Subject: I AM ATTACKING ISRAEL - like it is his uniform - on the ground?"

If Jews are taught to question the "status quo" what prevents such "aware" people today from questioning Jewish multi-billionaires David Geffen and his buddy Steven Spielberg who are of course given their wealth part of the banking establishment, why not only does the Diamond Invention still exist given how De Beers and Co. have now had more than a century to convert/laundry all their stolen wealth and now control much more than the entire world's drilling industry, but why, again apart from their "love of money" would SPIELBERG and Co. draw any attention to the State of Israel being "part" if not "totally" responsible for the problems of world terrorism!!

Jewish people are not close to being the world's bankers, apart from each and every Jewish person I am exposing in "real time", and who along with their partners have no loyalty to country, race or religion, and who rely exclusively on the brute military force they collectively control that includes their diamond studded iron fist control of the world's media who play their role in deciding who is and who isn't ruler to produce their own money.

Just a person with very average intelligence would see that Spielberg was doing something very naughty in his 5 minute introduction to his 2005 epic movie-documentary by failing to make his gullible audience aware of the fact the mastermind of the Munich Olympic massacring of 11 defenseless Israeli athletes, Mr. Salameh, had been on the payroll of the CIA since 1970, two years prior; not to mention the silence of the remaining 3 Branches of the U.S. Government all these years says CLEARLY the culpability of the 3 Branches of the US Government in protecting the terrorist of terrorists.

Do you think David Ben Gurion and Co. who are not the dumbest people in the world and who make it their business to stay at least as informed as the CIA who they know provided protection to De Beers and Co. who provided Hitler with his diamonds, needed the US Congress to hold Congressional Hearings into why the CIA were protecting Mr. Salameh and Co. to the detriment of the State of Israel who has known that the US Government has never been a friend of the fledging State of Israel!!

Do you think David Ben Gurion and Co. havent known from well prior to Hitler invading Poland in September 1939 that the 3 Branches of the United States Government have been owned now for more than a century by De Beers and Co., the mafia of mafia as well as the masters of disguise that so very few people in the world have even heard of, most hearing their name see them as the "pretty stones"

people who have Hollywood celebrities endorsing their "product" that takes off any "rough edge" that De Beers themselves promote, just so that they don't appear "sinless"!!

But "average" is not good, especially when one considers how much damage is done to the brain, going from a genius at birth to very average given how they have been co-opted-corrupted by, first and foremost, their corrupt parents to think "making money" is a "worthwhile pursuit" versus doing something one loves for the betterment of humanity-humankind and the rest of "wildlife" benefitting from the humanity of humankind, again the oxymoron of all time.

The past is the past, now is the present.

SPielberg, Geffen and Co. are Jewish.

Every Jewish person reading this communication who can easily get the "chronology" of my "investigation" of this corruption of corruption by going to just3ants.com and they have any questions to email me directly, can see that SPielberg and Co. were protecting the "best interests" of the highly anti-Semitic United States Government when saying, "You should make no mistake that I am not attacking Israel with this film, in no way shape or form am I doing that."

Of course by leaving out of this introduction the knowledge he had which he presented in the movie of the CIA interfering with the Mossad hit on the mastermind of the Munich massacres, thus protecting their "man" to not only continue in his path of bloody murders on innocent civilians by to train and well as indoctrinate another generation of what would be otherwise decent human beings, Mr. SPielberg was in fact saying;

You should make no mistake that I AM attacking Israel with this film, period.

It doesn't however, begin or end with exposing Spielberg and Co. but at least it is a start.

P.s. - Lets send SPielberg a just3ants.com t-shirt, "I don't lie, steal or cheat!"

- 1) It is more appealing to blame an outside force for your inability to compete than it is to face the reality of your ineptitudes.
- 2) On a whole Jews have been forced to compete for their survival which groomed them to be successful business people that typically have money.
- 3) The Catholic Church forbade profiting from lending money which resulted in leaving Jews have in the role of money lenders.
- 4) The main communication outlets (media) are/were controlled by a wealthy few with their only loyalty to money and see/saw benefit in deflecting the eyes of the world onto a minority that was believed by the religious masses to be responsible for the death of their messiah.
- 5) Jews are taught from an early age to question the status quo which fosters the view of them as being "trouble makers" furthering the feeling of disdain for them.

Israel was not a nation during World Oil War II or WOW I and nor did it have secure borders?

Moreover, the British-American forces made all the rules including placing a very public arms embargo on the fledging Jewish State that also made it illegal for men of military age to enter the fledging Jewish Homeland.

The British-American forces made all the rules when it was legal; i.e. 24/7, to raid Kibbutzim looking for weapons, sending a rather clear message not just to David Ben Gurion in Jerusalem, Israel, but each and every Jewish person in the world

starting out here in the United States, home to a whole bunch of Holocaust Memorial Museums who have yet to question the blatant hypocrisy of Hasidic-ultraorthodox Jewish-Black Hatters, the most critical intelligence gathering players in the virulently anti-Semitic Diamond Invention, that since its beginning at the turn of the last century, all the way through to its current leadership, have all been regular attendees at church services and always without exception buried in non-Jewish cemeteries, my uncle David Gevisser may be the first.

Can you explain what it means to be Jewish to Jewish people who are only Jewish when it suits their pocket book?

Have you noticed how very quiet are SAJAC [South African Jewish American Community] members as well as those who are not members who are mostly thinking right now when will Roy and Jeffrey Essakow sell their and Marc "Trading with the enemy Iraq-Iran" Rich's Flower Hill Mall that borders, Del Mar, Solana Beach and Rancho Sante Fe?

Do you recall the outrage of the British-American government when Israel took out the French-built nuclear facility in Iraq back on June 8th, 1981, the 14th anniversary of the State of Israel missing being nuked into oblivion by the slimmest of margins when failing to fall for the trap set by US Government at the highest levels who thought that Israel didn't have the balls, but most of all the intelligence and weapons systems to respond with the most superior and overwhelming nuclear force imaginable, after Israeli fighter jets in the clearest of blue sky days first circled the USS Liberty and still the Israel Defense Force being led by Yitzhak Rabin who had our close friend Boris Senior "activated" back in to the brutal Israel Air Force where he had previously been the Deputy Chief of Staff following his most important role in Israel's most brutal War of Independence, never heard a single word from US Naval intelligence who understood just like Israeli military intelligence that the USS Liberty was the out-of-control United States Government's most advanced spy ship, now so flagrantly "thumbing their noses" at the State of Israel who again, had been told time and again by the US Government that no vessels of any kind, let alone the most advanced spy ship in the world was operating in the most war torn warzone.

Remember American fighter bombers carrying armed nuclear weapons with instructions to nuke the country responsible for the so "unprovoked" attack on a totally defenseless ship flying the largest American flag ever flown on any US ship, had already been launched off the decks a US aircraft carrier and to nuke Egypt who by this time were totally out of contention made absolutely no sense, forget the nuclear fallout that could have swept over in to tiny Israel.

Moreover, the United States Government understood perfectly well that they had placed such a highly provocative move only to "trap" Israel who they were quite certain would respond exactly as the Israel Defense Force did, but what the US Government led by the highly anti-Semitic US Navy had counted on was Israel having the patience to wait for those US fighter bombers to already be up in the air with the record PERFECTLY CLEAR that Israel was the intended target before

responding in a very CLEAR, SHORT sentence, "DON'T EVER AGAIN FUCK WITH THE JEWS!"

How many times need I mention that the only name my Royal Mater-Mother had me write down alongside the name of her bank in Israel, Bank Leumi, of any significance, in the diary I kept on the 4 month Ulpan that began September 1st, 1972, was not David Ben Gurion who happened to have "retired" to Kibbutz Sde Boker where I just happened to be based, where there also just happened to be an Israeli military base that housed not only extraordinarily highly wired military intelligence officers most loyal Ben Gurion who didn't all wear army fatigues when both teaching us in our class rooms and watching over "sum" [sic] of us, especially carefully when going out on our "free weekends" when immediately after meeting Ben Gurion for the first time on November 1st, 1972, some 57 odd days following De Beers sponsored PLO terrorists beginning to brutally murder 11 Defenseless Israeli athletes at the Munich Olympic Games, I began to meet quite regularly with not only Boris Senior in Dizengoff Circle, Tel-Aviv, and of course Boris while only being told what he needed to know did know a lot more than your average grunt Israeli soldier who by and large are not obese, can swim without each one requiring the entire Israel nuclear submarine fleet pull them off the ocean floor, and really don't have to fight, but if called upon, they would win "hands down" given how "common sense" alone tells every Israeli soldier that the next battle will get that much tougher knowing how the out-of-control US Government has to keep feeding [to Israel's enemies; i.e. the United States Government's tyrants](#), both intelligence and weapons systems just to keep this bloated military-industrial-complex alive.

What instead of worrying about all the fatso Roman Catholic priests still fiddling little Altar Boys whose parents are simply too busy keeping track of their lies, you have one of your non-Jewish girlfriends start a blog asking why someone like blockbuster Hollywood Producer-Director Jewish Steven Spielberg who won't touch the Diamond Invention let alone my analysis of this most important non-fiction novel detailing the devious nature of his De Beers bosses with a 100 foot pole, would, however, go to great trouble in his so very serious 5 minute introduction to his epic 2005 movie-documentary to belabor the point,

You should make no mistake that I am not attacking Israel with this film, in no way shape or form am I doing that.

This is a very very tough subject and we have decided to approach it honestly and unsparingly.

This film is an attempt to look at policies that Israel shares with the rest of the world and to understand why a country feels that its best defense against a certain kind of violence is counter violence, and we try to understand this as filmmakers, through empathy because that is what you do, you extend empathy in every single direction because you can't understand the human motivation without empathy.

This movie is not an argument for non response.

On the contrary what this movie is showing is that a response that may be the right response is still one that confronts you with some very difficult issues, and when we have to respond to terror today, what is relevant is the need to go through a careful process, not to paralyze ourselves, not to prevent us from acting but to try and ensure that the results that we produce are the ones that we really intend.

I mean it is the unintended [mumbling] results that are probably some of the worst and that will ultimately bedevil us.

What you see in this movie is not an attempt to answer, "Should there should be targeted killings or not?".

What I am doing with this movie is highlighting some of the dilemmas and highlighting some of the issues that need to be discussed. I am not trying to answer them. But the movie in a sense, apart from being a human drama which explores what these guys went through, will hopefully stir that discussion.

Have each one of your girlfriends, current and former, and don't forget your ex-wife Julia who of course I am blind copying as well as her heavy traveler mother, go through this 5 minute, so very thoughtful introduction to see if there is one word mentioned about the United States Government's role in promoting terrorism while having them go back repeatedly to www.just3ants.com, made easier by clicking on the hyperlink below taking them to a chronology of events involving the CIA.

<http://www.just3ants.com/dev/cia.php>

Scroll down to 1970: 'Black September' responsible for the Munich Massacre

Click on the hyperlink, and the following will appear:

Al Hassan Salameh, Chief of Operation for terrorist group 'Black September' responsible for the Munich Massacre - Salameh served as a secret contact between the PLO and the CIA from 1970 until his death, guaranteeing to not assassinate Americans in exchange for financial and political support. He helped protect Americans in Beirut, and his role was to facilitate contacts between the Palestinians and Americans, in hope of obtaining American support for the Palestinians.

BTW, some two years later, in late fall 1972 I was well on my way to 16 years of age, having come a long way in both my Jewish history studies and to do more than look not all that awkward when first handling an Israeli made Uzi submachine

gun when just 9 years of age and have no compunction about aiming it at my middle brother Melvin who knew he had nothing to fear given how although at that time I didn't have a clue about loading or unloading such an awesome piece of weaponry, both Melvin and I knew that it had been checked and double checked before being handed to me; and of course those observing very closely beginning with my highly secretive mother were not simply interested that I was having a "good time".

When someone tells you something like, "It is just politics" whether in reference to a dispute at work, or in the home, or "business as usual" wherever there are

"politicians" who here in the US are mostly lawyer-liars or those who succeed by failing a lot, it is always, without exception, all about "money".

BTW, if you have nothing better to do, try talking to any one of the wildlife and see if they agree with me that 100% of the human population would agree, "WE each get what we deserve" but the instant you have 100% of the human population ask themselves about their own families, what even the birds will invariably tell you is, "That is too close to home".

When you see more people talking to the birds, the bees and trees without anyone in sight you are going to be the one feeling the most crazy, and rightly so.

When you hear someone at a restaurant talking so very seriously about "raising money" for this fund or that project and in the same breath so as not to make out like it is "all about money" they tell you about this idea that is the next best thing to sliced bread, or that mass transit new locomotive they have in mind that will cut drag and at the same cause motorists passing by to crash and kill zillions of themselves by having the most beautiful naked French-Canadian women dance on table tops placed on top of the passenger coaches, the last thing going through their minds is who exactly decides how much of one currency to produce, let alone think that the person making the decision has a very powerful gun pointed at their head to keep talking just so long as they don't make any sense, and under no circumstances bring up the two words, "Diamond Currency" that stops all conversations, period.

Now granted, not everyone in the world is as dumb as Roy and Jeffrey Essakow even if 99.9999% starting out with Alan Greenspan, are really close.

Did David Ben Gurion appear to you to be dumb?

What about Yitzhak Rabin?

What about Boris Senior who shares a grandchild with, murdered in cold blood by a Jewish fanatic, the most great Yitzhak Rabin?

What is it about me that tells anyone apart from my so missed Pypeetoe that I am dumb?

When my also not exactly stupid mother Zena painted this below

on a thin piece of cotton do you think she was trying to compete with my very excellent oil painter artist French-Canadian wife?

So, do you don't think it is possible as well as helpful for you to reach either my mother or father or my dad's first cousin David Gevisser, remember all 3 are still very much alive, and so is my father's brother-in-law Dr. Leizer Molk MD whose house in Lusaka, Zambia became part of the Chinese Embassy when the Molks immigrated to the United States in the mid-1960s?

Remember you do have my mother's highly sought after email list who all received a copy of her memoirs that my highly literate, most brilliant, highly in-tune, mother first began broadcasting via email on October 9th, 2001, one day after I attended a very important board meeting of the Wetherly Capital Group under the command and control of Ronald Burkle the most significant fundraiser for the Democratic-Socialist Party apart from De Beers and Co. who own no more or no less the cowardly Republican Party.

What about trying to make contact even if only telepathically, again this assumes you have the time, with people like Glen Shapiro and see if you can have him at least focus on the Chinese Government so focusing on www.just3ants.com, a "nothing to speak" of website whose one American programmer, Adam L. Tucker also forgets I am only living in the present.

My simple question, again,

"How come the world believed that us Jewish people were the bankers of the world since to be so requires one has the sufficient muscle on the ground?"

Did you really read what I sent you?

I do, however, think what you wrote is very helpful.

When you listened at least 3 times I seem to recall you telling me, to Spielberg's 5 minute introduction to Munich where the main theme is the Mossad using worthless-fictitious De Beers-Dollars to pay for both its intelligence and weapons systems which is totally preposterous, but so full of himself Spielberg never thinking when making the movie that he would then have to provide an introduction that so criminally exposes him and which he wanted to do like he wanted a Mossad bullet blasted in to the back of his head, leaving the most indelible impression, a tennis ball size hole which might explain not only his baseball cap but why he always looks the same

like it is his uniform, and then you gather the info about Al Hassan Salameh, Chief of Operation for terrorist group 'Black September' responsible for the Munich Massacre - Salameh served as a secret contact between the PLO and the CIA from 1970 until his death, guaranteeing to not assassinate Americans in exchange for financial and political support. He helped protect Americans in Beirut, and his role was to facilitate contacts between the Palestinians and Americans, in hope of obtaining American support for the Palestinians, did it occur to you to just stop, period.

Stop trying to convince people who don't want to be convinced they are both stupid and corrupt.

And if you feel the need to write let alone chit-chat why not focus on the "stupid" bit and forget the corrupt since you just have to look at the size of most peoples' stomach that prevent them from looking down and seeing their shorthairs that there must be something seriously demented with these people as they don't stop talking incessantly when not eating themselves to a premature death that all they argue is that they are self-indulgent who play their part in keeping the ants winning this race for survival of the fittest.

How extraordinarily stupid could Spielberg have been not to include a single mention of the United States or for that matter the CIA, the United States Governments first attack weapons system?

Yet in the movie he makes as "clear as day" that the CIA interfered with the hit on the Al Hassan Salameh.

Forgive me please in going through this all very carefully.

SPIelberg in his introduction which is titled, "Introduction" on the DVD says in clear as a whistle English:

You should make no mistake that I am not attacking Israel with this film, in no way shape or form am I doing that.

Every intelligence service in the world beginning with the CIA, FBI, Mossad and Israeli Military Intelligence know that Al Hassan Salameh has been protected by the CIA beginning some 2 years prior to him masterminding the brutal murder of 11 defenseless Israeli athletes at the Munich Olympics.

Should I mention that Munich is a major city in Germany.

Do the words, "Eich... " ring a bell?

How long before John F. Kennedy's bones get tossed out of Arlington Memorial "Cemetery" [sic] in Virginia along with that White Cross of his brother Robert F. Kennedy who when visiting South Africa in June 1966 paying his respects to his De Beers bosses beginning with American Charles Engelhard of course didn't want to be seen with at any formal dinner with Charles Engelhard who plays such a pivotal role in the Diamond Invention and why it was no joke that Senator Robert F. Kennedy's advance team asked my mother Zena, "Come up with a list of people Robert F. Kennedy should not meet!!"

Steven SPIelberg couldn't have simply "dreamed up" CIA operatives walking up to a Mossad hit squad and punching out one of them who happened to be the one in charge, as they were trailing just footsteps behind Mr. Salameh on a very rainy night where even few drunks wouldn't be slipping and sliding.

SPIelberg of course knew about Mr. Salameh working for the CIA but Mr. SPIelberg only focuses his audiences attention on Israel being the "bad guy".

You should make no mistake that I am not attacking Israel with this film, in no way shape or form am I doing that.

Do you recall the "open and shut" treason case - some 1,406 words, mostly "cut and pasting" from increasingly edgy Edward Jay Epstein's The Diamond Invention - I prepared the other day against all 3 Branches of the United States Government?

<http://www.nextraterrestrial.com/pdf/rcummings-journey.htm.pdf>

You recall me mentioning a few months back, maybe less, hard to keep track of time these days, that I got word that the Mossad didn't think I would survive more than week given how I was spelling everything out in simple English, and yes color when I think it is necessary.

You also recall although you don't understand like most the mathematics that choosing "change" always increases the odds of success which doesn't mean that you should change your underwear because you are having trouble seeing your short hairs constantly.

When you have something right, only the dumbest of dumb fucks like all those opposed to President George W. Bush should be the ones "choosing change" and then let's see how these imbeciles deal with me when I am dead.

Ps – Note my edits in green to what I sent you.

Ps I – Please stop writing and start thinking more and don't be satisfied because you happen to think SIGNIFICANTLY more clearly than 100% of the 99% imbeciles. When you once visited Sebastian Capella's art studio atop Mt. Soledad in La Jolla, California do you remember the sign, "PAINT LESS, OBSERVE MORE!"?

I am now going surfing!

If Israel had been involved in the Nuremberg Trials they would have wanted to do the following:

- 1) They would have wanted to expose the arrangement of Ibn Saud and Roosevelt, which would demonstrate to their Arab brothers and sisters that they were being sold out by their "King".
- 2) They would have wanted to create peace with their Arab brothers and sisters and would have exposed the motivation of GB and US in supplying weapons and military direction to the Arabs directed at the Jews affording the US and GB their much needed access to cheap oil and all the while providing quite the distraction.
- 4) They would have explored the US and GB motivation behind Hiroshima and Nagasaki and the trap that the US set for the Japanese.
- 5) They would have exposed the use of De Beers in securing access and control of South Africa's uranium and other valuable natural resources.

In my opinion, had Israel won World Oil War II the "third world countries" of today would have taken the place of the "civilized" nations such as US and GB that are currently ill-equipped to compete on a level playing field having grown comfortable utilizing the hard work of others. The mainly hardworking masses of the current "third world countries" would have built themselves from the bottom up and been all the better for it; undoubtedly learning in the process to respect the hard work of others and seen the benefit of learning from them instead of dominating them.

Do you have any thoughts about much more important [ant](#) subjects such as, "If Israel were to have won World Oil War II and held war crimes trials in Washington DC how different would the world be today?"; bearing in mind that in all likelihood we could all agree that most likely more than one of those 6 million murdered would have survived and produced their own offspring which I think you would agree wouldn't have done much to curb the human overpopulation problem?

On the same point, have you figured out why the Chinese Government would "ban" such an "unknown" website such as www.just3ants.com.

Ps – Did you feed the birds today? What time?

Ps II – Assuming they are happy with you, could you ask them to help resolve this "space" problem I seem to be having with Microsoft Outlook.

Ps III – You recall the response of Glen Shapiro, a former Jewish President of a unit of Prentice Hall, a division of Simon & Schuster, to my question, "Who do you think financed Hitler?" that had this pretty smart guy thinking his deepest thoughts before responding, "It must have been bad people".

Glen, you may not fully recall was smart enough to hire me the day after my 3 year or so non-compete ended with Insurance Marketing Services Inc., less than 12 months before I began a series of highly sensitive assignments for Randolph A. Hearst who, back in the fall of 1993 and 1994, just before I began making plans to head back to South Africa in 1995 to visit with my uncle David Gevisser, the American head of the De Beers-Anglo American Cartel which occurred the day after I met with his stooge South African Minister of Trade and Industries, Trevor

Manual, was the Chairman of the Board of Hearst Corporation and most impressed with my "insight and analysis" of the media industry that was in a merger-divestiture-acquisition frenzy, that included Glen's rather funny verbiage "non-stellar performance" when describing the "obfuscation" of poor management who enter in to mergers-acquisitions making comparative analysis of results almost as impossible as counting unlimited supplies of diamond currency that have never once been inventoried in more than a century, that my no-nonsense, cut-out-the-bull mother strongly objected to, since both the word, "non-stellar" and "obfuscation" didn't sound like me and second, it took away from the rest of the highly informative information that would have allowed Hearst Corporation to position itself that much better to pick up the remnants from all the inevitable fallout which of course they did.

Let me see what else I can distract you with.

While Glen may not have "practiced" much if any law, he did go to law school but the most impressive thing he did as far as I was concerned was let me know when he responded so callously that I would need to take things a whole lot slower, that the systemic rot that I knew was pervasive in western civilization, another great oxymoron, was much deeper than my worst fears which afforded me simply the opportunity to not only live a little longer but enjoy myself immensely.

Have you calculated what the odds are of there being anyone alive today who was raised from the time they born until at least 8 years of age by their grandmother who was the sole survivor of a pogrom that took place about 124 years or so ago?

I think I have mentioned maybe 1,000 times and if I am wrong please correct on the exact number, that my mother Zena is still alive, and so is my uncle David Gevisser and so is Senator Ted Kennedy who attended the funeral of Mossad assassinated American Charles Engelhard who played the most pivotal role in the Diamond Invention.

Do you remember Devin Standard emailing something about some movie producer who like Devin and his father would like for me to be a little more distracted?

<http://www.nextraterrestrial.com/pdf/dstandard-spitfire.pdf>

Now think about the time it took for you to write me this stuff about Libby and Co. and then the time for me to read it all which I didn't, not a single word, but I did click on the hyperlink and then I got immediately distracted by an incredibly in shape woman - I did not scream out for her exact measurements - running on the cliff in front of the cliff house just as the most thunderous wave crested, the perfect offshore wind causing the spray to look like this great runner was being "tubed".

Do you think it is important that I go off on a tangent to discuss what Black American Slave Harriet Tubman meant when she said so eloquently,

"I freed a slave, I could have freed a hundred more if only they knew they were slaves!"

Last night Marie and I attend one of the MainlyMozarts concerts where Marie's cell phone went off, Jonathan calling to let us know where he was hanging, but fortunately it was at one of the high points-crescendos saving us both who were in the VIP seats the most horrible embarrassment.

Now I had done my job of remembering to turn it off at the start of the performance but during intermission Marie had decided to check on Jonathan to see if he was willing to give up his Trust-Hush-Fund before becoming a permanent member of a kibbutz bearing in mind he is only thinking of going on Kibbutz for a year or so and besides Kibbutzim today in Israel may only be accepting kids with Trust-Hush-Funds no less than a godzillian US Dollars backed up by all the sticks and stones that will be used in World Oil War III.

Now of course Marie had better sense as well as better things to discuss with Jonathan who is just working on the courage it is going to take to tell his fuckhead father to "fuck off" which of course isn't going to happen either, not until The IT is long dead, which I hope will never happen as the two of them, not to forget the sister have this extraordinary elephant between them that keeps getting bigger as the stability of their Trust-Hush-Fund gets increasingly more questionable as well as what if either kids in order to "save face" as quickly as they get the ill-gotten wealth not only dispose of it but proudly proclaim their "innocence".

Now remember this is all play-play because no one you all know is part of the game plan to have Israeli Special Forces commandos in place in order to execute the ingenious Military plan of all time that I have already shared with Israeli Military Intelligence and the Mossad that could have us all beginning to experience world peace and everlasting prosperity beginning within 24 hours, but of course I could be off with the 10 hours I think is all that is needed to make certain such a bulletproof-watertight battle plan is executed flawlessly, but I can assure you not by much.

Jonathan's cell phone has started to ring that annoying sound.

Do you think I should pick it up the next time, and what voice do you suggest I use?

BTW British maestro conductor David Atherton not only conducted the main symphony orchestra but introduced the evening's performance.

The first two which if you are interested you find out more details about by clicking http://www.mainlymozart.org/index.php?option=com_events&task=view_detail&gid=84&year=2008&month=06&day=19&Itemid=39

were tear jerkers so long as you couldn't stop laughing to yourself about the fact that the one composer Debussy? was close to his death when composing it during World Oil War One as he was supposedly less than a 100 miles from the most

bloody of bloody trench warfare; the Jewish Harp played by a young blond lady, the harp, one of Marie's and my favorite if not our most favorite; perhaps the same with each one of the people who would were genuinely tearful and who would have been most disappointed if they were to have heard my chuckling which quite frankly didn't last long, but long enough for me to give a thought to my great maternal grandmother, pogrom orphaned Nechie Badash witnessing the blood gushing out of the throats of her parents and siblings, their eyes most likely still open, and more than likely one or "tTOo" [sic] still alive as she exited from the tiny closet, before immediately getting back in to the most beautiful music I have ever heard; and then the second included one most brilliant pianist who was rather funny to watch and the first chair violinist who plays regularly first chair violin for the Cleveland Symphony, and the 3rd member of the quartet, can't think of the right word for 3 musicians, was this fatso woman playing the French Horn.

If I ever hear someone other than me criticizing a fatso because they are fat, even if it is because they sit on their arses all day, that would of course be perfectly fine with me given how even if you happen to be the best French Horn player in the world, and this genius lady may in fact be that person, and if not very, very, very close given not only what I heard, how can anyone take you seriously looking like Buddha, showing no self-constraint?

Bear in mind that when I put my mind to something and there is an "element of math" – music pure mathematics and why the smartest people in the world before they become dumb are all musicians - I can translate it rather easily to eventually figure out if there is any mistake, which of course could take a lifetime given the other things on my plate, but I had the fortunate experience of being seated **next** to a well dressed retired American Aviator who may be a little older than my dad, possibly closer to 90 and who didn't know that South Africans fought alongside the Allies in WWII or simply the fact that he was unaware that South Africa which was headed by Field Marshall Jan Smuts, the greatest friend the Jewish people have had in modern day times, could afford fighter aircraft, but he absolutely knew his music and helped me greatly appreciate that much quicker this woman's genius.

According to this most suave looking, and so very polite gentleman - didn't get his first or surname, but perhaps when circling the swastika shaped US Navy Barracks on Coronado Island where he is now retired, just look for a good looking gentleman wearing a bright red jacket – it is very possible or so he thought, and his equally lovely and gracious wife confirmed, that this fatso French Horn player never missed a single note; and you would know I probably know a little more than the average wave ski rider about the French Horn given how our good friend Deborah Sturman used to play the French Horn while still a teenager for the Cologne Philharmonic which just trust me is not the worst philharmonic in the world; the worst most likely Durban, South Africa during the United States Government's South African Apartheid Regime aka The 3rd Reich's Southern Division.

Then there was this kid playing the Obel which if I had heard it before I wouldn't have known but once I understand the "athleticism" required, so you better

understand why certain types of musicians make better swimmers, javelin throwers, Israeli Special Forces commandos etc, etc.

You might also be interested to know that most of the audience were rather old Lily White Wheaty Eating fatsos but seated right behind us were a large group of relatively young Hispanics who for all I know could have been illegals, and no one seemed to be bothered.

Moreover, while on one occasion a whole bunch of Lily White Wheaty Eaters clapped at the wrong time, not a single one of the Hispanics made that faux faux; moreover, at the end, these so very smiling face Latinos, all speaking Spanish were as invigorated as me; and why I didn't start handing out my English only just3ants.com business cards that I can barely read which of course was the whole point of getting young kids to read it to their parents, although I forgot to mention that to you, I don't know, but Marie was rather tired and hungry versus me who slept for more than a couple of hours in the afternoon and only told her, a minute before we had to leave; bearing in mind MDG was on her feet all day, in the morning teaching her weekly art class in Rancho Sante Fe and then painting in the afternoon with the rest of her art painter friends who I am beginning to believe mainly congregate to tell the dirtiest of dirty jokes; O my god, that one lip expression, if only I had a video camera, can you imagine how many repeat visits we would get as well to just3ants.com?

Let me help you with your imagination.

Imagine your Botox filled mother.

Think donkey.

Don't try this in the bathroom as you move toward the rear since your eyesight isn't good enough to get all the lines.

Just let me know if you think I should go on or go surfing right now or focus on coming up with the questions for this "mock trial" to take place in the Rotunda of Capital Hill, perhaps the first:

"How come the world believed that us Jewish people were the bankers of the world since to be so requires one has the sufficient muscle on the ground?"

Interesting timing... to my knowledge there had not been an article about this incident in quite some time.

Joseph Wilson, was a career diplomat from 1976 until 1998, specializing in Africa. His wife, Valerie Plame was a secret CIA operative outed by Bush administration. Scooter Libby was convicted and Bush commutes his prison sentence.

I was thinking that the CIA "protection" of GW Bush, his daughters, and his wife could be offering the same type of "protection" that the US military offers the 130 out of 190 countries that have US military occupation. The CIA is notorious for acting in the best interest of US corporations even engaging in industrial espionage. Would the suspension of trade limit the ability of the top echelon of corporate executives from stealing more as the market collapses?
