Did we ever meet at Codiam Inc.?

What makes you qualified to call me an idiot?

The only people I know who hand out their email addresses or have an email address to begin with are either selling or wanting to get something for free or both.

What is it with you?

Are you incompetent or culpable or both, take your pick!

How apart from me bothering someone like Mr. Krinsk Esquire would I find out if your corporation has committed material securities fraud and whether such fraud was initiated by DeBeers?

If for any reason you are uncomfortable with my questions please refer me to your legal department; and may I suggest you let them know upfront what was your agenda in contacting me, apart from increasing the circle of those dependant upon my insight and analysis of the important events of the day.

Until such time as you are more "coherAnt" [sic] I will be including your email address in all my heavily broadcasted communiqués.

In the meantime I would like for you without feeling the need to rant and rave to share with me if you have any other opinion apart from Ron Bellows of AIG being "*conflicted*" when analyzing this most senior risk management specialist's recent dialogue with my worker ant colleague Adam Tucker:

Adam - it is with great regret that I must inform you that because Gary has refused to allow me to communicate with him in confidence - nor provide even a modicum of professional decorum in his communications with me - even when I have tried to convey the sensitivity to which corp. email exists today - and further his total lack of respect for my wishes to maintain a friendly banter of ideas without spite or retribution - and instead insists upon posting everything and adding his own jaded slant - I have had to relinquish all communications with him - Therefore, although I appreciate your request for my insight on his recent communications - I cannot respond because I have stopped reading his emails and can no longer be associated with him -

All the best to you and to Gary

**In summary**, the purpose of this relatively long and heavily broadcasted communiqué is to explain the genius thinking that went in to the not so Top Secret Israeli...

ITISWELL, I now suggest you focus on nothing else but your own pocketbook when now reading very carefully what Ron Bellows began broadcasting on May 3<sup>rd</sup>, 2004 some 5 odd months before Eliot Spitzer Esq., Attorney General of New York State, responsible for giving the average Joe Blow Trucker nothing more than a false sense of security that there are people such as him holding the crooks "in check", decided to file what at "first blush" looks like the most "refreshing" criminal complaint against Mr. Bellows' criminal enterprise.

Subject: WE [**megalopoly**] insure... **Hal**iburton

my point the other day - that these people have been taken and treated as war combatants when there is no war - is totally against the constitution - which apparently doesn't exist anymore

BUT get this .. ..

I have now been given the project of trying to figure out our exposure for our overseas defense contractors we insure -

thing is - the policy excludes 'acts of war' ( as most do ) - BUT - includes Terrorism ??

so.. .If a contractor dies from an act of war - we pay the widow and the gov't is supposed to reimburse us from their war chest

so now - the feds are saying - "there is no war" - and we don't get reimbursed - for all the dead, captured and "lost" contractors ( and our loss numbers are showing lots more than the news is reporting )

so all the actuaries and underwriters are freakin out - watching their policy breach limits and bleed cash

so I got the order Sunday - go and figure out what KBR, Centcom and **Haliberton** employee exposure are and what they are doing to control their contract employees exposure ??

AND - this is a no win - If I pull the plug ( write a report that says its a poor risk ) my name goes to the head of KBR etc - If I say its all good - we loose money and **megalopoly** stomps on my tushy

aaagghhh

later boys

I need a drink . . . .

Bear in mind that the "defense contractors" Mr. Bellows is referring to above are folks like highly profitable and non-accountable BlackWater USA Inc.

When you type the 3 words, "RON BELLOWS AIG" in to the Google Search engine you will come across one of my very personal emails from February 6<sup>th</sup>, 2006 that references an article published in the spring of 1999, soon after I met Mr. Krinsk, by Bill Lerach of Milberg Weiss-Lerach, a 2,000 pound gorilla law firm that like Mr. Krinsk and his law partner, former United States Attorney Howard Finkelstein Esq, specializes in SCALs

[Shareholder Class Action Lawsuits], titled, *An Alarming Decline in the Quality of Financial Reporting*.

Not to mention that you might find it interesting that President Ronald W. Reagan was born on February 6<sup>th</sup>, just 40 years ahead of my pal Roger W. Robinson aka “our man Roger”, the most significant DAAC “mole” who Between January 1984 and April 1985 served as Executive Secretary of the Senior Interdepartmental Group-International Economic Policy, a Cabinet-level body that reported through the National Security Council (NSC) to the “Being There” actor President RWR.

To mention little of “our man Roger” who as a result of his “bosom buddy” Mr. King Golden Jr. Esq, my one American Attorney of some 15 odd years, I have known intimately since this DAAC master spy of master spies first joined the National Security Council in March 1982 as Senior Director of International Economic Affairs, responsible for all economic, financial, trade, and energy relationships of the United States worldwide for NSC, then went on to head up between October 2002 and December 31<sup>st</sup>, 2005, first as Chairman and then Vice Chairman, the highly sensitive U.S.-China Economic and Security Review Commission.

To mention in passing those U.S. military officials who have now banned Adam Tucker from posting up such informative postings on U.S. military websites should fully understand that Mr. Roger W. Robinson is President and CEO of Conflict Securities Advisory Group, Inc. ([www.conflictsecurities.com](http://www.conflictsecurities.com)), a Washington, D.C.-based company that offers impartial research and advisory services in the field of global security risk management (i.e., the links of publicly-traded companies to terrorist-sponsoring states and proliferation-related concerns). He is also President of RWR Inc., a consulting firm established in 1985 that provides strategic planning services and analyses of breaking geopolitical developments that could potentially impact on international equity, debt, and currency markets.

Prior to joining the NSC “our man Roger” was a Vice President in the International Department of the DAAC’s Chase Manhattan Bank in New York City. As a banker, he had responsibilities for Chase's loan portfolio in the USSR, Eastern and Central Europe, and Yugoslavia for five years. He also served for some two and a half years as a staff assistant to former Chase Chairman David Rockefeller, founder of the Trilateral Commission and whose immediate family features prominently in the Diamond Invention, and earlier “our man Roger” was on assignment with the Chase branch in Tokyo.

Not to mention Edward Jay Epstein’s most fascinating non-fiction novel detailing the devious nature of the De Beers Anglo American Cartel the mafia of mafia, counterfeiter of counterfeiters, special interest of special interest groups, begins with the words, “In Japan...”

Moreover, there is no Introduction to this book detailing the conspiracy of conspiracies which is just one of the many “disconnects” that has the casual reader feeling so very overwhelmed, so very helpless and given the readers poor breeding-education is quite incapable without of course my help to see how very vulnerable are the DAAC to the Internet that has Knowledge-Information-Light traveling at light-G-d-speed making it all but impossible for crooks to know one moment from the next when their “fast and loose play” will catch up with them beginning with never quite knowing who is reading all about

them in “real time”, increasingly unsure of those within their ever tightening inner circle who also understand it is just a matter of time before the world blows up or we find out the dirt on each one of us and until such time as the world does in fact blow up each moment that passes gets increasingly tougher for those who usurp their limited authority without us even having to bring God in to the “equation”.

I doubt very much you along with all your friends are capable of debating me on the subject, “God does NOT exist” given how good an argument I can make employing the highest levels of science and mathematics to prove beyond a shadow of a doubt that God does in fact exist.

Then again God knows best how to use imbeciles such as yourself when taking over the perfect vacuum of space between your ears to have you utter nonsense which I in turn use to help increase the circle of those dependant upon my insight and analysis of the important events of the day.

Again, I thank both you and God.

BTW can you explain why it is that we can no longer find “our man Roger’s” bio on the Internet, the same with Memorial Website of Anglo South African Harry Oppenheimer, the co-inventor-conspirator of the Diamond Invention bearing in mind that I of course have back up Mr. RWR’s latest bio I came across which ends with:

Roger W. Robinson holds a B.A. from Duke University and an M.A. in international affairs from the George Washington University. He served for some seven years as a member of the Board of Visitors at the Sanford Institute of Public Policy at Duke University and presently serves on other Boards. Vice Chairman Robinson is also co-founder of the Prague Security Studies Institute in the Czech Republic.

You would agree that when U.S. Treasury Secretary Paulsen and Federal Reserve Chairman, Bernanke meet with Chinese officials later today they might think it wise to apologize to the Peoples Republic of Communist China who set the scholastic levels wherever they go for not explaining the so very pertinent history of “our man Roger”.

You would also agree that the Chinese would have no difficulty in understanding the rather simple but ingenious not so Top Secret Israeli Military Intelligence report that is making it so very difficult for you to concentrate on anything else.

I assume you like Ron Bellows not only get a paycheck but have some sort of Trust Fund set up whether it be a “Hush Money-Trust Fund” like those set up by no longer practicing, thank God, Dr. John BIG BEN Stewart MD, the Slimeball of Slimeball that has his two children while rather pissed off with him; not yet willing, however, as they grab the money to confront him on a number of things including why he would allow his White Trash girlfriend Dawn to use his email account when sending me trash talk and physically threatening communiqués despite this slimeball of slimeballs losing big time in a criminal court proceeding back on October 24<sup>th</sup> 2002 when Superior Court Judge Hendrix in courtroom 25 of Superior Court located in downtown heavily city council corrupt San Diego, at the very start of the proceedings make it patently clear that he. a no-nonsense judge, having seen time and again poorly conditioned deranged humans

such Dr. Stewart using their “godly” medical practice certificate to usurp his limited authority, was going to rule in my favor, and for this slimeball of slimeball who has no compunction about using both his children as both a spear and a shield when he gets caught with his pants down, should have found another venue such as Family Court to “air” whatever grievances he might have, not with me, but quite obviously his X wife who when married to him after some 9 years woke up one day and asked herself, a most brilliant and very beautiful woman with a body to die for, whether she wanted to grow old with this so very boring, so non-athletic and seriously demented flat line plotter who had great difficulty keeping track of his lies from day one beginning with thinking that he was so much brighter than Marie Dion Gevisser that he, a redneck of rednecks, could unilaterally decide to reduce her nothing to speak of child support checks and when confronted, simply lie through his teeth with again any nonsense that came to his mind beginning with:

“I tried to tell you I was going to reduce the child support checks but you are always too busy to listen to my babble which of course is all part of my ugly bitch mother’s training that along with watching the fraudulent business practices of my medical colleagues, following sleeping my way through medical school where all that is required is somewhat decent memory which evaporates over time into the thin air given the open air, deep vacuum of space between my ears getting more perfect each time I practice keeping track of my lies from day one, I make it my business to keep you so very busy reconditioning both our kids after they are in my custody when I can bash their heads without leaving any physically apparent brain damage apart from all the fake smiles followed by dumb “bank” [sic] looks fitting in perfectly with the “deafening silences” which I assumed would be enough of a distraction that I wouldn’t keep needing to remind you that with the Feds investigating other hospitals for fraudulent billing practices it is getting increasingly difficult for me having lost more than my fair share of malpractice lawsuits to keep approving the over billing of insurance carriers when performing the customary but unnecessary tests over at the pathology department of Sharp Memorial Hospital where I receive a paycheck of some US\$300,000 annually, only getting, however, some 3 months vacation a year, and still I cannot come close to stay in shape, not even learn the first thing about good table manners let alone how to use a knife and fork; and what’s so wrong especially if I can get away with unilaterally reducing the child support checks if my discombobulated son who doesn’t know his left from his right thinks its perfectly fine to use his knuckles when pushing the food on to his fork; surely better than Bedouins who eat with both hands after dipping in first with the poo hand?”

Don’t you think asking whether you want to grow old with the person who cannot first of all respect their mother but yet hangs on to her because she still has “sumwhat” [sic] of an estate which of course would reduce the “Money Power” were it to end up in the children’s hands, is a good question everyone should ask of their partner long before deciding to have children, who of course cannot be expected to be all that much of an improvement if allowed to be so poorly conditioned by someone such as the slimeball of slimeball who of course paid no attention at the very start of the so important criminal proceedings on October 24<sup>th</sup>, 2002 to Judge Hendrix entreaties to “back down”?

Moreover, this slimeball of slimeball proceeded poste haste to dig an even bigger hole for himself when, towards the end of the proceedings that were so obviously continuing to go in my and wife’s favor each and every time this retard would stick his foot in his

mouth, decided to let the whole world know that he had hacked into my proprietary database containing highly sensitive work product relating to the epic shareholder class action lawsuit against Revlon Corporation, when revealing during the court proceeding my wife's very carefully crafted will that was contained in the same database and which had been witnessed on January 3<sup>rd</sup>, 2002 by Mr. Jim McFarland Esq. a lawyer neighbor who the slimeball of slimeball tried just prior to the court proceeding, to sign an affidavit that would have not only left the impression that Mr. McFarland as well as his wife Nancy, a former practicing lawyer and now an elementary school teacher, considered me a "physical danger" to their children, but at least equal in importance, such an affidavit would have brought in to question the "*state of mind*" of the IT's X wife at the time she, Marie Dion Gevisser, had Mr. McFarland witness this very important will, bearing in mind, not only the 7<sup>th</sup> provision which would have resulted in any beneficiary questioning the will forfeiting to me their designated inheritance, but the fact that beginning on this day the share price of Vivendi began a continuous 280 days precipitous epic decline, Vivendi [Symbol V] and its sister corporation VE, both New York Stock Exchange listed corporations losing some US\$63 billion in market value; i.e. while momworkers, widows, widowers, pensioners and orphans "lost their shirts" others "on top of things" made nothing short of the most extraordinary "killing".

Can you name how many other "idiots" you know who were capable at age 20 to produce such a will as the one belonging to my wife which you can read below which of course has been updated since both MDG and I have survived, very possibly the result of this rather smart will, keeping her X husband very much "in check".

You would know that Vivendi is the French multinational water conglomerate with whom I was most familiar beginning with their desperate moves to “*grease the wheels*” just 6 days prior on December 28<sup>th</sup>, 2001 when the most senior executives of Vivendi’s 63% owned sister corporation, Vivendi Environmental [VE], “*showed their blackened hands-true colors*” when meeting privately with corrupt California Governor Gray Davis to discuss California’s looming water problems which had been spelled out very clearly in “*black and white*” by my very close colleague Dr. Rod Smith Ph.D of waterstragist.com in his “White Paper”.

Not to mention that some ten minutes following both the Chief Executive Officer **and** General Counsel of Vivendi Environmental meeting with Gray Davis, Davis then met with Dr. Smith who explained in detail the need for Davis to address in earnest California’s, specifically southern California’s very significant looming water problems; and of course Dr. Smith never heard again from either Governor Davis or Davis’ opponent in the California Gubernatorial elections that were held later in early November 2002 given how the Republican candidate, Mr. Simon, the son **of** former DAAC U.S. Treasury Secretary Simon was a client of the Wetherly Capital Group who had arranged both meetings with Democratic Governor Davis.

Below is a copy of a WCG document detailing the extraordinary close ties between Mr. Simon and not only the WCG tasked with raising some **\$100 million** for Mr. Simon’s SPECIAL SITUATIONS FUND but the “contact person” at WCG for Mr. Simon, Mr. Julio Ramirez just happens to be one of the closest and most trusted personal aids of Gray Davis.

Not to mention when Dr. Smith and I "*put our heads together*" shortly after these two most extraordinary meetings and figured out that Dr. Smith was being "set up" as both meetings were arranged by another very close confidante of Governor Davis, Mr. Joe Campos attending both meetings, I then contacted Ms. Vicky Schiff of the Wetherly Capital Group who were not only "renting space" to Mr. Campos but the WCG had in fact retained me and were paying me to spearhead their California Agricultural Partners fund, a water investment fund which Vivendi were extraordinarily keen to provide the "seed capital" in the form of contributing their highly prized 42,000 acres in the all important voting district of the Imperial Irrigation district.

To mention little of Ms. Schiff with whom I had a joint safety deposit box, box number 280, over at the Union Bank branch on the corner of 15<sup>th</sup> Street and Highway 101 in downtown Del Mar, California, right across the street from the DAAC's wholesale-retail diamond money laundering operation with the filthy dirty entrance carpet, was very familiar with my style of doing business and didn't waste any time in letting her partner Dan Weinstein know that I wasn't going to go along with their corruption which while putting the top executives of Vivendi "on notice", hence the start of the precipitous momentous share price collapse didn't prevent Ms. Schiff, Mr. Weinstein and Mr. Campos from journeying to the headquarters of Vivendi Environmental in the California desert on or around January 11<sup>th</sup>, 2002 where they met once again with VE's CEO and General Counsel.

To mention in passing that on the way to the meeting both Dr. Smith and I independently, using our cells phones – I happened to be at Dog Beach in Del Mar - attempted to knock sense in to all 3 of their heads, that continuing to go down this very corrupt path would have very significant ramifications given how neither Dr. Smith nor I could be counted on to be a part of such nonsense.

On January 15<sup>th</sup>, 2002, some 4 days following that rather important meeting which immediately thereafter resulted in Andy Seidel, VE's CEO getting on a plane to attend a board meeting of his parent corporation Vivendi in Paris, France, Ms. Schiff whose father's "claim to fame" was that he built Caesar's Palace in Las Vegas, Nevada and her mother owned a well known but off the strip casino, let me know that that the Wetherly Capital Group were terminating my rather lucrative consulting agreement that included an override in addition to a monthly retainer that trust me more than covered my dog Pypeetoe's very high quality steak diet including Rainwater's US\$88 48 ounce Porterhouse.

Now examine carefully the letter sent to me on April 3<sup>rd</sup> 2002 from Mr. William H. Jackson, a Stanford Law School graduate representing WCG where amongst many things he fails to mention this rather important meeting on February 8<sup>th</sup> that immediately following, after running into one of Dick Ziman's lieutenants when exiting the conference room in quite a hurry I then faxed all the documents to Mr. JRK for "safekeeping" while scribbling down personal information about Dr. Smith including his telephone numbers.

Re: Wetherly Capital Group

Dear Mr. Gevissel,

Our firm represents Wetherly Capital Group, LLC ("Wetherly"). I am writing to you at the request of Dan Weinstein because Wetherly is in receipt of two (2) billing invoices from the Gevissel Group for services unspecified services. Our billing invoices refer to a retainer fee in the amount of \$100,000.00. The other refers to a retainer fee in the amount of \$100,000.00.

As you know, Wetherly has not entered into any agreement or other arrangement with the Gevissel Group or you. Although Wetherly and the Gevissel Group are entering into a consulting agreement and the Gevissel Group will be reaching agreement upon or after the date of this letter, the Gevissel Group object to the fact that Wetherly is providing consulting services to the Gevissel Group. Based upon the fact that Wetherly is providing consulting services to the Gevissel Group, and out of an abundance of caution, we have provided a notice of termination to the Gevissel Group of what for all purposes will be referred to as the "unconsulted consulting agreement."

As of the date of this letter, Wetherly has paid the Gevissel Group the sum of \$100,000.00 under the unconsulted consulting agreement. Wetherly has not yet received any payments from the Gevissel Group. Because the Gevissel Group has not paid Wetherly under the unconsulted consulting agreement, Wetherly has the right to require the Gevissel Group refund any prior payments.

Now pay careful attention to this scanned in copy of a handout provided to me by Ms. Schiff and Mr. Weinstein at a meeting of the CAP on February 8<sup>th</sup>, 2002 some 3 weeks after Ms. Schiff first informed me that they were terminating my consulting agreement but at the same time were willing to “reconsider” so long as I was willing to “play ball”.

THURSDAY

The meeting began at 2 PM in the WCG new world headquarters at the World Savings building in west Los Angeles, located on the corner of Wilshire Blvd and San Vicente, just a quick sprint from the United States passport and FBI offices on Wilshire Blvd.

Allow me to give you more of a “setting”.

This relatively small conference room with a round table that could easily seat 5 persons no matter their height, weight, body fat, sex, age or religion was right next to the office of Dick Ziman, Chairman of the board of WCG as well Chairman and Chief Executive Officer of ARI Realty one of the largest if not largest Real Estate Investment Trusts traded on the New York Stock Exchange.

Neither Mr. Ziman nor his two lieutenants were at this very important meeting that left little doubt in the minds of those present that I was in fact the person very much in control of figuring who in the room was and was not corrupt while mostly focused on being able to distract them with my very abrupt decision to leave the meeting after hurling a couple of knuckleballs at the dimwit Dan Weinstein whose focus apart from making money no matter how was to have sex with Ms. Schiff who was exclusively interested in making money while knowing exactly how to “dress for success” in a lame male dominated world.

Ms. Schiff wearing a brand spanking new pair of high heeled shoes was on my left and her poor specimen of a horse looking partner co-managing director of WCG, Mr. Dan Weinstein was on my right and to his right was Joe Campos and to Joe’s right Dr. Rod Smith.

Dr. Smith also brought with him copies of a chronology of events that included his meeting with Governor Gray Davis on December 28<sup>th</sup>, 2001 which again took place some 10 minutes following the “greasing of the wheels” meeting involving Democrat Governor Davis, Seidel and VE’s General Counsel.

The meeting was scheduled for 1:30 PM but Mr. Weinstein was running late and had suggested we begin without him which of course I pulled out all stops to prevent as I “saw fit” to procrastinate, no different to Mr. Weinstein who wanted to have this meeting like he wanted a hole in the head, but I could also be more entertaining especially since with all my Charm School training I could waste time getting in to the knitty gritty of how well or poorly Ms. Schiff had accessorized the rest of her outfit to focus on those very high and pointed shoes that thanks to me Ms. Schiff could afford without “blinking an eyelid” [sic].

When very nervous Mr. Weinstein eventually arrived at 2 PM I began by going around the room asking whether everyone present was wearing clean underwear.

Just kidding, wanting to make sure you as well as Professor Joe Grundfest of Stanford University is also paying as much attention as the Mossad and the U.S. military who earlier today banned Adam Tucker from posting up on one of their message boards.

Again, keep checking in with just3ants.com to see what of importance is happening in the world in “real time”.

Not to mention at 9:29 AM Adam Tucker, continuing his dialogue with Mr. JRK:

WORLDNETDAILY EXCLUSIVE

U.S. dollar facing imminent collapse?  
Fed in bind as Paulsen, Bernanke head to China

[http://www.worldnetdaily.com/news/article.asp?ARTICLE\\_ID=53311](http://www.worldnetdaily.com/news/article.asp?ARTICLE_ID=53311)

Everyone has their interpretation of how it will happen; you know that our window

of opportunity is getting smaller with every moment that passes.

Despite Mr. Weinstein's eyes taking no time to go from flickering madly to now fully bulging out Ms. Schiff's not quite bruising kicks to the outside of my lower left leg were not enough to distract me from putting most of all Mr. Campos and Mr. Weinstein increasingly on the spot which took all of 30 minutes to have both of them doing nothing short of collapsing in to a heap of tears bearing in mind given my expertise in the "hooker" rugby position allowed me to move my right leg over my left and eventually trap both of Ms. Schiff's legs leaving my arms and hands free to not only hold on to the plastic bottle of water but stuff all the documents in to my inside jacket pockets.

BTW the water was courtesy of ARI's shareholders who I would wager have the most wonderful class action complaint against Mr. Ziman and his two top lieutenants who I doubt disclosed to ARI shareholders that they were conducting other unrelated business to that of ARI although when one considers that WCG received some US\$2 million in seed capital from Ron Burkle who was the first crook to hire Bill "Rhodes-DeBeers Scholar" Clinton immediately after he and Hilary left the White House with everything but the kitchen sink so you might very logically conclude that the shareholders of ARI may not be able to prove any damages.

Not to mention that ARI was sold last year to General Electric who feature prominently in the Diamond Invention.

So you are now thinking how this all helps you knowing who is and who isn't benefiting from the DAAC's House of Cards dependant upon the DAAC's House of Saud funding with their Petro dollars as well as gold and other valuable mineral resources terrorism all over the world, and so long as it does not get all that close to the oil fields of Saudi Arabia you would most likely not see any "foul"?

No different to Joe Grundfest who prior to becoming a professor at Stanford Law School where he gave my pal Michael Straus of the IMF a rather poor grade, was a member of the DAAC's criminal enterprise U.S. Federal Reserve.

Consequently, you wouldn't be surprised by the extraordinary arrogance shown by Professor Grundfest following my sending him the following email some 15 odd days after the meeting of California Agricultural Partners which as the document prepared by Ms. Schiff indicates included me and again some 3 weeks after Mr. William H. Jackson contends I had been terminated:

Mr. Grundfest,

I have "smoking gun" proof that a group of business people in conjunction with the highest-ranking members of the Democratic Party have hi-jacked the political system.

May I share it with you?

Gary

Instead of just keeping his big foul mouth shut tight, this intellectual midget while thinking himself so smart given how he has managed to successfully move up the DAAC's chain of command by failing time and again to do the right thing, responded with:

Could I stop you?

So you understand that not only did I not get off a boat just yesterday I have been so very fortunate to **have** crossed the paths of the very best and worst of humanity and no doubt helped greatly by the fact that I was born and raised in South Africa one week shy of 21 years

The photo above taken in 1958, the year my Royal Mater-Mother's one model Penny "expert pistol shot" Coelen won the Miss World competition that was held in the United States. I am the one year old baby in my mother's arms and my 3 elder siblings seated behind with Penny freezing her buns off standing alongside the rather large rowing boat

on Durban, South Africa's south beach which is where my RM "discovered" Penny who when a few years younger was in the crowd watching a fashion show my mother was putting at the Little Top, a tented structure located on the sand.

Now stop looking at your computer clock, remove your watch if you are still so foolish to wearing such an item that mostly serves to help waste time and you remember that is one of the purposes of cell phones and watch along with the rest of the world beginning to watch very closely for what will come out of these nonsense meetings between our very corrupt non-elected government DAAC government officials and China's much more "in touch" and caring government officials who hold all the "aces", capable without breathing a word, simply ordering a sell-order on all their worthless-fictitious U.S. Treasury Bills which they have always known were nonsense and can be easily "sacrificed" without the slightest disruption to the Chinese economy.

Moreover, China's economy will blossom like never before in the history of the world given how not only does China have a so polite and appreciative population who know all about the merit system that has at its core the principle of hard work and hard play but this most productive population in the world spread throughout the world including here in the U.S. would have no trouble understanding the most brilliant chess moves the Chinese government have been making ever since Henry Kissinger went "cap in hand" on that secret mission to China in August 1971, the month the U.S. Officially went off the Gold Standard, Henry and Co. these small minded intellectual midgets thinking they could "enslave" forever the peoples of China in to accepting our increasingly worthless-fictitious U.S.-DeBeers Dollar simply because so very poor conditioned-educated 3 generations of Americans had bought "hook, line and sinker" in to the Diamond Inventions,

*"A Diamond Is Forever-A Girl's Best Friend".*

Not to mention how very bloodied was Mr. "Killinger's" [sic] hands well aware that China in the midst of its most bloody 10 year Cultural Revolution would not be able to tolerate a "Free Tibet" whose monks, trained in the U.S. by the CIA to prevent any accommodation with China who needed to keep open its gateway east through the highlands of Tibet given how the U.S. and the British had a history of not being very "trade friendly" to these hard working peoples who time and again "show up" the lazy westerners so very dependant on their "big gun" money culture while talking out of both sides of their mouths.

Yes, it is important to keep in perspective that the very bloody Cultural Revolution while a "blip" in this thousands of year old art filled culture began in 1966, the year DAAC operative Attorney General of the United States Robert F. Kennedy pulled off one extraordinary stunt when visiting with us in Apartheid South Africa while his benefactor American Charles Engelhard was so very much alive and openly supporting the South African Apartheid Regime enslaving, torturing and murdering some 40 million so very colorful peoples of South Africa.

And to top it off there remains in our sacred Arlington Cemetery a Christian White Cross in honor of this bastard and within a few feet of this diabolical display of hypocrisy is a wall suggesting that Black South Africans should consider themselves lucky to have folks so corrupt and bought for fighting for their freedom.

Enough to make you vomit!

Wait till you see what I have yet to send to my immediate family as well as my uncle David Gevisser the “male heir” of Charles Engelhard who upon Engelhard's death in late February 1971, buried on March 2<sup>nd</sup> 1971 at St. Mary's Abby Church in Morris Town, two words, New Jersey, received a whopping US\$6 million to do what exactly apart from buying the silence of which of my immediate family members?

Bear also in mind that Englehard's crime partner Anglo South African Harry Oppenheimer, also buried in an elaborate church proceeding, was the most vocal opponent of the South African Apartheid Regime.

Don't the antics of these two most “Money Power” people the world has ever known look so very similar to what goes on in the DAAC controlled United States Congress?

Still you have to think about all the evidence of corruption I have gathered over the years about the 3 Branches of the U.S. Government that are being aired in “real time” at just3ants.com.

Still you have to think about the easy to understand Israeli Military Intelligence Report that questions who else but the U.S. and our oil tyrants allowed Al Quaida to launch the 911 attack on U.S. soil that only resulted in more of our out-of-control industrial-military-complex being sent to the Middle East to prevent our oil tyrants from forgetting our Regime Change policy without Al Quaida even bothering to sink a sitting duck oil supertanker, YET?

Still you have to think about all the world's military not just U.S. military personnel who with each tick of the clock will understand better why U.S. military officials are blocking us from informing our “grunts” that they are fighting a battle only to prop up the wealth stolen by Wall Street who of course did not need to read Edward Jay Epstein's The Diamond Invention to figure out that the DAAC, the mafia of mafia have been for a century now the world's premier and most inefficient allocator of the world's precious and limited resources.

Still you have to think why would it be so important to the DAAC to be so very ruthless and uncaring given how were it not for the Diamond Invention not a single one of them including their stooge politicians would have a pot to pee in.

Still you have to think that I, Adam Tucker and my very brilliant and quiet French-Canadian wife Marie Dion Gevisser are not alone.

Still you have to think about Israel going it alone in securing for China its much needed oil that they can right this very instant outbid each and every western country.

Less is more or less!
