Subject: THEY SEND US A COMPLETE PRICK!

Augusto,

What thoughts go through your mind these days as filthy rich Trust-Hush-Funders here in the West continue to laugh themselves silly at all of you continuing to accept worthless-fictitious and so very blood stained US-DeBeers Dollars, although of course less talkative, those that know about just3ants.com?

To repeat:

Why do you think Mr. Chavez hasn't simply cut a deal with China to get all of Venezuela's oil and in return get state of the art technology, a customer whose currency is on the rise and military

protection at the same time, without worrying that China's Special Forces Commandos would "turn"?

Have you spoken with your Catholic priest to get him to help explain your lack of action as Lily White Wheaty Eating American Catholics like highly educated Dr. John K. Pollard Jr. and Black Scottish American Devin Standard laugh themselves silly at your stupidity having to wait this long for me to give you an "action plan"?

You don't think I am being nice?

What does it bring to the table?

How is your son Carlos doing?

What do you see as his future apart from him only able to count on people like me who stand tall, beginning by looking out for the rights of all children to confront their lack of backbone, spin_spineless parents who think themselves so godly just because they provide either the sperm or egg?

And you also know that being a sperm donor or sperm recipient doesn't make you a good parent; not to mention Marie's equally profound words, "Being non-confrontational is no excuse for bad judgment."

Have you thought of wearing a t-shirt when guiding American tourists along the Inca trails leading in to Machu Picchu

that reads,

**"Are you more less proud to call yourself an American these days?
Check out www.just3ants.com!"**

BTW the only thing I can see for our ingenious and most vengeful G-d/God keeping the likes of Dr. JKP Jr. around, now swimming feverishly in his self-inflicted misery, are jokes such as the following he broadcasts to his chicklist:

The Tax Inspector

At the end of the tax year, the Tax Office sent an inspector to audit the books of a synagogue. While he was checking the books he turned to the Rabbi and said: 'I notice you buy a lot of candles. What do you do with the candle drippings?'

'Good question,' noted the Rabbi. 'We save them up and send them back to the candle makers, and every now and then they send us a free box of candles.'

'Oh,' replied the auditor, somewhat disappointed that his unusual Question had a practical answer. But on he went, in his obnoxious way:

'What about all these biscuit purchases? What do you do with the crumbs?'

'Ah, yes,' replied the Rabbi, realizing that the inspector was trying to present him with an unanswerable question. 'We collect them and send them back to the manufacturers, and every now and then they send a free box of matzos.'

'I see,' replied the auditor, thinking hard about how he could fluster the know-it-all Rabbi. 'Well, Rabbi,' he went on, 'what do you do with all the leftover foreskins from the circumcisions you perform?'

'Here, too, we never waste,' answered the Rabbi. 'What we do is save up all the foreskins and send them to the Tax Office, and about once a year they send us a complete prick'.

Ps – Please send our love to Patricia. Right now Marie is about to save a moth that has been frantically trying to get out of our studio cliff house, and as she walks down the steps on her way to get a close neighbor's ladder comments, "... since I can't save human beings".

Ps I – Send me an updated list of Peruvian Guides who haven't been as brainwashed by the so very corrupt Roman Catholic Church that teaches you all about teaching your children how to fish so that they can feed themselves; but of course no mention of which species is the most responsible for the oceans being "fished out" by human overpopulation bred by the corrupt clergy not to think for themselves that G-d gave each of us a mind to first and foremost think smart and question with "change all around us" 24/7 wouldn't it make sense to take more of a break from just producing children, instead to actually enjoy fun sex.

Now of course unlike Devin Standard with his 3 children dependent upon their father selling weapons mostly used on the world's poor when not taking out those such as myself explaining why it is that Devin and Co. are so very dependent upon the United States' "economic draft" that keeps peoples such as yourselves being so brutalized by the regimes of the corrupt United States Government only representing the filthy lazy rich, and whose death toll needs to keep climbing in order to make sense of all the so important business plans Devin keeps producing 24/7 as he and his kids "play business", all you have the time and energy to do is go to church on Sunday and pray to my Orthodox Jewish brother Jesus Christ who was raised right from the start like all smart Jewish people to question authority, hence the word, "Israel" that translates in to "Struggle-Wrestle with God/G-d" chosen by David Ben Gurion as the name of the Jewish State back on May 14th, 1948.

Instead of being only disgusted with yourself use that time wisely to promote just3ants.com.

Then feel good also about the fact that much more highly educated people in the study of Judaism such as Professor Rabbi Abner Weiss went immediately "deafeningly silent" when I asked this long time very close friend of my immediate family the very simple question, "Do you believe or do you know G-d?" bearing in mind how very much I am embarrassing Jewish people throughout the world who have profited so very handsomely from De Beers being the special interest of special interest group; worst is the fact that Jewish people who consider themselves throughout the world so much smarter than Gentiles such as yourself, couldn't even figure out on their own given how comfortable they have become not having to compete against the 6 million Jewish people murdered during the Holocaust who represented the best and brightest of us, that De Beers are as anti-Semitic as the Roman Catholic Church.

BTW Marie is back, caught the rather large moth, freed it, her parting words as it flew away, "O what a flight".

Ps II – How many people do you think you can get together and have me explain in person how I find the energy to keep it all up?

One of the reasons is this memory I have of Roman Catholics King Golden Jr. Esq. and Valerie Schulte Esq. who couldn't wait for me to drive them to a Roman Catholic church in Mexico immediately following our "brush with the law" of Mexico when being stopped by a Mexican Federale on a motorcycle who began his "investigation" by sniffing the ashtray containing burnt remnants of King's stash of pot that he simply cannot leave home without, to then see these so hypocritical "non-racial liberals" hastily walking up the stone path to this small old church, and when noticing that the two seats closest to the door hadn't been taken, immediately getting on their hands and knees praying to my Orthodox Jewish brother; you can surely understand had me smiling from ear to ear.

Are you not totally disgusted with all these puritans who become in an instant so raw and vulgar when scraping away their very thin veneer?

How much thought can you devote over the next 60 seconds to thinking about the United States' CIA spearheading along with the South African Apartheid Regime the most macabre biological weapons programme first used on Black South Africans?

And with just 10 seconds remaining think about how Mr. Aristide of Haiti ended up finding sanctuary from the CIA in South Africa where the two Black South African Presidents, Nelson Mandela and Thabo Mbeki went along with "keeping under lock and key" this beyond belief but most truthful murder of opponents of the United States of America's Apartheid Regime, most of whom were Black South Africans like Mandela and Mbeki.

The crooks are going down!

Again go back to Spielberg's movie MUNIch where you see CIA operatives interfering with a Mossad hit.

Again, Spielberg got a lot of things "spot on" but he "blew it" with suggesting the Mossad pay for weapons or intelligence, especially their own.

Subject: Party - Promote US-DeBeers Dollars

Paul hello,

By now you should have received copies of two emails I sent out a little earlier. Please let me know if that is not the case.

I would think, based on everything that Adam has shared with me about you including your “wow” when finding out that there still exists today that swastika shaped US Navy building on Coronado Island that first and foremost, you would not need any convincing that I am “credible” and know what I am talking about.

I don't scare easily and nor should anyone who follows in my footsteps and who like me, is first and foremost “smart” beginning by figuring out that if you fail to take proper care of your G-d-given body-mind then you are breaking a cardinal rule and therefore from that moment forth incapable of logically thought process let alone doing the right thing and of course why would our Superior Being give you much thought; the mind, the first indicator of the Super Natural, given how it is all chemistry that translates back in to the science into the math, the most precise of languages that is understood by all humans regardless of race, color or ethnic background.

I would think you have enough brain power and intestinal fortitude since Adam made a point of letting me know that you are in “fighting fit” physical condition as well, to spearhead a “capital campaign” to get corporate sponsorship for just3ants.com and not only feel very good about doing the right thing but to be compensated very handsomely.

Bear in mind I am one very good logically thinking person that was not lost on the smartest of the smart Israeli Military Intelligence officers as well as the most senior members of the Mossad when I was just 15 years of age on a 4 month Ulpan where I excelled in both the academics as well as the very physical [Gadna](#)-military training within a rifle shot of where David Ben Gurion the head of the Mossad was now living.

Bearing in mind that when I was just 9 years of age and asking [Jehudah](#) Matov, my mother's most trusted Israeli-Argentinean “guide”, one good question after the next as he and my mother made a point of driving us to the front lines of Israel and then back to the cities all in the space of few hours how

little distance there was to cover by an enemy guided by the world's two superpowers who kept trying to make out that both the Russian and Chinese "communists" were the biggest threat to "democracy" and "world peace".

You have by now seen that mind-boggling movie by a Chinese man showing how a Black US service person captured by the Chinese during the Korean War felt for the first time that he was "equal" when held prisoner by the Chinese and decided to remain behind in China when the war ended.

Then there was that white American service person also captured by the far superior Chinese soldiers who not only decided to remain in China but chose to be a factory worker when he had the choice of going to university given how in China there is no honor lost in being a hard worker.

When do you remember last an American history-sociology teacher telling you how much Chinese people really and truly care about one another, always thinking about those who have less than them and what each of them can do to help out those less fortunate and of course feel so good when sharing versus here in the US it is so very much "dog eat dog" all in pursuit of the Almighty Dollar that has been a myth from its very start and now very much dependant on the "good graces" of the Chinese people from becoming totally worthless in an instant were China to revalue their currency to just 50% of its "fair market value" and in the next instant the US military would find itself totally priced out of the world oil market.

Now think of the words, "Rule of Law" and how at the 11th hour of his presidency Bill Clinton granted oil trader Marc Rich a presidential pardon with everyone knowing at the time that Rich was a traitor, had traded with "our" enemies Iran and Iraq during the Arab oil boycott immediately following the Israeli 1973 Yom Kippur War when it looked in the initial couple of hours that Israel could be wiped off the face of the earth, forget the fact that Rich while a fugitive from US Justice and living the life of Riley in Zug, Switzerland had voluntarily relinquished his US citizenship and forget as well the millions of Black Americans still in prisons here in the US for crimes far less than Mr. Rich and Co. but don't forget that the head of the Mossad at the time of Rich's Presidential Pardon, Ehud Barak put a gun to the head of Mr. Clinton who like Rich wanted that Presidential Pardon like they wanted a Mossad bullet fired into their heads leaving a tennis ball sized hole between their ears.

When you can't beat them, join them.

"By way of deception, we wage war" - Mossad

Moreover, those closest to Ben Gurion in late 1972 later thought I was rather "brilliant" when deciding in my final year of high school to leave my Jewish day high school of Carmel College, Durban, South Africa, well after the school year had begun and not simply go to another school where they didn't play any sports which is all that I cared about, but to then change and go to another school, all the while dropping subjects that I was excelling at such as Latin, taking up totally new subjects, all the while keeping Hebrew and managing to not get an "exceptional" final grade, but enough to keep me out of the United States of America's 3rd Reich's Southern Division's military who were fighting "communists" wanting to help the majority of Black South Africans simply feel like human beings, all the while keeping everyone around me including members of IMI as well as the Mossad "guessing", given how I was by this time beginning to "outthink" the smartest of the smart people that were living at the time who numbered very few but who recognized that there was going to be the need, sooner rather than later, given Israel's increasing lack of "first strike capability", to think "outside of the box".

The fact that I could keep quiet, check my ego at the door, all the while have a great time with all my many buddies from all walks of life, didn't mean either IMI or the Mossad lost any respect for me by my decision to seek other ways besides for the "military option" in helping to bring about peace for all the world's independent thinkers regardless of their religion, race or sex; on the contrary my credibility grew in leaps and bounds especially as I chose time and again not to take the "easy path" and of course no one I know in the entire world could have had it as easy as me when giving the opportunity in 1980 to take over from my uncle David Gevisser as the American head and "control person" of the De Beers-Anglo American Cartel.

The fact that I haven't yet raised a single penny in corporate sponsorship for just3ants.com and yet at the same time I have the most extraordinarily large "footprint" on the Internet should be most encouraging to someone such as yourself assuming you are half the "independent thinking" person I think you are who should have no problem also understanding the uniqueness of just3ants.com.

Peace,

Gary

Ps – As each moment passes so does Wall-47th Street lose it's so very important ability to forecast, let alone broadcast "good news" and in each of those moments the hard working peoples of the world learn that much more about how the manipulation of the capital and financial markets are all about forcing the poor, particularly here in the United States to join the "economic draft" bearing in mind there is still plenty of resources throughout the world beginning with water and food, and once able to logically thought process and figure out why most of all the corrupt Roman Catholic church doesn't address while still trying to hold on to their dwindling US-De Beers-Dollars the problem of human overpopulation.

Yes, most Popes these days are pretty old and they too also want to live to a ripe old age and know better than to bite the hand that feeds them and why the Pope comes over here to not only party but to promote US-DeBeers-Dollars.

You also haven't heard a Pope talking out against De Beers, the same with folks from either the De Beers controlled US Treasury, Federal Reserve, the International Monetary Fund and the World Bank.

Adam hasn't kept me "in the loop" in terms of his communications with T4 up until now.

What you should think about bearing in there are 2 generations of both Black and White Americans that separate the two of you is that Tefo while yet to come up with a South African Corporate sponsor is at least putting time as well as his "skin

on the line", and of course he like all of you including those many blind copied hasn't stopped thinking about the "problem-solution" communiqué I sent him recently, and be sure to let me know if you need reminding where you can locate it apart from on the hard drive of your computer.

Tefo also remembers very well his one and only conversation with my Royal Mater-Mother where she managed to distract him with, "You know Gary has a problem!" as well as how my cousin Mark Gevisser managed to "blow him off" while leaving the most extraordinary "telling trail" between himself, his father, ACME Timber, one of the Moshal Gevisser Group of Companies, Thabo Mbeki's mother's trading store and the now extraordinary deafening silence amongst an extraordinary number of Jewish people around the world beginning with all the Jewish leadership in the so-called "Free World".

Don't you just love all the people invited to this one big party with the Pope, so that they can now "chit chat" amongst themselves, "Were you invited? What did you think? You know who was also there? Did she look just marvelous?"

Has the world forgotten how silent was the Pope as DeBeers-US Nazis pulled off the wholesale slaughter of some 6 million Jewish people during the Holocaust?

Yes, my spelling out the circumstances behind the wholesale-fire sale liquidation of my grandfather and Mark Gevisser's grandfather's multi-national trading conglomerate and how it still serves as a quite the beacon to light up each one of our hypocrisies, along with of course each diamond wholesale-retail money laundering operation located on main streets throughout the world setting the price on everything under the sun including how much each of you imbeciles are willing to trade your souls, is of course much worse than paralyzing given how you can feel each cell increasingly turning on one another in anticipation of your return journey to planet Mother Earth.

Marie and I agree that lack of knowledge-information-light-power, power to change the world stems from humans being lazy and fearful from embracing the truth.

The truth is too disrupting for some people too busy keeping track of all their lies from day one.

Your lack of knowledge-light is betrayed by your ongoing deafening silences and the fact that you are not alone doesn't help you when failing to find comfort in our most smart and extraordinarily vengeful Superior Being who of course does not respond to your prayers that I should have long by now had a relative take an ax to the back of my head.

Do you have any idea how much you disgust me?

Do you ever think about how much fun Marie and I have when making love?

Yes, can you even remember once having fun making love, bearing in mind that your minds right now are moosh and about to get even worse should you not "get it".

Are you getting it?

Keep it up!

I doubt very much any of you have as much energy this morning as me who despite partying with Marie until the wee hours of the morning having so much fun I won't bore you with the details, was up at the crack of dawn jogging on the beach in front of the cliff house followed by a swim; not to mention how at 4:22 AM we were awoken by the sun light reflecting off the full moon bouncing off the waters in front, lighting up the whole studio cliff full of the greatest oil art paintings I have ever laid my eyes on which had both of us going, "O my God" [sic] as the moon just hovered above the horizon eventually changing into the reddest of red color, and just before disappearing a cloud in front dissected it at its horizontal axis. Simply mind-blowing.

You do know that my Renaissance mother, Zena Ash Gevisser did from the youngest of age troop me through most of Europe's great art museums including St. Peters

And so by the time Marie began studying going on 11 years about with the greatest Spanish master painter Sebastian Capella now having the "fun of his life" painting just for the fun of it all the while giving back by still teaching, into his 6th decade, I wasn't exactly a nincompoop when it came to art appreciation, but nothing close to what I know today which is only about 10%, at best, of what Marie a math-wizard knows and she feels that she may not know much more than 15% of what

Sebastian knows but my wife is an extraordinarily quick learner and who knows if Sebastian, soon to turn 81 lives to 150, MDG may still catch up.

So what are you doing the rest of your life knowing that people like Sargent Amanda Lopez can't be counted on for much longer to withhold the truth from extraordinarily poorly paid US service people that they are the ones risking life and limb while murdering their own on foreign soil just so that a very small minority of you don't have to any "heavy lifting"?

What if that day is today?

Today, Marie and I are going to Coronado Island in search of two Scottish kilts.

Stay tuned for my follow up to President George W. Bush.

Ps – Nothing to stop you from helping get our first corporate sponsor bearing in mind not only the increasing number of unique visitors that visit just3ants.com but the "numbers" are very much against you beginning with those closest to you who won't necessarily tell you what they think of you given how they are only interested in what ill-gotten monies-wealth they can get out of you before you keel over and die and come back at best as worker ants which shouldn't prevent you from constantly trying to convince yourself isn't any worse than the way you feel right.

Bear constantly in mind the "fallout" from Torrey Pines History-Sociology teacher Lars Trupe's decision to place me on the "banned list" while looping in a whole bunch of his fellow teachers who you think may be a little pissed off with him for them all soon appearing on the "\$ hit list".

Not to mention that lists upon lists of other teachers and professors from around the world continue to be shared with us.

And of course you get only a moment's grace when thinking about The IT and his cow continuing to send me not only threatening emails but talking so much nonsense such as this one from The Cow using The It's email account:

Also Gary [this is Dawn since John does not read your e-mails], get back to your chores. Go have relations with your partner-client-wife or whatever with your puny member. Restraining order forthcoming.

You, Devin, of course remember since you were in court on October 24th, 2004 when Judge Hendrix not only placed a Restraining Order on Dawn's "John" aka The IT aka The Sperm Donor aka The slimeball of Slimeball but in adding salt to the wounds which he began opening right at the start of the criminal proceedings when

this very savvy judge made it clear that he was going to rule against the IT for having committed perjury, lied under oath under penalty of perjury when filing a baseless criminal complaint against me all aimed at murdering the good name of my wife Marie Dion Gevisser and my good name in the process, Judge Hendrix most likely went beyond his judicial authority in granting MDG legal physical possession of a fire arm that was in my name that he understood perfectly well I had given to her to protect herself against her X husband, this so very out-of-control flat line plotter prick of all time.

BTW what do you think of Adam's latest business card renderings:

I like the presentation but I don't think I-we like all the verbiage beginning with the word, "Brilliant"; at the same time I-we have yet to tell him which verbiage exactly we like. Again, what do you think?

Now let's finally come back to "war" and you all still thinking that you can rest peacefully in believing the US military is a "volunteer" military which is so very important when being able to put on the façade, wearing very thin of course throughout the world which is why so very few of US Americans are so proud when traveling abroad to shout out loud our nationality, that US Americans represent all that is "right" beginning with the spread of "freedom and democracy".

The video below of Israel's attack of the USS Liberty spy ship on June 8th, 1967 should when watching it have you constantly thinking about that swastika shaped US Navy building on Coronado Island, San Diego built between 1967 and 1970 and realizing that while you are not in the best physical or mental shape the same cannot be said this very moment about the world's best Special Forces Commanding Officers and their commandos beginning with those of Israel and the Peoples Republic of China who don't forget either as quickly as you that most ingenious Israeli Military Report of all time only to be found on just3ants.com, the most unique website on the internet.

Marie is now asking me to help her clean the Mini Cooper S both inside and out.

Again the fog is beginning to blow in off the awesome Pacific ocean.

Time to fly.

Tefo,

I want to create a simple form that will allow us to upload people to the "\$ Hit List".

I haven't worked with mySQL before, and wanted to see if you could put together a form or sample code that would make it as simple/stupid for me.

The form needs to have the following fields"

First Name – 30 char

Last Name – 30 char

Description – 200 char

Correspondence – This will be very large, as it will include Gary's emails

Biography – This will be a few paragraphs

Thank you

Adam.
