**Subject: THOUGHT NOTHING...---...: Two Topics**

A more careful read of what you first wrote me along with your subsequent verbal explanations has me convinced not only of our great progression but I would not necessarily have made much progress had I read more carefully what you first wrote me about your meeting with your mother.

Apart from all those at the highest levels of **DeBeers-Anglo American Cartel** which of course includes not only the 3 Branches of the U.S. Government and the entire British Parliament along with all the world's intelligence services including of course both the CIA and Mossad, most people would not only be lost with what I wrote in the first paragraph above but what follows although they would do well to read carefully at least 3 times this **384** word **Letter to the Editor** of the Jerusalem Post bearing in mind the 4 letters to the editor the Jerusalem Post published beginning February 1<sup>st</sup> 2001 immediately following President Clinton committing the most treasonous act of granting terrorist financier Marc Rich a Presidential Pardon at the 11<sup>th</sup> hour and 59<sup>th</sup> minute of his presidency, again a Presidential Pardon both Clinton and Rich wanted like they both did a "**hole in the head**".

Not to mention that just 19 odd days later the FBI would announce the "**capture**" of top FBI counterintelligence agent Robert Hanssen who received Diamond Currency unlimited in supply, untraceable, lightweight and never inventoried, as part of his payment for giving up rather important "human assets" at the same time he and Ames of the CIA did a terrific job of making it look like American-Israeli spy Jonathan Pollard was the evil incarnate; again during the **Ronald W. Reagan** Administration where the focus of attention was the Soviet EVIL empire.

Again it is not only me and my Royal Mater-Mother who read the Jerusalem Post who like the Mossad, FBI, CIA and MI5 have yet to comment on me being the only person in the world not only spelling out but explaining the not-so-top secret Israeli Military Intelligence report that says quite literally, immediately following the Beijing 2008 summer Olympic Games Al Quaida will launch a series of attacks on the oil fields of Saudi Arabia, Kuwait and Qatar that will immediately paralyze the U.S. Economy which in "retaliation" had the Pentagon just announcing that the top Generals of the United States could "live with" Iran being in possession of nuclear weapons.

On the drive down to Del Mar today also give thought to other headline news beginning with not all that mention of the gold price last trading at US\$744.10 while lots of talk about the price of oil reaching all time highs.

**Second**, Mr."Ahmagadflydingadongdongdongdong" [sic]

of Iran embracing Chavez of Venezuela, neither the President of Iran or Chavez yet to comment on either their own or Columbia University's "**deafening silence**" on the Diamond Invention, how this global conspiracy of global conspiracies is finally taking its toll on the worthless-fictitious, very blood stained DeBeers-U.S. Dollar, making the Norman Rockwell painting of a father and mother and two kids sitting in front of their TV set in their own home looking increasingly a little "old" as this "all about money" family not in the least bit unified with a value system that got hijacked by the Diamond Invention, begins to "**fall apart at the seams**".

**Third**, notice as you go back not in Ancient History but just 27 odd years to how little mention there was on **January 21<sup>st</sup> 1980** when the price of gold peaked at US\$850 of me kibitzing with **Martin Rappaport**, the **DAAC's** Black Hatter of Black Hatters who single-handedly if interviewed for less than 60 seconds by the United States Justice Department would shred into little bits the Justice Department's so very poor excuse of not shutting down this **DAAC** cartel of cartels who for now more than a century has priced fixed, in violation of our sacrosanct Anti-Trust laws that guarantees the U.S. the right to crow the loudest about us being the standard bearer for the "**Free Enterprise System**", their own Diamond Currency at more than a barrel of oil.

**Fourth**, draw more "connecting dots" to January 21<sup>st</sup> 1980 some 9 odd years after the U.S. officially went off the Gold Standard on **August 15<sup>th</sup> 1971** at the exact moment when Sec. of State Henry Kissinger met secretly with Mao Tse Tung to forge not only an alliance against the Soviet Union but more importantly to get the Peoples Republic of Communist China to accept our increasingly worthless currency going forward that would not be backed by gold which Alan Greenspan spelled out in 1966 in his classic essay **GOLD AND ECONOMIC FREEDOM** was so important for the Free Enterprise System, allowing hard workers the only reliable means to preserve their wealth and in return China could begin to be our slaves producing the goods that us Americans thought was so "above" [sic] us, given how so very "incredibly" our Almighty Dollar began to rise all because of extraordinary **US** military presence throughout the world

servicing to intimidate our tyrants tasked following the Bretton Woods Conference of July 1944 with enslaving their peoples or face our Regime **Change** Policy that called for our tyrants second-in-command to be backed the instant our increasingly worthless fictitious so very blood stained U.S.-DeBeers Dollar was to be “rejected” by our tyrants or equally disturbing for the 3 Branches of the U.S. Government such Dollars would be distributed by our tyrants to their enslaved masses causing a run on the U.S. Dollar.

Not to mention July 1971 was right in the middle of the China’s **Cultural** Counter Revolution that resulted in the indiscriminate butchering of all China’s academia who were not quite as well informed as western academia of the **DAAC** not only owning them but being the world’s brutal and most inefficient allocator of resources.

To mention little of how this secret trip by Kissinger put to an end the CIA’s token backing of the Tibetan guerilla fighters attempting to resist China’s military as China saw no way out of the stranglehold on its western front with us American-British in command and control of both legs of the Rooster, Hong Kong and Taiwan with our extraordinary foothold in Korea and Vietnam while today all us poorly schooled under the Bell Shaped Curve **DAAC** education system can focus on is the genocide of Tibet by a communist government who hasn’t come close to the expansionist “desires” of the western alliance whose atrocities include standing by for some 45 odd years following the nonsense defeat of Nazi Germany as the most repressive regime of all time, the **DAAC**’s South African Apartheid Regime performed “admirably” in shipping out of South Africa its rich mineral resources beginning with gold, destination not just Hong Kong but much more importantly the United States of America.

So where is all that gold today that of course no one member of the 3 Branches of the U.S. wants to talk about, no different to no anyone in the next United States Administration following the Carter administration that was headed up by an actor with Alzheimer and who “**thought nothing**” of having as his top lieutenants both my long time “pal”, **DAAC** banker **Roger W. Robinson**, the protégé of David Rockefeller of Chase Manhattan Bank, the Rockefellers again featuring prominently in Hollywood blockbuster author Edward Jay Epstein’s’ classic non-fiction most fascinating novel **The Diamond Invention** and the **DAAC**’s most important lawyer Sec. James A. Baker whose law firm continues to represent the **DAAC**’s House of Saud whose top dog, Ibn Saud understood perfectly well when meeting with **DAAC** stooge President Roosevelt on board a U.S. destroyer immediately following the atrocity of the Yalta Conference of February 1945 that began 2 days immediately following the liberation of the death camp Auschwitz by the Soviet Red Army that without the **DeBeers-Anglo American Cartel**’s world domination of the drilling industry the oil buried deep underneath Saudi Arabia sandscape was not worth as much as a penny.

Off to buy a video camera.

An awesome day here in Del Mar, the ocean in front of the studio cliff almost perfectly calm.
