**Subject:** Esperanto

Hello Alberta,

Below is a photo of my maternal grandfather's one brother whose name I forget that my mother told me was one of the pioneers of Esperanto

Below is a photo of their mother, Nechie Badash who as a young girl, about age 8, was orphaned when a gang of marauding Cossacks came through her tiny village of Plonsk, White Russia-Poland and wiped out her entire immediate family as Nechie sat huddled in small closet.

You can read about my "born to perform" Royal Mater-Mother, Zena by clicking this hyperlink below and be sure to listen to her record, now some 60 years old entitled, THE IMPORTANCE OF BEING A WOMAN

<http://www.just3ants.com/FamilyTrees/GevisserBadash/zena/impwom/default.shtml>

You asked me a very important question last night, "I hope you are not against the United States?"

I am against all those who lie, steal and cheat which includes all those who commit atrocities even those not fully armed with the truth who are so very numb to commit unspoken atrocities on the battlefields.

As you well know, peace is war to those who profit from war and the overwhelming majority of us hard working, honest, very grossly misinformed Americans do not benefit in the least from war, on the contrary when one commits wrong beginning with just telling the smallest of "white lies" so one begins to go down the most extraordinary "path to hell" without anyone to blame but oneself.

My goal is teach individual responsibility which is what all the world's great religions embrace.

I make it my business to follow the "money trail" given how "mindfully" I was raised by two most loving parents who learned not only from their parents and

grandparents but from having raised my 3 elder siblings to also be "independent thinkers".

Bottom line is that I convinced that there had to be a reason why my highly secretive mother would plant the seed in my head about her uncle being so involved in Esperanto and leaving them alone to "take root".

I am in the process of building throughout the world incorruptible grass roots organizations not dependant on big government entitlement programs which are designed to reignite without anyone feeling the need to resort to violence, individual responsibility for their actions and not look to big government made up of elected and non-elected government officials singularly focused in feathering their own nests.

The expression, "birds of a feather flock together" is one I believe we should all pay attention to since it tells us most of all to avoid those who seek "negative attention" like the plague.

The solutions that I am offering in "real time" over the internet are a "far cry" from the death and destruction proffered by all those who profit not only from war but the masses living a hell which of course would not have been the design of a most loving, caring and most intelligent God, agree?

I look forward to hearing your record,

Love-Peace,

Gary

Ps – you had mentioned to your son David that he might help you "figure out" what I am "all about", and I am quite certain he too isn't going to have much problem with that "assignment" by his so obviously well respected mother. At least equal in importance I don't think it is going to take David very long to realize that besides for his greatest asset which is the space between his ears and always protecting it from becoming like Deep Space, a perfect vacuum, where no sound as we know it can be heard, hence I conclude the reason for the positioning of the ears – God gave us two ears and one mouth so that we should listen twice as hard as we speak – that most beyond belief beautiful and happy portrait by Sebastian will in "no time to speak of" become one to be treasured by the entire world only just now beginning to wake up to why there was the murder of the classical art training beginning at the turn of the last century in favor of "modern art monies" that like modern art there is simply no way gauge its value apart from those with "Money Power" dictating what is and what isn't valuable.

Your "assessment" that Esperanto brings together the poor who are not stupid, again just poorly misinformed, and intellectuals who come from all "walks of life" and knowing most of all that however one defines the word "God", there can be no doubt God is ONE "truth".

Another "truth" is when we see a beautiful woman and it takes our breath away.

Another definition of truth is that which doesn't change.

The most powerful words in Hebrew are, "Hear O Israel, I am the Lord thy God, God is one".
