Curt,

Below is another bumper sticker rendition.

Now before taking a look [Click [HERE](#)] at what I sent yesterday to Geoffrey Rothwell, Professor of Economics, Stanford University before he and I spoke on the phone for quite some length covering a wide range of subjects, ending with his interest in designing a system to regulate investment and price of enriched uranium, uranium 235 not exactly found in everyone's back yard, at least not to the best of my knowledge here at Smuggler's Cove, Del Mar formerly better known as 11th Street until the San Diego Sheriff's Department took their time, some two and a half hours before picking up some 70 pounds of pot that had been left behind and when retrieving those 70 pounds not even bothering to look for another truckload

that the smugglers also took their time in retrieving, coming back much later in the day even after US Customs Officials had visited all the neighbors telling them including, I assume, the smugglers' other "confidantes" to "keep their eyes and ears open" for anything strange, do you find it bizarre that in 1979 Israel's Mossad Chief Eliezer Tsafir accompanied by Israeli military attaché Yitzhak Segev, standing in Azadi Square in Tehran, cheered the return of Ruhollah Khomeini to Iran, chanting "Allahu Akbar, Khomeini Rahbar"?

Ayatollah Ruhollah Khomeini

Bear in mind I have been helping Adam L. Tucker, my one American programmer, finish off a follow up email he plans to send to Professor Rothwell this evening; and forgive me if I take this opportunity to suggest to Adam that he include your email address in the carbon copy section and when I get my blind copy I will forward it to the appropriate parties, thank you.

Bear also in mind that when I sent my last email to Geoffrey at 7:03 PM Pacific Standard Time yesterday I hadn't got to see what he sent me below; and of course I would hope for Geoffrey's sake he follows through on his commitment to call me back tomorrow so that I can help him with his current project:

Adam tells me that you never received this email,
so I am resending it.

Geoffrey understands that I wasn't emailing Professor Joe Grundfest Esquire, a former Chairman of the Securities Exchange Commission, "out of the blue" since Geoffrey can read perfectly understandable English which spelled out very clearly in the email I sent Geoffrey how exactly I got to this former top dog of the heavily corrupt SEC.

Geoffrey Rothwell should not to be confused with Jeffrey R. Krinsk Esquire of Finkelstein & Krinsk who specialize not only in Shareholder Class Action Litigation but those such as De Beers and Co. violating our so very sacrosanct Anti-Trust/Anti-Competition/Anti-Price Fixing/Anti-Money Laundering laws, principally involved in the importation of chemicals into the United States by simply riding the coattails of the United States of America's Justice Department owned "lock, stock and barrel" by the De Beers-Anglo American Cartel, the mafia of mafia, price fixers of price fixers, counterfeiters of counterfeiters, money launderers of money launderers, terrorist of terrorist financing organizations whose other major "cushion" here in the United States are the Black Hatters you see me meeting with in the photo below taken in late 1989.

If at any time you feel "board" [sic] or the need to talk, just hit the delete button and call anyone, better yet people you don't know, just pull any number out of the phonebook, even consider dialing 411 to speak to strangers less likely to be on my email list but it is inevitable as you know they will know to come check you out on the "\$ hit list" [sic] on just3ants.com.

Just go to just3ants.com.

You do understand that I am in fact using imbeciles such as yourself to tell the story behind the story of these Hasidic-ultraorthodox Jewish-Black Hatters who don't come close to representing the "essence of Judaism" which you would have learned in your Jewish studies is,

"Do unto your neighbor as you would want done unto to yourself and the rest is commentary".

Are you in the least bit surprised that the DAAC who back all sides in every conflict as well as every rigged election using their untraceable currency from the Presidency of the United States to judges not only here in the United States running for elected positions, are now openly backing the current Republican candidate for President, Senator John McCain?

Did you know that Harry Oppenheimer's daughter is married to Henry R Slack?

<http://www.nndb.com/people/323/000127939/>

Did you know that Geoffrey Rothwell would understand why Senator McCain the dumb of dumb son of the Admiral who sent the USS Liberty in to "harms way" back on June 8th, 1967, is not talking badly about Senator Hilary-Bill "Rhodes-De Beers Scholar-lawyer" Clinton's financial backers or Fred DeLuca, the money bags person behind convicted felon Mr. Rezko, the major financial backer of Senator Barack Obama?

It is all about who has or hasn't "skin in the game", so very talkative about "nothings" when you are part of the crowd of the ruling elite until of course I make it my personal-business to expose all you murderous individuals counting on the world's poor to keep fighting it out amongst themselves.

Repeat after me, "I am a selfish future shellfish and God must surely hate me for just being money, me mad".

Do you think the Israelis and the Chinese who set the scholastic levels wherever they travel as well as at home can read English as well as you and Professor Geoffrey Rothwell and wouldn't dare be so pitiful as to use the excuse that they can't read everything because their Blackberry forces them to press that much more on the scroll button.

Would you know of a single Professor of Finance and economics that the Mossad would hire without first checking with me?

And since they haven't asked, I would assume, and I think you would agree, they wouldn't be so fricken dumb ass to hire a single Professor of Economics or Finance unless as part of a much bigger "set up" when of course you would say, "Why the need to bother Gary S. Gevisser?" given how very busy a person I am.

What do you think of this fishing boat anchored most of this afternoon just offshore from Smugglers' Cove?

Do you "[rili](#)" [sic] think there was a single fisherman on board?

What about this yacht below that was anchored in pretty much the same spot but a little closer to shore, the day after the huge drop off that has resulted in a influx of surfers from the US Customs, you think?

Most Americans cannot see beyond the edge of their noses because everything has always for the past century or so, turned out "roses".

You recall that we have that so very lovely Rose Garden in the White House, not to suggest that it was wrong or right to name it after Rose Kennedy who may have been a most delightful lady so long as you didn't ruffle her husband Joe's feathers, that now has you thinking how awful it had to have been for this De Beers stooge to sit in a wheelchair, not able to speak a word, and watch not one but two sons being assassinated because he simply failed to teach them properly about not to mess **with** those folks that have buttered all their bread going back to when Joe was a nothing to speak of "alcohol distributor" during Prohibition and knowing exactly when to "load up" just before Prohibition was lifted and in no time at all this "nothing to speak" most poor student was the inaugural head of the Securities Exchange Commission.

Now I would like for you to take a look at what Alexander Lewy wrote me as you think more about not only that one-of-a-kind Israeli Military Intelligence report and why both IMI and the Mossad have so far no problem with me being the only human being on the planet broadcasting such a paralyzing Military Report of all **time** spelling out the duplicity of De Beers controlled United States Government including of course the US Supreme Court but in addition think how long it is going to be before President George W. Bush calls for an immediate suspension in the trading of shares **in** public corporations thereby protecting the innocent and naïve from throwing "good money after bad".

Subject: Re: Me, me, me! I love me! Do you love me?

I meant to say: Who are you? I don't know how I got on your list but this is the first email I received from you.

The only email I received from you commented on a picture of someone who you don't know and you are portraying you know what the person was thinking. It's just a silly thing to bash someone about. If you're going to bash Hillary, bash her on her policy or voting record.

Just wanted to say my piece.

Next I want you to think most carefully why all hard working, honest people all over the world not just here in the United States now finding out how difficult it is going to be getting young American kids who don't have Trust-Hush-Funds like The IT's two kids to join the United States of America's are following along that much easier my writings and recognizing most of all that I do in fact have "huge integrity", not in the least bit afraid to take on "my own" while being willing to risk everything which isn't very much were I to lose just a fraction of my integrity just so that I could live a little longer and be harassed by fuckheads such as you, so very cowardly wearing your Gestapo badge!!

Repeat after me, "I am a fuckhead of epic proportions" no different to the fuckhead Rod Ward, the father in law of Jonathan Oppenheimer, next in line to head up De Beers and Co.

Side note to Rod Ward Esquire as well as the entire law firm of Skadden Arps who thought they were buying security when marrying into the virulently anti-Semitic South African Oppenheimer family, the "non-racial liberals" so in bed with their far less hypocritical American partner Charles W. Engelhard, an "open supporter" of the racist South African Apartheid Regime that has provided you fuckhead lawyer-liars with the most extraordinary high society living for some 3 generations:

"DON'T FUCK WITH THE JEWS!"

Only a complete and total moron like yourself and Rod Ward and all those who associate with you two disgusting imbeciles would be incapable of recognizing the so very contrived U.S. "economic draft" where the next military the US Air Force, Navy, Marines and Army will be going up against won't be a 3rd rate military that both the US and Great Britain with lots of help from Canada have so far encountered in Iraq and Afghanistan where despite the extraordinary firepower of this American led invasion, all about drugs, oil and shell-shocking the masses also away from the so unmentionable brutality on the battlefields, mostly by US forces, and I would know, the US has taken the most extraordinary beating, that is of course today only partially reflected in the high oil price, that of course could come down dramatically given the total lack of the price mechanism which has been non-

existent now in commerce for some 100+ years were both China and Israel to act extraordinarily stupidly, which I doubt very much.

But then again I am not the one "calling the shots" in either China or Israel and you would also know that if I were, I would without having to brush up on my Hebrew and my non-existent Chinese, bring about World Peace well within 24 hours, which of course is disasterous for all those around the world handsomely profiteering from war beginning with all those involved in real estate speculation which as you know without being a scholar of Plato is not a thing for any conscious human being to be involved with.

As dumb a fuck as you are, you can now perfectly understand why those with the biggest guns in order to justify their brutality in war felt it rather important to have laws such as the Geneva Convention that "soften" things a little but only for fuckhead, mindless imbeciles such as you.

Go ahead right now and practice more your use of the "f" word.

You think for one moment you idiots with your "civility" in obnoxious courtrooms throughout the world fooled for a single moment someone like David Ben Gurion and Co.?

Do you think every Jewish person who survived the Holocaust is as dumb a fuck as Roy and Jeffrey Essakow and each and every one of their succulents?

Have a nice day!

Ps – Standby for both Adam L. Tucker's follow up to Professor Geoffrey Rothwell as well as my Part XV to President George W. Bush

Ps I – "It is official, plain regular size bread is 4 bucks a piece. O well." – Marie Dion Gevisser who is just returning from Vons supermarket.

Forgive me again, if I now say adieu to enjoy a most excellent French wine courtesy of Philippe Aviva.

I know better because you a Deputy District Attorney with Gestapo powers!!

Side note to Devin: Inform this Lily White Wheaty Eating lawyer-liar buddy of yours from Colorado University, another higher level educational institution operating under the Bell Shaped Curve Educational system where it is the most average who rise to the top, most of all void of all logical thought processing, sensitivity and creativity apart from when on drugs 24/7, what it meant to me spending a great deal of my time, 21 years shy of one week, prior to immigrating to the United States on March 17th 1978, in the United States of America's South African Apartheid Regime responsible during the time this lawyer-liar was sharpening his teeth, for developing at the direction of the CIA the most macabre biological weapons programme first used on your Black South African brothers who starting out in life were first stripped of their dignity by the USA's Apartheid Regime followed by their clothing before then being tied to a tree and smeared with poisonous jelly.

How could I bring out the best in you?

My most beautiful, so brilliant, so very wildly stimulating wife French-Canadian who knows that I am still a little bit sweaty from a great run around the 90 minute loop walk of Noble Canyon wanted to know why I hadn't yet taken a shower and a guest here at our Stone Home deep inside the Cleveland National Forest answered for me, "He first had to respond to fuckhead!" then wondered aloud in her so cute French accent, "Why did you have to lie on the bed?"

I am actually half lying on the edge of the awesomely comfortable slay bed and I knew that we would be washing them tomorrow anyway.

Come to think of it maybe you could begin your repentance for delaying my shower by letting us know which of the following 3 bumper stickers would your bosses most prefer:

#1

#2

#3

Could you give me the space dimensions between your eyebrows and hairline and if it extends to the hair on the back of your neck don't you think our first bumper sticker would look cool with the "TEETH" expanding and contracting as your eyebrows go and up and down?

Please understand I am just filling in all the vacuum of space between your ears.

Ps - If you stop searching for the truth you will be added to the "\$ hit list" [sic].

I will be adding your name to the "\$ hit list" [sic] in due course; bearing in mind that you shared your email address with me because you thought you were going to get something for free, why else?

Ps I – You understand that you now have a fiduciary responsibility given how the FBI consider the Israeli Military Intelligence report a credible “terrorist plot” and so IMI as well as the Mossad, to inform all those you work with including those you are prosecuting, wouldn’t you agree?
