Ms. Steidle Wallace,

Thank you.

Please put me in touch with your board of directors as well as Globalgrassroots' in-house and outside legal counsel.

Gold last trading at US\$**926.10** and President Bush has yet to call for an immediate suspension in the trading of shares in public corporations thereby protecting the innocent and naïve investors from throwing good money after bad.

Not to mention the impact on the diamond trade as US military in particular, figure out that their brutality in the rest of the world supports De Beers wholesale-retail diamond money laundering stores located on main streets throughout the United States being able to afford their rents while those small business establishments are forced to move to lower rent districts increasingly looking like "armed camps" as the poor even here in the US fight it out amongst themselves for the scraps as these families of those US military personnel forced to join the United States of America's "economic draft" don't benefit from the Diamond Invention that affords De Beers, the counterfeiter of counterfeiters to engineer-manufacture-distribute their own unlimited supply of untraceable, lightweight and never inventoried Diamond Currency always price fixed at more than a barrel of oil.

Moreover, Wall-47<sup>th</sup> Street has yet to respond to the ingenious Israeli Military Intelligence report which while only being broadcast on [www.just3ants.com](http://www.just3ants.com) has been "vetted" by both the IMI and the Mossad who didn't need me for example to spell out the significance of Senator Ted Kennedy, former President Lyndon Johnson and Vice President Humphrey forced on March 2<sup>nd</sup> 1971 at St. Mary's Abby Church, Morris Town, two words, New Jersey, to pay their respects to Mossad assassinated Charles Engelhard, not only an "open supporter" of the United States of America's most brutally repressive South African Apartheid Regime who did much more under the direction of the CIA than simply employ South Africa's "Dr. Death" but at least equal in importance, American Charles Engelhard, who named well prior to his assassination my uncle David Gevisser as executor of his worldwide estate that included control of the world supply of platinum, some 80% mined in South Africa, as well as the "control person position" of the De Beers-Anglo American Cartel, banker of bankers, special interest of special interest group, was a close friend of both the Kennedy and Johnson families.

Gold last trading on the spot market at US\$926.30 and so far the South African ANC government has yet to revoke the mineral drilling rights of the DAAC who as a result of the brute military might of the CIA-US Government have owned the world's drilling industry for more than a century.

Not to mention how the Chinese government who also don't need to read Adam L. Tucker's analysis of Israel's Military Report of all time, views the "deafening silence" of both the [International Monetary Fund](http://www.imf.org) and the World Bank to the DAAC's extraordinary retail money laundering presence on the most valuable U.S. soil beginning with their store on the corner of Brighton Way

and Rodeo Drive,

Beverly Hills, California.

Not to mention both the IMF and the World Bank from their very beginnings, going back to the July 1944 Bretton Woods Conference, all about intimidating the 730

delegates from [44](#) countries to accept for their enslaved slave wage earners increasingly fictitious-worthless De Beers-US Dollars, all the while stealing the precious minerals of the indigenous peoples beginning with platinum, gold, oil, diamonds and uranium, have been under the “command and control” of the DAAC, the central bank of central banks.

Whoever has the gold makes the rules.

China is today the world’s largest producer as well as importer of gold.

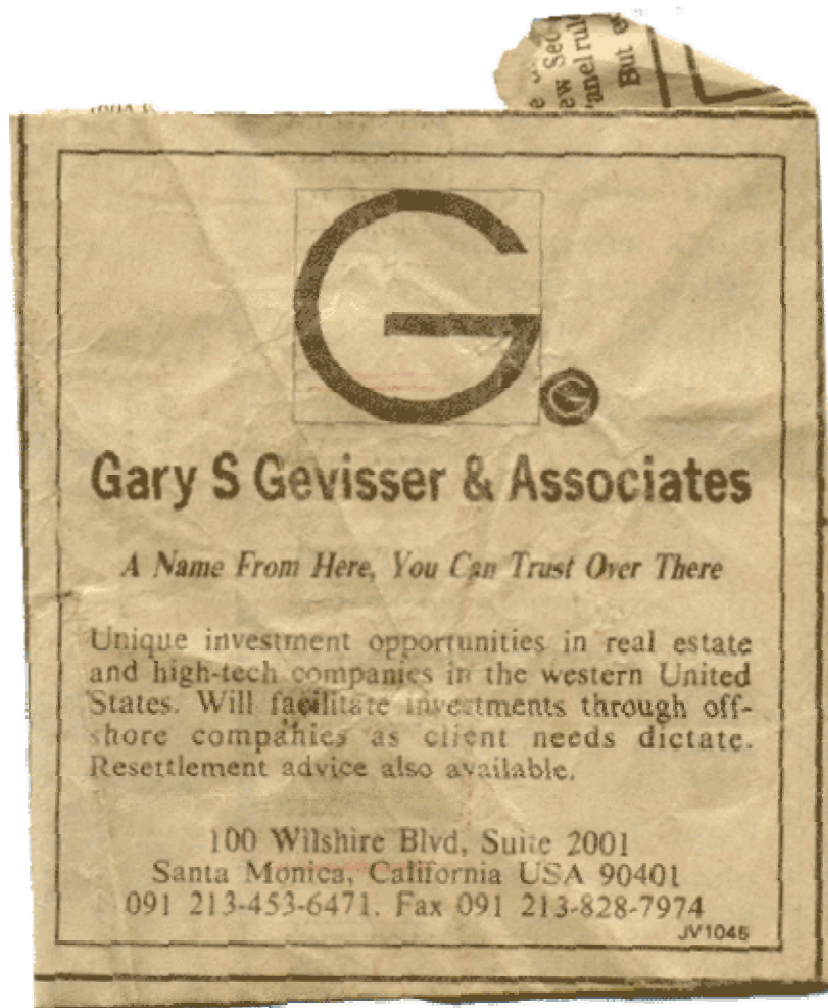

China is today fueling the world economy.

China is today the world’s military superpower and why of course the Mossad saw fit to first share the ingenious Israeli Military Intelligence report with their counterparts in the Peoples Republic of Communist China who again didn’t need journalist Carolyn Dempster to write an article on [April 12<sup>th</sup>, 2002](#) spelling out the joint US-British-South African Apartheid Regime’s most macabre biological weapons programme that included CIA managed assassins administering poisons [24/7](#) which the Clinton Administration made certain the incoming first Black President of South Africa, DAAC controlled Nelson Mandela, kept “under lock and key” as did his successor DAAC President Thabo Mbeki whose autobiographer, my cousin Mark Gevisser, son of my father’s first cousin David Gevisser, for good reason failed to mention, time and again.
