Subject: PLAY BALL - ISRAEL at 60 --

Garry,

How does one help those who "pride" themselves so very selectively on something like Israel having survived and based on "picture perfect" photos looks like it is prospering, big buildings, lots of lights, flowers still growing, Masada still standing, the Dead Sea still flowing, the De Beers Hasidic-ultra orthodox Jewish-Black Hatters still rocking back and forth before our most sacred sanctuary, the Wailing-Western Wall in Jerusalem, now having you feel not only like vomiting but so ashamed and on top of it to have named so many other Jewish people, mostly Jewish South Africans who have yet to the best of my knowledge commented publicly about either The Diamond Invention or the South African Apartheid Regime's biological weapons programme that was spearheaded by both the CIA and British Intelligence, used first on Black South Africans and then kept "under lock and key", first by Nelson Mandela and then his successor Thabo Mbeki?

Not to mention I haven't heard anything apart from "deafening silences" from each and every South African Jewish person whether living in the United States or elsewhere and who prides themselves on Israel's survival, when it comes to commenting on the ingenious Israeli Military Intelligence report or for that matter

all the rest of the unique information we are sharing at just3ants.com, and G-d/God forbid any of you were to put your hands in your pockets and make a contribution "until it hurt".

To mention little of you should know that my step-father Alan Zulman was one of the largest if not the largest fund raiser for Israel during the 1967 Six Day War and of course Alan Zulman is very quiet as well.

A feeling such as "pride" is an "emotional response" that comes from the brain hidden from view and yet we all know the brain is all "logic" given how the brain is all chemistry which translates back into the science, into the math the most precise of languages and hence why we conclude that the mind is the first indicator of the "Supernatural"; and consequently it is possible to examine very carefully each and every one of our "emotional responses" in figuring out whether each one of us 7 billion odd on this planet are truly in a "search for truth" or simply all about "feeling good".

And never should any of us forget the Chinese who "live to learn" versus most of us westerners who "live to eat" and "talk sh*t" [sic] especially when someone like me with a whole bunch of common sense comes around and can, thanks to email and chat sessions, help all the "good people" figure out in an instant who they want to choose as their company.

In due course I will be exploring a little further what exactly I mean when I say, "What goes around comes around with a vengeance" and just trust me when I say once understood it is not in the least bit pleasant a feeling for each and every person who chooses poorly to be the first to go "deafeningly silent".

You would also agree it is pretty difficult to be "attacking" China these days although I bet you also know a good number of people who are so gleeful about this current devastation but I doubt such people have the intellect to know they are so very foolish to even share such thoughts with themselves.

Not to mention I have of course been in touch with a whole bunch of Chinese people who not only speak a very good English, some far better than most westerners I know, and without exception they are most optimistic about their future even if it means all out war with the United States.

Yes, when broadcasting your email you never saw how that ingenious Israeli Military Intelligence report has most if not all those such as yourself living in the U.S. having to face up, not some **time** in the future, but right this instant, to the implications of those so very easy to understand "findings" of the United States Government's "double dealings" when it comes to the State of Israel.

Let me explain in a little more detail.

I was showing [Adam L. Tucker](#) the 5 MB file you sent me on Israel and there was this one photo where the camera pans and it looks to me a lot like the Huleh Valley

that I first got see with my mother Zena wearing a short sleeved dress back in July 1966 – see below.

BTW would you be so kind given the time constraints I have today to forward that rather large file to Keren over at the Office of the Israeli Department of Defense attaché at the Israeli Embassy in Washington DC.; there is a good possibility she will be able to confirm.

Not everyone whose email address you shared with me, and I assume to share with others taking pride in sharing the truth beginning with the United States Government never being a friend of the fledging state of Israel, while most likely all of them "supportive of Israel" whatever that means, was unaware until hearing it first from me that the U.S. Government has never been a "friend of the fledging Jewish State"?

More likely than not because I am suggesting very strongly that they don't follow their initial knee jerk reaction and tell me to "get lost" that when doing their own research in to the arms embargo placed on Israel both before, during and immediately after Israel's most brutal War of Independence that the US Government was not alone in thinking would last no more than a few hours before Ben Gurion and his forces would be pushed into the Mediterranean Sea, again most including Shaun Tomson's mother Marie Tomson whose first name is pronounced with a "long a" versus my French speaking wife, Marie Dion Gevisser whose first name is pronounced with a "short a", would never have believed in their worst nightmare that such an arms embargo also made it illegal for men of military age such as my father, who Marie Tomson thought she knew well as well my mother's half-brother Joe Ash, to even enter Israel, let alone join Fighter-Bomber-Pilots such as my dad's very close friend Commander Syd Cohen who took over as Commander of Israel's only Squadron, Squadron 101 when Modi Alon was killed when coming in

to land after a mission when his fighter plane burst into flames with Syd Cohen and others watching on helplessly.

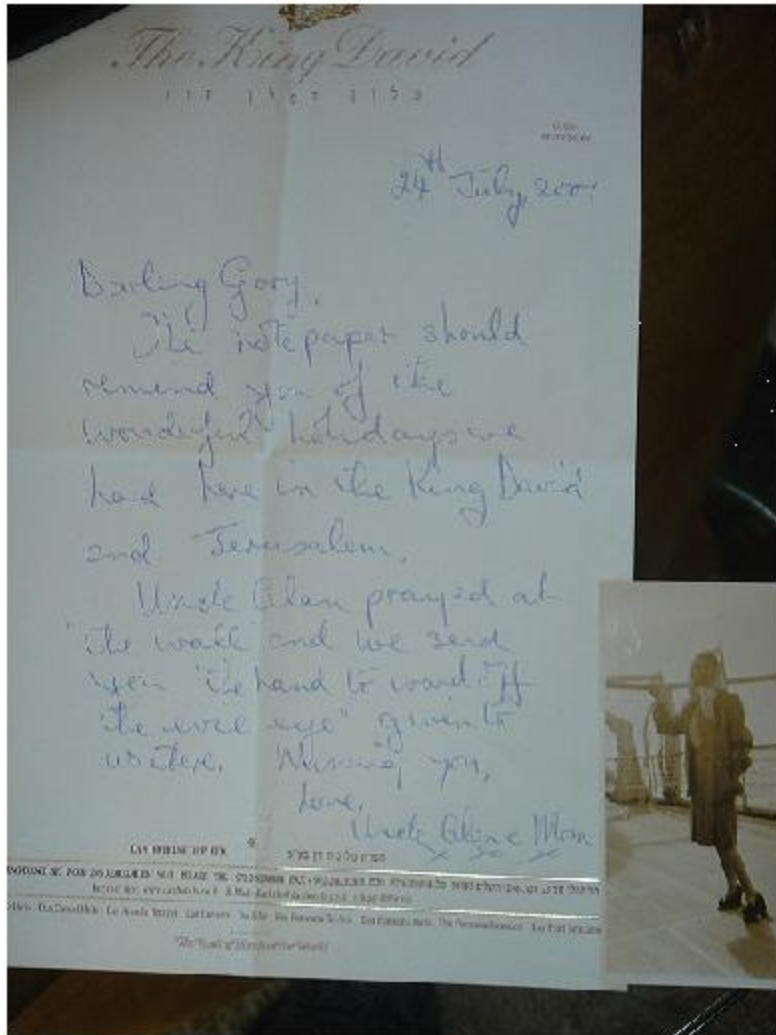

It is also most likely that you don't know of single Israeli kid let alone a South African such as myself who at age 9 would be handed over a fine piece of weaponry such as an Israeli made Uzi submachine gun so very close to Israel's northern border that wasn't taken out of some storage facility on a military base in downtown Tel-Aviv, instead to have a most trusted aid to Ben Gurion instruct a highly skilled and experienced Israeli Special Forces commando to do the unthinkable and hand me his weapon without of course the possibility of a court marshal; and I have no doubt I then handed the Uzi without the bullet clip over to my elder brother Melvin, but I certainly don't recall him pointing the gun at me, let alone following in his footsteps by putting up my hands.

Do you think displaying the "killer instinct" at a young age was as important to my highly secretive Royal Mater and her most trusted Israeli-Argentinean "guide" Yehudah Matov as it was taking us from one kibbutz to the next, although I never quite figured out why Kibbutz Ayelet Hashahar seemed to be her favorite, apart from of course the word "ash".

Not every Jewish person in the world is aware that it was not only the CIA but Simon Wiesenthal who interfered with the capture of Eichmann back in 1960.

While of course my mother who is also well known to Marie, Shaun, Paul and their sister Tracy who is my age, is the one who wrote on the Polaroid shot above the words, "playing fighting" you would need to read just once my mother Zena's craftily written memoirs entitled, *Life Story of Zena* that she began broadcasting via email on October 9th, 2001 within 3 odd months of sending me the handwritten letter below

on King David Hotel Jerusalem stationery along with a "Hand to ward off the evil eye" that she was given at the Wailing-Western Wall, to know that this was very serious business to my no-nonsense, extraordinarily shrewd business person/trader mother who was raised by her pogrom orphaned paternal grandmother, Nechie Badash, an extraordinarily close confidante of Ben Gurion given how for starters they both came from the same tiny village of Plonsk, White Russia-Poland; Nechie only leaving Tel-Aviv where she was one of the early residents and returning to England when my "born to perform" Royal Mater-Mother was born in 1929.

<http://www.just3ants.com/FamilyTrees/GevisserBadash/zena/impwom/default.shtml>

Not to mention my highly literate mother's choice of the word "trained" in the 4th to last paragraph.

Cutting and pasting – www.just3ants.com - [Zena](#)

She [Zena] was devastated when sisters had to attend different classes of her teachings because some could pass for "Whites" whilst others were

labeled "Colored". This was all during her early years as a mother and when her children were born (all four before she was 29) she made up her mind that they must be trained to live outside of the country and sadly the land of their birth.

It is not only Israeli Military Intelligence and the Mossad who have heard me methodically, painstakingly and patiently explain what utter nonsense does it mean "must be trained to live outside of the country" if you have a torso, a Yiddisha kop which Sebastian Capella would refer to as "Koka", 4 limbs, a tongue that works in conjunction with mouth movements etc etc but most of all unlimited sums of monies and other means of exchange in either Swiss bank accounts or Swiss safety deposit boxes.

Then again not every single human being in the world is all about "money, me".

My mother Zena was one of those extraordinarily few exceptions.

So was her mother of Hashalom, Rachel Ash and her most beloved husband my granddad of Hasholom Alef-Albert-Al Badash-Ash as was his mother Nechie Badash who sat huddled in a small hidden closet as a gang of marauding Cossacks galloped into her small village, entered their home and brutally murdered Nechie's entire immediate family by slashing their throats with knives.

In all likelihood you did your military service in South Africa as most likely did Shaun and his younger brother Paul and even if they had attended my mother's Charm School it is highly doubtful Zena Gevisser would have even remotely suggested that they be "trained to live outside" of South Africa, although my most attentive mother considered Shaun long before he became World Surfing Champion in 1977 extraordinarily "marketable" given not only his good looks, great physique, great smile, great personality - Note, a 24 X 36 inch masterpiece painting of Sebastian Capella, yet to be framed, just fell to the side landing, however, right side up after a gush of fresh ocean swept wind blew into our studio house where things are a little disarray given how the carpet cleaner failed to show up this morning.

Without me having you now thinking I am "going overboard" which immediately has you thinking correctly that I am going to push you that much closer to the edge in deciding whether you are on the side of light or dark, you knowing better, especially since you are an athlete, not to overreact but to take you time before responding to my very thoughtful question,

What do you think Israel has to gain by delaying further execution of that most ingenious Israeli Military Intelligence report only available for public viewing on just3ants.com?

Of course you know when examining the "back and forth" between myself and just Keren over at Israeli Military Intelligence's headquarters in Washington DC that it

has been publicly vetted by both IMI and the Mossad who are not exactly in to "fun and games" when it comes to the defense-offense of Israel?

Let's just assume for the moment that I never existed, the same with my mother and her father, the same with Nechie Badash. In other words let's just assume they were all figments of my imagination, the same of course with my amazing fighter-bomber-pilot father Bernie Gevisser who had sum 71 odd missions tucked under his belt dive-bombing the crap out of the Nazi bastards high above the skies in northern Italy; furthermore that this one photo of Bernie and [Dr. Syd Cohen MD](#) below

is all doctored.

Lets also just assume that the Mossad who began reporting to Ben Gurion in December 1949 were all a bunch of Jewish Kapos picked off the streets of downtown Tel-Aviv after selling off first their in-laws and to top it off they were so incompetent when choosing their wives not to examine carefully the body parts of their in-laws that they had to dig into their own pockets to be rid of them.

Consequently we just assume Ben Gurion and Co. had no way of knowing that De Beers played any role let alone a central role in the wholesale slaughter of some 6 million of the best of the best Jewish people even though the best friend the Jewish people ever had was in the form of Field Marshall Jan Smuts who went along in 1932 with a Kibbutz named after him, decided to keep to himself the knowledge he had as second-in-command to Winston Churchill that De Beers who were supplying industrial diamonds to Hitler while thwarting the Allies' efforts to stockpile their own

industrial diamonds, had infiltrated the highest levels of British Intelligence and therefore had access to all of the Allies battle plans including D-Day June 5th-6th, 1944.

And so we just assume that the smartest of the smart Jewish people who survived the Holocaust and further went on to pay no attention to stuff like President Franklin D. Roosevelt turning away the MS St. Louis and then going on 6 years later, on February 12th, 1945 meets on board the USS Quincy with King Ibn Saud of Saudi Arabia sending the clearest signal possible to Ben Gurion along with his Hagannah Jewish underground movement headquartered in Jerusalem to not be so foolish as to proceed forward with Statehood even though the United States and British Governments will later go through the formality of voting in favor, all the while arming Israel's mostly Arab enemies not only with weaponry but intelligence.

I will let you use your own wild imagination to think of all the distractions that plagued people like Ben Gurion and Co. bearing in mind that De Beers are simply a corporation and have no standing army. Moreover, the United States Government has for more than a century executed its Regime Change policy against each and every one of their regimes who didn't "play ball" but somehow when Ernest Oppenheimer says, "Fuck you America. Over our dead bodies will we supply you with the stockpile of diamonds you want and have us risk our so very carefully contrived currency monopoly" the US Government run away with their tails between their legs.

You do know that while I still pretty much speak with a Durban English South African accent I didn't get off a boat just yesterday in Haifa harbor where my paternal grandfather and founder of the Moshal Gevisser Group of Companies owned priceless beach harbor properties going back to the 1920s, all paid for in cash just like all the many properties of the public corporation Moshal Gevisser whose shares were actively traded on the Johannesburg stock exchange until 1969 when the De Beers-Anglo American Cartel "close shop" with their DAAC Agenda, "Take the money now or open up a taco stand".

Did you know that not long after American Charles Engelhard spearheaded the forced sale of MGs, my mother and father purchased a Burger Ranch franchise in Durban, not all that far from South African Clothing Industries that was founded by my step-father Alan Zulman and his "best friend" Abe Dubin and where Shaun's mother-in-law who was at one time one of my mother's models also used to work?

BTW what do you think of the "back and forth" between Adam L. Tucker and this Mr. David P. Minsk II - Click HERE although you should soon to be able to pick it up on www.just3ants.com and if you are having trouble just email Adam and/or David.

So let's get back to all of us Jewish people being like most if not all of the Jewish South Africans you know who only Jewish when it suits them and something, trust me, perfectly understood by not only Ben Gurion and Co. but by the greatest Gentile friend of the Jewish people devout Christian Afrikaner Field Marshall Jan Smuts.

So what if there was no "intelligence" shared between Jan Smuts who would have taken over from Churchill had Churchill the drunk become fully incapacitated or died during World Oil War II and Ben Gurion using their most trusted "runners" between London, England and Tel-Aviv, Israel?

Israel, in order to survive, had to play for time knowing that time favored inevitably its enemies growing exponentially in numbers and who were being supplied not only with the United States' best weaponry but in the US also supplying Israel could provide Israel's warring neighbors how best to both defend against Israel's US made weapon systems as well attack Israel's "weak underbelly".

What do you think tells me that you have never once thought about this so very important fact of life over the past 6 decades as with each passing moment you were not alone amongst your Jewish South African friends in thinking the absolute utter nonsense of all those monies raised from mostly fat cats filthy rich South Africans?

What tells me also you were shocked out of your mind to hear that my Royal Mater's very close friend Boris Senior, Deputy Chief of Staff of the brutal Israel Air Force and formerly a secret member of the more militant Irgun Jewish Underground movement left behind in South Africa some 50 Spitfires in perfect working order condition that he had purchased for at 6 English pounds Sterling in a rigged auction in South Africa?

But as soon as you heard the word, "rigged" your mind ever so slightly began to wander, having you now think that pretty much everything is rigged.

Then again, you know, because you have evidence of my existence along with my fine track record that shows I am not only honest but willing to risk everything in order to spread my knowledge.

So what do you think people like Ben Gurion thought they had to lose by trusting every Jewish person they met apart from [losing](#) the State of Israel.

Have you noticed how many people today armed with all the knowledge of the duplicity of so many people benefitting from Israel being at war for the past 6 decades have contributed to www.just3ants.com that provides the most reliable and unique information; quite the source of truth, wouldn't you agree?

I just heard from a very close and good neighbor friend that coming this June 1st, around 10 AM a genuine steam engine train will be traveling by very slowly our most awesome love and art filled studio cliff house and of course the first thing out of my most beautiful, worker bee, most brilliant artist oil painter French-Canadian wife's mouth, not to forget her most beautiful smile was, "I must have the camera ready to take photos" as she now bends over placing three of her great works in frames for a showing at the Del Mar Fair – Click [HERE](#).

So we go from December 1949 when the Mossad first began officially reporting to Ben Gurion who you recall was the first Prime Minister of Israel all the way through to 1978 when I arrived in the United States, the same time that the De Beers-Anglo American Cartel began to give well-known investigative journalist and Hollywood blockbuster author Edward Jay Epstein access to many of their deep hidden secrets.

The Mossad now, no matter how very dumb, also had to know at least as much as Epstein was able to pick up about the US Justice Department's knowledge of the extraordinary "gun-money-power" of the DAAC, available to the general public since the mid-1970s under the Freedom of Information Act.

Now remember as much as it looks like in Steven Spielberg's epic 2005 movie MUNIch like the Mossad were picking up bums who couldn't shoot straight off the streets of Tel-Aviv, in real life they had already executed rather brilliantly assassinating most of the masterminds of the 1972 Munich Olympic massacres when 11 defenseless Israeli athletes began to be brutally murdered, some 3 odd days after I arrived at Sde Boker in the Negev, Desert and some 57 odd days before I met for the first time with Ben Gurion who was now living at Kibbutz Sde Boker, on November 1st, 1972, some 13 odd months to the day before he passed away.

Now let's jump forward to 1982 and Epstein first publishes his most fascinating non-fiction novel and the Mossad are "faced with the truth" of having to deal with reading about how the OSS, the forerunner to the CIA did nothing about De Beers refusing to "play ball"; remember this was a fricken company that has no army, supplying the enemy while refusing to follow an order by the President of the United States who also carries the title, Commander In Chief of all US Armed Forces.

Again, remember that we here in the United States of America go in and change Regimes like my awesomely sexy wife changes her one-of-a-kind sexy underwear, and nothing I can tell you pleases me when coming out of the shower and having to delicately remove them hanging on a dry towel, and yet the US doesn't even balk at a nonsense company?

So you think Ben Gurion himself was never distracted by the opposite sex?

How long do you think it took for word to reach him when my Royal Mother dressed just like this below

would arrive in Israel beginning "from the earliest days of 1949, she [Zena] visited Israel two and three times a year, writing reports for different publications"?

You think her father, Al Ash with some one million English Pounds Sterling in his "back pocket" was just staying at home at their tiny one bedroom apartment in a relatively high non-descript apartment complex overlooking snake park, on Durban's northern beaches was just "staying put" counting his money?

Now you see below my granddad Al in the center, my mother at his right side and my father on Al's far left and his adopted son Joe Ash on Al's far [right](#).

Do you appreciate that Edward Jay Epstein is no inconsequential investigative reporter?

So now let's jump forward to right this minute, 8:48 AM Pacific Standard Time.

Does the Mossad need weapon systems from the United States that also go to Israel's enemies along with the information on how to defend against such weapons?

Let's just say that I had some influence with the Mossad as well as Israeli Military Intelligence and I could get you a job cleaning the toilets on the floor where Keren works.

Let's just say you wanted to not necessarily get a desk job but you would like to earn a little more money on the side even if it is just once by ingratiating yourself with Keren after she has returned from powdering her nose and is impressed with how spotlessly clean you keep the toilets 24/7 even coming in on your weekends off just in case a fly has got through the screening process, miscalculates its landing on the seat of one of the toilets and ends up drowning, your concern that the fly has leprosy that could spread to humans even though there has been no

record of anyone so far at the Office for the Israeli Department of Defense even dying of a dead fly bite on the tochas.

Don't you think you would have no trouble whatsoever simply suggesting to Keren that Israel might want to get at least a bigger discount on their weapon purchases from the U.S. and very possibly if you have shaved, brushed your teeth, you now looking respectable, you might gain enough of her attention to simply cut right to the chase and say, "WHY IN GOD'S NAME DOES ISRAEL HAVE TO PAY A SINGLE PENNY FOR ANYTHING INCLUDING OIL"?

You want to know how I have the energy for all this when I could if not able to convince my so sexily dressed F-C wife to just make love to just grab my light wetsuit and be out in the surf on my paddle ski in less than 3 minutes without even breaking a sweat?

Today, with the internet and in particular email there are less excuses for each of us since today, right this instant we can widdle it down to who exactly is responsible for all the carnage throughout the world and hold these nothing to speak of bastards fully accountable.

Had the State of Israel stood up too boldly in the previous decades to the US Government they would have been annihilated, caught up in the "cold war" and quite possible hit from both sides.

And remember the US Government is the only power in the world that has dropped not one but two nuclear bombs on civilian populations.

Remember as well the DAAC back all sides to conflicts to ensure their place with whomever is victorious.

Bear also in mind the numbers kept getting stacked up against this fledging Jewish state given how the numbers of its neighbors constantly being worked into a frenzy would just by their sheer numbers one day swarm.

How incompetent would an Israeli cabinet member be this very hour to actually purchase weapons and/or intelligence while so well armed to the teeth as well as having the moral authority.

My wife who has no idea what I am writing but again "on top of things" is telling me, "I now want a glass of wine... It is kinda hard to reach the refrigerator".

Most people are not part of the "status quo" and most of them are not very proud of what America is doing in the rest of the world and unaware of what is really going on while aware somewhat of that book that has 1984 in the title where the person in charge of security is the most responsible for all the lack of security.

If you have no other comment at least tell me which you fear more peace or the "\$ hit list" [sic]?

PS – do you think that the interest in western art that shows the Indian so powerful, like it was a fair fight, is a little warped, even though it makes us Lily White Wheaty Eaters feel “sumwhat” [sic] “secure”; and now that we are weak it is “nice” to “retreat” in to this “feel good nostalgia”?

Wouldn't it be cool if we depicted the truth, how we used our guns to starve them into submission, showed them with bows and arrows and us holding the guns.

What choice did they have in this lopsided fight?

And why not do modern times Indians with the booze and how we now corral them, putting them in the poorest lands where they couldn't hunt and sustain themselves with the land, and became dependant on government handouts, so the next generation only knew from that, and each subsequent generation had their culture destroyed; and unfortunately it is not like China where a little revolution will pass; in China 50 years of a 5,000 year old art culture is nothing; the Indians' only culture was through songs and stories; they never wrote, their art was very practical art type, no writing to speak of; they were nomads and they didn't had big congregations of Indians together, they were small tribes; i.e. it was not a strong culture; in China they would be considered a minority; the Indian never had to really compete until the white man came along, but of course they were fighting amongst each other, just like in Africa and overwhelmed.

US Whities thinking that they were savages since they didn't write and if you didn't write and have a house and have tea every day and believed that the sun was more important than some God on a stick, then you were worthless; US ending with, “Lets us show you the way”, have sex, dilute the race when not killing them immediately; and to top it off now we have Jewish South African Sol “Gambling Czar” Kersner having cut his teeth in the “Homelands” of South Africa now perfectly his craft in Indian Gaming.

How proud can any of us really be?

Remember, my French-Canadian wife is 1/32nd Huron Indian and I just happened to catch her making some insightful comments that of course she can't be bothered to help edit.

So help in any way you can.
