Subject: Give everyone else a tidbit that he doesn't have.

Wow - that was pretty smart; no actually most brilliant.

I would forward Geoffrey's "words of Solomon-wisdom" to all the partners at Skadden Arps, and maybe also ask whether any of them who don't "get it" would be opposed to Geoffrey inviting me as a "guest lecturer" on to the Stanford University campus, sooner rather than later?

BTW, the folks from AT&T have decided to escalate the little "problem" I have with those who usurp their limited authority, now resorting to try and slow me down by cutting off my one email service provider, thinking that I didn't learn a little more than swimming around in Haifa Harbor when rather young, by "escalating" matters to a "higher security level", case number 167628791.

Not to mention that of course I would expect about a handful more AT&T/SBC Global personnel to be visiting www.just3ants.com this evening, immediately upon arriving at their homes; although, I suspect that each and every one of them who have an ability to access the WWW have already visited www.just3ants.com as I went about explaining this one and only "high level" information source that in scaring the living daylights of the most blood thirsty people on the planet, fast realizing that their "hired guns" lawyer-liars can only be reasonably expected to now be pulling out all stops to "save their own necks" will help us that much quicker expose their "higher-ups".

To mention little of their foul mouth "vocabulary" not quite as "civil" as they prefer to "make out", and increasingly more disgustingly foul with each tick of the clock as

they know enough to figure out it is impossible to compute who is and who isn't on their "team" beginning with those "deafeningly silent" followed immediately by those egging them to "fight" even so far as to hire a hit man if only such thoughts exist in their own increasingly perfect vacuum of space between their ears.

To mention in passing that part of the "intelligence gathering" of the Black Hatters is knowing exactly which "client" is with which prostitute and before sharing such knowledge with their spouses, mostly wives, is first shared by the likes of Martin Rapaport of the Rapaport Report with De Beers and Co. who while extraordinarily wired are not quite as wired or lethal as the Mossad who have no problem whatsoever in getting their heads to "expose themselves", if need be.

Wouldn't you agree it is highly doubtful if Alexander Lewy wants to get into the knitty gritty of why Senator Hillary Clinton's husband when President and Commander In Chief of all US Armed Forces granted Marc "Trading with the enemy- Flower Hill Mall" Rich a most extraordinary bizarre Presidential Pardon at the 11th hour knowing that it would be just a matter of time before the world would start asking,

"What in God's name was Ehud Barak, head of the Mossad and Prime Minister of Israel thinking when placing a high powered Mossad gun loaded with an extraordinarily high caliber bullet at Clinton's head?"

So much for the expression "thick as thieves!"

So much for the De Beers controlled media now suggesting that Bill Clinton is insane as if this Rhodes-DeBeers scholar really thought he would ever get away without being asked by his so carefully picked opponents as well as members of the De Beers media, what it meant to have the founder of De Beers, the mafia of mafia, price fixers of price fixers funding his Rhodes Scholarship.

Ps - Please post up on just3ants.com the heavily broadcasted communiqué I sent earlier to ATT/SBC Global, click [HERE](#).

Ps I - I will be soon heading out to Solana Beach to get a haircut and on the way, most likely riding my superfast Ducati ST4s, stopping off at the Java Kai coffee shop on the corner of 15th Street and Highway 101 to not only make sure that Marie's almost 16 year old son Jonathan gets a full-time job this summer and part time job during the remainder of his pathetic high school education but to have the new owner ask Jonathan about some of the "tips" his mother, Marie Dion Gevisser and I gave him last evening were he to get such a very fortunate job that would prevent young kids such as him being co-opted-corrupted by their friends asking for "big samples" and at the same time help prevent the loss of profits.

Not to mention of course I have already made this new and relatively young owner aware that his biggest competition are the two diamond-money laundering stores kitty corner across the street who are pivotal in setting the price of not only the rent he pays but the price of both commercial and residential real estate in this

very heavy real estate and city council corrupt Del Mar where it seems the biggest crooks in the world congregate when not at their primary residences away from the water's edge; and of course I would know.

BTW below is a rather neat photo I took of the Amtrak train passing by the one-of-a-kind view Cliff-Carriage House we are most fortunate to rent.

Marie says she might one day paint this photo

she took of me just the other day under the bridge where the water drains out of the mosquito infested lagoon bordering Del Mar where it is possible the most brain damaging of the mosquitoes all congregate at The Its 3 bedroom house; what else can explain all the brain damage that goes on [at](#) the 3 story big house 24/7 apart from all the short-circuits caused by keeping track of all their lies, not even smart enough to move out before it becomes totally worthless!!

Of course it is not only very hard working US Americans figuring out why it is that medical doctors in the United States earn so much money and yet the health care of 95% of us Americans is worse than that of the Brits which is horrific and why of course Medical Doctors including Doctors Without Borders don't make a point of explaining why it is that much more skilled professionals contributing to the betterment of all humankind such as electricians, small business owners, plumbers, carpenters and the such don't earn a zillion times more than these awful, so very corrupt succulents so benefitting from this so big socialist US Government now on its last legs.

Note how quickly after I announced yesterday evening to the world beginning at 8:37 PM PST that, "the high oil price... could come down dramatically given the total lack of the price mechanism which has been non-existent now in commerce for some 100+ years were both China and Israel to act extraordinarily stupidly, which I

doubt very much" the price of gold on the spot market began to tumble as corrupt US big business interests vexed their "on the ground" muscle in places like Qatar, Kuwait and Saudi Arabia who you recall feature prominently in the ingenious Israeli Military Report.

Gold last trading at US\$866.40 and still not even a sitting duck oil supertanker has been hit by one of those most unsophisticated missiles lobbed into Haifa, Israel by extraordinarily well trained Hezbollah guerrillas mimicking brilliantly the best of the best of Israeli Special Forces commandos causing the evacuation of Israel's third largest city, housing a population of some 300,000; the equivalent of some 15 million Americans forced to evacuate; again we are talking about non-weapons of mass destruction being used also on heavily armed US battleships like the Cole that got taken out by Al Quaida-House of Saud operatives that have yet to be used on a single sitting duck oil supertanker that is mostly protected by the US military yet to go up against a first rate military such as China and Israel let alone the combined forces of both China and Israel whose smart population know very well the past "relations" with the DeBeers-House of Saud controlled U.S. Government beginning with the American led invasion of China in 1900.

Yes, there is only so much manipulation the US Federal Reserve and the US Treasury and Co. can do with the currency markets that don't reflect one iota the "merit system".

Most of the world's precious mineral resources beginning with gold and water remain deep underground and so do the world's best fighters who understand perfectly well not only the utter nonsense of "forward contracts" entered into between crooked western business interests and our western controlled tyrants but equally important why it is that US Americans most of all so rarely even mouth the so important words, "merit system" that is most important in a barter system very much coming back "in vogue" as US Americans, constituting only 4.2% of the world population but responsible for more than 25% of the pollution, all the while STILL the largest by far net importer of goods, minerals and other precious resources from the rest of the world, with any sense, that is, understand perfectly well just when looking at the actions of The ITs of the world that these succulent, mostly Lily White Wheaty Eating fatsos having spent some 3 generations now sitting behind desks constantly swimming in their own polluted DNA, have no fight in them apart from still managing to growl and increasingly so just to themselves as these inbreeds find it increasingly difficult to be out amongst the crowds of increasingly out-bred US Americans which might explain why The IT isn't going to Missouri this summer, you think?

The more we all know about each other the less likely it is that we will go to war with each other especially when the cowardly ruling elite who make up less than 3% of the world's population are being exposed in real time quicker than they ever dreamed in their worst nightmare.

What goes around comes around with a vengeance!

You're the expert.

I assume that you were asking me about responding to his request for no more emails. Whereas no one else in the organization had the same request. Therefore, you want the rest of the organization to be discussing something that he doesn't know about, forcing him to say to one of them, "where'd you hear that?" And them responding, "from Adam's email, didn't you get it?"

Hi Geoff,

I remember my Sunday school teacher trying to explain the concept of a mitzvah with the core of it being about action; after her anecdotal story explaining a real world example, I asked the teacher what about the saying "it's the thought that counts"? She said that it didn't apply to Judaism.

You may have read Gary discussing the "black hatters" which is a term he uses for the Hasidic Jews which as you probably learned from Erez's theses are the backbone of De Beers providing their distribution but moreover acting as their intelligence gathering network which in the case of the De Beers site-holders allows them to further ingratiate themselves with De Beers which ultimately is reflected in the quality of diamonds that De Beers sells them.

These "men of G-d", refuse to serve in the Israeli Defense Force despite there being mandatory service, and they belittle Jews that are not Hasidic for their lack of Judaism.

Yet, in the picture above you see Gary and Rabbi Schneerson who was viewed by many Hassidim as the messiah engaging in a very bizarre ritual... One would think that these "men of G-d" would be handing out the words of G-d or messages of Judaism, but instead you see them engaging in the promotion of the US\$ which has nothing to do with Judaism and everything to do with De Beers.

Jewish people like Stephen Cohen of Codiam Inc. who would eat Bacon Lettuce and Tomato sandwiches in the presence of the real top Black Hatter, Martin Rapaport of the Rapaport Report without even a thought given to Stephen Cohen's bosses at De Beers Central Selling Organization located in downtown London have always been not only non-Jewish but virulent anti-Semites going back to Ernest Oppenheimer who in 1929 in the most contrived stock market collapse was allowed by the rest of De Beers bankers throughout the world to become the central figure in charge of the De Beers-Anglo American cartel who only have a presence on 47th Street, New York and retail money laundering stores on the most expensive real estate in all of the United States so as to remind the US Justice Department not only who butters their bread but were they to really launch a full scale investigation it would in an instant implicate all 3 branches of the US Government.

House takes aim at OPEC

<http://www.marketwatch.com/news/story/house-votes-strip-opecs-antitrust/story.aspx?guid=%7BB6EA2A09-FE4D-4825-8368-9D15CEFFA637%7D>

The Senate proved their culpability a few weeks ago when they voted to allow the US Justice Department to sue OPEC for price fixing despite their lack of jurisdiction; as you remember from your previous student's theses, jurisdiction has been the saving grace for

De Beers since most assume that the price fixing occurs in London. Of course you now know that there was much more discussed between Stephen Cohen and Martin Rapaport while they broke bread on 47th Street, New York.

Rod Ward of Skadden Arps, reply to my email not only confirmed his receipt but in doing so, also demonstrated that he is not thinking clearly; had he done his due diligence he would have remained silent.

That said, how do you suggest I respond to Rod Ward's email below?

I hope this finds you well,
Adam

Rod,

To what extent do you believe is the effect that the De Beers Anglo-American diamond monopoly which has no entry for competition and has operated for more than 100 years without interruption has on our "free or mixed market system"?

To what extent do you believe is the effect of an untraceable unregulated currency in the same said market system?

The following is an excerpt from Wikipedia: FBI Agent Robert Hanssen who is responsible for the worst security breach in US history

"Hanssen was arrested on February 18, 2001, at Foxstone Park near his home in Vienna, Virginia, charged with selling American secrets to Moscow for more than \$1.4 million in cash and diamonds over a 22-year period. On July 6, 2001, he pleaded guilty to 15 counts of espionage in federal court. He was subsequently sentenced to life in prison without parole. His activities have been described as "possibly the worst intelligence disaster in US history."

Do you think that Robert Hanssen is the only person to have ever been paid in untraceable unregulated diamond currency?

Do You think JP Morgan co-founder of the Federal Reserve System, ever thought that the masses would ever realize his role in the creation of the most transparent money laundering system when he formed Anglo-American alongside your son-in-law's great grandfather, Ernest Oppenheimer?

I don't believe that you are Jewish, but does it upset you or any of those around you to know that according to the United States OSS and the US Justice Department, Harry Oppenheimer was supplying Hitler with diamonds both as currency and for the much needed precision tooling necessary to amass a military capable of taking on Europe and wiping out 6 million of the best and brightest?

Does it bother you to have to visit your grandchildren in South Africa because their father is not allowed to set foot on US soil without of course incriminating the US Justice Department that much more?

Have you ever read the non-fiction novel "The Diamond Invention" by Edward J Epstein?
