Subject: Ask Jeffrey...

in your own words and without bothering to have him comment on "[Al-Jazeera Report Shows American Citizen Training Islamist Militants...](#)" what prevents him from "*riding the coattails*" of the US\$4 billion his colleague, DAAC criminal Melvyn Weiss Esquire and my immediate family's very close friend, Deborah Sturman extorted from low level DAAC operatives in settling matters for those so very few remaining Jewish slave laborers of the Holocaust?

Perhaps, but only if you agree less is more, and less for the brain dead, also mention that I have now mentioned to you that his law firm's foray in to the highly lucrative Anti-Trust arena, beginning with going after specifically importers of chemicals in to the U.S., again in violation of our sacrosanct Anti-Trust laws, is so extraordinarily lucrative because very skilled and experienced litigators such as Mr. JRK also want time to relax and enjoy life just like us 3 ants, and do so by "*riding the coattails*" of the Feds when, to repeat, going after those most flagrant violators of our so very sacred Anti-Trust/Anti-Price Fixing/Anti-Competition laws that the DAAC have a whale of a time poking fun at, all at the expense of not only America's increasingly poor; but remember, America represents some 4.2% of the world's population and the remaining 95.8% or so are overwhelming poor; but just because you are poor does not mean you have to be either dirty or without table manners or stupid or out of shape both physically and mentally.

Not to forget where you first heard the name Engelhard's Mineral and Chemicals out of Newark, New Jersey, two words.

The discombobulated masses also include those miniscule living the good life without having to work very hard including of course Trust Fund children having no difficulty

given their poor education-breeding buying into Edward Jay Epstein's nonsense about Englehard "forced" to ship gold bullion in the form of art objects-statues out of South Africa to get around South Africa's nonsense "foreign exchange-currency laws", destination Hong Kong.

Fricken stupid and lazy westerners beginning of course with us Americans who are raised to "feel good about ourselves" do "feel good about ourselves" when hearing that the gold stolen from South Africa as a result of enslaving, torturing and murdering tens of millions of so very colorful South Africans was somehow not really benefiting the conscienceless Americans living off one most extraordinarily bloodied Trust Fund.

So here is Jeffrey having you "beat on" DAAC controlled wholesale-retail diamond money laundering stores whose owners if they were to cooperate fully will at best be fortunate enough to dig ditches but they too only die once.

Why not ask Jeffrey what his wife Marcy is doing tomorrow and even if she still has to supervise her two handfuls of staff taking care of their awesome grounds perhaps during her 10 minute morning break and if that isn't enough time than perhaps her afternoon 10 minute break, don't dare think of interrupting Marcy's lunch with her girlfriends who rely on one another to keep tabs on their husband's girlfriends, Jeffrey very possibly the only exception, to call Jeffrey, remembering to be courteous when speaking with Kim Jones the receptionist and remind Jeffrey that Engelhard Minerals and Chemicals out of Newark, one word, New Jersey, two words, is and has been now for more than a century a flagrant DAAC importer of chemicals into and OUT OF the United States DESTINATION DAAC mining operations throughout the world including South Africa.

I heard about this tame gorilla that shakes peoples hands. Do you think we could hire him so that when we do get around to videotaping my explanation of The Diamond Invention I could not only change seats with him but I think having him around will keep me constantly smiling which according to Queen Ant Marie is silly since she says there is nothing in the least bit funny about the Diamond Invention.

Just because she is the Queen Ant does it mean that I have to always listen to what she says?

Perhaps, again if there is time, Marcy can also mention to Jeffrey that South Africa sits on the most southern point of the African continent but don't necessarily assume this since we are no doubt in the midst of the polar-reversal which could have what we know as the north pole becoming the south.

Marcy who before marrying Jeffrey in a most elaborate and wonderful wedding ceremony where of course Marie and I were "honored guests" was the Chief Marketing Officer of the Offense-Defense contractor Science Applications International Corporation and would understand the term "running a flag up the pole".

I am not sure where I was going with that.

You will recall SAIC hired University of Virginia Law School graduate King Golden Jr. Esq. a left of left wing Democrat as their General Counsel which is when I first "ran into" this "bosom buddy" of DAAC master spy banker Roger W. Robinson.

Not to mention yet again that King Golden Jr. Esq. married his Norman Rockwell figure wife at a ceremony on the deck of SAIC's world headquarters in La Jolla, California.

Not really difficult to figure out anything once understanding the ingenious workings of the mind the first indicator of the Supernatural beginning with realizing that it is the idiots who think their smarts belong to them who pay others to make laws that include hiring the dumbest of Americans like King Golden's wife Berkeley PH.D Sarah Golden heading up programs like Head Start in Washington DC, doing the most brilliant job of dummifying down America that has as logic would dictate the dumbest of Americans, the intelligentsia-academia, the new corrupt church, blaming Hispanics the hardest and most non-violent workers for America's Norman Rockwell painting lifestyle within moments of total collapse.

Never to forget China has not only some nearly 500 million very wired Chinese but another 1 billion farmers such as those we met on our 5 Star going on minus 1 star cruise of Yangtze last summer who got a great kick while earning very little money showing us their extraordinary muscular

skeleton system

when pulling us mostly very overweight westerners along in the canoes upstream on a tributary of the Yangtze; a good thing that on occasion water would splash right next to the women and not forget the gay men who would quickly make mention to their partners of the wet spot to the side.

Never to forget that every foreigner who visits China mostly plans their trip in advance.

Never to forget that those foreigners who don't plan their trips in advance can have a really tough time figuring things out.

Never to forget the extraordinarily disproportionate amount of Israelis who have been visiting China especially over the past 2 decades.

Not to mention yet again the consensus of our very good English speaking private guides numbering some 10 or so including their supervisors who we “ran into” on occasion, was that approximately 30% of their customers were Israelis whose numbers total some 6 million, a percentage so small it causes most calculators to “error”.

Never to forget that Chinese government officials have advance warning to display.
