**Subject:** WHAT IS THE PROBLEM? RETENTION OF KNOWLEDGE IS  
PROBLEMATIC-re: dic--RE: Re the items you requested.

I hadn't forgotten your previous communiqué where you reference your latest business venture <http://www.wetrainmds.com/>

**What is the Problem?** Retention of knowledge is problematic.

Ed, you recall me placing up on the internet two highly confidential internal memos of American International Group which talk to, going back to the mid-1980s AIG, the world's largest financial institution, deciding that despite the fact it could make initially a very healthy profit from insuring SG Searle, the manufacturer of the artificial sweetener Aspartame, the subsequent fallout from all those suffering from short term memory loss would in all likelihood bankrupt AIG.

It is my humble but seasoned opinion that my pal Maurice *Hank* Greenberg failed to follow the critical analysis which called for the majority of Americans who became hooked on this mind altering drug without even knowing not only its egregious side effects but all the various products the medical community allowed this mind altering drug to be placed in all the while the American public were not made aware of why Hank, one ruthless businessperson who could have easily become the Director of CIA did he not think the CIA's intelligence network was significantly inferior to that of AIG, chose based on his own internal studies dating back to the mid-1980s, prior to the Food and Drug Administration approving Aspartame in everything from toothpaste, to candy and very possibly to butt cream, not to insure SG Searle while leaving at least initially billions of dollars in profit on the table.

The overwhelming majority of Americans are in fact "brain dead" and consequently the world has yet to figure out that Hank Greenberg was not as smart a ruthless businessperson as he once thought.

BTW, do you think Israeli Military Intelligence are as interested as me to see when President Bush will make the much needed decision to immediately suspend the trading of shares in public corporations thereby protecting the innocent throwing "good money after bad" bearing in mind all the "smart money" folks have long left the stock and real estate markets?

You don't need to have read Hollywood blockbuster author Edward Jay Epstein's epic non-fiction novel to understand why DeBeers think US Americans are a bunch of imbeciles but it certainly wouldn't harm.

Can't you not wait for Adam Tucker's response to my last email in which I get into more detail about his very negligent, so very self-absorbed mother who chose as Adam's father an equally uncaring human?

Not to mention that what I am doing in getting in to the knitty gritty of Adam Tucker's "personal life" is exposing the fallacy of Jewish people being that much more tight knit than other ethnic-religious groups which of course there is nothing further from the truth.

To mention little of such facts of life were perfectly understood by people like David Ben Gurion and his very close-knit inner circle, matters I will of course cover in more detail than I have all in an effort to get US Americans to be "contrite" for allowing our corrupt United States Congress to be so bought by DeBeers, the world's most evil terrorist and civil war financing organization whose untraceable currency each member of the US Congress has known for the past century is first used to buy each and every US Congress person and why their extraordinary deafening silence on not only what I say

but what Epstein says as well as fails to say in The Diamond Invention first written in 1978, speaks volumes.

To mention in passing yet again, 1978 was the same year I arrived in the US armed with a "Letter of Introduction" signed by my uncle David Gevisser, the American head of the DeBeers Anglo American Cartel; such a letter of course didn't simply appear "out of thin air" but was very carefully orchestrated by both my Royal Mater-Mother as well as her father Alef-Albert-Al Badash-Ash well prior to my uncle Dave becoming the executor of the estate of Mossad assassinated American Charles Engelhard back on March 2<sup>nd</sup> 1971 immediately following the funeral of Engelhard at St. Mary's Abby Church in Morris Town, two words, New Jersey, when my father's "sellout" first cousin received word that the US\$6 million was "on its way" and he along with those attending the church funeral including Senator Ted Kennedy, former President Lyndon Johnson and Vice President Humphrey would all live out their natural lives so long as they never discussed in public their knowledge of The Diamond Invention beginning and ending with the fact that the "architects" of The Diamond Invention with very Jewish names were buried in churches.

What are you doing the rest of the day today apart from waiting to see my follow up to Marcia Kramer of CBS-TV, PJ Vogt and very possibly the President?

What goes around comes around with a vengeance!

Can I count on you to be online tomorrow morning around 10 PM Pacific Standard Time when I plan to continue my dialogue with Keren at the Office of the Israeli Defense Department Attache at the Israeli Embassy in Washington DC?

Would you be so kind as to inform everyone you know that although I am not a medical doctor, it is my humble but seasoned opinion, based purely on observation, that you are as close to being a pathological liar as it gets!

Please provide me the email addresses of each one of your medical school professors.

Hi Gary

The subject of William Lerach below did not come from me.  
It came from you perhaps? Maybe see if you can correct the text that leaves your system.

I did give you the formula of what is in it for you which is 1/3 of revenues that stem from your efforts. That's \$500 per year Gross times 33% for each member.  
We are in the process of packing lots of goodies into GLONGOO that will be very unique and advanced yet simple to understand. Please do a quick search at [www.glongoo.com](http://www.glongoo.com)

The items I send out are in the body of the email you are broadcasting for me.

Kindly resend the reference article re Scott. I seem to be missing it.

Also, I did send you massive email address files to your tech person for your newsletter distributions. Check again to see if you have them from an earlier transmission.

You should have them. Otherwise I will need to regenerate from archives.

I believe your memory is far better than mine. No question.

So please tell me what else I can supply you with.

What makes you think I have a poor memory?

What did you make of the email I just sent this Scott character?

Mr. Having Trouble Keeping Track Of Your Lies From Day One,

It was just the other week you emailed me that you were "down on your luk" [sic].

Subject: The situation is getting worse with email blocking. What do you recommend?

Dear Gary

I need your help fast.

I can't get my newsletters out to my database due to spam blocking filters.

I could be out of business soon because of it.

What should I do? Can you do all the broadcasting?

Sam  
GLONGOO LIMITED

My reply below and your subsequent "deafening silences" speaks volume:

Subject: RE: The situation is getting worse with email blocking. What do you recommend?

Dear Sam,

You should send me samplings of your newsletters that are getting blocked.

At the same time spare no effort in sending me your email addresses and let me see how they respond to one of my mailings. You don't have to send me the whole lot, just a sampling, better yet a statistically valid sampling of the world's literate population.

I am an "open book".

In other words, it is the fact that I don't lie, steal or cheat that therefore precludes me from wasting time as do others too busy keeping track of their lies from day one.

Consequently, I know that I am the one with the "message of truth" that today has me and those allied with me in the "pound seats".

Since you could be "soon out of business" what exactly do you have to lose.

If I end up getting blocked and they for whatever reason get pissed off with you what exactly do you have to lose?

Gary

Professor, did they not teach you in eye surgery class that 33% of zero is, while still possibly considered a number, not "ril" [sic] worth the paper it is written on?

Again, you have a lot to say despite not responding to my simple requests that you let me view what the authorities consider spam and at the same time give me a sampling of your email list allowing me to judge for myself whether they agree with the authorities who could be as corrupt as you, perhaps less.

The fact that you are retired eye surgeon and an electrical engineer to boot does not make you in my eyes necessarily a crook.

Again, your verbal diarrhea along with your deafening silence speak, however, volume.

Do you agree that the biggest single mass murderer in history, apart from DeBeers sponsored wars, was a British physician like yourself?

You cannot even keep track of your biggest lies beginning with the fact that you have already given me the name and telephone number of your South African colleague who I will be following up with shortly.

All being well, at about noon today I will be reestablishing contact with the Office for the Israeli Department of Defense Attache at the Israeli Embassy in Washington DC. At the same time I will be following up with Marcia Kramer of CBS-TV New York City who would do well to examine ahead of time the lessons learned from the US imposing sanctions on the South African Apartheid Regime which were then applied when the US and its DeBeers Allies imposed sanctions on Iraq immediately following the first Gulf War, the first step in creating the so very necessary civil war that has the masses so easily distracted.

Not to mention why the Mossad would twice have its "official" head rebuke so very famous Nazi Hunter Simon Wiesenthal.

Whenever I hear the word "God" coming out of the mouth of someone who I can prove beyond a shadow of a doubt is a dishonest, all I can do is smile knowing that our very good, very smart and extraordinary vengeful Lord will exact the most horrible retribution.

Didn't your mommy teach you of the dangers of "crying wolf"?

Knowledge is Light for those who are first "straight with themselves" which begins with a kid never being allowed to talk nonsense, the first step in a lifetime of politicking.

Godspeed!

Note to Adam Tucker: There should be a piece of paper on the countertop at the Stone Home that has notes from a conversation I had with Sam who provided me his real name. Included in those notes is a telephone number that begins 858 alongside a name that may ring a bell just like it did when Sam was so very desperate to get something out of me for nothing he thought there was "nothing to lose" by giving me a name of a fellow X South African given how well Sam knew I was in ferreting out scum; not to mention blind copied are other South Africans living in La Jolla who might know of this optometrist who will prepare him for my call in addition to so very nonsense talkative Sam.
