Subject: don't go downtown today since it is doubtful you are going to be able to take great photos of the much enlightened bums, instead just visualize yourself having to hire the bums to sell the t-shirts while putting the design to bed.

Right now Marie is discussing the rotting fish design with Jonathan who will be going over to the IT for the next several days.

BTW after visiting with Michael Ko at the Java Kai yesterday I ran into Dr. John K. Pollard Jr and Dotty who you remember from last New Years Eve; both Dotty and Dr. JKP confirming that Dr. JKP has been sharing "sum" [sic] of my emails with her.

You also recall when running into that camera crew for dkolk of KFMB who thought that dkolk was an "air head" that I had already communicated with the top dogs at Channel 8 whose Chopper 8 is a regular visitor at the gallery-studio-cliff house - let me know if anyone emails you asking for that one great photo I took of Chopper 8.

Ps - After you do the diamond and the nuclear cloud go get some feedback from a few people. Marie is going to now draw it and I will send it to you if I can get the pad to work.
