African fighter-bomber-pilot father's 77th birthday, are all geared toward putting the "finishing touches" to my long awaited forthcoming book, **The History of Money Creation and Its Future!**, subtitle, ***A Message for the President***; both the subtitle and title named by my very brilliant and most literate French-Canadian wife, Marie Dion Gevisser when we were visiting China in the summer of 2006 on our 24 day "fact finding mission".

MDG, as you would suspect does not hold much if any "hope" for humankind and passes her time when not cooking for me the most mouthwatering vegetarian meals which go a long way in keeping me healthy, fit and trim to then begin to make the most awesome love to her which you would agree she is most entitled to, focused exclusively on her art painting classes with master oil painter Sebastian Capella with enough time and energy remaining to have the most extraordinary superficial conversations with her two children who have a whole lot better idea while a whole lot younger than you of how very corrupt is the world thanks to them and The IT who they have no problem with blackening their hands, and as logic would dictate not in the least bit willing to go so far as "lift a finger" to inform their so poorly misinformed peers because to do so would gravely interfere with their so very "carefree" lifestyle which both of them feel they are entitled for their own reasons, beginning in my humble but seasoned opinion because of having to put up with The IT, and concluding in the next instant that since it is so very easy to take the money to do just that, and besides, I think you would agree, they would argue quite convincingly but only to imbeciles, that anyone in their position would do the same and if not, then of course "to hell with them".

While I have not seen Mr. JRK in a while - recently he had one of his slave wage earners "blow me off" when I suggested we again do lunch at Rainwaters where he wouldn't have to be concerned paying some US\$88, and I wouldn't be at all surprised if today it is well over a US\$100, for the 48 ounce Porterhouse steak that my best friend Pypeetoe

was beginning to get quite used to because Pypeetoe, just 10 days shy of his 6th birthday was on June 28th, killed by a fast moving train - I am quite certain that in the event I were to happily join Pypeetoe and his "guard dog" Maggie, then Mr. JRK would be counted on to make certain anyone needing help in responding to fast balls thrown at or nor head by scoundrels such as knucklehead Professor of Law, Alan Dershowitz receive their allotment of knuckleballs along with a lifetime supply of bandages to also mop up their crocodile tears.

I just made a lunch reservation next Wednesday at Rainwaters, and using Rainwater's website sent Mr. JRK a personal invitation. I will let you know as soon as he responds.

Dear Jeffrey Krinsk,

I just made a reservation for us at Rainwater's on Kettner.
lunch

Details for the reservation are:

Name: Gary Gevisser
Date: Wednesday, November 28, 2007
Time: 12:00 PM
Party: 2 guests
Location: 1202 Kettner Boulevard
San Diego, CA 92037

Phone: 619-233-5757

This message was sent to you at Gary Gevisser's request, using Rainwater's on Kettner's online reservation system.

There are of course less and less “fish to fry” given how good a job we have done in depleting the oceans which now allows those such as Dr. John K. Pollard Jr, an alumni of MIT and Cornell University to test once again his “wits”, seeing how far he can push his total lack of intellectual thought processing along with being so extraordinarily intellectually honest by informing those idiots still listening to him that there is plenty of fish 30,000 meters below the surface that have yet to be either discovered or consumed.

Don't you just love the fact that Dr. JKP Jr. has convinced himself that he is vegetarian by suggesting that all he is doing when eating beef and in the process depleting the rain forests which are now cow and dung hangouts, all he is doing is eating prepackaged corn that is only filtered through a cow?

You would understand if you appreciated how much the truth means to me that I could care less what any moron and/or crook thinks unless they are as poorly informed as you protest and once armed with the Knowledge-Information-Light who chooses to both live and die in denial to then move on to the next person and then the next while of course I can remain both civil as well as charming to all those who choose poorly to usurp their limited authority.

But why bother?

You see I happen to “know” versus “believe in G-d” and do not need any religion or worse yet a corrupt cleric to “guide” me while knowing perfectly well they all have their “hand out”.

It does not, however, hurt to have a good foundation in the awesome Jewish religion although it is possible that all the religions of the world including Buddhism may lead “lost souls” to the Promised Land.

But so far I have found no convincing evidence of any of the religions including the Jewish religion making any “headway” since I have yet to find a single individual like myself who not only “knows” G-d but is willing to stick their neck out and take on each and every individual in real time who usurps their limited authority beginning with the despicable, so filthy dirty, so blackened hands, ultra orthodox Jewish-Black Hatters who serve as the “cushion” for DeBeers, the world's principal banker to the super rich.

It is of course doubtful that I will see out this Christmas but then again people like Mr. Jeffrey R. Krinsk Esq. have been taking similar bets with me going back to the fall of 2002 when Mr. JRK was quite convinced I wouldn't see out that “Xmess” [sic] and when I did, he agreed and of course lost to a “double or nothing” bet that I would be dead by New Year that followed a week later.

Just this minute MDG called me on my cell phone USA 1-858-SEL-NEXT [6398] from her cell phone 1-858-WIL-NEXT and you would know that we own both [www.sellnext](http://www.sellnext.com) and www.willnext.com to let me know that before now heading to the stone cabin she first went by Dog Beach on the border of Del Mar and Solana Beach to see about buying a “back scratcher” from a rather well-known homeless person who she just met the other day and who gets by when not drinking himself to death making very practical items.

This gentleman, in his 60s, who did not have the backscratcher with him but was looking for a ride, there not enough room though, in the Mini, did let MDG know that he could do with a pair of pants and so MDG promised that when she returns from the Cleveland National Forest she will get him a pair.

I am also a pragmatist and know that whichever way one "slices the cake" I am increasingly running out of time to make a difference in this so morally bankrupt "Let them eat cake" world, fully aware that the current trend in China is to embrace the west's "material world".

China though, has yet to get close to being as "carefree" and consumer-polluting as the United States.

China for very good reason features prominently in the not so top secret Israeli Military Intelligence report that fails to mention the name "Israel" even though it was created by the most ingenious Jewish minds to have survived both the pogroms and Holocaust of World War II as well as the ongoing plan by the DAAC western alliance to exterminate all Jewish thinking people who don't forget our history including our "uncle Toms" more commonly known in the death-slave camps as "Kapos".

President Bush has yet, to my knowledge, called for the immediate suspension in the trading of shares in public corporations and thereby protect the poor of the entire world.

He is making a very grave mistake.

"Risk assessment" is my business.

Subject: FUNNY-refresh-hebrew-no end in sight-bottom of the barrel-phone number - Timely Response

Isn't it a funny thing how so very quick you were to say, "now lets get it going here", and now how long it took you to realize that not only am I so very good at flushing out those who play it "fast and loose" but I am not stupid, far from it.

While you thought nothing of wasting my time, thinking that after I had helped you get a better idea of the value of your very blood stained diamond currency, coming no doubt from "blackened hand" folk, you would then play it just as "fast and loose" in deciding not to sell your ill-gotten gains to either one of the DeBeers two diamond wholesale-retail money laundering stores in the heart of downtown very real estate and city council corrupt Del Mar, California, keeping both the "flat amount of US\$1,000" and 5%.

I am giving you exactly 5 minutes to think this over during which time I will prepare a follow up to Ms. Sarah Sim of Prince News.

If I give u 5% of sales there would not be additional moniesso no 1k per item just a straight 5%

Sorry for the break. I was having breakfast with my awesome walkin-talking work-of-art French Canadian wife.

I think 5% is fair.

Now to be perfectly clear since you will have the final say on whether or not to sell a single item, the "flat amount" gets paid no matter what.

Second, I am available this morning to go with you to both diamond stores in Del Mar starting 90 minutes from now.

If you would like to join me first for a swim in front of the cliff house, be here in 20 minutes.

First, lets get the deal all "squared away".

What percentage of sales are you willing to offer?

A percentage of the sale price + a flat amount of US\$1,000.

Let me refresh your memory with what had you responding, "I must say you are good".

<http://nexttraterrestrial.com/pdf/shendricks-report.htm>

You could of course just like anyone wanting something for nothing, use all the knowledge I have shared with you "free of charge" but then you might also want to give thought to the possibility that there is not only a G-d but one who is extraordinarily vengeful towards those in

particular who armed with such knowledge of what is wrong with the world and how easy it would be to fix were it not for those getting more than their fair of the spoils of diamond drilling bit oil wars thinking it is their right to get even more “filthy rich”, choose very poorly in keeping such Knowledge-Information-Light to themselves.

3 days from now it will be 11/24 and I might not wait for such a date to follow up with Mr. Bush when at the same time of explaining why it is that Hollywood-Madison Avenue are now moving full force in making the grossly misled masses feel an increasing sense of “hopelessness”, all beginning with Epstein’s The Diamond Invention and more recently US Marine Capt. Brian Steidle’s so very well orchestrated The Devil Came On Horseback, topped off with so very induced recession-depression, all benefitting the “filthy rich”, to remind Mr. Bush that I was very possibly the first to “discover” the 4 digits 1421 when added or multiplied result in the awesome number 8, lucky to the 1.5 odd billion strong Chinese who feature very prominently in the not so top secret Israeli Military Intelligence report that the Mossad have yet to deny.

Not to mention the book 1421 The Year China Discovered America or how often the number 42 appears in my life beginning with our shop in Vilnius, Lithuania

And the two nails with the number 42 we found hanging on an inside wall of our Stone cabin in the Cleveland National Forest.

Lastly may I suggest you come up with a reasonable price for your very blood stained diamond currency because I know you simply couldn't live with yourself being out of pocket a nickel.

Do you have a yamika I can borrow?

For the last time. I would be willing to go along with you to the two wholesale-retail diamond money laundering stores in downtown heavily corrupt Del Mar, California and so long as you allow me to film I will do my best to get you the best possible price.

Please brush on your Hebrew!
