Subject: RE: Israeli Military Intelligence Report - Under official investigation by the FBI

Bill,

There are three types of people that received this email; misinformed, stupid, or culpable and then of course there is any number of combination of the three.

I would assume "our guys" that you care about is referring to either our US soldiers or your students.

Curious that you would suggest I listen to a former director of the CIA simply because he is vocal about alternative fuels. Do you know anything about the CIA or in particular the events that occurred while under the direction of Robert James Woosley Jr.?

Were you aware of a project spearheaded by the CIA and the British Secret Service that supported Dr. Wouter Basson aka 'Dr Death' of South Africa and his experiments to design biological warfare that would specifically target blacks; using kidnapped black South Africans as the test subjects.

Here is a link to one of many articles on the subject.

<http://news.bbc.co.uk/2/hi/africa/1926117.stm>

I would be very interested to hear your thoughts on Black South African Nelson Mandela keeping a copy of the experiments' results on a CD-ROM and then passing it along to his successor, Thabo Mbeki.

Which category of recipients do you think you fall under or perhaps we should make an amalgam of all three for you.

Physicians have a Hippocratic Oath to their patients which dictates their ethical responsibility as a person that basically plays G-d with people's lives. Unfortunately there is no such oath for teachers and so people like you can continue to meld the minds of our future based upon what you see fit to share.

"...the only comment I would have is that the US has long needed to cut dependence on Mid-East oil, everyone knows that, and we've known it a long time. I don't care what Mossad thinks."

Does your statement not beg the question, if everyone knows it why hasn't it changed?

I pity those that become stagnant in their own minds. You of course are familiar with the phrase, "Those who can do, those who can't, teach."

At what point in your tenure did you "check out" and decided that you knew enough to stop learning?

Where do you get your news? Do you realize that no matter how up-to-date the news source is, the headlines are always events that have already occurred?

This Israeli Military Intelligence Report not only points out the mutually beneficial relationship between the US government and the corrupt kingdoms of Saudi Arabia, Kuwait, and Qatar, but it provides a date specific event that will not only reshape the world but will put people like Jim Woosely out of a speaking career.

Did you know that Mossad gave the FBI a "heads up" about 9/11 some one month prior to the attack?

Were you not curious why the Israelis that were working in the World Trade Center were not working at the time of the attack?

Did you ever stop to think about who benefited the most from the very dramatic attack?

Did you ever stop to think that if Al Qaeda truly wanted to destroy the US, they would have attacked our oil supply seeing as our 4.2% of the world's population consumes some 25% of the world's oil that is produced? It would appear that our Achilles heel is our oil, not our World Trade Center, but then again think about what resulted from the dramatic attack; some 80% of the cost of war is spent on fuel. Where do we buy our fuel from? And better yet who are the largest contributors to terrorist organizations? ...you guessed it, Saudi Arabia, Kuwait, and Qatar.

Now let me share with you a letter that Roosevelt sent Ibn Saud shortly after their first meeting on February 14, 1945, some 3 days after the Yalta conference when Roosevelt, Churchill, and Stalin met to divide up the "free world".

Letter From President Roosevelt to King Ibn Saud

5 April 1945

GREAT AND GOOD FRIEND:

I have received the communication which Your Majesty sent me under date of March 10, 1945, in which you refer to the question of Palestine and to the continuing interest of the Arabs in current developments affecting that country.

I am gratified that Your Majesty took this occasion to bring your views on this question to my attention and I have given the most careful attention to the statements which you make in your letter. I am also mindful of the memorable conversation which we had not so long ago and in the

course of which I had an opportunity to obtain so vivid an impression of Your Majesty's sentiments on this question.

Your Majesty will recall that on previous occasions I communicated to you the attitude of the American Government toward Palestine and made clear our desire that no decision be taken with respect to the basic situation in that country without full consultation with both Arabs and Jews. Your Majesty will also doubtless recall that during our recent conversation I assured you that I

would take no action, in my capacity as Chief of the Executive Branch of this Government, which might prove hostile to the Arab people.

It gives me pleasure to renew to Your Majesty the assurances which you have previously received regarding the attitude of my Government and my own, as Chief Executive, with regard to the question of Palestine and to inform you that the policy of this Government in this respect is unchanged.

I desire also at this time to send you my best wishes for Your Majesty's continued good health and for the welfare of your people.

Your Good Friend,
FRANKLIN D. ROOSEVELT

His Majesty
ABDUL AZIZ IBN ABDUR RAHMAN AL FAISAL AL SAUD
King of Saudi Arabia
Riyadh

Please elaborate on what you do care about and if possible explain to me how it does not relate to the information that I am sharing with you. And why you thought I wanted you to comment.

Was this sent to me personally for some comment?

Because the only comment I would have is that the US has long needed to cut dependence on Mid-East oil, everyone knows that, and we've known it a long time. I don't care what Mossad thinks. I don't care what the Saudis think. I care what our guys think. If you get a chance, listen to Jim Woolsey some time.

http://www.just3ants.com/images/fbi_back.gif Special Agent Thomerson came to my residence on April 29, 2008 and left a business card asking me to call him... which begs the question as to why didn't he just call me to begin with? Logic would dictate if he could get my address than he could also get my telephone number. So why didn't he just call me, and why did he wait more than 24 hours to return my call once I left him a voice message? Again logic would dictate that he was interested in seeing who I would communicate with once I received their "heads up".

Special Agent Thomerson was contacting me because of the following Israeli Military Intelligence Report which I posted on a Chevron message board back in January 2008 but it did not originate from me.

I have a close Jewish South African colleague He maintains that he is neither an official or unofficial member of any of Israel's Military or information gathering services but he does have strong familial ties to the state of Israel starting with his great grandmother who was one of the founding members of the Hagannah along side David Ben-Gurion.

"Immediately following the 2008 Olympics in Beijing China, Al Qaeda will launch a series of attacks on the oil fields of Saudi Arabia, Kuwait, and Qatar which will immediately paralyze the United States Economy."

The report unequivocally spells out the mutually beneficial relationship between the United States Government and the corrupt kingdoms of Saudi Arabia, Kuwait, and Qatar; the same kingdoms that fund the terrorist groups which justify the wars which in turn results in petrodollars flowing into their countries.

So why hasn't Israel moved yet?

Just3ants.com has been exclusively broadcasting this ingenious Israeli Military Intelligence Report since October 2007, preparing the US government to step down and at the same time having the US military stand down once they realize that there is no one worth their salt to follow into battle; "...lions lead by lambs".

It's so easy to corrupt a culture that is devoid of art, devoid of integrity, devoid of compassion; and breeds complacency.

The Peoples Republic of China has been receiving military training and technology from Israel for decades, and now provides Israel with the support of an army that is more than twice the size of the United States military and a 5000 year culture full of art, integrity, and compassion.

So why hasn't Israel moved yet?

Thomas Jefferson (Letter to James Monroe, January 1, 1815)

"If the American People ever allow the banks to control the issuance of their currency, first by inflation and then by deflation, the banks and corporations that will grow up around them will deprive the people of all property until their children wake up homeless on the continent their fathers occupied. The issuing power of money should be taken from the bankers and restored to Congress and the people to whom it belongs. I sincerely believe the banking institutions having the issuing power of money are more dangerous to liberty than standing

armies.

We are completely saddled and bridled, and the bank is so firmly mounted on us that we must go where they ill guide.

The dominion which the banking institutions have obtained over the minds of our citizens...must be broken, or it will break us."

At the turn of the 20th century JP Morgan as well as other US bankers discovered war profiteering by financing the British Anglo-Boer War of 1899-1902. No loyalty to race, religion, or nationality; just money.

Shortly after this war, in 1913 JP Morgan co-founded the FEDERAL RESERVE and began hooking the masses on traceable currency regulated by his bank and enforced by the United States Military.

In 1917, JP Morgan invested heavily in Anglo-American, a joint venture diamond mining company with Ernest Oppenheimer who would later leverage a stock pile of diamonds to gain control of De Beers Consolidated Mines, thus creating De Beers Anglo-American Cartel.

Regulated traceable paper currency for the masses and unregulated untraceable diamond currency for the ruling elite which travel the world freely with diplomatic immunity and homes around the world, De Beers et al have no loyalty to anything but money.

This untraceable currency has provided the mechanism for corrupting governments, financing wars, etc. and never leaving a money trail.

A thief assumes everyone steals, and when given the opportunity, most do. But character is defined by what one does when no one is looking.

How come we didn't hear from the American Civil Liberties Union or either one of the self-proclaimed black leader bobble-heads Jessie Jackson or Al Sharpton?
