Subject: Gary S Gevisser Vs American Eagle

Dear David,

The email I sent your mother earlier was rather hastily written but mindful of the many other things I am doing with my time right now which I consider no more precious than anyone else's, but at the same time, I am loathe to waste anyone's time including yours.

Bottom line, attached is a series of emails between myself and the General Manager of American Eagle, a wholly owned subsidiary of American Airlines.

In summary, AE's General Manager Steve Terry incriminated himself as well as his baggage handlers when writing me on April 30th of last year,

It is very unfortunate that someone had left a pocket unzipped and their money and this gold fell out. The money was found immediately and returned to the only bag that was unzipped, but unfortunately the gold was not seen until the aircraft was closed and ready for departure. What was found was several little gold pieces and one small gold bar (with 14K printed on it). After the aircraft pulled out what gold we saw on the ground was picked up and placed in an envelope and immediately put into our safe.

What he failed to mention was that the only unzipped bag belonged to his baggage handlers and others such as him who had been co-opted-corrupted.

My follow up is self explanatory.

On May 1st, 2007, Mr. Terry decided to break our email communications and called me at 8:56 AM PT and during this 2 minute and 56 second phone call threatened me with a baseless government investigation into why I would be carrying some US\$35,000 in gold bullion, hoping that such a reprisal-threatening call would cause me, who doesn't exactly scare easily, to go "quiet".

Naturally, I reported everything including the deafening silences from American Airlines' President and Chief Operating Officer, Gerard Arpey as well as Peter Fowler, President of American Eagle, to both the FBI and San Diego Harbor Police Department who also went "deafeningly silent"; not to mention have you ever thought what if those 19 hijackers on 911 hadn't carried onboard those box cutters instead were say Israeli Special Forces trained and without drawing any blood detach someone's head from their spinal cord in less time than it would take to push out the blade of a box cutter, what it would have done to the budget of Homeland Security?

I have extensive records of those “back and forth” communications between myself, American Airlines officials and Federal and local law enforcement that tell quite a rather boring story, relatively speaking that is, but of course helping “paralyze” that much more those small numbers, again relatively speaking, benefitting from the “status quo”.

It is, however, my forthcoming book, The History of Money Creation and Its Future! that I am in fact sharing “for free” in “real time” over the Internet that is creating the most beyond belief “deafening silence” which affords me, someone whose face you have never seen on TV or heard mentioned on the radio let alone appear in print in some nonsense newspaper like the San Diego Union Tribune, the most extraordinary “footprint” on the Internet.

For example, if you were to type in Google Search the name “Ron Bellows AIG” another name you have never heard before, just like you had most likely never heard my name before last evening and even then I never shared with you my last name, you would most likely come across this hyperlink below:

<http://nextraterrestrial.com/pdf/Excellent%20question.htm>

that when clicked on takes you to a rather telling and timely email I sent Eliot Spitzer and Co. back on February 10th, 2005, just days if not hours before the share price of AIG began a precipitous 6 week collapse losing some US\$63 billion in market value.

Not to mention that the father of my very close colleague, Devin Standard, Kenneth Standard Esq., the immediate past President of the New York State Bar Association concluded quite correctly that when Spitzer and Co. first filed their criminal complaint against the megalopoly of AIG-Marsh & McLennan ACE limited in mid-October 2004, I had already played quite a hand.

To mention little of less than a month later, on November 11th, 2004, I broke my 24 year deafening silence with De Beers in a series of emails that mentioned very clearly I was “battering up” Mr. Spitzer to join me in taking De Beers and Co. down on one most educational light journey.

Suffice to say this all just gives you nothing more than the “tip of the iceberg” in terms of my “prescient timing” that those, intimately familiar with my “work product”, long before I began working intimately with the likes of Jeffrey Krinsk and Co. back in the spring of 1999, have been most accustomed to as well as appreciating both my ability to be most discreet and knowing the importance of “checking ones ego at the door”.

I showed your mother last evening this US\$100

Travelers check I now keep in my American passport that once belong to Randolph A. Hearst the immediate past Chairman of the Board of Hearst Corporation who passed away, I believe it was in 2001.

As you know even the most emotionless of us human beings in this “dog eat dog” world can at least recite, “We are what we eat and who we choose to keep company with”, all the while mostly impressed by those we believe to have the most “Money Power” who we only know about by what we read or hear in the so beyond belief controlled media.

There is only so much time in the day for me to focus on all the world’s “ills” while leaving me enough time to exercise as well as enjoy the awesome beauty of this world that few of us would argue would be a whole lot better were their less of us human beings so singularly focused on “making money”, all the while most often times treating our pets far better than the way we treat each other and for those miserable specimens who don’t take care of their pets, worse yet refuse to pick up their business #2, all I can say is watch out for them more so than someone who beats up say their dog; just like you would know that someone who wears their racism on their lapels is far easier to address than the “sly English” liberal who uses their command of the English language, again ripped out of the Latin, one of the spiritual languages such the most spiritual mathematics followed by Hebrew, Aramaic, Arabic, Greek, and French, by politicians hell bent on confusing the masses!

Today, it is not only Mr. Spitzer and Jeffrey who understand how very easy it would have been for me to take over as the head of the De Beers-Anglo American Cartel if I had but an ounce of larceny in my bones, period.

My primary focus is to take them down, chopping off limb by limb as well as to never forget as Jeffrey reminded me, the torso, all the while giving peace a better chance.

Despite all your knowledge of the law it is very doubtful you have given much thought to what it means were you to be entrusted by the 3 Branches of the United States government as well as the US Federal Reserve all under the command and control of the DAAC, the mafia of mafia, to produce your own unlimited supply of untraceable, lightweight and never inventoried currency and to price fix it at more than a barrel of oil for just 60 minutes.

During that 60 minutes you could of course own everything that your heart desired, period.

The DAAC have had this extraordinary right in blatant violation of our Anti-Trust/Anti-Monopolies/Anti-Price Fixing laws, for more than a century which says what exactly about those who cry the loudest, "The Rule of Law is supreme – We are a nations of laws-lawyers".

Remember I spent most of the first 21 years of my life in Apartheid South Africa and had little difficulty seeing the far reach of the 3 Branches of the US Government in each and every law on the books including the heinous Immorality Act that prevented not only "mixed marriages" between races but imprisonment for those from different races engaging in sex, all the while this most puritanical Apartheid Regime looked with each passing day just as puritanical as US Americans whose military provided the ground, air and sea support of this most abominable, most repressive regime in the history of the world, and in return US Business interests got to steal all of South Africa's harvested gold, platinum, diamonds and uranium.

The only reason I am alive, apart from the "Hand of God" protecting me every step of the way, is my extraordinary "footprint" on the internet that scares the living daylights out of the DAAC and all those counted on by this mafia of mafia to maintain the "status quo".

Just like you wouldn't consider yourself "naïve" nor am I.

When Jeffrey sent me this letter below he already knew a lot about me and understood perfectly well that I would broadcast it to place further pressure on Revlon and Co. to settle which of course they did.

Re: Comport v. Revlon, Inc., et al.
USDC SD New York - Civil Case No. 99CIV.10192

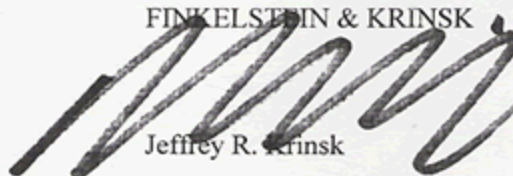

Dear Gary:

By separate cover I sent you a copy of the decision, which will be cited for many years.

We attempted but were unsuccessful in scanning a copy of a copy which is not unusual. Notwithstanding any resulting difficulty, please spare no effort in "stirring up the pot" to find individuals with evidence and have Revlon aware their misdeeds are under a microscope and will only increase in intensity!

Sincerely,

FINKELSTEIN & KRINSK

I am in fact much more than an "open book" in that I am totally transparent which explains perfectly why neither the FBI nor the San Diego Harbor Police Department as well as the most senior officials of American Airlines have chosen to be so extraordinarily "deafeningly silent".

Talking the most volume at this time, more so than any other network throughout the world is my one website www.just3ants.com that I wouldn't trade for all the money or for that matter gold in the entire world.

I am, however, looking for sponsors to "underwrite" as well as put "skin in the game" of what I know, versus believe to be the only realistic way to bring about an end to all the so very carefully orchestrated civil-ethnic cleansing wars including the pending one here in the United States that will make the rather bloody civil war of the Mid-19th Century look like a day in the water park.

You can help that effort by letting me know whether you have any interest in going after American Airlines who again are showing their "blackened hands" by their continuing "deafening silence" hoping that they will "outlive" me which is quite possible but not my writings that are being increasingly, not only understood by those very misinformed, but at a speed that increases their paralysis.

The one "silver lining" in all of this, apart from saving your soul, is that the masterpiece oil painting of your mom and dad will not only increase in value, no doubt be worth a whole lot more than the real estate as well as the improvement that houses your law practice, but it will help invigorate the masses who like the "money power" elite don't know the first thing about how to even begin to appreciate a master painter like Sebastian Capella.

Again, it does take a little bit of time for me to download my knowledge of how quickly US Americans in particular became a "money, me" culture forsaking family values that begin and end with never stopping searching for the truth, God is where you find God-Nature, leading now to a society that only knows to cling together to make more money which of course is rather funny to folks like De Beers who don't even need to have a single meeting to make their Diamond Currency let alone break a sweat worrying about having to make mortgage payments and the such.

The toughest part you are going to have deal with and you are not alone, Jeffrey Krinsk is in the exact same boat and so is pretty much all of Wall Street, is how really stupid you feel right now.

I am sorry that I cannot help you out other than to suggest very strongly that you convene a meeting of your most trusted friends including those who have very different political views to you and I would gladly put on a seminar that shouldn't last more than 2 hours explaining all of this and guaranteeing you that by the time I have answered fully each and every question, if you have a morsel of conscience, you will come away totally invigorated and wanting to help in every which way possible, given of course how very few options remain outside of bloody anarchy which is what De Beers and Co. are counting on.

Of course I would charge handsomely, some US\$2,000 apiece, bearing in mind the many billions of US Dollars I have "left on the table" so as to most of all, protect my extraordinary "credibility", again all in an effort to give peace a better chance.

All the best,

Gary S. Gevisser

Ps – Within 24 hours I will be following up with George W. Bush as well as his entire cabinet and of course copying the FBI, CIA, Israeli Military Intelligence as well as the Mossad which shouldn't have you waiting to organizing that seminar-workshop-meeting; not to mention how much tougher it is for people such as Jeffrey, Bill Lerach and Melvyn Weiss who you know deep down in your heart have always looked down on folks like yourself who they demeaningly refer to as "ambulance

chasers", such Shareholder Class Action Litigators [SCALs] only very recently finding out that De Beers get to see each and every Wall Street deal worth talking about long before folks like Goldman Sachs and Co. get to flog them to the so unsuspecting public who then become "train wrecks" in no time calling upon folks like yourself to help pick them up out of the ashes; and again I would know given my access to the highest levels of De Beers.
