Rob,

Truth is that which does not change and certainly wont change regardless of whether it is posted on Military.com, but being available elsewhere certainly points to the culpability of you and your superiors

"Due to the sensitive and controversial nature of these topics that could possibly risk operational or personal security, I cannot say that I am comfortable allowing it to be posted in our discussion forums which are public and worldwide."

Are you referring to the personal security of the soldiers, their commanding officers, or those at the highest levels that determine who lives and dies?

ISREALI MILITARY INTELLIGENCE REPORT

Immediately following the 2008 Olympics in Beijing China, Al Qaeda will launch a series of attacks on the oil fields of Saudi Arabia, Kuwait and Qatar which will immediately paralyze the United States' economy.

Has the discussion board changed since my IP address has been banned? I distinctly remember there being a discussion forum specifically dedicated to "Conspiracy Theories" if you were to so to choose to relegate the Israeli Military Report to such a thing.

Based upon your decision to not allow it at all on Military.com only again points to your culpability.

You may or may not be surprised to know that the FBI was sent a copy of the Israeli Military Intelligencer Report back in August of 2007 when Gary S. Gevisser first began exclusively broadcasting this most ingenious intelligence report; which is why I have used the word "officially" when describing the recent FBI investigation that "officially" began last week when they came to my front door.

The business card left at my door by the FBI Special Agent Curran Thomerson requesting "Adam, PLEASE CALL", begs the question; why didn't they just call me in the first place?

Federal Bureau of Investigation

CURRAN THOMERSON
Special Agent

San Diego Field Office
9797 Aero Dr.
San Diego, CA 92123

(858) 565-1255

760-642-3995

Adam,

PLEASE CALL

You may or may not also be surprised that Mossad provided the FBI with a "heads up" of the impending 9/11 attack some one month prior which was not taken as lightly by Israeli's working in the World Trade Center Towers; which again points to the culpability of the FBI and those that knew better and later benefited from the attack. (i.e. the industrial military complex and the newly formed "take my rights away for me" Homeland Security)

You also wouldn't be surprised to learn that Amos Wright a former US Navy officer; Amos, who attended Vanderbilt University where he was a basketball "star" was the first American to acknowledge the extraordinary bigotry of the US Navy towards both Blacks and Jews who were the first to be ordered to attack Japanese "ground positions"; and of course there was more that Amos knew about his own personal involvement in issuing such orders that had him breaking into tears when he first allowed Gary S Gevisser videotape his most interesting life story.

I'm assuming by your last name that you are of Latin decent [sic], and therefore have probably experienced your own dose of "the American way" although not quite so much now a-days as the Hispanic population in places like here in Southern California becomes a dominant presence. A welcomed change in my opinion; but not so welcome for many of the Lilly-Whites that are now deflecting the results of their complacent lifestyles onto the shoulders of the mostly hard working-looking for a better life Hispanic community as you / they are blamed for the contrived economic problems created by the ruling elite which functions as quite the distraction from their "legal stealing". We all know that if you have enough money you can afford the best attorneys which is why our prisons and our military are made up of mostly poor. This concept of assigning blame is close to home as I am a Jewish American that is rather well read on the Holocaust which as you may or may not know began upon the collapse of the deutsche mark post WWI; with the Jews being blamed for the economic woes post WWI reparation payments which collapsed their currency.

By now you maybe just realizing the importance of our one of a kind "\$ Hit List [sic]" which provides quite the record of who knew what and when, so that when our economy does collapses and our some 1.5 million soldiers trained to kill come home to no jobs waiting for them, are not driven to fight amongst themselves as once again the ruling elite watch as their pockets continue to grow on the backs of the poor who are not exactly dumb but rather misinformed, fighting amongst themselves over for the scraps left by that 1% that controls some 40% of the wealth in our country (according the 2000 census) which by now has most likely considerably increased in favor of widening the division amongst the classes as our country slowly grows into a Banana Republic.

One of the Nazi's greatest mind Fucks towards the Jews was the creation of Jewish Kapos which were simply Jewish men placed in charge of other Jews and were given the "opportunity" to get better scraps of a meal and perhaps access to the Jewish mothers and daughters that weren't murdered immediately upon their arrival to places such as Auschwitz, and instead were turned in to sex slaves for the Nazi bastards only deferring their murder to another day. This "tool" of the Nazi's was intended to break down any hope that remained for the some 6 million that were murdered at places like Auschwitz at a rate of 10,000 per day; a fact that was not lost on the Allies going back as far as 1939 some 6 years before Auschwitz was liberated, not by the Allies, but by the Russian Red Army. A fact that was not lost on people like David Ben-Gurion the head of the Jewish Underground and future first Prime Minister of Israel and head of Mossad. How easy it would have been for the Allied bombers to blow up a train track which in the very least would have slowed the progress of the death camps and in turn saved that many more Jews for their certain death.

Unfortunately for the Jews, these slave labor camps were of interest to American investors such as Prescott Bush, father to George Bush Senior who profited from the slave labor provided by the Jews as well as the other 5 million independent thinkers that were captured. Did you know that the Nazi's had figured out just how much food (Calories) to provide the slaves to get them approximately 2 months of labor before their bodies would collapse. This functioning quite well at keeping them from having the opportunity to rise up as well as well as functioning in wiping out the most independent thinkers that posed a risk to the power structure that afforded the most non-Aryan looking, nothing to speak of corporal Adolf Hitler to rise to the top; our history books say that his election as Chancellor which slingshot him to his rise in power was supported by "powerful business men" whom undoubtedly knew the course Hitler would take and the financial opportunities this would afford them.

Did you know that concentration camps were an invention of the British in 1899-1902 during the Anglo-Boer War which was won by the British only after the wives and children of the Dutch (Boer) Farmers were enslaved and their farm lands burned and laid to waste?

Do you think it is a coincidence that you are of Hispanic heritage and responsible for determining what information reaches the mainly military soldiers that comprise the membership of Military.com? Of course you didn't think twice about accepting such an assignment and probably would have never questioned your appointment had I not just now mentioned it, and not because you are dumb or naïve but mainly because we are told / sold on the ideas that "America is the land of opportunity" and is the "melting pot". But actions and inactions speak louder than words and they rarely lie.

http://www.dailymail.co.uk/pages/live/articles/news/worldnews.html?in_article_id=484228&in_page_id=1811

What do you make of this Naval barracks on Coronado Island here in San Diego? Do you think that it was an accident or coincidence, having the construction begin in late 1967, the same year that the Israeli Air Force and navy bombed and torpedoed the defenseless USS Liberty spy ship proudly waving the American flag, stationed just off the coast of Egypt during the 6-day war; despite the US telling the UN and the world that the US was not going to get involved in supporting their Jewish "allies" and had no military presence within 350 miles of the impending Arab attack. I don't know about you, but if my friend was outnumbered and about to be attacked, I would not watch from a safe distance all the while recording how he was defending himself?

This attack on the USS Liberty empirically marking a page in history showing the true intentions of the US; the incident dismissed as an "accident" by both the US Congress as well as Israel. But I assure you the message was not lost on either side.

You should know that Israeli Military Intelligence Report has already been circulating on the internet for some time now, having been posted all the way back to October on various discussion boards across the world as well as being readily accessible on the homepage of just3ants.com. Truth is that which does not change, and regardless of whether you allow any or all of these truths to be shared on Military.com, you would agree that it is only a matter of time before this information reaches these people that you are trying to "protect", all the while you will be singularly blamed / responsible for knowing this information and determining that it was not in the best interests of the soldiers risking their lives to question who is benefiting (i.e. profiting) from their deaths.

How large is the Hispanic community in North Carolina? Are you not concerned for you and your family as the American tide rises in support of blaming mainly Hispanic immigrants as the cause of our economic problems?

Those who forget the past are destined to repeat it.

Adam,

These things of which you speak are intelligences that you should probably be reporting to a Law Enforcement body or Homeland Security office, not a private sector website (such as Military.com). We are not involved in any type of Law Enforcement or Military Operation; and we cannot help you with these terrorist issues. Due to the sensitive and controversial nature of these topics that could possibly risk operational or personal security, I cannot say that I am comfortable allowing it to be posted in our discussion forums which are public and worldwide. Please contact a more appropriate authority.

Respectfully,

-Rob

Rob,

You are correct in assuming that I am very busy but what you don't realize is that every problem must be solved from the bottom up and therefore I cannot allow people like you and your moderator team which much like a news paper editor not unlike David Horowitz of the Jerusalem post which you have been so kind in "keeping in the loop" has to determine what gets published for public eyes on a daily basis.

"By way of deception we wage war" ~Mossad

What you don't realize is that the soldiers on the discussion board which you and your "team" are so intent on protecting, are slowly waking up to the fact that they have been deceived, and that the idea of patriotism which is shoved down their throats is soiled when it is at the expense of the poorly informed. This economic draft that we have here in the United States is all contrived to further separate the haves from the have-nots and functions as quite the distraction all the while the ruling elite become richer on the backs of the poor who are only getting poorer.

Immediately following the 2008 Olympics in Beijing China, Al Qaeda will launch a series of attacks on the oil fields of Saudi Arabia, Kuwait and Qatar which will immediately paralyze the United States' economy.

What are you thoughts on the Israeli Military Intelligence Report which exposes in no uncertain terms the duopolistic relationship between the corrupt kingdoms of Saudi Arabia, Kuwait, and Qatar which openly fund the terrorist organizations like Al Qaeda. What a great business model while they could get away with it.... Just think some 80% of the cost of war is in fuel and coincidentally we buy the fuel from the same people that fund the terrorist groups which start / justify the wars. Pretty nice racket so long as it is supported by the world's biggest guns; fortunately the days of the United States as King of the Hill are numbered as the Israeli Military Intelligence Report points out the Achilles heal of the United States and also begs the question for anyone with the ability to logically thought process, "Why didn't Al Qaeda already attack the oil fields?" The answer of course is why would they want to bite the hand that feeds them.

It is of course up to you as to whether I am permitted to post these truths on the Military.com message board, but you do of course realize that these emails are a date and time specific record of not only you knowing better and choosing otherwise, but you playing a pivotal role in sequestering the truth from those that have been mislead to risk their lives. A record that will place you and Military.com among the ranks of our one of a kind "\$ Hit List [sic]" exclusively on just3ants.com; a site which you may already know had over 1000 unique visitors last month from 40 countries around the world, a count that doubled from the previous month and one can assume will continue at a similar pace now that the FBI is officially investigating the Israeli Military Intelligence Report which is also exclusively being broadcasted on just3ants.com.

Again, I ask, specifically what TOS did I violate?

In your opinion, do you think that the following accurately represents Military Advantage, Inc.?

Adam,

As I mentioned before, Military.com has nothing to do with any FBI investigation. They work independently from us.

Also, if you take the time to read (in full) the Military.com User Agreement, I believe that this issue will become clear to you. Here is a link for your convenience.

Here is a link to my first post which had me banned from military.com back on December 28, 2007 which is available on just3ants.com. Upon examination of the thread you will find that I was very polite especially in contrast to the many members that posted replies which apparently are acquaintances of the moderators.

<http://www.just3ants.com/MilitaryMessageBoard/1.htm>

I would like you to examine the posts that I made versus the responses and determine for yourself who was being "disruptive", and if you conclude that you agree with the moderators decision, I would ask that you define "disruptive" for me.

As you are aware [just3ants.com](http://www.just3ants.com) is currently being officially investigated by the FBI, which will undoubtedly bring attention to military.com policy on free speech which as of late appears to be limited to views that are shared by other members.

As with my initial communication with Loree Hirschman, I believe that military.com has a fiduciary responsibility to investigate this matter with more attention than it has received as of late.

I detest those who derive great satisfaction in exceeding the limits of their small authority; i.e. evil doesn't come in the form of a pointed tail or pitched fork! - Jeffrey R. Krinsk Esq.

I appreciate your prompt attention to this matter and look forward to your response.

I've received a copy of your email, and I will be addressing this issue.

As I look at your email, I only see a link to a discussion thread and a copy of a private message. Can you expand a little more about what's going on and your part in the matter. Once we clear that up, I may be able to help decipher the issue at hand.
